Please be advised that the District's Policy Manual developed with Erie 1 BOCES Policy Services is not to be interpreted as the rendering of legal advice. Application of Board policies to specific situations may necessitate consultation with the School Administrators/School Attorney to address the particular circumstances.

**FOREWORD**

Contained herein are the policy statements formulated by the Board of Education of the Germantown Central School District.

Policy is defined as a basic plan of action. It establishes limits within which freedom of judgment can be exercised.

Policy is a governing principle of management. It is a statement that has an effect on the interests of those who come under its jurisdiction. A policy may originate from the constitution, from statute, from local determinations and/or from customary patterns of formal behavior.

Policy should accomplish the following:
a) State a position taken by the District;

b) Grant the authority to act;

c) Be sufficiently detailed to give adequate direction;

d) Be achievable within the real environment of the school and community;

e) Provide for impartial procedures.

In addition to the adopted policies, the operation of the School District is governed by and subject to all applicable Laws, Regulations of the Commissioner of Education, Civil Service requirements, Board of Education Resolutions, School Administrative Regulations and Contracts of Agreement.

If any part of this manual is made invalid by judicial decision or legislative or administrative enactment, all other parts shall remain in full effect unless and until they are amended or repealed by the Board of Education. The official record of the adoption, amendment, or repeal of the by-laws and policies of the Germantown Central School District shall be the minutes of the meetings of the Board of Education.
PHILOSOPHY STATEMENT

In preparing individuals to develop their fullest potential for living in the society of today and tomorrow, the Board of Education and the staff of the School District:

I. Recognize their responsibility to help meet the physical, intellectual and emotional needs of children; particularly the needs to inquire, learn, think, and create; to establish aesthetic, moral and ethical values; and to relate satisfactorily to others in social situations involving family, work, government and recreation.

II. Accept primary responsibility for giving students a mastery of the basic skills of learning, thinking and problem-solving; for teaching them to use the various media of self-expression; for instilling in them a knowledge of the social and natural sciences; for acquainting them with the richness of our heritage; and for stimulating them to productive work in the various areas of human endeavor.

III. Acknowledge the importance of their supplemental role to the home and other social agencies in developing habits and attitudes which make for effective personal living, the maintenance of optimum physical and mental health, and the establishment of sound moral, ethical, and aesthetic values.

Realizing that education, as here defined, is a lifelong process, the School System seeks to orient its graduates toward various types of post-secondary education and further formal training and study of many types; and to provide educational opportunities particularly suited to the needs of adults, both as individuals and as citizens in a democracy.

ORGANIZATION OF THE BOARD OF EDUCATION

SUBJECT: SCHOOL DISTRICT AND BOARD OF EDUCATION LEGAL STATUS AND AUTHORITY

The Constitution of New York State, as amended in 1894, instructs the Legislature to provide for a system of free common schools wherein all children of the State may be educated.

The State Legislature has implemented this constitutional mandate through the creation of school districts of various types. The Germantown Central School District is governed by the laws set forth for Central School Districts in Education Law Article 37, and by laws relating to, or affecting, Union Free School Districts as set forth in Education Law Article 35 and Common School Districts as set forth in Education Law Article 33.

The School District constitutes a corporate entity that possesses all the usual powers of a corporation for public purposes, and in that name may sue and be sued, purchase, hold and sell personal property and real estate, and enter into such obligations as are authorized by law.

The Constitution of the State of New York places the responsibility for public education on the State Legislature, and directs the establishment of a State Department of Education for general supervision over the schools and headed by a Commissioner of Education. The New York State Constitution further provides that local public schools under the general supervision of the State Education Department shall be maintained, developed and operated by locally elected boards. Legally, local boards are instruments of the New York State Constitution, the New York Statutes and the regulations of the State Education Department and its Commissioner.

Board of Education Authority

As a body created under the Education Law of New York State, the Board of Education of the Germantown Central School District has full authority, within the limitations of federal and state laws and the Regulations of the Commissioner of Education and interpretations of them, to carry out the will of the people of its District in matters of education.

In all cases where laws or regulations of the State Commissioner of Education do not provide, permit, or prohibit, the Board shall consider itself the agent responsible for establishing and appraising educational matters and activities.

Board members have no authority over school affairs as individuals. They have authority only when acting as a body duly called in session.

Education Law Sections 1604, 1701, 1709, 1804, 1805, 2502, 2503 and Articles 33, 35, 37, 51 and 53
New York State Constitution

Adopted: 4/8/09
SUBJECT: INDIVIDUAL BOARD MEMBER AUTHORITY

The Germantown Central School District Board of Education established the following regulations as approved and corporate interpretations of Policy #1110 -- School District and Board of Education Legal Status and Authority.

Any member of the Board who is concerned about any situation that exists or is believed to exist in the District, or who wishes to have information about any program of instruction, activity, event, or other matter relating to the District, shall go to the Superintendent of Schools to seek resolution of her/his concern or to receive the information she/he desires.

Any member of the Board who visits the Germantown Central School individually for any reason whatever, except as duly authorized by the Board acting as a corporate body to perform a function for or to act as an agent of the Board, is properly understood to be doing so only as an individual.

No member of the Board shall visit any area of the Germantown Central School to observe classes or teachers' performance, or for any other purpose while school is in session, unless the Superintendent of Schools or the Principal has been notified of the visit and its purpose beforehand.

No member of the Board shall speak to any employee or group of employees of the District on behalf of or as if on behalf of the Board unless that member has first been duly authorized to speak on its behalf by the Board of Education.

No member of the Board shall be understood to function at any time and under any circumstances as a supervisor of staff employed by the District.

Every member of the Board shall recognize that there are no circumstances under which she/he has legally recognizable authority of any sort as a member of the Board except when:

a) She/he acts pursuant to law and Board policy as part of the corporate body that is the Board of Education, or

b) She/he is duly delegated by the Board to act as an agent of the Board in a manner that is clearly delimited and circumscribed in responsibility, authority, and duration.

The Board shall consider it an improper activity, and possibly official misconduct for any member of the Board to conduct herself/himself in such a way as reasonably to lead any employee of the District, any parent or guardian of a child attending the Germantown Central School, any citizen of the District, any vendor or contractor with the District, or any other person or party having business with the Germantown Central School District, to conclude that the Board member has the authority to act in a manner that is contrary to Policy #1110 -- Board of Education Authority. Such activity may result in the member's removal from office by the Commissioner of Education or the Board itself.

All statements must be sworn before a notary public, a commissioner of deeds, a lawyer or a public official authorized by New York State law to administer oaths.

Education Law Sections 1528 and 1529
Election Law Section 14-100(1)

Adopted: 4/8/09
SUBJECT: RESIGNATION AND DISMISSAL

Board members may resign at a District meeting of residents (i.e., the annual meeting, not a regular Board of Education meeting) or by filing a written resignation with the District Superintendent of the Supervisory District who must endorse his/her approval and file the resignation with the District Clerk.

Alternatively, a Board member may resign under Public Officers Law Section 31 by filing a written resignation with the District Clerk. The Clerk must then notify the School Board and the State Board of Elections.

A resignation may be withdrawn only with the consent of the person to whom the resignation was delivered (i.e., the District Clerk or BOCES District Superintendent). The School Board has no authority to act upon a request to withdraw a resignation.

The resignation shall take effect upon the date specified in the letter of resignation; however, if no effective date is specified, it shall take effect on the date of delivery to or filing with the District Clerk. If an effective date is specified in the letter of resignation, such date shall not be more than thirty (30) days subsequent to the date of its delivery or filing.

It shall be the duty of each member of the Board of Education to attend all meetings of the Board and, if any member shall refuse to attend three (3) consecutive meetings of the Board after having been regularly notified and a satisfactory cause for each non-attendance is not shown, the Board will proceed to declare that office vacant.

A Board member may be removed from office by the Commissioner of Education for willful violation of any provision of law, neglect of duty, or willfully disobeying any decision, order or regulation of the Commissioner. The Board of Education may also remove a Board member for misconduct relating to the exercise of authority as a Board member. A written copy of all charges made of such misconduct must be served upon the Board member at least ten (10) days before the time designated for a hearing on the charges; and the Board member shall be allowed a full and fair opportunity to refute such charges before removal.

In the event of death, resignation, removal from office or from the School District, or refusal to serve as a Board member, the District has the power and duty to fill the vacancy. If the Board chooses to fill the vacancy by appointment, the appointment requires a majority vote of the full Board and shall be only for a term ending with the next annual election of the School District.

The Board, at its own option, may instead call a special election within ninety (90) days to fill the unexpired term. If not filled by Board appointment or special election, the District Superintendent of the Supervisory District may appoint a competent person to fill the vacancy until the next annual election. Alternatively, the Commissioner of Education may order a special election for filling a vacancy. When such special election is ordered, the vacancy shall not be otherwise filled.

RULES OF MEETINGS

SUBJECT: QUORUM AND VOTING METHOD

Quorum

The quorum for any meeting of the Board shall be four (4) members. No formal action shall be taken at any meeting at which a quorum is not present. When only a quorum exists, the Board shall act by unanimous vote unless otherwise required by the laws of the State of New York.

Voting Method

Except where the law establishes a higher number or percentage, an affirmative vote of a majority of the total membership of the Board shall be required to carry any resolution or to approve any action. In accord with the Freedom of Information Law, the vote of each member present shall be recorded in the minutes of the meeting.

A roll call vote on any item requiring formal action by the Board of Education shall be taken upon the request for such a vote by any member of the Board who is present to vote.

Any member of the Board who requests to be excused from voting on any matter that comes before the Board shall make a brief statement of that member's reason for asking to be excused. The President of the Board shall excuse from voting on any issue any member who declares a direct personal or pecuniary interest in the matter to be voted upon.

The Board acknowledges that it lacks authority under the laws of the State of New York to adopt a standard requiring a supermajority vote by the Board in any matter where a majority in excess of a simple majority of the whole Board is not required by law.

However, minutes of executive sessions need not include any matter which is not required to be made public by the Freedom of Information Law.

The minutes of each meeting of the Board of Education shall state:

The Board of Education may hold executive sessions at which only the members of the Board or persons invited by the Board shall be present. However, the executive session is only available for the purpose of discussion, and except as the law allows, formal action must be taken in an open session.

Executive sessions can be requested by any member of the Board or the Superintendent of Schools.

A Board member must make a motion during an open meeting to convene in executive session. Upon a majority vote of its members, the Board may convene in executive session at a place which the Board President or said members may designate within the district to discuss the subjects enumerated below. Matters which may be considered in executive session are:

1. matters which will imperil the public safety if disclosed;
2. any matter which may disclose the identity of a law enforcement agent or informer;
3. information relating to current or future investigation or prosecution of a criminal offense which would imperil effective law enforcement if disclosed;
4. discussions regarding proposed, pending or current litigation;
5. collective negotiations pursuant to Article 14 of the Civil Service Law (the Taylor Law);
6. the medical, financial, credit or employment history of a particular person or corporation, or matters leading to the appointment, employment, promotion, demotion, discipline, suspension, dismissal or removal of a particular person or corporation;
7. the preparation, grading or administration of examinations; and
8. the proposed acquisition, sale, or lease of real property or the proposed acquisition of securities, or sale or exchange of securities, but only when publicity would substantially affect the value thereof.

The vote to go into executive session shall be detailed enough to allow the public to understand the topic the Board will be discussing, without disclosing specifics. Discussion in executive session shall be limited to the topic(s) identified in the motion.

A Board may not take action in executive session except to vote on disciplinary charges against a tenured administrator, teacher or teaching assistant.

Individual Board members, acting on their own, shall not disclose matters discussed in executive session. However, the Board, acting as a whole, may decide to disclose such information where disclosure is not prohibited under the law.
SUBJECT: EXECUTIVE SESSIONS

Minutes shall be taken at executive sessions of any action that is taken by a formal vote and should consist of a record or summary of the final determination of such action and the date and vote thereon, provided, however, that such summary shall not include any matter which is not required to be made public by the Freedom of Information Law. Minutes taken shall be available to the public within one week from the date of the executive session.

 SUBJECT: ATTENDANCE BY BOARD MEMBERS AT CONFERENCES, CONVENTIONS AND WORKSHOPS

The Board believes that continuing in-service training and development are important for its members. The Board, therefore, encourages the participation of all members at appropriate school board conferences, conventions and workshops which are believed to be of benefit to the School District. However, in order to control both the investment of time and funds necessary to implement this policy, the Board establishes the following guidelines:

a) A calendar of school board conferences, conventions and workshops shall be maintained by the Board Clerk. The Board will periodically decide which meetings appear to be most likely to produce direct and indirect benefits to the School District. At least annually, the Board will identify those new ideas or procedures and/or cost benefits that can be ascribed to participation at such meetings.

b) Funds for participation at such conferences, conventions, workshops and the like will be budgeted for on an annual basis. When funds are limited, the Board will designate which members are to participate at a given meeting.

c) Reimbursement to Board members for all actual and necessary registration fees, expenses of travel, meals and lodging, and all necessary tuition fees incurred in connection with attendance at conferences and the like will be in accordance with established regulations for expense reimbursement.

d) When a conference, convention or workshop is not attended by the full Board, those who do participate will be requested to share information, recommendations and materials acquired at the meeting.

The authorization for Board members to attend a conference, convention, workshop and the like shall be by Board resolution adopted prior to such attendance. However, the Board, in its discretion, may delegate the power to authorize attendance at such conferences to the President of the Board of Education.

Where authorization has been delegated to the President of the Board, no expense or claim form shall be paid unless a travel order or similar document signed by the President is attached to such form, authorizing the claimant to attend the conference.

Such conference travel shall be for official District business and shall be made utilizing a cost-effective and reasonable method of travel.

Authorization must be by resolution adopted prior to such attendance and duly entered in the minutes. However, the Board may delegate the power to authorize such attendance at a conference to the Board President or Board Vice President.

SUBJECT: BOARD SELF-EVALUATION

The Board of Education shall review the effectiveness of its internal operations at least once annually. The Superintendent of Schools and others who work regularly with the Board shall be asked to participate in this review and to suggest ways by which the Board can improve its functioning as a deliberative and legislative body.

An effective program of evaluation contains many features. The following conditions are crucial to evaluation that has as its primary purpose the improvement of school board leadership:

a) Board members should be involved in development of the standards by which they will evaluate themselves;

b) The evaluation should be a composite of the individual Board members' opinions, but the Board as a whole should meet to discuss the results;

c) The evaluation should include a discussion of strengths as well weaknesses;

d) The Board should not limit itself to those items that appear on the evaluation form. No form or set of guidelines could encompass the totality of a school board's responsibilities; and

e) Each judgment should be supported by as much rational and objective evidence as possible.

When the Board has received the composite profiles from the evaluation, then Board members will discuss the results in detail and formulate a series of objectives for the ensuing year. These objectives will be stated in the form of behavioral change or productivity gains. Implied in this approach is an assumption that a Board of Education is capable of improvement. The chances that the Board will improve are enhanced if evaluation is carried out systematically in accordance with good planning, conscientious follow-through, and careful assessment of results.

This review should be done by June 1 of each year with a public meeting by the end of June after the evaluations are completed.

SUBJECT: SCHOOL SPONSORED SOCIAL MEDIA

Social Media and Digital Communications Policy for Staff

The Germantown Central School District recognizes the use of social media as a communication, research and learning tool. The purpose of this policy is to establish best practices for District employees about the appropriate use of social media tools in their professional lives.

Definitions

Social media includes all forms of online publication and communities where individuals post written or visual information and engage in conversation. This policy pertains to common social media networks such as Twitter, Facebook, YouTube, Instagram, Snapchat, and LinkedIn. Please note this is not a comprehensive list, as new social media platforms are common, and this policy does not pertain exclusively to the aforementioned social media networks. Professional expectations apply regardless of the choice of social media. An explanation of the difference between professional and personal social media use is as follows:

Professional Use:

Employees using social media to advance a school program or function of the Germantown Central School District as part of their job responsibilities.

Personal Use:

Employees using social media to advance an employee personally.

Personal vs. Professional Use

The lines blur between public/private and personal/professional in the social media world. The District encourages employees to keep personal and professional lives separate in the digital world.

The District takes no position on an employee’s decision to participate in the use of social media for personal use on personal time, unless social media postings violate the law, District policies or create a substantial disruption to the educational and/or work environment.

If employees use personal social media, they should avoid communicating with students or their families. District provided tools, such as an employee’s school email account or voicemail account, should be the only means by which employees engage students and their families in communications outside of school.
SUBJECT: SCHOOL SPONSORED SOCIAL MEDIA

Employees are ambassadors for the District and student role models. Therefore, it is important for employees to be professional in all interactions with students, their families and the Germantown School District community. An employee’s online behavior on social media should reflect the same professionalism as face-to-face communications.

When using social media for personal use, if employees identify themselves as an employee of the District, they are associating themselves with the District. Therefore, employees must ensure any associated content is consistent with the mission of the District. Unless specifically authorized by the Superintendent or the District Communications Specialist, those who identify themselves as employed by the District must use the following disclaimer – or a variation of it - on personal social media profiles, “The views expressed on this site are my individual opinions and do not represent the views or opinions of the Germantown Central School District.”

District employees should use privacy settings to control public access to their personal social media pages, but should be aware that privacy settings can bring a false sense of security. Anything posted online may be subject to public viewing and republished without an employee’s consent for an unintended purpose.

The District recognizes that student groups or members of the public may create social media groups associated with the District. When adults not employed by the District, but authorized to interact with students, choose to join or engage with these social networking groups, they do so as if they are paid employees of the District. All District employees must maintain proper and professional employee-student relationships at all times, and have a responsibility for addressing inappropriate behavior or activity on these social media networks. This includes acting to protect the safety of minors online.

1. Employees Are Always a School Employees
   - Employees sometimes represent the District in what they say and do online.
   - Employees should be cautious when re-sharing digital communications (ex. re-tweeting), as some could interpret this as an endorsement by the employee.
   - Employees must always write in the first person and make it clear they are speaking for themselves and not on behalf of the District. If employees are speaking on behalf of the District, make sure they have secured prior authorization to do so from the Superintendent or the Communications Specialist.
   - Employees must not misrepresent themselves by using someone else’s identity or misrepresenting their identity.
   - Employees must not share confidential information about school business, students or their colleagues (ex. grades, personnel records etc.).
SUBJECT: SCHOOL SPONSORED SOCIAL MEDIA

2. **Employee Professionalism on Social Media**
   
   - Respect the District’s values. Employees should express their ideas and opinions in a respectful manner and carefully consider what they post on social media. Employees should assume anything they post is public and is viewable by everyone in their personal and professional networks. Once on social media, posts can become a permanent record.
   - Employees should follow copyright and fair use guidelines. Cite sources when quoting another’s work and use Creative Commons licensing when possible. The definition of Creative Commons licensing will be made available to employees.
   - Employees should not use any official Germantown Central School District logo or image without prior permission.

3. **Respect Others and Ensure the Safety of Students**
   
   - Employees must respect the privacy and feelings of others and not, under any circumstances, post offensive comments about students, colleagues, or the District in general.
   - Employees who use social networks that include students have a responsibility to address inappropriate behavior or activity, including the protection and safety of minors.
   - Employees must not post photos or videos of fellow employees without their permission. Employees must not post photos or videos that have students in them without parental consent or checking with the District Office to ensure they are not on the Do Not Disclose Media List.

4. **Managing Employee/Student Relationships**
   
   - Employees must not establish unprofessional personal relationships with students. Unprofessional relationships include writing personal letters, email or text messages; calling students on cell phones or allowing students to make personal calls to them unrelated to class work or school activities; sending inappropriate pictures to students; discussing or revealing personal matters about their private life or inviting students to do the same; engaging in sexualized dialogue in any form. Do not connect with currently enrolled students via personal social media networks. If a student attempts to contact or connect with an employee via personal social media, they should let them know they will speak to them at school or via their school e-mail in appropriate school-related circumstances.
   - Inappropriate content posted by employees to social media and viewed by students, parents or other District employees is subject to investigation by District officials. It may result in disciplinary action.
   - Employee school email accounts are not private. All communications by employees to students/parents at any time from any email system must be professional in topic and tone. Email between employees and students/parents will only be through the school email service.
SUBJECT: SCHOOL SPONSORED MEDIA

5. Social Media Classroom Use

• The District encourages teachers to use social media tools where appropriate in addressing an educational goal of the classroom. (ex. private Facebook group created for a class project)
• Employees should inform their building or department administrator when creating social networks for classroom use and make sure parents are aware of the intended use and its educational purpose.
• Employees must use District contact information (email, address, voicemail extension, etc.) for creating and maintaining classroom-related social media accounts.
• Employees using social media to meet an educational goal must treat the social media network like an extension of their classroom. Employees must monitor interactions between students and deal with inappropriate use at once.

6. Other Uses for Social Media – Fundraisers, Volunteers

• Any adult not employed by the District but still associated with the District (fundraising coordinators, volunteers etc.) and authorized to interact with students on behalf of the District must abide by the same set of expectations for District employees when it comes to social media networks.
• District authorized adults must inform their supervisor (or designated District contact) when creating social media networks for any school related use.
• District authorized adults must state that the network they have created is school related.
• District authorized adults must monitor interactions between students and deal with inappropriate use at once.
• District authorized adults should consult with the District Communications Specialist if they need further guidance

7. Employee Mistakes on Personal or Professional Social Media

• Employees must correct any mistake they make at once and make clear what they have done to correct it.
• Employees should apologize if appropriate
• If employees make a major mistake (ex. revealing private or confidential information) they must notify the Superintendent and the Communications Specialist at once so the District can take the proper steps to minimize the impact.
8. Questions

Social media tools, including their uses and challenges, are evolving rapidly. The District will continue to monitor its strategies and best practices for using these tools. As a result, this policy will continue to evolve. Employees with suggestions or questions should contact the District’s Communications Specialist.

SUBJECT: SCHOOL VOLUNTEERS

The Board recognizes the need to develop a school volunteer program to support District instructional programs and extracurricular activities. The purpose of the volunteer program will be to:

SUBJECT: CHARTER SCHOOLS

A charter school is a public school financed through public local, state and federal funds that is independent of local school boards. Although the New York Charter Schools Act of 1998 designates certain "charter entities," only the local school district may approve the conversion of an existing public school to a charter school. Prior to any such conversion to a charter school, the parents/guardians of the majority of the students then enrolled in the public school must have voted in favor of the conversion.

For charter schools approved by the Board of Trustees of the State University of New York or the Board of Regents, the local school district within which the charter school is located has the right to visit, examine, and inspect the charter school for compliance with all applicable laws, regulations, and charter provisions.

Charter schools may be located in part of an existing public school building, a private work site, a public building, or any other suitable location. At the request of the charter school or prospective applicant, the School District shall make available a list of vacant and unused school buildings and vacant and unused portions of school buildings, including private school buildings, within the School District which may be suitable for the operation of a charter school.

The School District's high school(s) may accept academic credit from students who transfer from the charter school as authorized and/or permitted in accordance with law, Commissioner's Regulations, and local District standards. Either the charter school or the local School Board may issue a high school diploma upon students' graduation from a charter school depending on the charter school's relationship with the School Board.

For the purposes of the Textbook Loan Program defined in Education Law Section 701, the Library Materials Loan Program defined in Education Law Section 711, and the Computer Software Loan Program defined in Education Law Section 751, and Health and Welfare Services defined in Education Law Section 912, students attending a charter school have the same access to textbooks, software and library materials loaned by the School District as if enrolled in a nonpublic school. Within available School District inventory and budgetary appropriations for purchase of such materials, the School District is required to provide such materials on an equitable basis to all public school students and to all nonpublic school and charter school students who are residents of the District (Textbook Loan Program) or who attend a nonpublic or charter school in the School District (Software and Library Materials Loan Programs). The base year enrollment of students in the charter school may be claimed by the School District for the purposes of Textbook, Software and Library Materials Aids, in the same manner as nonpublic school enrollments are claimed.

For the purpose of transportation, charter schools are considered nonpublic schools, which means that students attending charter schools who reside within a fifteen (15) mile radius of the charter school (or a greater radius if the voters of the school district of residence have approved

(Continued)
SUBJECT:   CHARTER SCHOOLS (Cont'd.)

nonpublic transportation for more than fifteen (15) miles) will receive transportation from their school district of residence on the same basis as nonpublic school students; that is, subject to the applicable minimum mileage limits for transportation in the school district of residence, and the requirement of the timely filing of the request for transportation pursuant to Education Law Section 3635(2).

A student cannot be dually enrolled in the charter school and District schools. However, the school district of residence of students attending a charter school may, but is not required to, allow such students to participate in athletic and extracurricular activities.

Special Education programs and services shall be provided to students with disabilities attending a charter school in accordance with the individualized education program recommended by the Committee or Subcommittee of Special Education of the student's school district of residence. The charter school may arrange to have such services provided by the school district of residence or by the charter school directly or by contract with another provider. Where the district of residence provides the special education programs or services, they will be provided in the same manner as provided to students in other public schools in the District. This includes the provision of supplementary and related services on site to the same extent the District's policy and practices provide such services on the site of other public schools.

All employees of a public school converted to a charter school are included within the negotiating unit for the local school district, but the collective bargaining agreement of that negotiating unit may be modified by a majority vote of the members who work at the charter school, with the approval of the Board of Trustees of the charter school.

Instructional employees of a charter school which has not been converted from an existing public school and which has more than 250 students during the first year of instruction will be represented in a separate negotiating unit at the charter school by the same employee organization representing similar employees in the local school district. Employees may be included in the Teachers' Retirement System and other retirement systems open to employees of the School District. Financial contributions for such benefits are the responsibility of the charter school and the charter school's employees.

Teachers employed by the School District may apply for a leave of absence for purposes of teaching at a charter school. Approval for such leave of absence for a period of two (2) years or less shall not be unreasonably withheld. If such approval is granted to a teacher by the District, the teacher may return to teach in the School District during such period of leave without the loss of any right of certification, retirement, seniority, salary status, or any other benefit provided by law or by collective bargaining agreement. If an appropriate position is unavailable, the teacher's name shall be placed on a preferred eligible list of candidates for appointment to a vacancy that may thereafter occur in an office or position similar to the one such teacher filled in the District immediately prior to the leave of service.

Charter School Finances

Charter school financing in the first year of operation shall be based on the number of students projected to be served by the charter school and the approved operating expenses of the district of residence of those students. Adjustments will be made in each subsequent year based upon the final report by the charter school of actual enrollment.

Federal and State aid attributable to students with disabilities are required to be paid to a charter school by the school district of residence for those students attending such charter school in proportion to the services the charter school provides such students directly or indirectly. The New York Charter Schools Act requires that the school district of residence forward such payments to the charter school, in six (6) substantially equal installments each year beginning on the first business day of the months of July, September, November, January, March, and May. Payment of federal aid attributable to a student with a disability attending a charter school must be made according to the requirements in 20 United States Code (USC) Sections 76.85-76.799 and Section 300.209 of Title 34 of the Code of Federal Regulations (CFR). Failure by the School District to make such required payments will result in the State Comptroller deducting the required amounts from State funds due to the District and paying them to the charter school.

Approved operating expenses include the essential operating cost of the School District. Excluded are costs for transportation, debt services, construction, tuition payments to other school districts, some BOCES payments, cafeteria or school lunch expenditures, balances and transfers, rental income from leased property, and certain other limited categories unless otherwise authorized pursuant to the federal grant program, State Charter School Facilities Incentive Program.

Amounts payable to a charter school by the School District will be determined by the Commissioner of Education.

Neither the School District, the charter entity, nor the State is liable for the debts of the charter school.

Notice and Hearing Requirements

The New York State Board of Regents is required to provide the School District information on the charter school process. If a charter school is proposed, the charter entity and the Board of Regents have to notify the school district in which the charter school is located and public and nonpublic schools in the same geographic area as the proposed charter school at each significant stage of the chartering process.

(Continued)
SUBJECT: CHARTER SCHOOLS (Cont'd.)

Before a charter is issued, revised or renewed, the school district in which the charter school is located shall:

a) Hold a public hearing to solicit comments from the community within thirty days of initially receiving notice of the receipt or an application for formation, renewal or revision of a charter. This hearing will be held in the community potentially impacted by the proposed charter school;

b) Be given the opportunity to comment on the proposed charter to the charter entity. The charter entity shall consider comments raised and submit such comments to the Board of Regents with their application.

When a revision involves the relocation of a charter school to a different school district the proposed new school district shall also hold a hearing within thirty days of receiving notice of receipt of an application.

The District shall provide the State Education Department with a copy of the public hearing notice at the time the notice is disseminated to the community. The District will also provide to both the State Education Department and the charter school's charter entity:

a) No later than the next business day after the hearing written confirmation that the hearing was held, the date and time of the hearing; and

b) Within fifteen business days after the hearing, copies of all written records or comments generated from the hearing.

Time limits on the charter application process will be in accordance with the Charter Schools Act.

SUBJECT: SOLICITATION OF CHARITABLE DONATIONS

School Children

Direct solicitation of charitable donations from children in the District schools on school property during regular school hours shall not be permitted. It will be a violation of District policy to ask District school children directly to contribute money or goods for the benefit of a charity during the hours in which District students are compelled to be on school premises.

However, this policy does not prevent the following types of fund raising activities:

a) Fund raising activities which take place off school premises, or outside of regular school hours during before-school or after-school extracurricular periods;

b) Arms-length transactions, where the purchaser receives a consideration for his/her donation. For example, the sale of goods or tickets for concerts or social events, where the proceeds go to charity, shall not be prohibited as the purchaser will receive consideration - the concert or social event - for the funds expended;

c) Indirect forms of charitable solicitation on school premises that do not involve coercion, such as placing a bin or collection box in a hallway or other common area for the donation of food, clothing, other goods or money. However, collection of charitable contributions of food, clothing, other goods or funds from students in the classroom or homeroom is prohibited.

The Board of Education shall ultimately decide which organizations, groups, etc. can solicit charitable donations and for what purposes, as long as the activities comply with the terms of this policy and the Rules of the Board of Regents.

Regulations shall be developed by the administration to implement this policy.

School Personnel

Soliciting of funds from school personnel by persons or organizations representing public or private organizations shall be prohibited. The Superintendent of Schools shall have the authority to make exceptions to this policy in cases where such solicitation is considered to be in the District's best interest. The Board of Education shall be notified of these instances.

Distribution of information about worthwhile area charities may be made through the Office of the Superintendent of Schools as a service to School District personnel.

c) The Superintendent of Schools may, at his/her discretion, announce or authorize to be announced, any lecture or other community activity of particular educational merit;

The Superintendent, at his/her discretion, may consult with the Board of Education. Monthly reports may be made to the Board regarding community use of the school facilities.

Materials and Equipment

Except when used in connection with or when rented under provisions of Education Law Section 414, school-owned materials or equipment may be used by members of the community or by District employees and/or students for school related purposes only. Private and/or personal use of school-owned materials and equipment is strictly prohibited.

The Board will permit school materials and equipment to be loaned to staff members when such use is directly or peripherally related to their employment and loaned to students when the material and equipment is to be used in connection with their studies or extracurricular activities. The class or sponsoring agency shall be billed by the Business Office at a rate of "time and one half plus twenty five percent (25%)." There shall be no custodial fee if an activity is held while custodial staff are on duty.

If a class or sponsoring agency using the school building fails to clean up the premises after the activity is concluded, then the custodial staff shall do so and the class or agency shall be billed accordingly by the Business Office.

Determination of what constitutes good cause, as that term is used herein, shall rest with the Superintendent of Schools.

Specific Requirements Relating to Boy Scouts and other Title 36 Patriotic Youth Groups

The Boy Scouts Act applies to any local educational agency (LEA) that has a designated open forum or limited public forum and that receives funds made available through the U.S. Department of Education (DOE). It applies to any group officially affiliated with the Boy Scouts of America or any other youth group designated in Title 36 of the United States Code as a patriotic society.

This statute provides for the following:

a) No covered entity (elementary school, secondary school or LEA) shall deny equal access or a fair opportunity to meet, or discriminate against any group affiliated with the Boy Scouts of America or any other Title 36 patriotic youth group that requests to conduct a meeting within the covered entity's designated open forum or limited public forum.

1. A designated open forum exists when the school designates a time and place for one or more outside youth community groups to meet on school premises or in school facilities, including during the hours in which attendance at the school is compulsory, for reasons other than to provide the school's educational program.

2. A limited public forum exists when the school allows one or more outside youth or community groups to meet on school premises or in school facilities before or after the hours during which attendance at the school is compulsory.

c) Access to facilities and the ability to communicate using school-related means of communication must be provided to any group officially affiliated with the Boy Scouts of America or any other Title 36 patriotic youth group on terms that are no less favorable than the most favorable terms provided to other outside youth or community groups.

The statute applies regardless of the entity's authority to make decisions about the use of its own school facilities. However, no entity is required to sponsor any group officially affiliated with Boy Scouts or any other Title 36 patriotic youth group.

The obligation to comply with the Boy Scouts Act is not obviated or alleviated by any State or local law or other requirement.

Sexual orientation is defined as heterosexuality, homosexuality, bisexuality, or asexuality, whether actual or perceived.

The Board also prohibits harassment based on an individual's opposition to discrimination or participation in a related investigation or complaint proceeding under the anti-discrimination statutes. This policy of nondiscrimination and anti-harassment will be enforced on School District premises and in school buildings; and at all school-sponsored events, programs and activities, including those that take place at locations off school premises and in another state.

It is intended that this policy apply to the dealings between or among employees with employees; employees with students; students with students; employees/students with vendors/contractors and others who do business with the School District, as well as school volunteers, visitors, guests and other third parties. All of these persons are hereinafter referred to collectively as "the named group."

For purposes of this policy, harassment shall mean communication (verbal, written or graphic) and/or physical conduct based on an individual's actual or perceived race, color, creed, religion, national origin, political affiliation, sex, sexual orientation, age, marital status, military status, veteran status, disability, or use of a recognized guide dog, hearing dog or service dog that:

a) Has the purpose or effect of substantially or unreasonably interfering with an individual's work performance or is used as a basis for employment decisions (including terms and conditions of employment) affecting such individual; and/or creates an intimidating, hostile or offensive work environment;

b) Has the purpose or effect of substantially or unreasonably interfering with a student's academic performance or participation in an educational or extracurricular activity, or creates an intimidating, hostile or offensive learning environment; and/or effectively bars the student's access to an educational opportunity or benefit;

c) Otherwise adversely affects the employment and/or educational opportunities and benefits provided by the District.

(Continued)
SUBJECT: ANTI-HARASSMENT IN THE SCHOOL DISTRICT (Cont'd.)

The School District will act to promptly investigate all complaints, either verbal or written, formal or informal, of allegations of harassment based on any of the characteristics described above; and will promptly take appropriate action to protect individuals from further harassment. The District will designate, at a minimum, two (2) Complaint Officers, one of each gender.

In order for the Board to enforce this policy, and to take corrective measures as may be necessary, it is essential that any employee, student, or other member of the above named group who believes he/she has been a victim of harassment in the school environment and/or at programs, activities and events under the control and supervision of the District, as well as any individual who is aware of and/or who has knowledge of, or witnesses any possible occurrence of harassment, immediately report such alleged harassment; such report shall be directed to or forwarded to the District's designated Complaint Officer(s) through informal and/or formal complaint procedures as developed by the District. Such complaints are recommended to be in writing, although verbal complaints of alleged harassment will also be promptly investigated in accordance with the terms of this policy. In the event that the Complaint Officer is the alleged offender, the report will be directed to the next level of supervisory authority.

Upon receipt of an informal/formal complaint (even an anonymous complaint), the District will conduct a thorough investigation of the charges. However, even in the absence of an informal/formal complaint, if the District has knowledge of any occurrence of harassment, the District will investigate such conduct promptly and thoroughly. To the extent possible, within legal constraints, all complaints will be treated as confidentially and privately as possible. However, disclosure may be necessary to complete a thorough investigation of the charges and/or to notify law enforcement officials as warranted, and any disclosure will be provided on a "need to know" basis.

Based upon the results of this investigation, if the District determines that an employee and/or student has violated the terms of this policy and/or accompanying regulations, immediate corrective action will be taken as warranted. Should the offending individual be a student, appropriate disciplinary measures will be applied, up to and including suspension, in accordance with applicable laws and/or regulations, District policy and regulation, and the District Code of Conduct. Should the offending individual be a school employee, appropriate disciplinary measures will be applied, up to and including termination of the offender's employment, in accordance with legal guidelines, District policy and regulation, and the applicable collective bargaining agreement(s). Third parties (such as school volunteers, vendors, etc.) who are found to have violated this policy and/or accompanying regulations and/or the Code of Conduct, will be subject to appropriate sanctions as warranted and in compliance with law. The application of such disciplinary measures by the District does not preclude the filing of civil and/or criminal charges as may be warranted.

Prohibition of Retaliatory Behavior

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of harassment.

(Continued)
SUBJECT: ANTI-HARASSMENT IN THE SCHOOL DISTRICT (Cont'd.)

Follow-up inquiries shall be made to ensure that harassment has not resumed and that all those involved in the investigation of the harassment complaint have not suffered retaliation.

Finding That Harassment Did Not Occur

At any level/stage of investigation of alleged harassment, if a determination is made that harassment did not occur, the Complaint Officer will so notify the complainant, the alleged offender and the Superintendent of this determination. Such a finding does not preclude the complainant from filing an appeal pursuant to District policy or regulation and/or pursuing other legal avenues of recourse.

However, even if a determination is made that harassment did not occur, the Superintendent/designee reserves the right to initiate staff awareness and training, as applicable, to help ensure that the school community is not conducive to fostering harassment in the workplace.

In all cases, the Superintendent will inform the Board of Education of the results of each investigation involving a finding that harassment did not occur.

Knowingly Makes False Accusations

Employees and/or students who knowingly make false accusations against another individual as to allegations of harassment may also face appropriate disciplinary action.

Privacy Rights

As part of any investigation, the District has the right to search all school property and equipment including District computers. Rooms, desks, cabinets, lockers, computers, etc. are provided by the District for the use of staff and students, but the users do not have exclusive use of these locations or equipment and should not expect that materials stored therein will be private.

Development and Dissemination of Administrative Regulations

Regulations will be developed for reporting, investigating, and remedying allegations of harassment based on the characteristics described above. An appeal procedure will also be provided to address any unresolved complaints and/or unsatisfactory prior determinations by the applicable Complaint Officer(s). Such regulations will be developed in accordance with federal and state law as well as any applicable collective bargaining agreement(s).

The Superintendent/designee(s) will affirmatively discuss the topic of harassment with all employees and students, express the District's condemnation of such conduct, and explain the sanctions for such harassment. Appropriate training and/or "awareness" programs will be established

for staff and students to help ensure knowledge of and familiarity with the issues pertaining to harassment in the schools, and to disseminate preventative measures to help reduce such incidents of prohibited conduct. Furthermore, special training will be provided for designated supervisors and managerial employees, as may be necessary, for the investigation of harassment complaints.

A copy of this policy and its accompanying regulations will be available upon request and may be posted at various locations in each school building. The District's policy and regulations on anti-harassment will be published in appropriate school publications such as teacher/employee handbooks, student handbooks, and/or school calendars.

This policy should not be read to abrogate other District policies and/or regulations or the District Code of Conduct prohibiting other forms of unlawful discrimination, inappropriate behavior, and/or hate crimes within this District. It is the intent of the District that all such policies and/or regulations be read consistently to provide the highest level of protection from unlawful discrimination in the provision of employment/educational services and opportunities. However, different treatment of any member of the above named group which has a legitimate, legal and nondiscriminatory reason shall not be considered a violation of District policy.

SUBJECT: UNIFORM VIOLENT AND DISRUPTIVE INCIDENT REPORTING SYSTEM (VADIR)

In compliance with the Uniform Violent and Disruptive Incident Reporting System, the District will record each violent or disruptive incident that occurs on school property or at a school function. School property shall mean in or within any building, structure, athletic playing field, playground, parking lot or land contained within the real property boundary line of a public elementary or secondary school; or in or on a school bus as defined in Vehicle and Traffic Law Section 142. A school function shall mean a school-sponsored or school-authorized extracurricular event or activity regardless of where such event or activity takes place, including any event or activity that may take place in another state.

In accordance with the manner prescribed, the District will submit an annual report of violent and disruptive incidents (on the Summary of Violent and Disruptive Incidents form) from the previous school year to the Commissioner of Education. Summary data will be used to determine the rate of violent and disruptive incidents in each school and to identify schools as persistently dangerous, as required by the No Child Left Behind Act.

The District will utilize the Individual Violent and Disruptive Incident Report form for the reporting of individual incidents by each building and/or program under its jurisdiction and for the tally count of incidents into the Summary Form. Copies of such incident reports will be retained for the time prescribed by the Commissioner in the applicable records retention schedule. These reports will be available for inspection by the State Education Department upon request.

All personally identifiable information included in a violent or disruptive incident report will be confidential and will not be disclosed to any person for any purpose other than that specified in Education Law Section 2802, except as otherwise authorized by law.

The District will include a summary of the District's annual violent or disruptive incident report in its School District Report Card in the format prescribed by the Commissioner.

Reporting Guidelines

The District will utilize the New York State Education Department's website to obtain copies of the forms, directions, glossary and additional information at www.emsc.nysed.gov/irts/.

If the Superintendent determines that the health and safety of students and staff requires the cancellation of school, then she/he shall immediately notify:

a) Local radio stations;
b) Bus contractors;
c) Principals; and
d) One teacher designated by the teacher's union.

SUBJECT: OPIOID OVERDOSE PREVENTION

The Board of Education recognizes that many factors, including the use and misuse of prescription painkillers, can lead to the dependence on and addiction to opiates, and that such dependence and addiction can lead to overdose and death among the general public, including district students and staff. The Board wishes to minimize these deaths by the use of opioid overdose prevention measures. The signs and symptoms of opioid overdose (e.g., shallow breathing, unconsciousness, unresponsive to stimulation, pinpoint pupils, blue skin on lips and under nails) shall be displayed in school buildings with instructions to contact emergency responders. The district will provide training to all staff and students on the signs and symptoms of an opioid overdose.

The Board directs the school physician/medical director to issue a non-patient specific order to school nurses to administer (select as per the medical order: intranasal or intramuscular) naloxone (also known as Narcan, among other names). The non-patient specific order shall include a written protocol containing the elements required by the regulations of the Commissioner of Education. The Board permits school nurses to administer naloxone to any person at school or a school event displaying symptoms of an opioid overdose. The district shall purchase and provide the naloxone kits to be stored in the nurse's office. Naloxone shall be accessible during school hours and during on-site school-sponsored activities.

BUDGET

SUBJECT: BUDGET PLANNING AND DEVELOPMENT

Budget planning and development for the District will be an integral part of program planning so that the annual operating budget may effectively express and implement programs and activities of the School System. Budget planning will be a year-round process involving participation of District-level administrators, Principals, Directors, Coordinators, teachers, and other personnel. The process of budget planning and development should allow for community input and contain numerous opportunities for public information and feedback.

The Superintendent will have overall responsibility for budget preparation, including the construction of and adherence to a budget calendar. Program managers will develop and submit budget requests for their particular areas of responsibility after seeking the advice and suggestions of staff members.

Principals will develop and submit budget requests for their particular schools in conjunction with the advice and suggestions of staff members and their own professional judgment. Each school's budget request will be the Principal's recommendation as to the most effective way to use available resources in achieving progress toward the approved educational objectives of the school. Program budgets and school budgets will reflect state and/or federal requirements, special sources of funding, and District objectives and priorities.

The Board will give consideration to budget requests, and will review allocations for appropriateness and for their consistency with the School System's educational priorities.

All budget documents for distribution to the public shall be in plain language and organized in a manner which best promotes public comprehension of the contents. Documents shall be complete and accurate and contain sufficient detail to adequately inform the public regarding such data as estimated revenues, proposed expenditures, transfers to other funds, fund balance information, and changes in such information from the prior year's submitted budget.

In accordance with Commissioner's Regulations, the budget will be presented in three (3) components which are to be voted upon as one (1) proposition. The law prescribes the types of items to be included in each component and further prescribes that all relevant costs be included in the component.

a) A program component which shall include, but need not be limited to, all program expenditures of the School District, including the salaries and benefits of teachers and any school administrators or supervisors who spend a majority of their time performing teaching duties, and all transportation operating expenses;

including facilities lease expenditures, the annual debt service and total debt for all facilities financed by bonds and notes of the School District, and the costs of construction, acquisition, reconstruction, rehabilitation or improvement of school buildings, provided that such budget shall include a rental, operations and maintenance section that includes base rent costs, total rent costs, operation and maintenance charges, cost per square foot for each facility leased by the District, and any and all expenditures associated with custodial salaries and benefits, service contracts, supplies, utilities, and maintenance and repairs of school facilities; and

c) An administrative component which shall include, but need not be limited to, office and central administrative expenses, traveling expenses and salaries and benefits of all certified school administrators and supervisors who spend a majority of their time performing administrative or supervisory duties, any and all expenditures associated with the operation of the Office of the School Board, the Office of the Superintendent of Schools, General Administration, the School Business Office, consulting costs not directly related to direct student services and programs, planning and all other administrative activities.

Additionally, the Board of Education shall append to the proposed budget the following documents:

d) A Property Tax Report Card prepared in accordance with law and Commissioner's Regulations (see subheading "Property Tax Report Card").

The Board shall attest that unexpended surplus funds (i.e., operating funds in excess of the current school year budget, not including funds properly retained under other sections of law) have been applied in determining the amount of the school tax levy. For the 2009-2008 school year, surplus funds shall mean any operating funds in excess of three percent (3%); for 2008-2009 school year and thereafter, surplus funds shall mean any operating funds in excess of four percent (4%).

SUBJECT:  BUDGET PLANNING AND DEVELOPMENT (Cont'd.)

The proposed budget for the ensuing school year shall be reviewed by the Board of Education and publicly disseminated, in accordance with law, prior to its submission to District voters for approval.

**Property Tax Report Card**

Each year, the Board of Education shall prepare a Property Tax Report Card, pursuant to Commissioner's Regulations, and shall make it publicly available by transmitting it to local newspapers of general circulation, appending it to copies of the proposed budget made publicly available as required by law, making it available for distribution at the Annual Meeting, and otherwise disseminating it as required by the Commissioner.

The Property Tax Report Card shall include:

a) The amount of total spending and total estimated school tax levy that would result from adoption of the proposed budget, and the percentage increase or decrease in total spending and total school tax levy from the School District budget for the preceding school year; and

b) The projected enrollment growth for the school year for which the budget is prepared, and the percentage change in enrollment from the previous year; and

c) The percentage increase in the average of the Consumer Price Indexes from January first of the prior school year to January first of the current school year as defined in Education Law; and

Budget Notice

The School District Clerk shall mail a School Budget Notice to all qualified voters of the School District after the date of the Budget Hearing, but no later than six (6) days prior to the Annual Meeting and Election or Special District Meeting at which a school budget vote will occur. The School Budget Notice shall compare the percentage increase or decrease in total spending under the proposed budget over total spending under the School District budget adopted for the current school year, with the percentage increase or decrease in the Consumer Price Index from January first of the prior school year to January first of the current school year.

The Budget Notice shall include a description of how total spending and the tax levy resulting from the proposed budget would compare with a projected contingency budget, assuming that such contingency budget is adopted on the same day as the vote on the proposed budget. Such comparison shall be in total and by component (i.e., program, capital and administrative), and shall include a statement of the assumptions made in estimating the projected contingency budget.

The Notice shall also include, in a manner and format prescribed by the Commissioner of Education, a comparison of the tax savings under the basic school tax relief (STAR) exemption and the increase or decrease in school taxes from the prior year, and the resulting net taxpayer savings for a hypothetical home within the District with a full value of one hundred thousand dollars ($100,000) under the existing School District budget as compared with such savings under the proposed budget.

The Notice shall also set forth the date, time and place of the school budget vote in the same manner as in the Notice of the Annual Meeting. The School Budget Notice shall be in a form prescribed by the Commissioner of Education.

SUBJECT: BUDGET ADOPTION

The Board of Education shall review the recommended budget of the Superintendent of Schools and shall seek public input and feedback regarding the recommended budget including, but not limited to, holding a public budget hearing not less than seven (7) nor more than fourteen (14) days prior to the Annual District Meeting and Election at which the budget vote is to occur. The Board may modify the recommended budget of the Superintendent prior to its submission to District voters. Final authorization of the proposed budget is dependent upon voter approval unless a contingency budget is adopted by the Board.

In the event the original proposed budget is not approved at the Annual District Meeting and Election, the Board may resubmit the original proposed budget or a revised budget for voter approval, or individual propositions may be placed before District voters, at a special meeting held on the third Tuesday of June. In the alternative, if the initial proposed budget is defeated, the Board may adopt a contingency budget and levy taxes as necessary for implementation of the contingency budget expenditures. If the voters fail to approve the second budget submittal, or budget propositions(s), the Board shall adopt a contingency budget in accordance with law.

The School District budget for any school year, or any part of such budget, or any proposition(s) involving the expenditure of money for that school year, shall not be submitted for a vote of the qualified District voters more than twice.

The School District budget, once adopted, becomes the basis for establishing the tax levy on real property within the District.

Adopted: 4/8/09
SUBJECT: ADMINISTRATION OF THE BUDGET

The Superintendent of Schools, working in conjunction with the administrative staff, is responsible to the Board for the administration of the budget.

a) He/she shall acquaint District employees with the final provisions of the program budget and guide them in planning to operate efficiently and economically within these provisions.

b) Under his/her direction the District shall maintain such records of accounting control as are required by the New York State Uniform System of Accounts for School Districts, the Board of Education, and such other procedures as are deemed necessary and shall keep the various operational units informed through periodic reports as to the status of their individual budgets.

c) Board approval is required prior to the expenditure of District funds.

Adopted: 4/8/09
SUBJECT: CONTINGENCY BUDGET

The School District budget for any school year or any part of such budget, or any proposition involving the expenditure of money for such school year, shall not be submitted for a vote of the qualified voters of the District more than twice in any school year.

If the original proposed budget is not approved by District voters at the Annual District Meeting and Election, the Board has the option of either resubmittting the original or revised budget for voter approval at a special meeting held at a later date; or the Board may, at that point, adopt a contingency budget and levy a tax for teachers' salaries and ordinary contingent expenses as enumerated in law. If the Board decides to submit either the original or a revised budget to the voters for a second time, and the voters do not approve the second budget submittal, the Board shall adopt a contingency budget and levy a tax for those expenditures mandated pursuant to law and/or for those services necessary to maintain the educational program.

The contingency budget will include the sum necessary for teachers' salaries (i.e., professional educator positions certificated by the State Education Department which include teachers, administrators, teaching assistants, and professional specialists in the various areas of pupil personnel services) and ordinary contingent expenses as determined by the Board in accordance with law including, but not limited to, the purchase of library books and other instructional materials associated with the school library; expenses for cafeteria or restaurant services; and expenses incurred for interscholastic athletics, field trips and other extracurricular activities. Ordinary contingent expenses include, but are not limited to, legal expenses incurred by the District; expenditures specifically authorized by statute; and other items necessary to maintain the educational program, preserve property, and assure the health and safety of students and staff. As deemed necessary, school counsel may be consulted for review as to those items considered to be ordinary contingent expenses prior to Board adoption of the contingency budget.

In accordance with law, the contingency budget will reflect the statutory expenditure limits imposed on the administrative component of the contingency budget as well as the total spending authorized in the overall contingency budget.

With regard to overall District spending, the contingency budget, as a whole, shall not result in a percentage increase in total spending over the District's total spending under the School District budget for the prior year that exceeds the lesser of:

a) The result when one hundred twenty percent (120%) is multiplied by the percentage increase in the Consumer Price Index (CPI), with the result rounded to two decimal places; or

b) Four percent (4%).

Additionally, the administrative component of the contingency budget shall not comprise a greater percentage of the contingency budget exclusive of the capital component than the lesser of:

(Continued)
SUBJECT: CONTINGENCY BUDGET (Cont'd.)

a) The percentage the administrative component had comprised in the prior year budget exclusive of the capital component; or

b) The percentage the administrative component had comprised in the last proposed defeated budget exclusive of the capital component.

The Consumer Price Index to be used refers to the percentage that represents the average of the national consumer price indexes determined by the U.S. Department of Labor for the twelve-month period preceding January first of the current year.

In determining the increase in total expenses when computing the contingency budget percentage increase, the following expenditures shall be disregarded:

a) Expenditures resulting from a tax certiorari proceeding;

b) Expenditures resulting from a court order or judgment against the School District;

c) Emergency expenditures that are certified by the Commissioner of Education as necessary as a result of damage to, or destruction of, a school building or school equipment;

d) Capital expenditures resulting from the construction, acquisition, reconstruction, rehabilitation or improvement of school facilities, including debt service and lease expenditures, subject to the approval of qualified voters;

e) Expenditures in the contingency budget attributable to projected increases in public school enrollment, which may include increases attributable to the enrollment of students attending a pre-kindergarten program established in accordance with Education Law Section 3602-e;

f) Non-recurring expenditures in the prior year's School District budget;

g) Expenditures for payments to charter schools; and

h) Expenditures for self-supporting programs (i.e., any programs that are entirely funded by private funds that cover all the costs of the program).

In addition, the Board of Education shall be authorized to add appropriations for the following:

a) The categories of expenditures listed in a) through h) above subject to the approval of qualified voters;

(Continued)
SUBJECT: CONTINGENCY BUDGET (Cont'd.)

b) Expenditures resulting from an actual increase in enrollment over the projected enrollment used to develop the contingency budget; and

c) Expenditures of gifts, grants in aid for specific purposes or for general use or insurance proceeds in addition to that which has been previously budgeted.

Should the Board of Education adopt a contingency budget, it will officially pass a resolution reflecting such action; and that resolution shall incorporate by reference a statement specifying the projected percentage increase or decrease in total spending for the school year, and explain the reasons why the Board disregarded any portion of an increase in spending in formulating the contingency budget.

Adopted: 4/8/09
SUBJECT: ACCEPTANCE OF GIFTS, GRANTS AND BEQUESTS TO THE SCHOOL DISTRICT

The Board may accept gifts, grants and/or bequests of money, real or personal property, as well as other merchandise which, in view of the Board, add to the overall welfare of the School District, provided that such acceptance is in accordance with existing laws and regulations. However, the Board is not required to accept any gift, grant or bequest and does so at its discretion, basing its judgment on the best interests of the District. Furthermore, the Board will not accept any gift, grant or bequest which constitutes a conflict of interest and/or gives an appearance of impropriety.

At the same time, the Board will safeguard the District, the staff and students from commercial exploitation, from special interest groups, and the like.

The Board will not accept any gifts or grants which will place encumbrances on future Boards, or result in unreasonable additional or hidden costs to the District.

The Board of Education will not formally consider the acceptance of gifts or grants until and unless it receives the offer in writing from the donor/grantor. Any such gifts or grants donated to the Board and accepted on behalf of the School District must be by official action and resolution passed by Board majority. The Board would prefer the gift or grant to be a general offer rather than a specific one. Consequently, the Board would suggest that the donor/grantor work first with the school administrators in determining the nature of the gift or grant prior to formal consideration for acceptance by the Board. However, the Board, in its discretion, may direct the Superintendent of Schools to apply such gift or grant for the benefit of a specific school or school program.

The Board is prohibited, in accordance with the New York State Constitution, from making gifts/charitable contributions with School District funds.

Gifts and/or grants of money to the District shall be annually accounted for under the trust and agency account in the bank designated by the Board of Education.

All gifts, grants and/or bequests shall become School District property. A letter of appreciation, signed by the President of the Board and the Superintendent, may be sent to a donor/grantor in recognition of his/her contribution to the School District.

Gift Giving

The Board of Education recognizes that gift giving, especially during the holiday season, may be a common practice for many District employees. While the giving or exchanging of gifts may be acceptable among staff members, the Board strongly encourages District employees and students to show appreciation through written notes or greeting cards.

(Continued)

Additionally, all business contacts will be informed that gifts exceeding seventy-five dollars ($75) to District employees will be returned or donated to charity.

The Superintendent will be responsible for selling the equipment in such a way so as to maximize the net proceeds of sale which may include a bona fide public sale preceded by adequate public notice. If it is determined that reasonable attempts to dispose of the equipment have been made and such attempts have not produced an adequate return, the Superintendent or his/her designee may dispose of the equipment in any manner which he/she deems appropriate.

Textbooks

Textbooks may lose their value to the educational program because of changes in the curriculum or they contain outdated material and/or are in poor condition.

If textbooks are no longer useful or usable, the procedures for disposal shall adhere to the following order of preference:

b) The cell phone may not be used by anyone other than the School District employee.

Adopted: 4/8/09
SUBJECT: REIMBURSEMENT FOR MEALS/REFRESHMENTS

Travel Outside of District/Emergency Meetings

School District officials and employees are entitled to reimbursement for necessary expenses incurred in the performance of their official duties. However, it is the position of the New York State Comptroller's Office that meals of public officers and employees generally should not be reimbursed or paid by the municipal entity unless the officer or employee is traveling outside his/her regular work area on official business for an extended period of time, or where events prevent them from taking off during mealtime for food consumption because of a pressing need to complete business. All requests for reimbursement must document who attended the meetings and how the meetings fit these conditions.

Staff/Board Meetings and District Events

However, the Board of Education recognizes that at certain times it may be appropriate to provide meals and/or refreshments at District meetings and/or events which are being held for an educational purpose. Prior approval of the Superintendent/designee must be obtained for food and beverages provided at meetings or activities which will be charged to the District.

Any such expenditures must be appropriately documented with an itemized receipt and information showing the date and purpose of the meeting, food served, who attended the meetings and why the attendees needed food and/or refreshments to conduct School District business. These requirements must be met for meals/refreshments provided by the school lunch fund or local vendors, charged to District credit cards and/or reimbursed to a School District official.

In no case will the costs for meals exceed the current Federal per diem meal rates for the geographic area.

NOTE: Refer also to Policy #6161 -- Conference/Travel Expense Reimbursement

- $5,000 and under the Business Administrator may authorize
- $5,001 to $19,999 the Superintendent will authorize
- $20,000 and over will require Board of Education approval

All transfers to one account will be considered cumulatively when determining these dollar thresholds.

All budget transfers greater than $5,000 will be reported to the Board as part of the Treasurer’s report.

Adopted: 4/8/09
SUBJECT: PURCHASING

The District's purchasing activities will be part of the responsibilities of the Business Office, under the general supervision of the Purchasing Agent designated by the Board of Education. The purchasing process should enhance school operations and educational programs through the procurement of goods and services deemed necessary to meet District needs.

Competitive Bids and Quotations

Except as otherwise permitted by law, all contracts for public work involving an expenditure of more than $35,000 and all purchase contracts involving an expenditure of more than $20,000 shall be awarded by the Board to the lowest responsible and responsive bidder furnishing the required security after advertisement for sealed bids. However, the District may, in its discretion, award purchase contracts on the basis of "best value" to a responsive and responsible bidder or offeror, provided the Board has authorized such action by resolution adopted at a public meeting. “Best value” is defined as optimizing quality, cost and efficiency, and shall reflect, whenever possible, objective and quantifiable analysis, and may also take into consideration small businesses or certified minority- or women-owned businesses as defined in State Finance Law §163.

As required by law, the Superintendent or designee will follow normal bidding procedures in all cases where needed quantities of like items will total the maximum level allowed by law during the fiscal year, (similarly for public works-construction, repair, etc.) and in such other cases that seem to be to the financial advantage of the School District.

A bid bond may be required if considered advisable.

No bid for supplies shall be accepted that does not conform to specifications furnished unless specifications are waived as immaterial by Board action. Contracts shall be awarded to the lowest responsible bidder who meets specifications. However, the Board may choose to reject any bid.

Rules shall be developed by the administration for the competitive purchasing of goods and services.

The Superintendent is authorized to enter into cooperative bidding for various needs of the School District.

Exceptions to Competitive Bidding or Quotations

a) State Contract: Purchases may be made through available State contracts of the New York State Office of General Services whenever such purchases are in the best interest of the District.

SUBJECT: ALLEGATIONS OF FRAUD

Reporting and Investigations of Allegations of Fraud

All Board members and officers, District employees and third party consultants are required to abide by the District's policies, administrative regulations and procedures in the conduct of their duties. Further, all applicable federal and/or state laws and regulations must be adhered to in the course of District operations and practices. Any individual who has reason to believe that financial improprieties or wrongful conduct is occurring within the School System is to disclose such information according to the reporting procedures established by the District. The reporting procedures will follow the chain of command as established within the department or school building or as enumerated in the District's Organizational Chart. In the event that the allegations of financial improprieties/fraud and/or wrongful conduct concern the investigating official, the report shall be made to the next level of supervisory authority. If the chain of supervisory command is not sufficient to ensure impartial, independent investigation, allegations of financial improprieties/fraud and/or wrongful conduct will be reported as applicable, to the Internal Auditor (if available), or the Independent (External) Auditor, or the School Attorney, or the Board of Education. The District's prohibition of wrongful conduct, including fraud, will be publicized within the District as deemed appropriate; and written notification will be provided to all employees with fiscal accounting/oversight and/or financial duties including the handling of money.

Upon receipt of an allegation of financial improprieties/fraud and/or wrongful conduct, the Board or designated employee(s) will conduct a thorough investigation of the charges. However, even in the absence of a report of suspected wrongful conduct, if the District has knowledge of, or reason to know of, any occurrence of financial improprieties/fraud and/or wrongful conduct, the District will investigate such conduct promptly and thoroughly. To the extent possible, within legal constraints, all reports will be treated as confidentially and privately as possible. However, disclosure may be necessary to complete a thorough investigation of the charges and/or to notify law enforcement officials as warranted, and any disclosure will be provided on a "need to know" basis. Written records of the allegation, and resulting investigation and outcome will be maintained in accordance with law.

Based upon the results of this investigation, if the District determines that a school official has engaged in financial improprieties/fraudulent and/or wrongful actions, appropriate disciplinary measures will be applied, up to and including termination of employment, in accordance with legal guidelines, District policy and regulation, and any applicable collective bargaining agreement. Third parties who are found to have engaged in financial improprieties/fraud and/or wrongful conduct will be subject to appropriate sanctions as warranted and in compliance with law. The application of such disciplinary measures by the District does not preclude the filing of civil and/or criminal charges as may be warranted. Rather, when school officials receive a complaint or report of alleged financial improprieties/fraud and/or wrongful conduct that may be criminal in nature, law authorities should be immediately notified.

(Continued)
SUBJECT: ALLEGATIONS OF FRAUD (Cont'd.)

An appeal procedure will also be provided, as applicable, to address any unresolved complaints and/or unsatisfactory prior determinations by the applicable investigating officer(s).

SUBJECT: FACILITIES: INSPECTION, OPERATION AND MAINTENANCE

Operation and Maintenance

The Superintendent is charged with the responsibility for administering plant operations in the most efficient and economical manner possible, while placing high priority on health and safety of students and conservation of natural resources.

The Board, through the Superintendent and his/her staff, has the responsibility of protecting the District investment in plant and facilities through a systematic maintenance program.

It is expected that the program shall include periodic preventive maintenance activities, long-range maintenance schedules and emergency repair procedures. It is further expected that all maintenance work will be carried out in a manner that will cause the least interference with the educational program.

Construction and Remodeling of School Facilities

All capital projects and maintenance must assure compliance with the requirements of the New York State Uniform Fire Prevention and Building Code, the Manual of Planning Standards and the Regulations of the Commissioner of Education. All new buildings must be formally submitted no matter the size or cost. The New York State Education Department Office of Facilities Planning has provided an Instruction Guide at http://www.emsc.nysed.gov/facplan/ProjMgmt.htm.

Plans and specifications for the erection, enlargement, repair or remodeling of facilities of the School District shall be submitted to the Commissioner when the contemplated construction costs of such work are ten thousand dollars ($10,000) or more, and for all projects affecting the health and safety of students.

Plans and specifications submitted to the Commissioner shall bear the signature and seal of an architect or engineer licensed to practice in the State of New York. The architect or engineer who sealed the plans and specifications shall also certify that the plans and specifications conform to the standards set forth in the State Uniform Fire Prevention and Building Code (19 NYCRR Parts 1220 through 1226) and the State Energy Conservation Construction Code (19 NYCRR Part 1240).

For remodeling or construction projects costing five thousand dollars ($5,000) or more, the District shall assure compliance with the requirements of the State Uniform Fire Prevention and Building Code (19 NYCRR Parts 1220 through 1226) and Commissioner's Regulations Part 155, and shall retain the services of an architect or engineer licensed to practice in New York State.

SUBJECT: FACILITIES: INSPECTION, OPERATION AND MAINTENANCE (Cont'd.)

For remodeling or construction projects costing less than five thousand dollars ($5,000), the District shall assure compliance with the requirements of the State Uniform Fire Prevention and Building Code (19 NYCRR Parts 1220 through 1226) and Commissioner's Regulations Part 155. 

Inspections

The administration of the School System shall cooperate with appropriate officials conducting health, fire, asbestos, bus, and boiler inspections. The administration shall keep the Board of Education informed of the results of such inspections in a timely fashion.

In accordance with law, local building inspectors may not enter District premises at any time they wish. Only the Fire Safety Inspector conducting the Annual Fire Safety Inspection may enter District premises for inspections.

In addition, per the requirements of the Asbestos Hazard Emergency Response Act (AHERA), the District will at least once each school year inform all employees and building occupants (or their legal guardians) about all asbestos inspections, response actions, post-response action activities, as well as triennial re-inspection activities and surveillance activities that are either planned or in progress. Written notice will be provided in the District newsletter and will be filed in the District asbestos management plan.

Comprehensive Public School Building Safety Program (Rescue)

To ensure that all school facilities are properly maintained and preserved and provide suitable educational settings, the Board of Education requires that all occupied school facilities which are owned, operated or leased by the District comply with the provisions of the Comprehensive Public School Safety Program and the Uniform Code of Public School Building Inspections, Safety Rating and Monitoring as prescribed in Commissioner's Regulations. For this reason, the School District shall develop a Comprehensive Public School Building Safety Program in accordance with Commissioner's Regulations.

The program shall be reevaluated and made current at least annually, and shall include the following:

a) A five (5) year capital facilities plan which will include an appraisal of the following: the educational philosophy of the District, with resulting administrative organization and program requirements; present and projected student enrollments; space use and State-rated student capacity of existing facilities; the allocation of instructional space to meet the current and future education program and service needs, and to serve students with

(Continued)
disabilities in settings with nondisabled peers; priority of need of maintenance, repair or modernization of existing facilities, including consideration of the obsolescence and retirement of certain facilities; and the provision of additional facilities.

b) A District-wide building inventory, which will include information pertaining to each building including, but not limited to:

1. Type of building, age of building, size of building;
2. Rated capacity, current enrollment;
3. List of energy sources and major systems (lighting, plumbing, electrical, heating); and
4. Summary of triennial Asbestos Inspection reports.

c) Annual Visual Inspections:

1. An annual visual inspection of each occupied building and assignment of a safety rating score. The inspection committee must include a state certified code enforcement official, the District's Facility Director or designee, and a member of the District's Health and Safety Committee.
2. The Commissioner shall require a re-inspection of school buildings where a report of inspection identified violations that, if uncorrected, would cause the department to deny an annual Certificate of Occupancy to such school building, and shall require additional re-inspections until it is demonstrated to the satisfaction of the Commissioner that said violations have been corrected.

d) A building condition survey shall be conducted for all occupied school buildings once every five (5) years by a team that includes at least one (1) licensed architect or engineer.

e) A District-wide monitoring system which includes:

1. Establishing a Health and Safety Committee;
2. Development of detailed plans and a review process of all inspections;
3. Procedures for a response in writing to all inquiries about building health and safety concerns, a copy of which will be sent to the District's Health and Safety Committee for oversight, and a copy kept on permanent file.

(Continued)
f) Procedures to ensure the safety of the building occupants while a construction/renovation project is taking place. These procedures will include:

1. Notification to parents, staff and the community at least two (2) months in advance of a construction project of ten thousand dollars ($10,000) or more to be conducted in a school building while the building is occupied; provided, however, that in the case of emergency construction projects, such notice shall be provided as far in advance of the start of construction as is practicable;

2. A plan to ensure that all contractors comply with all health and safety issues and regulations, and wear photo identification badges;

3. An opportunity for the District's Health and Safety Committee to conduct a walk-through inspection of newly renovated or constructed areas to confirm that the area is ready to be reopened for use; and

4. An emergency plan which will address potential concerns with the capital project including, but not limited to, evacuation procedures, fire drills, and structural failures.

School Facility Report Cards

The School District shall prepare an annual School Facility Report Card for each occupied school building, including a description of the activities of the District's Health and Safety Committee.

The School Facility Report Card for each building shall be reviewed annually by the Board of Education. The Board shall report in a public meeting on the status of each item set forth in Commissioner's Regulations for each facility located in the District.

In compliance with the New York State Clean Indoor Air Act, the District will prominently post its Smoking/Tobacco Use policy and signs prohibiting all forms of tobacco products in District buildings and other appropriate locations; and will supply a copy upon request to any current or prospective employee. The District will also designate a school official to tell individuals who smoke in a non-smoking area that they are in violation of the New York State Public Health Law, Education Law, the federal Pro-Children Act of 1994 and District policy.

The District shall also ensure that this policy is communicated to staff, students, parents/guardians, volunteers, and visitors as deemed appropriate in order to orient all persons to the District's "No Smoking" Policy and environment.

SUBJECT: ENERGY/WATER CONSERVATION AND RECYCLING OF SOLID WASTE

Energy/Water Conservation

The Board of Education recognizes the importance of energy and water conservation and is committed to the analysis, development, and initiation of conservation measures throughout the District for the purpose of reducing energy consumption, particularly in these times of declining levels of natural energy resources and increasing cost of these resources. The Board will maintain an aggressive and responsible program to reduce consumption of energy by its facilities and to provide education on the conservation of energy.

The District will comply with the Property Maintenance Code of New York State, part of the New York State Uniform Fire Prevention and Building Code, which requires that indoor occupiable work spaces be maintained at a minimum temperature of sixty five (65) degrees from September 14 to May 31 during the period the spaces are occupied. There are exceptions for areas of vigorous physical activities such as gymnasiums as well as processing spaces such as coolers or freezers. However, by law, code or regulation there is no maximum temperature specified. Ventilation requirements only require fresh air, not cool air-conditioning.

Recycling

The Superintendent will develop a program for the source separation and segregation of recyclable or reusable materials in the District. This District-wide recycling plan shall include:

a) A conservation education program to teach students about their social responsibility for preserving our resources, and involvement of all students and personnel in a comprehensive effort to reduce, reuse and recycle waste materials;

b) A concerted effort to purchase recycled items and biodegradable rather than non-biodegradable products;

c) Separation of waste into appropriate categories for the purpose of recycling, including mercury-added consumer products; and

d) A cooperative effort with community recycling programs.

School Food Service Program (Lunch and Breakfast)

The Board has entered into an agreement with the New York State Education Department to participate in the National School Lunch Program, School Breakfast Program and/or Special Milk Program to receive commodities donated by the Department of Agriculture and to accept responsibility for providing free and reduced price meals to elementary and secondary students in the schools of the District.

The Superintendent or his/her designee shall have the responsibility to carry out the rules of the School Lunch and Breakfast Programs. The determination of which students are eligible is the responsibility of the Reviewing Official and Verification Official. Appeals regarding eligibility should be submitted to the Hearing Official of the District.

Free or reduced price meals may be allowed for qualifying students attending District schools upon receipt of a written application from the student's parent or guardian or a "Direct Certification" letter from the New York State Office of Temporary and Disability Assistance (OTDA). Applications will be provided by the School District to all families.

Procedures for the administration of the free and reduced price meal program of this School District will be the same as those prescribed in current state and federal laws and regulations.

Child Nutrition Program

Restriction of Sweetened Foods in School

The sale of sweetened foods will be prohibited from the beginning of the school day until the end of the last scheduled meal period.

Sweetened foods consist of sweetened soda water, chewing gum, candy, including hard candy, jellies, gum, marshmallow candies, fondant, licorice, spun candy, candy coated popcorn, and water ices except those which contain fruit or fruit juices.

Restrictions on Sale of Milk Prohibited

Schools that participate in the National School Lunch Program may not directly or indirectly restrict the sale or marketing of fluid milk products at any time or in any place on school premises or at school-sponsored events.

Food Substitutions for Children with Disabilities

Federal regulations governing the operation of Child Nutrition Programs, Part B of the Individuals with Disabilities Education Act, and Section 504 of the Rehabilitation Act of 1973 require that children with disabilities be offered the opportunity to participate in all academic and nonacademic activities including the school nutrition programs. The District will make reasonable accommodations to those children with disabilities whose disabilities restrict their diets, such as providing substitutions and/or modifications in the regular meal patterns. Such meal substitutions for students with disabilities will be offered at no extra charge. A student with a disability must be provided substitutions in food when that need is supported by a statement signed by a physician attesting to the need for the substitutions and recommending alternate foods.

However, the school food service is not required to provide meal services (for example, School Breakfast Program) to students with disabilities when the meal service is not normally available to the general student body, unless a meal service is required under the student's individualized education program (IEP) or Section 504 Accommodation Plan as mandated by a physician's written instructions.

Food Substitutions for Nondisabled Children

Though not required, the District will also allow substitutions for non-disabled children who are unable to consume the regular meal because of medical or other special dietary needs if the request is supported by a statement signed by a recognized medical authority.

The District may also allow substitutions for fluid milk with a non-dairy beverage that is nutritionally equivalent (as established by the Secretary of Agriculture) to fluid milk and meets nutritional standards for students who are unable to consume fluid milk because of medical or other special dietary needs if the request is supported by a statement signed by a recognized medical authority or by the student's parent/legal guardian.

HACCP-Based Food Safety Program

Schools participating in the National School Lunch and/or School Breakfast programs are required to implement a food safety program based on Hazard Analysis and Critical Control Point (HACCP) principles. The District will ensure that a written school food safety plan is in place which: includes methods for documenting menu items in the appropriate HACCP process category; documenting critical control points of food production; monitoring; establishing and documenting corrective actions; recordkeeping; and reviewing and revising the overall food safety program.

Adopted: 6/13/18
SUBJECT: “CHARGING” SCHOOL MEALS AND PROHIBITION AGAINST SHAMING

The Board of Education recognizes that on occasion, students may not have enough funds for a meal. To ensure that students do not go hungry, the Board will allow students who do not have enough funds to “charge” the cost of meals to be paid back at a later date subject to the terms in this policy.

To comply with State guidelines and maintain a system for accounting for charged meals, regarding both full and reduced-price meals, the Board shall:

1. allow only regular reimbursable meals to be charged, excluding extras, à la carte items, side dishes, additional meals, and snacks (“competitive foods”); and
2. use a computer-generated point of sale system, which identifies and records all meals as well as collects repayments.

Charged meals must be counted and claimed for reimbursement on the day that the student charged (received) the meal, not the day the charge is paid back. When charges are paid, these monies are not to be considered “à la carte” transactions, as a section on the daily cash report or deposit summary reads “charges paid.”

Students shall not be denied a reimbursable meal, even if they have accrued a negative balance from other cafeteria purchases, unless the parent/guardian has provided written permission to the school to withhold a meal. No student with unpaid charges will be prohibited from purchasing food if they have money that day.

If school food authorities (SFAs) suspect that a student may be abusing this policy, written notice will be provided to the parent/guardian.

Students who cannot pay for a meal or who have unpaid meal debt shall not be publicly identified or stigmatized (including wristbands or hand stamps), required to do chores or work to pay for meals, or have meals thrown away after they have been served. District staff shall not discuss a student’s unpaid meal debt in front of other students. The district shall not take any action directed at a student to collect unpaid school meal fees. However, the district may discretely notify students of their account balances, and why certain items (e.g., à la carte, etc.) could not be provided with charged meals.
SUBJECT: “CHARGING” SCHOOL MEALS AND PROHIBITION AGAINST SHAMING

Student Account Balance Notification

Parents/guardians shall be discretely notified of student account balances regularly. When a student’s account balance falls to $5.00 and whenever a meal is charged, the district will discretely notify the parent/guardian of the balance, the process to refill the account. This notification will continue regularly until the account is replenished. Parents/guardians must repay all unpaid charges remaining at the end of the year or before their child leaves the district, whichever occurs first.

The district shall discretely notify parents/guardians of students with negative balances of at least five meals, determine if the student is directly certified to be eligible for free meals, and attempt to reach the parent/guardian to assist them in the application process for free and/or reduced price meals, and determine if there are other issues within the household causing the insufficient funds and offer appropriate assistance. If a parent/guardian regularly fails to provide meal money and does not qualify for free or reduced price meals, the district may take other actions as appropriate, including notifying the local department of social services if neglect is suspected.

The school district shall notify all parents/guardians in writing on an annual basis at the start of the school year and to families transferring during the year, outlining the requirements of this policy. The policy shall also be published in appropriate school and district publications. All staff involved in implementing and enforcing this policy shall also be notified of these requirements and their responsibilities. The district’s enrollment process shall include the application process for free and reduced price meals. If the district becomes aware that a student is so eligible, it shall file an application for the student. Staff responsible for assisting foster, homeless and migrant students shall coordinate with the food services staff to ensure such students receive free school meals.

Unpaid Meal Charges and Debt Collection

Unpaid meal charges are a financial burden to the district and taxpayers and can negatively affect the school program. Unpaid meal charges shall be considered “delinquent” as per the district’s accounting practices. The district shall attempt to recover unpaid meal charges before the end of the school year, but may continue efforts into the next school year. The district shall notify parents/guardians of unpaid meal charges at regular intervals, and may engage in collection activities by district staff, which do not involve debt collectors as defined in federal law (15 USC §1692a), and may not charge fees or interest. The district shall offer repayment plans, and may take other actions that do not result in harm or shame to the child, until unpaid charges are paid.
Remaining Account Balances

Remaining funds may be carried over to the next school year. When students leave the district or graduate, the district will attempt to contact the parent/guardian to return remaining funds. Parents/guardians may request that funds be transferred to other students (e.g., siblings, unpaid accounts). All transfer requests must be in writing. Unclaimed funds remaining after 1 year shall be absorbed by the school meal account.

Staff

Staff members are allowed to purchase food from the district’s food services. However, all purchases must be paid for at the point of sale cash, check or payment account will be accepted. Staff members are not allowed to charge meals to be repaid later.

Building Principals, working with the head of food services, shall ensure that all district and food service staff with responsibilities under this policy will be trained on the provisions of this policy and the requirements of Education Law section 908.

Adoption date: June 13, 2018
SUBJECT: DISTRICT WELLNESS POLICY

Purpose

Germantown Central School District has developed a local Wellness Policy, which includes goals for physical activity, nutrition education, and programs designed to promote student wellness.

Facts

a) Poor eating habits and sedentary lifestyles are more prevalent in children today than in the past two (2) decades.

b) The percentage of overweight children aged six to eleven (6-11) has more than doubled in the past twenty (20) years and among adolescents aged twelve to nineteen (12-19), the figure has more than tripled.

c) Less than forty percent (40%) of children and adolescents in America meet the Dietary Guidelines for saturated fat.

d) Almost eighty percent (80%) of young people do not eat the recommended number of servings of fruits and vegetables.

e) Factors that contribute are: large portion sizes, the over consumption of nutrient-poor foods and children's decrease in their level of activity.

f) The burden on society by obesity and related chronic diseases since 1980 has doubled in the children and tripled in adolescents. Indicators for diabetes and heart disease are also on the rise.

Therefore:

It is critical that children learn and adopt healthy behaviors while they are young, including establishing better eating habits. Tackling this issue at an early age helps young people develop good habits before they face health conditions. Encouraging physical activity and good nutrition are very important. By implementing a comprehensive policy - that includes consideration of and sensitivity to students, schools, families and the community environment - we can foster good nutrition and lifelong healthy choices. This policy is designed to support and meet the requirements of the Child nutrition and WIC Reauthorization Act.

These model guidelines were developed with input from the following organizations:

a) American Alliance for Health, Physical Education, Recreation and Dance (AAHPERD);

b) American Association of School Administrators (AASA);

(Continued)
SUBJECT: DISTRICT WELLNESS POLICY (Cont'd.)

c) Council of Chief State School Administrators (CCSSO);
d) National Association of Elementary School Principals (NAESP);
e) National Association of Secondary School Principals (NASSP);
f) National Association of State Boards of Education (NASBE);
g) National PTA;
h) National School Boards Association (NSBA);
i) School Nutrition Association (SNA);
j) American Dietetic Association (ADA).

Health and Nutrition Education

a) The Germantown Central School District program will ensure that students in kindergarten through grade 12 receive nutrition education that provides the knowledge they need to adopt healthy lifestyles. Nutrition education will be well integrated within a comprehensive school health education program and will include instruction that helps students learn more about the importance of various food groups; caloric, sugar and fat intake; healthy cooking methods; the recognition of the role media play in marketing and advertising foods and beverages; and the relationship of a balanced diet and regular exercise to a healthy lifestyle.

b) Nutrition concepts will be reinforced by all school personnel, and will be integrated into various subject areas. Nutrition education should include reinforcement of the importance of physical activity and the health risks associated with a sedentary lifestyle.

c) The Germantown Central School District will utilize the services of qualified nutrition professionals, including but not limited to the Food Service Department, Home and Career and Health Department members to lead the effort to implement nutrition education. Staff primarily responsible for nutrition education should be properly trained and regularly participate in professional development activities to effectively deliver quality nutrition education.

d) Germantown Central School District will provide educational information and encourage healthy eating and physical activity for families, both within the home and outside the home. Family members should be engaged as a critical part of the team responsible for teaching children about health and nutrition.

Nutritional Options in the School Environment - Foods and Beverages Served/Sold During the School Day and School Sponsored Events

a) Foods and beverages available during the school day will include a variety of healthy choices that are of excellent quality, appealing to students, and served at the proper temperature. Germantown Central School District will offer a National School Breakfast and Lunch Program (Continued)
SUBJECT: DISTRICT WELLNESS POLICY (Cont'd.)

that follows the regulations set forth by the USDA, the Dietary Guidelines for Americans and the NYS Education Department of Child Nutrition.

b) Foods and Beverages available during the school day should minimize use of trans and saturated fats, sodium and sugar as defined by the Dietary Guidelines for Americans.

c) Food and beverage providers should offer modest portion sizes that are age-appropriate for elementary, middle and high school students, respectively.

d) A la carte foods that are available should include a variety of choices of nutritious foods in accordance with the guidelines of the NYS School Nutrition Association's "Choose Sensibly" program.

e) Parents, teachers, students and school administrators will be engaged in choosing the competitive food selections for their local school and should strictly adhere to the regulations established by the USDA and further refined by the NYS Education Department of Child Nutrition. The USDA defines competitive food selection as foods offered at school, other than meals served through the USDA's school meal program (school lunch and school breakfast).

f) Products offered in a la carte, vending and school functions should also offer a variety of healthy choices. The guidelines of the "Choose Sensibly" program can also be applied to these areas and foods so identified.

g) Drinking water and hand-washing facilities should be conveniently available for students at all times. Students should be reminded to wash their hands before meals (to prevent the spread of germs and reduce the risk of illness).

h) Classroom snacks and celebrations should reinforce the importance of healthy choices. Classroom celebrations, especially in elementary schools, should encourage healthy choices, and portion control. Parents and families should receive guidance from the school on foods that are appropriate for such celebrations.

i) Germantown Central School should encourage fundraisers that promote positive health habits such as the sale of non-food and nutritious food items, as well as fundraising to support physical activity events.

j) Foods and beverages sold at school functions should reinforce the importance of healthy choices.
SUBJECT: DISTRICT WELLNESS POLICY (Cont'd.)

Food Environment

a) Students should be encouraged to start each day with a healthy breakfast since children who start their day hungry find it difficult to stay alert and learn. Bus schedules and morning breaks should be coordinated to allow students ample time before class to eat breakfast.
b) Students should be provided sufficient time to eat during meal periods.
c) Lunch periods should be scheduled as near the middle of the school day as possible.
d) Recess for elementary grades should be scheduled before lunch, if at possible.
e) Dining areas should be attractive and include enough seating areas to accommodate all students who would like to sit and eat lunch, as well as enough service areas so that students do not have to spend too much time waiting in line.
f) Activities to promote wellness should incorporate nutrition education and be connected to strategies that encourage physical activity, academic achievement, and positive youth development.

Food Service Operations

a) Germantown CSD will maintain a coordinated and comprehensive outreach, promotion and pricing plan to ensure maximum participation in the school meal program, and should ensure that all eligible children qualify and receive free and reduced-price meals.
b) Germantown CSD will ensure that students eligible to receive free or reduced-price meals are not treated differently from other students or easily identified by their peers.
c) Guidelines for the reimbursable meals served will not be less restrictive than federal regulations and guidance issued by the Secretary of Agriculture.
d) Germantown CSD will employ a food service director who is properly qualified, according to professional standards, to administer the school food service program and satisfy reporting requirements.
e) All food service personnel will have adequate training and participate in ongoing professional development.

(Continued)
f) Germantown CSD will plan menus that, over the course of a week, will meet the nutrition standards recommended in the Dietary Guidelines for Americans.

g) Schools will involve families and community organizations in the development of policies and programs to insure that school meal options are culturally sensitive and meet special dietary needs.

h) Germantown School District should insure that required and effective good safety practices are applied to all foods prepared by Food Service Department, sold or served at school or school-sponsored events.

Physical Education and Physical Activity

a) Germantown CSD will ensure that every student from kindergarten through twelfth grade receives regular, age-appropriate quality physical education in accordance with the NYS Standards. Age-appropriate physical education is activity that utilizes movement concepts, motor skills, cognitive skills and intensity appropriate for a child's state of development.

b) All physical education classes should be taught by certified physical education teachers.

c) Physical education will be designed to build interest and proficiency in the skills, knowledge and attitudes essential to a lifelong physically active lifestyle. It will include providing information, fostering a positive atmosphere, encouraging self-discipline, developing motor skills, and promoting activities that can be carried out over the course of students' lives.

d) The physical education curriculum should be coordinated with the health education curriculum and both meet the NYS standards.

e) Physical education will provide safe and satisfying activity for all students, including those with special needs. Whenever possible, physical education staff will be consulted for scheduling purposes in order to promote a safe classroom environment.

f) Whenever possible, elementary students should be provided daily recess that encourages physical activity.

g) Germantown CSD should ensure that students have adequate space and equipment to participate in structured physical activity. Facilities on school grounds will be kept safe and well maintained.

SUBJECT: DISTRICT WELLNESS POLICY (Cont’d.)

Local Wellness Committee

a) Germantown Central School District will form a diverse local Wellness Committee comprised of the major stakeholder groups: administrators, faculty, food service staff, parents, students and community members. Germantown Central School will attempt to recruit community members for the local Wellness Committee who are involved in efforts to improve the overall health and well-being of children and youth. These stakeholders can share and apply lessons learned from other programs.

b) The local Wellness Committee should monitor and evaluate with the support of administration, the School District's policies to ensure they are properly implemented and progress is made in improving and maintaining students’ nutrition and physical activity patterns.

c) Germantown Central School District will attempt to supplement its efforts by seeking nutrition and physical activity partnerships with relevant community organizations and corporate citizens.

d) Since school staff and support personnel serve as role models, Germantown Central School District should encourage activities and create programs that support healthy lifestyles for all School District employees.

Monitoring and Evaluation

a) Prior to developing new health and wellness guidelines, Germantown Central School District shall use the School Health Index in identifying and prioritizing needs, shaping new policies, and providing a basis for formative and summative assessments of student health before and after implementation of the new policies.

b) To satisfy the requirements of the Child Nutrition and WIC Reauthorization Act of 2004, the local Wellness Committee shall monitor the School District's implementation of the wellness policy and evaluate student health and activities. Such monitoring will help gauge whether or not policies have in fact been implemented, whether or not they are effective, and their overall impact on student and staff health. The results may also highlight areas in need of further change and help shape future local policy. The local Wellness Committee will utilize the School Health Index as a tool to evaluate the effectiveness of this plan. In an effort to improve the health of the Germantown Central School District community, the local Wellness Committee will report annually to the Board of Education on the effectiveness of this plan and any proposed changes for subsequent years.

A records management officer shall be designated by the Superintendent, subject to the approval of the Board of Education. Such records management officer shall coordinate the development of and oversee a program for the orderly and efficient management of records, including the legal disposition or destruction of obsolete records, and be given the authority and responsibility to work with other local officials at all levels in the development and maintenance of the records management program.

In addition, a Records Advisory Board may be created to assist in establishing and supporting the records management program. The District's legal counsel, the fiscal officer, and the Superintendent/designee may comprise the Advisory Board.

Appropriate regulations and procedures shall be developed.

Adopted: 4/8/09
SUBJECT: DISPOSAL OF CONSUMER REPORT INFORMATION AND RECORDS

In accordance with the Federal Trade Commission's (FTC) "Disposal Rule," and in an effort to protect the privacy of consumer information, reduce the risk of fraud and identity theft, and guard against unauthorized access to or use of the information, the School District will take appropriate measures to properly dispose of sensitive information (i.e., personal identifiers) contained in or derived from consumer reports and records. Any employer who uses or possesses consumer information for a business purpose is subject to the Disposal Rule. According to the FTC, the standard for proper disposal of information derived from a consumer report is flexible, and allows the District to determine what measures are reasonable based on the sensitivity of the information, the costs and benefits of different disposal methods, and changes in technology.

The term "consumer report" shall include information obtained from a consumer reporting company that is used - or expected to be used - in establishing a consumer's eligibility for employment or insurance, among other purposes. The term "employment purposes" when used in connection with a consumer report means a report used for the purpose of evaluating a consumer for employment, promotion, reassignment or retention as an employee.

The FTC Disposal Rule defines "consumer information" as "any record about an individual, whether in paper, electronic, or other form, that is a consumer report or is derived from a consumer report. Consumer information also means a compilation of such records. Consumer information does not include information that does not identify individuals, such as aggregate information or blind data."

Information Covered by the Disposal Rule

The FTC has not included a rigid definition of the kinds of information that would be considered to identify particular individuals. In accordance with FTC guidance, there are a variety of personal identifiers beyond simply a person's name that would bring information within the scope of the Disposal Rule, including, but not limited to, a social security number, driver's license number, phone number, physical address, and e-mail address. Depending upon the circumstances, data elements that are not inherently identifying can, in combination, identify particular individuals.

"Proper" Disposal

The FTC Disposal Rule defines "dispose," "disposing," or "disposal," as:

a) "The discarding or abandonment of consumer information," or

b) "The sale, donation, or transfer of any medium, including computer equipment, upon which consumer information is stored."

(Continued)
SUBJECT: DISPOSAL OF CONSUMER REPORT INFORMATION AND RECORDS (Cont’d.)

The District will utilize disposal practices that are reasonable and appropriate to prevent the unauthorized access to or use of information contained in or derived from consumer reports and records. Reasonable measures to protect against unauthorized access to or use of consumer information in connection with District disposal include the following examples. These examples are not exclusive or exhaustive methods for complying with the Disposal Rule:

a) Burning, pulverizing, or shredding of papers containing consumer information so that the information cannot practicably be read or reconstructed.

b) Destroying or erasing electronic media containing consumer information so that the information cannot practicably be read or reconstructed.

c) After due diligence, entering into and monitoring compliance with a contract with another party engaged in the business of record destruction to dispose of material, specifically identified as consumer information, in a manner consistent with the Disposal Rule. In this context, due diligence could include:

1. Reviewing an independent audit of the disposal company's operations and/or its compliance with the Disposal Rule;

2. Obtaining information about the disposal company from several references or other reliable sources;

3. Requiring that the disposal company be certified by a recognized trade association or similar third party;

4. Reviewing and evaluating the disposal company's information security policies or procedures;

5. Taking other appropriate measures to determine the competency and integrity of the potential disposal company; or

6. Requiring that the disposal company have a certificate of registration from the New York Department of State issued on or after October 1, 2008.

d) For persons (as defined in accordance with the Fair Credit Reporting Act) or entities who maintain or otherwise possess consumer information through their provision of services directly to a person subject to the Disposal Rule, monitoring compliance with policies and procedures that protect against unauthorized or unintentional disposal of consumer information, and disposing of such information in accordance with examples a) and b) above.

(Continued)
SUBJECT: DISPOSAL OF CONSUMER REPORT INFORMATION AND RECORDS (Cont’d.)

Implementation of Practices and Procedures

The Board delegates to the Superintendent/designee(s) the authority and responsibility to review current practices regarding the disposal of consumer information; and to implement such further reasonable and appropriate procedures, including staff training as necessary, to ensure compliance with the FTC’s Disposal Rule.

SUBJECT: INFORMATION SECURITY BREACH AND NOTIFICATION

The School District values the protection of private information of individuals in accordance with applicable law and regulations. Further, the District is required to notify affected individuals when there has been or is reasonably believed to have been a compromise of the individual's private information in compliance with the Information Security Breach and Notification Act and Board policy.

a) "Private information" shall mean personal information in combination with any one or more of the following data elements, when either the personal information or the data element is not encrypted or encrypted with an encryption key that has also been acquired:

1. Social security number;
2. Driver's license number or non-driver identification card number; or
3. Account number, credit or debit card number, in combination with any required security code, access code, or password which would permit access to an individual's financial account.

"Private information" does not include publicly available information that is lawfully made available to the general public from federal, state or local government records.

**"Personal information" shall mean any information concerning a person which, because of name, number, symbol, mark or other identifier, can be used to identify that person.**

b) "Breach of the security of the system," shall mean unauthorized acquisition or acquisition without valid authorization of computerized data which compromises the security, confidentiality, or integrity of personal information maintained by the District. Good faith acquisition of personal information by an employee or agent of the District for the purposes of the District is not a breach of the security of the system, provided that private information is not used or subject to unauthorized disclosure.

Examples of Determining Factors

In determining whether information has been acquired, or is reasonably believed to have been acquired, by an unauthorized person or person without valid authorization, the District may consider the following factors, among others:

a) Indications that the information is in the physical possession and control of an unauthorized person, such as a lost or stolen computer or other device containing information; or

b) Indications that the information has been downloaded or copied; or

(Continued)
SUBJECT: INFORMATION SECURITY BREACH AND NOTIFICATION (Cont'd.)

c) Indications that the information was used by an unauthorized person, such as fraudulent accounts opened or instances of identity theft reported.

Notification Requirements

a) For any computerized data owned or licensed by the School District that includes private information, the District shall disclose any breach of the security of the system following discovery or notification of the breach to any New York State resident whose private information was, or is reasonably believed to have been, acquired by a person without valid authorization. The disclosure to affected individuals shall be made in the most expedient time possible and without unreasonable delay, consistent with the legitimate needs of law enforcement, or any measures necessary to determine the scope of the breach and restore the reasonable integrity of the data system. The District shall consult with the State Office of Cyber Security and Critical Infrastructure Coordination (CSCIC) to determine the scope of the breach and restoration measures.

b) For any computerized data maintained by the District that includes private information which the District does not own, the District shall notify the owner or licensee of the information of any breach of the security of the system immediately following discovery, if the private information was, or is reasonably believed to have been, acquired by a person without valid authorization. The notification requirement may be delayed if a law enforcement agency determines that such notification impedes a criminal investigation. The required notification shall be made after the law enforcement agency determines that such notification does not compromise the investigation.

Methods of Notification

The required notice shall be directly provided to the affected persons by one of the following methods:

a) Written notice;

b) Electronic notice, provided that the person to whom notice is required has expressly consented to receiving the notice in electronic form; and a log of each such notification is kept by the District when notifying affected persons in electronic form. However, in no case shall the District require a person to consent to accepting such notice in electronic form as a condition of establishing any business relationship or engaging in any transaction;

c) Telephone notification, provided that a log of each such notification is kept by the District when notifying affected persons by phone; or

(Continued)
SUBJECT: INFORMATION SECURITY BREACH AND NOTIFICATION (Cont’d.)

d) Substitute notice, if the District demonstrates to the State Attorney General that the cost of providing notice would exceed $250,000, or that the affected class of subject persons to be notified exceeds 500,000, or that the District does not have sufficient contact information. Substitute notice shall consist of all of the following:

1. E-mail notice when the District has an e-mail address for the subject persons;

2. Conspicuous posting of the notice on the District's website page, if the District maintains one; and

3. Notification to major statewide media.

Regardless of the method by which notice is provided, the notice shall include contact information for the notifying District and a description of the categories of information that were, or are reasonably believed to have been, acquired by a person without valid authorization, including specification of which of the elements of personal information and private information were, or are reasonably believed to have been, so acquired.

In the event that any New York State residents are to be notified, the District shall notify the State Attorney General, the Consumer Protection Board, and the State Office of Cyber Security and Critical Infrastructure Coordination as to the timing, content and distribution of the notices and approximate number of affected persons. Such notice shall be made without delaying notice to affected New York State residents.

In the event that more than five thousand (5,000) New York State residents are to be notified at one time, the District shall also notify consumer reporting agencies, as defined pursuant to State Technology Law Section 208, as to the timing, content and distribution of the notices and approximate number of affected persons. Such notice shall be made without delaying notice to affected New York State residents. A list of consumer reporting agencies shall be compiled by the State Attorney General and furnished upon request to school districts required to make a notification in accordance with State Technology Law Section 208(2), regarding notification of breach of security of the system for any computerized data owned or licensed by the District that includes private information.

NOTE: Refer also to Policy #5681 -- School Safety Plans

Adopted: 4/8/09
SUBJECT: SCHOOL SAFETY PLANS

The District-wide and building-level school safety plans have been adopted by the School Board only after at least one (1) public hearing that provided for the participation of school personnel, parents, students, and any other interested parties. Each plan shall be reviewed by the appropriate school safety team on at least an annual basis, updated as needed by July 1 and recommended to the Board of Education for approval. These plans will be designed to prevent or minimize the effects of serious violent incidents and emergencies and to facilitate the coordination of schools and the School District with local and county resources in the event of such incidents or emergencies. The School District, consisting of one school building, has developed a single building-level school safety plan, which also fulfills all requirements for development of the District-wide plan to ensure the safety and health of children and staff and to ensure integration and coordination with similar emergency planning at the municipal, county and state levels.

**Building-Level/District-Wide School Safety Plans**

Building-level school safety plan means a building-specific school emergency response plan that addresses prevention and intervention strategies, emergency response and management at the building level and has the contents as prescribed in Education Law and Commissioner's Regulations. As part of this plan the District will define the chain of command in a manner consistent with the National Incident Management System (NIMS)/Incident Command System (ICS).

The building-level plan shall be developed by the building-level school safety team. The building-level school safety team means a building-specific team appointed by the Building Principal, in accordance with regulations or guidelines prescribed by the Board of Education. The building-level team shall include, but not be limited to, representatives of teacher, administrator, and parent organizations, school safety personnel, other school personnel, community members, local law enforcement officials, local ambulance or other emergency response agencies, and any other representatives the School Board deems appropriate.

If the District receives federal preparedness funds, the District requires appropriate personnel to complete the IS-700 NIMS (National Incident Management System) introductory course.

**Filing/Disclosure Requirements**

The District shall file a copy of its comprehensive District-wide school safety plan and any amendments thereto with the Commissioner of Education no later than thirty (30) days after their adoption. A copy of each building-level school safety plan and any amendments thereto shall be filed with the appropriate local law enforcement agency and with the state police within thirty (30) days of its adoption. Building-level emergency response plans shall be confidential and shall not be subject to disclosure under the Freedom of Information Law or any other provision of law.

SUBJECT: CRISIS RESPONSE (POST INCIDENT RESPONSE)

When a crisis arises no school system is immune to the negative, physical or mental effect on its students, staff and the local community. Immediate, effective and responsible management and communication can address the crisis and maintain a District's integrity and credibility. Therefore, the District shall develop and maintain a unified position by:

a) Identifying a crisis response team to develop a plan and maintain a strong, ongoing communications program in each school. This is the foundation for long range success.

b) Identifying a media spokesperson who will be briefed on all details. This spokesperson shall be the Superintendent or his/her designee. Only this spokesperson shall talk to and maintain a timely flow of information to the media.

The Superintendent/designee shall be responsible for informing staff of the crisis plan that is to be developed by both administration and the crisis response team.

SUBJECT: FIRE DRILLS, BOMB THREATS AND BUS EMERGENCY DRILLS

Fire Drills

The administration of each school building shall provide instruction for and training of students, through fire drills, in procedures for leaving the building in the shortest possible time and without confusion or panic.

Fire drills shall be held at least twelve (12) times in each school year; eight (8) of these shall be held between September 1 and December 1. At least one-third (1/3) of all such required drills shall be through use of the fire escapes on buildings where fire escapes are provided. At least one (1) of the twelve (12) drills shall be held during each of the regular lunch periods, or shall include special instruction on the procedures to be followed if a fire occurs during a student's lunch period.

At least two (2) additional drills shall be held during summer school in buildings where summer school is conducted and one (1) of these drills shall be held during the first week of summer school.

After-School Programs

The Building Principal or his/her designee shall require those in charge of after-school programs, attended by any individuals unfamiliar with the school building, to announce at the beginning of such programs the procedures to be followed in the event of an emergency.

Bomb Threats

School Bomb Threats

A bomb threat, even if later determined to be a hoax, is a criminal action. No bomb threat should be treated as a hoax when it is first received. The school has an obligation and responsibility to ensure the safety and protection of the students and other occupants upon the receipt of any bomb threat. This obligation must take precedence over a search for a suspect object. Prudent action is dependent upon known information about the bomb threat - location, if any; time of detonation; etc. If the bomb threat is targeted at the school parking lot or the front of the school, building evacuation may not be an appropriate response. If the bomb threat indicates that a bomb is in the school, then building evacuation is necessary unless the building has been previously inspected and secured in accordance with State Education Department Guidelines. Specific procedures can be found in the building level school plan, as required by Project SAVE.

The decision to evacuate a building or to take shelter is dependent upon information about where the bomb is placed and how much time there is to reach a place of safety. Prudent action dictates that students and other occupants be moved from a place of danger to a place of safety. Routes of egress and evacuation or sheltering areas must be thoroughly searched for suspicious objects before ordering

(Continued)
SUBJECT: FIRE DRILLS, BOMB THREATS AND BUS EMERGENCY DRILLS (Cont'd.)

an evacuation. Failure to properly search evacuation routes before an evacuation takes place can expose students and staff to more danger than remaining in place until the search has taken place. Assistance is available from local police agencies and the New York State Police to train staff to check evacuation routes.

Police Notification and Investigation

A bomb threat to a school is a criminal act, which is within the domain and responsibility of law enforcement officials. Appropriate State, county, and/or local law enforcement agencies must be notified of any bomb threat as soon as possible after the receipt of the threat. Law enforcement officials will contact, as the situation requires, fire and/or county emergency coordinators according to the county emergency plan.

Therefore, the building administrator or designee is to notify local law enforcement officials and follow established procedures to move all occupants out of harm’s way.

Implementation

The Board of Education directs the Superintendent or his/her designee to develop administrative regulations to implement the terms of this policy. Additionally, such regulations are to be incorporated in the District-wide School Safety Plan and the building level school safety plan, with provisions to provide written information to all staff and students regarding emergency procedures by October 1 of each school year, an annual drill to test the emergency response procedures under each of its building level school safety plans; and the annual updating of the District-wide and building level school safety plans, by July 1, as mandated pursuant to law and/or regulation.

Bus Emergency Drills

The Board of Education directs the administration to conduct a minimum of three (3) emergency drills to be held on each school bus during the school year. The first drill is to be conducted during the first seven (7) days of school, the second drill between November 1 and December 31, and the third drill between March 1 and April 30. No drills shall be conducted when buses are on routes.

Students who ordinarily walk to school shall also be included in the drills. Students attending public and nonpublic schools who do not participate in regularly scheduled drills shall also be provided drills on school buses, or as an alternative, shall be provided classroom instruction covering the content of such drills.

Each drill shall include instruction in all topics mandated by the Education Law and the Commissioner's Regulations and shall include, but will not be limited to, the following:

(Continued)
SUBJECT: FIRE DRILLS, BOMB THREATS AND BUS EMERGENCY DRILLS (Cont'd.)

a) Safe boarding and exiting procedures with specific emphasis on when and how to approach, board, disembark, and move away from the bus after disembarking;

b) The location, use and operation of the emergency door, fire extinguishers, first aid equipment and windows as a means of escape in case of fire or accident;

c) Orderly conduct as bus passengers.

Instruction on Use of Seat Belts

When a school bus is equipped with seat safety belts, the District shall insure that all students who are transported on such school bus owned, leased or contracted for by the District or BOCES shall receive instruction on the use of seat safety belts. Such instruction shall be provided at least three (3) times each year to both public and nonpublic school students who are so transported and shall include, but not be limited to:

a) Proper fastening and release of seat safety belts;

b) Acceptable placement of seat safety belts on students;

c) Times at which the seat safety belts should be fastened and released; and

d) Acceptable placement of the seat safety belts when not in use.

SUBJECT: CARDIAC AUTOMATED EXTERNAL DEFIBRILLATORS (AEDs) IN PUBLIC SCHOOL FACILITIES

The School District shall provide and maintain on-site in each instructional school facility functional cardiac automated external defibrillator (AED) equipment as defined in Public Health Law Section 3000-b for use during emergencies. Each such facility shall have sufficient automated external defibrillator equipment available to ensure ready and appropriate access for use during emergencies in quantities and types as deemed by the Commissioner of Education, in consultation with the Commissioner of Health. Determination of the quantity and placement of AEDs must be made with consideration of at least the factors enumerated in Commissioner's Regulations. An instructional school facility means a building or other facility maintained by the School District where instruction is provided to students pursuant to its curriculum.

Whenever an instructional School District facility is used for a school-sponsored or school-approved curricular or extracurricular event or activity and whenever a school-sponsored athletic contest is held at any location, the public school officials and administrators responsible for such school facility or athletic contest shall ensure that AED equipment is provided on-site and that there is present during such event, activity or contest at least one staff person who is trained in accordance with Public Health Law in the operation and use of an AED. School-sponsored or school-approved curricular or extracurricular events or activities means events or activities of the School District that are, respectively, associated with its instructional curriculum or otherwise offered to its students. A school-sponsored athletic contest means an extraclass intramural athletic activity of instruction, practice and competition for students in grades 4 through 12 consistent with Commissioner's Regulations Section 135.4.

Where a school-sponsored competitive athletic event is held at a site other than a School District facility, School District officials shall assure that AED equipment is provided on-site by the sponsoring or host district and that at least one staff person who is trained, in accordance with Public Health Law, in the operation and use of the AED is present during such athletic event. A school-sponsored competitive athletic event means an extraclass interscholastic athletic activity of instruction, practice and competition for students in grades 7 through 12 consistent with Commissioner's Regulations Section 135.4.

School District facilities and District staff responsible for carrying out the duties enumerated in Education Law Section 917 are deemed a "public access defibrillation provider" as defined pursuant to Public Health Law Section 3000-b and subject to the Public Health Law requirements and limitations.

Therefore, it is the policy of our School District to provide proper training requirements for District AED users, to ensure the immediate calling of 911 and/or the community equivalent ambulance dispatch entity whenever the AED is used, to ensure ready identification of the location of the AED units as enumerated in the District's Public Access Defibrillation Collaborative Agreement.

(Continued)
SUBJECT:  CARDIAC AUTOMATED EXTERNAL DEFIBRILLATORS (AEDs) IN PUBLIC SCHOOL FACILITIES (Cont'd.)

The District will provide for regular maintenance and checkout procedures of the AED unit(s) which meet or exceed manufacturer's recommendations. Appropriate documentation will be maintained in accordance with law and/or regulation. Further, the District will participate in the required Quality Improvement Program as determined by the Regional Emergency Medical Services Council.

The District shall post a sign or notice at the main entrance to the facility or building in which the AED unit(s) is/are stored, indicating the exact location where the unit(s) is/are stored or maintained on a regular basis.

Pursuant to Public Health Law Sections 3000-a and 3000-b, the School District (as a public access defibrillation provider), or any employee or other agent of the School District who, in accordance with the provisions of law, voluntarily and without expectation of monetary compensation renders emergency medical or first aid treatment using an AED to a person who is unconscious, ill or injured, shall not be liable for damages for injury or death unless caused by gross negligence.

TRANSPORTATION

SUBJECT: TRANSPORTATION PROGRAM

It is the intent of the Board of Education to comply with the letter and spirit of the New York State Education Law; with the regulations of the Department of Motor Vehicles and of the Department of Transportation and with the Commissioner of Education's regulations and decisions pertinent to student transportation, and these shall govern any questions not covered by specific declaration of policy herein.

The purposes of the transportation program are to transport students to and from school, to transport them for extracurricular activities, to transport them on field trips, and to transport those requiring special services.

The Board of Education recognizes and assumes the responsibility for all aspects of the transportation of children wherein the health and safety of students are involved, for the Board of Education has a legal obligation to safeguard the welfare of bus-riding children.

Education Law Sections 3602(7) and 3635 et seq.

Adopted: 4/8/09
SUBJECT: SCHEDULING AND ROUTING

Bus routes are authorized by the Board of Education and any requests for a change must be submitted to the Superintendent or his/her designee.

Transportation services shall be provided to meet the needs of the students of the District within specified limits and areas established by the Board of Education.

SUBJECT: TRANSPORTATION OF STUDENTS

Requests for Transportation to and from Non-Public Schools

The parent or guardian of a parochial or private school child residing in the School District who desires that the child be transported to a parochial or private school outside of the School District during the next school year should submit a written request to the Board of Education no later than April 1 of the preceding year, or within thirty (30) days of moving into the District. No late request of a parent or guardian shall be denied where a reasonable explanation is provided for the delay.

Transportation to Non-Public Schools on Holidays

When a holiday falls on a Saturday or Sunday, the Board of Education may choose to close on Friday or Monday in observance of the holiday. Schools that close may provide pupil transportation. However, if the District has not shared its calendar and informed non-public schools that it will not transport on the optional holiday, the District is required to provide pupil transportation services on that day to non-public schools that are open.

Transportation for Non-Public School Students with Disabilities who are Parentally Placed

For students with disabilities (ages 5 - 21) who are parentally placed in nonpublic schools outside their district of residency, if special education services are to be provided to a student at a site other than the nonpublic school, the school district of location is responsible for providing the special education services, including, as applicable, arranging and providing transportation necessary for the student to receive special education services. The proportionate share of IDEA Part B dollars could be used for such purpose.

The school district of residence remains responsible to provide transportation to parentally placed nonpublic school students from the student's home to the nonpublic school.

Transportation of Students with Disabilities

Students with disabilities in the District shall be transported up to fifty (50) miles (one way) from their home to the appropriate special service or program, unless the Commissioner certifies that no appropriate nonresidential special service or program is available within fifty (50) miles. The Commissioner may then establish transportation arrangements.

Student Information

Any mode of transportation used on a regular basis to transport students with a disability on a regularly scheduled route shall, upon written consent of the parent or person in parental relation, have maintained on such mode of transportation the following information about each student being transported:

(Continued)
SUBJECT: TRANSPORTATION OF STUDENTS (Cont'd.)

a) Student's name;

b) Nature of the student's disability;

c) Name of the student's parent, guardian or person in a position of loco parentis (person in parental relation) and one or more telephone numbers where such person can be reached in an emergency; and/or

d) Name and telephone number of any other person designated by such parent, guardian or person in a position of loco parentis as a person who can be contacted in an emergency.

Such information shall be used solely for the purpose of contacting such student's parent, guardian, person in a position of loco parentis, or designee in the event of an emergency involving the student, shall be kept in a manner which retains the privacy of the student, and shall not be accessible to any person other than the driver or a teacher acting in a supervisory capacity. In the event that the driver or teacher is incapacitated, such information may be accessed by any emergency service provider for such purpose.

Such information shall be updated as needed, but at least once each school year and shall be destroyed if parental consent is revoked, the student no longer attends such school, or the disability no longer exists.

Herein the term "disability" shall mean a physical or mental impairment that substantially limits one or more of the major life activities of the student, whether of a temporary or permanent nature.

Fire Extinguishers

School buses manufactured on or after January 1, 1990 fueled with other than diesel fuel and used to transport three (3) or more students who use wheelchairs or other assistive mobility devices or with a total capacity of more than eight (8) passengers and used to transport such students shall be equipped with an automatic engine fire extinguishing system.

School buses manufactured on or after September 1, 2009 fueled with diesel fuel and used to transport three (3) or more students who use wheelchairs or other assistive mobility devices or with a total capacity of more than eight (8) passengers used to transport such students shall be equipped with an automatic engine fire extinguishing system.

The purchase of automatic engine fire extinguishing systems for school buses used to transport such students shall be deemed a proper school district expense.

SUBJECT: TRANSPORTATION OF STUDENTS (Cont'd.)

Transportation of Non-Resident Students

Non-resident families must provide their own transportation.

Transportation to School Sponsored Events

Where the District has provided transportation to students enrolled in the District to a school sponsored field trip, extracurricular activity or any other similar event, it shall provide transportation back to either the point of departure or to the appropriate school in the District unless the parent or legal guardian of a student participating in such event has provided the District with written notice, consistent with District policy, authorizing an alternative form of return transportation for such student or unless intervening circumstances make such transportation impractical. In cases where intervening circumstances make transportation of a student back to the point of departure or to the appropriate school in the District impractical, a representative of the School District shall remain with the student until such student's parent or legal guardian has been contacted and informed of the intervening circumstances which make such transportation impractical; and the student has been delivered to his/her parent or legal guardian.

Unsafe Road Conditions

Whenever a bus driver in the course of transporting students is confronted with road conditions she/he does not consider to be safe, the driver is not to traverse the road in question, but rather is to continue her/his route the best way possible under the circumstances. Parents or guardians whose children are affected by a driver's exercise of discretion as described herein shall be notified promptly that their child(ren) will not be picked up.

Student Transportation in Private Vehicles

The Board of Education recognizes that in special circumstances employees of the Germantown Central School District may need to use private vehicles for school purposes. In particular, the Superintendent of Schools and the Principal or her/his designee may authorize the transportation of students in private vehicles for the following reasons:

a) To transport a student or students to a hospital or other medical facility in the event of a medical emergency; or

b) To transport a student or students to District-sponsored events when regular District transportation is unavailable.

(Continued)
SUBJECT: TRANSPORTATION OF STUDENTS (Cont'd.)

The District assumes no liability for any employee's transporting of students in a private vehicle unless that employee has express prior authorization for such transportation from a party empowered to give such authorization.

The Board hereby advises District administrators to exercise caution in authorizing the transportation of students in private vehicles.

Upon formal application to and approval by the Board of Education buses may be rented or leased to a municipal corporation; to any senior citizen center recognized and funded by the Office for the Aging; to any not-for-profit organization serving those with disabilities; or, to any not-for-profit organization which provides recreational youth services or neighborhood recreation centers. Such rentals/leases can be made only for times when vehicles are not needed for student transport and must be made for a consideration acceptable to the Board which shall not be less than the full amount of the costs and expenses resulting from the lease or rental.

Education Law Section 1501-b

Adopted:  4/8/09
SUBJECT: SCHOOL BUS SAFETY PROGRAM

The safe transportation of students to and from school is of primary concern in the administration of the school bus program. All state laws and regulations pertaining to the safe use of school buses shall be observed by drivers, students and school personnel.

To assure the safety and security of students boarding or exiting school buses on school property, it shall be unlawful for a driver of a vehicle to pass a stopped school bus when the red bus signal is in operation.

The Transportation Supervisor, in cooperation with the Principals, has the responsibility of developing and publishing safety rules to be followed by drivers and passengers, including rules of student conduct. In order to ensure maximum safety to those riding school buses, it is necessary that students and drivers cooperate in this effort. There is no substitute for training to develop safe habits in pedestrian and vehicular traffic.

All buses and other vehicles owned and operated by the School District will have frequent safety inspections, and will be serviced regularly. The Transportation Supervisor will maintain a comprehensive record of all maintenance performed on each vehicle.

Every bus driver is required to report promptly any school bus accident involving death, injury, or property damage. All accidents, regardless of damage involved, must be reported at once to the Transportation Supervisor.

NOTE: Refer also to Policy #5761 -- Drug and Alcohol Testing For School Bus Drivers and Other Safety-Sensitive Employees

Adopted: 4/8/09
SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS AND OTHER SAFETY-SENSITIVE EMPLOYEES

In accordance with federal regulations, employees in safety-sensitive positions as defined in regulations, including school bus drivers who are required to have and use a commercial drivers license (CDL), are now subject to random testing for alcohol, marijuana, cocaine, amphetamines, opiates (including heroin), and phencyclidine (PCP). The District shall adhere to federal law and regulations requiring the implementation of a drug and alcohol testing program for such employees in safety-sensitive positions.

The District shall either establish and manage its own program, by contract, or through a consortium for the provision of alcohol and drug testing of employees in safety-sensitive positions. Safety-sensitive employees (SSE), including school bus drivers who drive a vehicle which is designed to transport sixteen (16) or more passengers (including the driver), shall be subject to this requirement.

Federal regulations require that the District test school bus drivers and other SSEs for alcohol and drugs at the following times:

a) Drug testing will be conducted after an offer to hire, but before actually performing safety-sensitive functions for the first time. Such pre-employment testing will also be required when employees transfer to a safety-sensitive position.

b) Safety-sensitive employees are also subject to a random drug and/or alcohol test on an unannounced basis just before, during or just after performance of safety-sensitive functions.

c) In addition, testing will be ordered if a trained supervisor has a "reasonable suspicion" that an employee has engaged in prohibited use of drugs and/or alcohol.

d) There will also be post accident testing conducted after accidents on employees whose performance could have contributed to the accidents.

e) Finally, return-to-duty and follow-up testing will be conducted when an individual who has violated the prohibited alcohol and/or drug conduct standards returns to performing safety-sensitive duties. Follow-up tests are unannounced and at least six (6) tests must be conducted in the first twelve (12) months after an employee returns to duty. Follow-up testing may be extended for up to sixty (60) months following return-to-duty.

All employee drug and alcohol testing will be kept confidential and shall only be revealed without the driver's consent to the employer, a substance abuse professional, drug testing laboratory, medical review officer and any other individual designated by law.

(Continued)
SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS AND OTHER SAFETY-SENSITIVE EMPLOYEES (Cont’d.)

The following alcohol and controlled substance-related activities are prohibited by the Federal Highway Administration's drug use and alcohol misuse rules for drivers of commercial motor vehicles and other SSEs:

a) Reporting for duty or remaining on duty to perform safety-sensitive functions while having an alcohol concentration of 0.04 or greater. If testing shows an alcohol concentration of 0.02 or greater but less then 0.04, the employee must be removed from performing safety-sensitive activities for twenty-four (24) hours, but no punitive action will be taken by the employer.

b) Being on duty or operating a commercial motor vehicle (CMV) while the driver possesses alcohol, unless the alcohol is manifested and transported as part of a shipment. This includes the possession of medicines containing alcohol (prescription or over-the-counter), unless the packaging seal is unbroken.

c) Using alcohol while performing safety-sensitive functions.

d) Using alcohol four (4) hours or less before duty. (New York State law prohibits use six (6) hours or less before duty).

e) When required to take a post-accident alcohol test, using alcohol within eight (8) hours following the accident or prior to undergoing a post-accident alcohol test, whichever comes first.

f) Refusing to submit to an alcohol or controlled substance test required by post-accident, random, reasonable suspicion or follow-up testing requirements.

g) Reporting for duty or remaining on duty, requiring the performance of safety-sensitive functions, when the SSE uses any controlled substance. This prohibition does not apply when instructed by a physician who has advised the SSE that the substance does not adversely affect the SSE’s ability to safely operate a CMV.

h) Reporting for duty, remaining on duty or performing a safety-sensitive function, if the SSE tests positive for controlled substances.

Drivers and other SSEs who are known to have engaged in prohibited behavior with regard to alcohol misuse or use of controlled substances are subject to disciplinary action and penalties pursuant to District policy and collective bargaining agreements, as well as the sanctions provided for in federal law. SSEs who have engaged in such prohibited behavior shall not be allowed to perform safety-sensitive functions until they are:

(Continued)
SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS AND OTHER SAFETY-SENSITIVE EMPLOYEES (Cont’d.)

a) Evaluated by a substance abuse professional (SAP).

b) Complete any requirements for rehabilitation as set by the District and the SAP.

c) Pass a return-to-duty test with the result below 0.02 if the conduct involved alcohol, or a controlled substance test with a verified negative result if the conduct involved controlled substance use.

d) The SSE shall also be subject to unannounced follow-up alcohol and controlled substance testing. The number and frequency of such follow-up testing shall be as directed by the SAP, and consist of at least six (6) tests in the first twelve (12) months.

The Superintendent of Schools shall ensure that each SSE receives a copy of District policy, educational materials that explain the requirements of the alcohol and drug testing regulations, and any regulations and/or procedures developed by the District with respect to meeting those requirements. The Superintendent or his/her designee shall ensure that a copy of these materials is distributed to each SSE, who shall sign for receipt of all of the above documents, as well as other appropriate personnel, prior to the start of alcohol and controlled substance testing as well as at the beginning of each school year or at the time of hire for any safety-sensitive employees. Representatives of applicable collective bargaining units shall be notified of the availability of this information.

The Superintendent or his/her designee shall arrange for training of all supervisors who may be utilized to determine whether "reasonable suspicion" exists to test a driver for prohibited conduct involving alcohol or controlled substance use/abuse.

Any violation of this policy and/or District procedures, and applicable federal and state laws by a covered employee shall be grounds for disciplinary action including, but not limited to, fines, suspension, and/or discharge in a manner consistent with District policy, collective bargaining agreements and applicable law.

SUBJECT:  SEXUAL HARASSMENT OF DISTRICT PERSONNEL

The Board of Education recognizes that harassment of employees (including all staff, applicants for employment, both paid and unpaid interns, exempt and non-exempt status, part-time, seasonal, and temporary workers, regardless of immigration status) and certain “non-employees” (which includes contractors, subcontractors, vendors, consultant and other persons providing services pursuant to a contract, or their employees) on the basis of sex, gender and/or sexual orientation is abusive and illegal behavior that harms targets and negatively impacts the school culture by creating an environment of fear, distrust, intimidation and intolerance. The Board further recognizes that preventing and remedying such harassment in schools is essential to ensure a healthy, nondiscriminatory environment in which employees and “non-employees” can work productively.

Sexual harassment is a form of sex discrimination and is unlawful under federal, state, and (where applicable) local law. Sexual harassment includes harassment on the basis of actual or perceived or self-identified sex, sexual orientation, gender identity, gender expression, and transgender status.

Sexual harassment includes unwelcome conduct which is either of a sexual nature, or which is directed at an individual because of that individual's sex, when:

a. submission to that conduct is made either explicitly or implicitly a term or condition of an individual's employment or a student's education;

b. submission to or rejection of such conduct is used as the basis for decisions affecting an individual’s employment or a student's education; or

c. the conduct has the purpose or effect of unreasonably interfering with an employee's or "non-employee’s" work or creating an intimidating, hostile or offensive work environment, even if the complaining individual is not the intended target of the sexual harassment;

Sexual harassment can include unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature, or verbal, nonverbal or physical aggression, intimidation or hostility that is based on actual or perceived gender and sexual stereotypes.

The Board is committed to providing an educational and working environment that promotes respect, dignity and equality and that is free from all forms of sexual harassment. To this end, the Board condemns and strictly prohibits all forms of sexual harassment on school grounds, school buses and at all school-sponsored activities, programs and events, including those that take place at locations outside the district, or outside the school setting if the harassment impacts the individual’s employment in a way that violates their legal rights, including when employees and "non-employees" travel on district business, or when harassment is done by electronic means (including on social media). Sexual harassment is considered a form of employee misconduct. Sanctions will be enforced against all those who engage in sexual harassment, and against supervisory and managerial personnel who knowingly allow such behavior to continue or engage in retaliation.

(continued)
SUBJECT: SEXUAL HARASSMENT IN THE WORKPLACE (continued)

Sexual harassment may subject the district to liability for harm done to targets. Harassers may also be individually subject to civil liability if sued in a court of law or criminal liability if prosecuted.

Under various state and federal laws, employees and “non-employees” have legal protections against sexual harassment in the school environment as described above. Those laws are listed in the references section. Additionally, local laws (e.g., county, city, town, village) may apply to the district. The district’s Code of Conduct also addresses appropriate behavior in the school environment. Sexual harassment can occur between persons of all ages and genders.

In order for the Board to effectively enforce this policy and to take prompt corrective measures, it is essential that all targets of sexual harassment and persons with knowledge of sexual harassment report the harassment immediately. The district will promptly investigate all complaints of sexual harassment, either formal or informal, verbal or written. To the extent possible, all complaints will be treated in a confidential manner. Limited disclosure may be necessary to complete a thorough investigation. If the complainant reports that they feel unsafe at school due to the nature of the complaint, the district will determine if accommodations need to be made until the issue is resolved.

If, after appropriate investigation, the district finds that a student, an employee, “non-employee” or a third party has violated this policy, prompt corrective action will be taken in accordance with the applicable collective bargaining agreement, contract, district policy and state law. Individual nondisclosure agreements may only be used as permitted by law, described in the accompanying regulation. Mandatory arbitration clauses are prohibited in all district contracts and agreements.

All complainants and those who participate in sexual harassment complaints or the investigation of a complaint of sexual harassment have the right to be free from retaliation of any kind, when they do so with a good faith belief that sexual harassment has occurred. Such prohibited retaliation can include, but is not limited to, discipline, discrimination, demotion, denial of privileges, or any action that would keep a person from coming forward to make or support a sexual harassment claim. Such actions need not be job- or education-related, or occur in the workplace or educational environment, to constitute unlawful retaliation.

The Superintendent of Schools is directed to develop and implement regulations for reporting, investigating and remedying allegations of sexual harassment. These regulations are to be attached to this policy. In addition, training programs shall be established annually for employees, to raise awareness of the issues surrounding sexual harassment and to implement preventative measures to help reduce incidents of sexual harassment.

(continued)
SUBJECT: SEXUAL HARASSMENT IN THE WORKPLACE (continued)

This policy shall be posted in a prominent place in each district facility, on the district’s website, and shall also be published in student registration materials, student, parent and employee handbooks, and other appropriate school publications.

A committee of administrators, teachers, parents, students and the school attorney shall be convened periodically to review this policy's effectiveness and compliance with applicable state and federal law, and to recommend revisions to Board.

SUBJECT: COMPLAINTS AND GRIEVANCES BY EMPLOYEES

In accordance with the provisions of General Municipal Law and the collective bargaining agreements, all District personnel shall have the opportunity to present their complaints or grievances free from interference, coercion, restraint, discrimination or reprisal. The District shall provide at least two (2) procedural stages and an appellate stage for the settlement of any grievance.

Complaints or grievances not covered under employee contracts shall be handled and resolved, whenever possible, as close to their origin as possible. The Superintendent is responsible for implementing regulations for the redress of complaints or grievances through proper administrative channels.

Prohibition of Retaliatory Behavior

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of discrimination. Follow-up inquiries shall be made to ensure that discrimination has not resumed and that all those involved in the investigation of the discrimination complaint have not suffered retaliation.

Complaints and Grievances Coordinator

Additionally, the Board shall ensure compliance with Title IX of the Educational Amendments of 1972, Section 504 of the Rehabilitation Act of 1973 and the Americans With Disabilities Act (ADA). The Superintendent shall designate a District employee as the Title IX/Section 504/ADA Coordinator; and regulations and procedures shall be implemented to resolve complaints of discrimination based on sex or disability.

Prior to the beginning of each school year, the District shall issue an appropriate public announcement which advises students, parents/guardian, employees and the general public of the District's established grievance procedures for resolving complaints of discrimination based on sex or disability. Included in such announcement will be the name, address and telephone number of the Title IX/Section 504/ADA Coordinator.

The Title IX/Section 504/ADA Coordinator shall also be responsible for handling complaints and grievances regarding discrimination based on race, color, creed, religion, national origin, political affiliation, sexual orientation, age, military status, veteran status, marital status, predisposing genetic characteristics, or use of a recognized guide dog, hearing dog or service dog.

Evaluation of teachers providing instructional services or pupil personnel services as defined pursuant to Commissioner's Regulations will be conducted in accordance with the District's Annual Professional Performance Review (APPR).

The primary purposes of this evaluation are:

a) To encourage and promote self-evaluation by personnel;

SUBJECT: HEALTH EXAMINATIONS

All staff initially appointed to probationary positions are required to obtain a physical examination. When such examination is made by the school physician/nurse practitioner the cost of such examination shall be borne by the District. A staff member, however, may elect to have a health examination at his/her own expense by a physician of his/her own choice.

The Board reserves the right to request a health examination at any time during employment, at School District expense, in order to determine whether any employee can perform the essential functions of the position with or without reasonable accommodation.

Annual or more frequent examinations of any employee may be required, when, in the judgment of the school physician/nurse practitioner and the Superintendent, such procedure is deemed necessary.

All bus drivers and substitute bus drivers shall have yearly physical examinations. Each bus driver initially employed by the School District shall have a physical examination within the four (4) weeks prior to the beginning of service. In no case shall the interval between physical examinations exceed a thirteen-month period.

The final acceptance or rejection of a medical report with reference to the health of an employee lies within the discretion of the Board. The decision of the physician designated by the Board as the determining physician shall take precedence over all other medical advice.

All medical and health related information will be kept in accordance with the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

SUBJECT: ALCOHOL, DRUGS AND OTHER SUBSTANCES (SCHOOL PERSONNEL)

The Board of Education, recognizing that students are often influenced by teachers and other members of a school's staff, impresses upon staff members the importance of maintaining a high level of professionalism appropriate to their position, which, in turn, shall set a positive example for students.

The Board, therefore, prohibits the consumption, sharing and/or selling, use and/or possession of illegal drugs, counterfeit and designer drugs or alcoholic beverages in the workplace, or when the effects of such drugs and/or alcohol use may impair an employee's job performance.

Information about any drug and alcohol counseling and/or rehabilitation programs shall be made available to employees. Data will also include the range of penalties, (consistent with local, state and federal law), up to and including termination of employment and referral for prosecution that will be imposed on employees who have transgressed the terms of this policy.

Additionally, confidentiality shall be ensured as required by state and federal law.

The Superintendent/designee shall periodically review the drug and alcohol abuse prevention program to determine its effectiveness and support appropriate modifications, as needed.

SUBJECT: DRUG-FREE WORKPLACE

It shall be the general policy of the Board of Education to affirm that all programs in the District that receive Federal funds shall guarantee that their workplaces are free of controlled substances. "Controlled substance" means a controlled substance in schedules I through V of Section 202 of the Controlled Substances Act (21 USC 812) and as further defined in regulation at 21 Code of Federal Regulations (CFR) 1308.11-1308.15. An acknowledgment form shall be signed by the Superintendent indicating that the District is in full compliance with the Drug-Free Workplace Act. This policy shall guarantee that not only Federally funded programs, but the entire District is free of controlled substances.

"Workplace" is defined as a school building or other school premises; any school-owned vehicle or any other school-approved vehicle used to transport students to and from school or school activities; off school property during any school-sponsored or school-approved activity, event or function, such as a field trip or athletic event, where students are under the jurisdiction of the School District.

The Board of Education directs the administration to develop regulations to comply with this policy, and further supports such actions and activities of the administration as shall be required to maintain a drug-free workplace.

SUBJECT: PROFESSIONAL GROWTH/STAFF DEVELOPMENT

It is the policy of the District that attention be given to in-service, pre-service, and other staff development programs which are believed to be of benefit to the School District and its students. The Superintendent, in consultation with the appropriate administrative staff and/or teacher committees, is directed to arrange in-service programs and other staff development opportunities which will provide for the selection of subjects pertinent to the curriculum in the schools, to build from these subjects those topics or courses for in-service or staff development which will help employees acquire new methods of performing their job responsibilities or help staff improve on those techniques which are already being used in the schools, with the objective of improving professional competencies.

It is recommended that administration develop meaningful in-service and/or staff development programs which will achieve the following:

a) Contribute to the instructional program of the schools;

b) Contribute to improved education for students;

c) Achieve state mandates; and

d) Enhance the professional competencies and/or instructional abilities of staff members.

The Board of Education, therefore, encourages all employees to improve their competencies beyond that which they may obtain through the regular performance of their assigned duties. Opportunities should be provided for:

a) Planned in-service programs, courses, seminars, and workshops offered both within the School System and outside the District.

b) Visits to other classrooms and schools, as well as attendance at professional meetings, for the purpose of improving instruction and/or educational services.

c) Orientation/re-orientation of staff members to program and/or organizational changes as well as District expectations.

Attendance at such professional development programs must be directly linked to the duties and responsibilities comprising the job description of the employee. Consequently, employees are encouraged to participate in the planning of staff development programs designed to meet their specific needs.

Members of the staff are also encouraged to continue their formal education as well as to attend their respective work-related workshops, conferences and meetings.

(Continued)
SUBJECT: PROFESSIONAL GROWTH/STAFF DEVELOPMENT (Cont'd.)

Funds for participating at such conferences, conventions, and other similar professional development programs will be budgeted for by the Board of Education on an annual basis. Reimbursement to District staff for all actual and necessary registration fees, expenses of travel, meals and lodging, and all necessary tuition fees incurred in connection with attendance at conferences and the like will be in accordance with established regulations for conference attendance and expense reimbursement.

The Superintendent of Schools or his/her designee has authority to approve release time and expenses for staff members' attendance at professional training conferences, study councils, in-service courses, workshops, summer study grants, school visitations, professional organizations and the like within budgetary constraints.

A conference request form/course approval form must be submitted by the employee and approved by the designated administrator prior to the employee's attendance at such conference or other professional development program.

Mentoring Programs for First Year Teachers

First year teachers must participate in a mentoring program as a component of the School District's Professional Development Plan. The purpose of the mentoring program is to increase the retention of new teachers and improve their ability to assist students in attaining State learning standards. The mentor's role is to provide guidance and support to a new teacher. However, additional mentor responsibilities may be negotiated and reflected in a collective bargaining agreement.

Travel Conference Request Forms are only to be used by District employees.

All conference reimbursement requests must be submitted using a Travel Conference Reimbursement Form.

Expenses for overnight-approved travel will be reimbursed when accompanied by original receipts for lodging and other reimbursable expenses. SUBJECT: FINGERPRINTING OF PROSPECTIVE SCHOOL EMPLOYEES

Unless otherwise authorized in accordance with law and regulation, the District shall not employ or utilize a prospective school employee, as defined below, unless such prospective school employee has been granted a "full" clearance for employment by the State Education Department (SED). The School District shall require a prospective school employee who is not in the SED criminal history file to be fingerprinted for purposes of a criminal history record check by authorized personnel of the designated fingerprinting entity. For purposes of this provision of law, the term "criminal history record" shall mean a record of all convictions of crimes and any pending criminal charges maintained on an individual by the Division of Criminal Justice Services (DCJS) and the Federal Bureau of Investigation (FBI).

Prior to initiating the fingerprinting process, the District shall furnish the applicant with written notice on a form prepared by the Commissioner of Education addressing the fingerprinting requirements and the applicant's right to obtain, review and seek correction of his/her criminal history information. Additionally, where the prospective school employee is not already in the SED criminal history file, the District shall obtain the signed, informed consent of the applicant to perform the criminal history check. Every set of fingerprints taken shall be promptly submitted to the Commissioner of Education for purposes of clearance for employment.

Where the prospective school employee is already in the SED criminal history file, the District shall request the clearance for employment on forms or an equivalent manner prescribed by SED. Furthermore, the District shall notify SED, in a manner prescribed by the Department, of a prospective school employee who has commenced employment with or began providing services for the District, the date of the commencement of such employment or service, and the position held by such individual. Similarly, the District shall notify SED, in a manner prescribed by the Department, of a fingerprinted employee who has been separated from employment with the District or ceased providing services for the School District, and the date of such separation from employment or cessation of services. All criminal history records processed by DCJS and the FBI and sent to the Commissioner of Education are confidential. The records may not be published or in any way disclosed to persons other than the Commissioner unless otherwise authorized by law.

Unless otherwise exempted pursuant to law, the applicant shall be responsible for the payment of fees to SED for a criminal history record check. However, if approved by Board resolution, the District may authorize the payment of such fees on behalf of prospective employees. The Board is also authorized to waive the payment of such fees in cases of unreasonable financial hardship to the applicant or his/her family. If the Board decides to waive payment of the fees for the prospective employee, payment of the fees becomes the District's responsibility.

(Continued)
SUBJECT:  FINGERPRINTING OF PROSPECTIVE SCHOOL EMPLOYEES (Cont’d.)

Who Must Be Fingerprinted

All "prospective school employees" of the School District must be fingerprinted. For purposes of this policy and the applicable provisions in law and Commissioner's Regulations, "prospective school employee" shall mean any individual who will reasonably be expected by the School District to provide services which involve direct contact, meaning in person, face-to-face communication or interaction, with students under the age of twenty-one (21) and who is either:

a) Seeking a compensated position with the District and is not currently employed by the District or a student enrolled in the instructional program of a grade level in the School District; or

b) An employee of a provider of contracted services to the School District who is to be placed within the District; or

c) A worker who is to be placed within the District under a public assistance employment program pursuant to Title 9-B of Article 5 of the Social Services Law, directly or through contract; or

d) Any individual who is employed by or associated with a supplemental educational services provider and who will provide supplemental educational services through direct contact with eligible children, regardless of the location in which such services are delivered.

Individuals Who Are Specifically Excluded

Individuals excluded from a criminal history record check/fingerprinting pursuant to this provision of law and regulation are those individuals who:

a) Are seeking a position as a school bus driver or school bus attendant and are cleared for employment pursuant to the Vehicle and Traffic Law; or

b) Have provided services to the District in the previous school year either in a compensated position, or as an employee of a provider of contracted services to the District, or as a worker placed within the School District under a public assistance employment program pursuant to Title 9-B of Article 5 of the Social Services Law directly or through contract; or

c) Will reasonably be expected by the School District to provide services for the District on no more than five (5) days in the school year in which services are to be performed, provided that the District provides in-person supervision of such individual by one (1) or

(Continued)
more employees of the District while that individual is providing such services. Individuals providing such time-limited and supervised services may include but shall not be limited to artists, guest lecturers and speakers, and sports officials.

Any prospective employee who previously has been fingerprinted in order to obtain certification, and whose fingerprints remain on file with the Division of Criminal Justice Services (DCJS), will not be required to be fingerprinted again for purposes of a criminal history record check.

Removal from the SED Criminal History File

Where individuals have been separated from employment at the School District and have not become employed in this District or another school district, BOCES or charter school within twelve (12) months of such separation, SED shall notify DCJS of such separation for the purpose of destroying the fingerprints of that individual. Further, upon request of such individual, SED shall notify DCJS prior to the expiration of such twelve-month period for the purpose of destroying his/her fingerprints. Such individuals shall be removed from the SED criminal history file.

Conditional Appointments/Emergency Conditional Appointments

Conditional Appointments

Whenever possible, a "full" clearance will be received for all new employees requiring such clearance before they begin work for the District. However, upon the recommendation of the Superintendent of Schools, the Board of Education may conditionally appoint a prospective employee. A request for conditional clearance shall be forwarded to the Commissioner of Education along with the prospective employee's fingerprints as mandated pursuant to law. Such conditional appointment shall not commence until notification by the Commissioner that the prospective employee has been conditionally cleared for employment, and such conditional employment shall terminate when the School District is notified of the determination by the Commissioner to grant or deny full clearance; however, if full clearance is granted, the appointment shall continue and the conditional status shall be removed.

Prior to commencement of such conditional appointment, the District must obtain a signed statement for conditional employment from the prospective employee indicating whether, to the best of his/her knowledge, the prospective employee has a pending criminal charge or criminal conviction in any jurisdiction outside the state.

(Continued)
Emergency Conditional Appointments

Upon the recommendation of the Superintendent of Schools, the Board may make an emergency conditional appointment when an unforeseen emergency vacancy has occurred. When such an appointment is made, the process for conditional appointment as enumerated above must also be initiated.

Emergency conditional appointment may commence prior to notification from the Commissioner of Education on conditional clearance but shall terminate twenty (20) business days from the date such appointment commences or when the District is notified by the Commissioner that conditional clearance is either granted or denied, whichever occurs earlier; however, if conditional clearance is granted, the appointment shall continue as a conditional appointment.

Prior to the commencement of such appointment, the District must obtain a signed statement for emergency conditional appointment from the prospective employee indicating whether, to the best of his/her knowledge, the prospective employee has a pending criminal charge or criminal conviction in any jurisdiction.

An unforeseen emergency vacancy shall be defined as:

a) A vacancy that occurred less than ten (10) business days before the start of any school session including summer school, or during any school session including summer school, without sufficient notice to allow for clearance or conditional clearance (however, this ten (10) business day timeframe provision shall not apply if the Board of Education finds that the School District has been unable to fill the vacancy despite good faith efforts to fill the vacancy in a manner that would have allowed sufficient time for full clearance or conditional clearance); and

b) When no other qualified person is available to fill the vacancy temporarily; and

c) When the emergency conditional appointment is necessary to maintain services which the District is legally required to provide or services necessary to protect the health, education or safety of students or staff.

Safety of Students

The District will develop internal building and/or program procedures to help ensure the safety of students who have contact with an employee holding conditional appointment or emergency conditional appointment. Such procedures will address the safety of students in the classroom, students attending off-campus activities under the supervision of the School District, and students participating in extracurricular and/or co-curricular activities (including sports and athletic activities).

(Continued)
SUBJECT: FINGERPRINTING OF PROSPECTIVE SCHOOL EMPLOYEES (Cont'd.)

Safety procedures to be addressed include, but are not limited to, the following: supervision of the employee holding conditional appointment/emergency conditional appointment as determined appropriate by the applicable building/program administrator; and periodic visitations by the building/program administrator to the classroom, program and/or activity assigned to the employee holding conditional appointment/emergency conditional appointment.

"Sunset" Provision for Conditional Appointments/Emergency Conditional Appointments

The provisions in law which permit the conditional appointment and/or emergency conditional appointment of employees pending full clearance from SED shall terminate, in accordance with legislation, on July 1, 2009; and shall be rescinded as Board policy and procedure as of that date (unless subsequent revisions to applicable law provide otherwise).

SUBJECT: EMPLOYEE TIME SCHEDULES

Time Schedules

The Board of Education, in conjunction with the Superintendent of Schools, shall establish time schedules for staff of the Germantown Central School District. The Board recognizes that the length of a staff member's work day is a mandatory subject of collective bargaining.

Administrators and supervisory personnel are expected to observe a daily schedule that is consonant with the hours during which the District's central offices are open for business, extending this schedule by whatever additional time is required to discharge these administrators' and supervisory personnel's responsibilities.

All teachers are required to remain on school premises fifteen (15) minutes after the buses leave the school grounds on days when school is closed because of emergency conditions.

Time Records

A register shall be kept administratively to record employees who arrive later than their scheduled starting times and leave earlier than their scheduled ending times. Each employee of the District shall also record any interval in which she/he leaves the premises during her/his scheduled working hours. Permission for an employee to leave the premises during scheduled working hours is at the discretion of the employee's immediate supervisor.

Increments of leave time that add up to a half (1/2) day shall be charged as a half (1/2) day leave. Building Principals shall be responsible for recording and reporting.

Civil Service Law Section 201(4)

Adopted: 4/8/09
SUBJECT: STAFF-STUDENT RELATIONS (FRATERNIZATION)

The Board of Education requires that all School District employees maintain a professional, ethical relationship with District students that is conducive to an effective, safe learning environment; and that staff members act as role models for students at all times, whether on or off school property and both during and outside of school hours. Staff must establish appropriate personal boundaries with students and not engage in any behavior that could reasonably lead to even the appearance of impropriety.

Staff members are prohibited, under any circumstances, to date or engage in any improper fraternization or undue familiarity with students, regardless of the student's age and/or regardless of whether the student may have "consented" to such conduct. Further, employees shall not entertain students or socialize with students in such a manner as to create the perception that a dating relationship exists. Similarly, any action or comment by a staff member which invites romantic or sexual involvement with a student is considered highly unethical, in violation of District policy, and may result in the notification of law enforcement officials and the filing of criminal charges and/or disciplinary action by the District up to and including termination of employment.

Inappropriate employee behavior includes, but is not limited to, flirting; making suggestive comments; dating; requests for sexual activity; physical displays of affection; giving inappropriate personal gifts; frequent personal communication with a student (via phone, e-mail, letters, notes, etc.) unrelated to course work or official school matters; providing alcohol or drugs to students; inappropriate touching; and engaging in sexual contact and/or sexual relations.

Visits to a student's home, driving a student in a personal vehicle, giving an individual gift, inviting students to the employee's home or any social gathering unrelated to professional or official school matters must be approved by an immediate supervisor.

Even if the student participated "willingly" in the activity (regardless of the student's age), inappropriate fraternization of staff with students is against District policy and may be in violation of professional standards of conduct and New York State Law. However, inappropriate employee conduct does not need to rise to the level of criminal activity for such conduct to be in violation of District rules and subject to appropriate disciplinary sanctions.

Any student who believes that he/she has been subjected to inappropriate staff behavior as enumerated in this policy, as well as students, school employees or third parties who have knowledge of or witness any possible occurrence of inappropriate staff-student relations, shall report the incident to any staff member or either the employee's supervisor, the student's Principal or the District's designated Complaint Officer. In all events such reports shall be forwarded to the designated Complaint Officer for further investigation. Anonymous complaints of inappropriate fraternization of staff members with students shall also be investigated by the District. Investigations of allegations of inappropriate staff-student relations shall follow the procedures utilized for complaints of harassment.

within the School District. Allegations of inappropriate staff-student behavior shall be promptly investigated and will be treated as confidential and private to the extent possible within legal constraints.

Any employee having knowledge of or reasonable suspicion that another employee may have engaged in inappropriate conduct with a student that may constitute child abuse (specifically, child abuse in an educational setting) must also follow the District's reporting procedures for such allegations; and such information will be reported by the designated administrator as required by state law to law enforcement officials, the State Education Department and/or Child Protective Services as may be applicable.

If a student initiates inappropriate behavior toward a staff member, that employee shall document the incident and report it to his/her Building Principal or supervisor.

The District shall promptly investigate all complaints of inappropriate staff-student relations, and take prompt corrective action to stop such conduct if it occurs.

Prohibition of Retaliation

The Board of Education prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of allegations of inappropriate staff-student relations. Follow-up inquiries and/or appropriate monitoring shall be made to ensure that the alleged conduct has not resumed and that all those involved in the investigation have not suffered retaliation. Any act of retaliation is subject to appropriate disciplinary action by the District.

District Responsibility/Training

The Principal of each school and/or program supervisor shall be responsible for informing students, staff and volunteers of the requirements of this policy, including the duty to report and the procedures established for investigation and resolution of complaints. Further, staff training shall be provided to facilitate staff identification of possible behavior that may constitute inappropriate staff-student relationships. Students shall be provided such training in an age appropriate manner.

The District's policy (or a summary thereof) shall be disseminated as appropriate to staff, students and parents. Further, this topic shall be addressed in the District Code of Conduct. The Superintendent shall appoint a designated Complaint Officer.
SUBJECT: STAFF-STUDENT RELATIONS (FRATERNIZATION) (Cont'd.)

Disciplinary Sanctions

Any staff member who engages in inappropriate conduct with a student, prohibited by the terms of this policy, shall be subject to appropriate disciplinary measures up to and including termination of employment in accordance with legal guidelines, District policy and regulation, and the applicable collective bargaining agreement. A violation of this policy may also subject the employee to criminal and/or civil sanctions as well as disciplinary action by the State Education Department.

The evaluation shall be based upon objective, coherent information as prescribed by the department, and shall include, but not be limited to, information on the teacher's education, credentials, professional experience, and professional development.

c) The District must ensure that all persons applying for a teaching certificate or license as a special education teacher or instructor or a school administrator who works in special education, shall, in addition to all the other certification or licensing requirements, have completed course work or training in area of children with autism. SUBJECT: PROFESSIONAL CERTIFICATION: 175 HOURS OF PROFESSIONAL DEVELOPMENT REQUIREMENT

All District employees who hold professional teaching certificates for classroom teaching are required to complete professional development hours to maintain the validity of their certificates. Professional certificate holders must complete 175 hours every five (5) years. The five-year professional development period commences on July 1 after the effective date of the triggering certificate, and each subsequent five-year period thereafter. Each professional development year of the five-year cycle of professional development begins on July 1 and ends the following June 30. The professional development requirement may be completed at any time during the five-year professional development period.

Decisions regarding content, delivery and providers of such professional development are within the purview of the School District and shall be made within the context of the District Professional Development Plan. The Professional Development Plan shall describe how the School District will provide teachers it employs holding a professional certificate with opportunities to maintain such certificates in good standing based upon successfully completing 175 hours of professional development every five (5) years in accordance with Commissioner's Regulations.

If the professional certificate holder wishes to maintain the validity of his/her New York State professional certificate, he/she must satisfy the professional development requirement. If the certificate holder teaches less than ninety (90) days in a given school year for any reason, including an approved leave, the required hours are reduced by ten percent (10%) for each school year during which this is the case.

District Recordkeeping Responsibilities

If the School District provides professional development to teachers in its schools, or professional development is provided by other entities on behalf of the District, the District must maintain a record of professional development completed by its teachers who are required to complete this requirement. Such records shall include those items enumerated in Commissioner's Regulations Section 100.2(dd)(5):

a) The name of the professional certificate holder;
b) His/her teacher certification identification number;
c) The title of the program;

All hours of completed professional development reported by Districts will become part of the certificate holder's certification record maintained by OTI. Teachers with professional certificates must complete the required number of hours of professional development every five (5) years for their certificates to remain valid.

The School District is required to report professional development hours for its employees online directly via the Web-based computer system TEACH (Teacher Education and Certification Help).

Certificate Holder Responsibilities

All professional certificate holders must keep records of all of their approved professional development activities/programs/coursework, regardless of the provider, for at least seven (7) years from the date of completion of the program and shall be available for review by SED. SUBJECT: DEFENSE AND INDEMNIFICATION OF BOARD MEMBERS AND EMPLOYEES

Liability Protection Pursuant to Education Law

The Board of Education recognizes its statutory obligation to indemnify School District employees (and in certain circumstances, Board of Education members and volunteers) pursuant to the provisions of Sections 3023, 3028 and 3811 of the Education Law. For the purposes of this policy, the term "employee" shall be as defined in the applicable statute(s).

The District shall not be subject to the duty to defend unless the employee delivers appropriate notice of the claim to the Board of Education within the time prescribed by statute.

a) For purposes of Education Law Section 3811, the employee must give written notice within five (5) days after service of process upon him/her. The statute mandates only written notice of the claim to the Board of Education; however, submission of relevant legal documents by the employee to the Board is also encouraged.

b) For purposes of Education Law Sections 3023 and 3028, the employee must deliver the original or a copy of the relevant legal documents to the Board within ten (10) days after service of process upon him/her.

The District will provide legal defense and/or indemnification for all damages, costs, and reasonable expenses incurred in the defense of an action or proceeding if authorized pursuant to statute and provided that the alleged action or omission which occurred or allegedly occurred is covered by the appropriate statute(s). Furthermore, the District will not be required to provide indemnification protection and/or legal defense unless the employee was, at the time of the alleged incident, acting in the discharge of his/her duties within the scope of his/her employment or authorized volunteer duties and/or under the direction of the Board of Education.

Public Officers Law Section 18

The Board of Education hereby also confers the benefits of Section 18 of the New York State Public Officers Law upon the "employees" of the District, as defined in Section 18 of the Public Officers Law; and the District assumes the liability for the costs incurred in accordance with the provisions of Section 18. The benefits accorded to District employees under Section 18 of the Public Officers Law shall supplement and be available in addition to defense or indemnification protection conferred by other enactment or provisions of law.

(Continued)
The term "employees" shall include members of the Board of Education; the Superintendent; District officers; District employees; volunteers expressly authorized to participate in a District sponsored volunteer program; or any other person holding a position by election, appointment or employment in the service of the District, whether or not compensated. The term "employee" shall also include a former employee, his/her estate or judicially appointed representative.

Pursuant to the provisions of Section 18 of the Public Officers Law, and upon compliance by the employee with the requirements of this statute, the District shall provide for the defense of the employee in any civil action or proceeding, state or federal, arising out of any alleged act or omission which occurred or allegedly occurred while the employee was acting within the scope of his/her public employment or duties. Furthermore, the District shall indemnify and save harmless its employees in the amount of any judgment obtained against such employees in a state or federal court, or in the amount of any settlement of a claim, provided that the act or omission from which such judgment or claim arose occurred while the employee was acting within the scope of his/her public employment or duties. However, in the case of a settlement, the duty to indemnify and save harmless shall be conditioned upon the approval of the amount of the settlement by the Board of Education.

The duty to defend and/or indemnify and save harmless, in accordance with Section 18 of the Public Officers Law, shall be conditioned upon the delivery by the employee to the School District attorney or to the Superintendent a written request to provide for his/her defense, together with the original or a copy of any summons, complaint, process, notice, demand or pleading within ten (10) days after he/she is served with such document. Pursuant to Section 18, the full cooperation of the employee in the defense of such action or proceeding and in the defense of any action or proceeding against the District based upon the same act or omission, and in the prosecution of any appeal, shall also be required as a condition for the District's duty to defend and/or indemnify and save harmless to exist.

Exceptions to Liability Coverage

Indemnification coverage and/or provision of legal defense by the District will not apply unless the actionable claim is of the type covered by the statute(s) and/or is not otherwise exempt from coverage pursuant to law. Additionally, indemnification coverage and/or the duty to provide a defense shall not arise where such action or proceeding is brought by or on behalf of the School District.

   3. Under laws and rules governing such action, the Board may undertake appropriate disciplinary action where a leave of absence is falsely requested or improperly used.
   4. Except by permission of the Superintendent, as expressed in writing, the purpose or conditions of a leave of absence may not be altered.

b) Leaves of absence, contractual, et al:
   1. Employees who are members of a negotiating unit:
      Authorization is granted to approve requests for leaves of absence submitted pursuant to provisions of contracts in effect between the District and each bargaining unit.
   2. Employees who are not members of a negotiating unit:
      Authorization is granted to approve requests for leaves of absence submitted by such employees where such requests are consistent with provisions of contracts in effect between the District and the bargaining unit most compatible with the employment status of the employee.
   3. Employees who are under contract to the District:
      Authorization is granted to implement provisions for leaves of absence contained in each such contract.

c) Leaves of absence, unpaid, not covered in b) 1. above:
   1. Subject to limitations enumerated in this policy statement, authorization is granted for the following unpaid leaves of absence:
      (a) For a period of time not to exceed one (1) school year for approved graduate study, such leave to include any required internship experience.

(Continued)
(b) At the expiration of a paid sick leave of absence, to extend such a leave of absence for a period of time not to exceed the end of the school year next succeeding the school year in which the paid leave of absence commenced.

2. Unpaid leaves of absence shall not be used to extend vacation periods, to take vacations, to engage in other occupations, or to provide additional personal leaves, except that the Superintendent shall have discretion, where circumstances warrant, to approve leaves of absence for such purposes.

3. Unpaid leaves of absence shall not be granted unless the services of a substitute employee, satisfactory in the discretion of the Superintendent, can be secured.

4. Except where it interferes with an employee's legal or contractual rights, the timing of unpaid leaves of absence will be granted at the convenience of the District.

d) Other Leaves of absence:

1. Emergency Service Volunteer Leave

   Upon presentation of a written request from the American Red Cross and with the approval of the Superintendent, employees certified by the American Red Cross as disaster volunteers shall be granted leave from work with pay for up to twenty (20) days in any calendar year to participate in specialized disaster relief operations. This leave shall be provided without loss of seniority, compensation, sick leave, vacation leave or other overtime compensation to which the volunteer is otherwise entitled.

2. Screenings Cancer

   Employees shall be granted up to four (4) hours of leave on an annual basis to undertake a screening for cancer. This leave shall be paid leave and shall not be charged against any other leave to which the employee is entitled."

3. Blood donation

   Employees desiring to make blood donations shall be granted three (3) hours of leave in any twelve (12) month period. The leave may not exceed three (3) hours unless agreed to by the Superintendent/designee. Additional leaves for the purpose of blood donation under any other provision of law shall not be prevented.
SUBJECT: LEAVES OF ABSENCE (Cont'd.)

4. Bone Marrow donation

Employees seeking to undergo a medical procedure to donate bone marrow shall be granted leaves to do so, the combined length of the leaves to be determined by the physician, but may not exceed twenty-four (24) work hours unless agreed to by the Superintendent/designee. The District shall require verification for the purpose and length of each leave requested by the employee for this purpose.

e) Other Leaves

1. Nursing Mothers

The District shall provide reasonable unpaid break time or permit the use of paid break time and/or meal time each day to allow an employee to breastfeed or express breast milk for her nursing child for up to three (3) years following child birth. The District shall make reasonable efforts to provide a room or other location in close proximity to the work area where the nursing mother can breastfeed or express milk in privacy. The District shall not discriminate against an employee who chooses to express breast milk or breastfeed in the workplace.

Reasonable unpaid break time is generally no less than twenty (20) minutes and no more than thirty (30) minutes dependent upon on the proximity of the designated location for breastfeeding/expressing breast milk. In most situations, the District is required to provide unpaid break time at least once every (3) hours if requested by the employee. At the employee's option, the District shall allow the employee to work before or after her normal shift to make up the amount of time used during the unpaid break time(s) so long as such additional time requested falls within the District's normal work hours.

The District shall provide written notice to employees who are returning to work following the birth of a child of their right to take unpaid leave for the purpose of breastfeeding/expressing breast milk. Such notice may either be provided individually to affected employees or to all employees generally through publication of such notice in the employee handbook or posting of the notice in a central location.

Any employee wishing to avail herself of this benefit is required to give the District advance notice, preferably prior to her return to work, to allow the District an opportunity to establish a location and schedule leave time to accommodate employees as needed.

2. Military Leave

The District will comply with state and federal laws regarding military leave and re-employment.

SUBJECT: FAMILY AND MEDICAL LEAVE ACT

The Board of Education, in accordance with the Family and Medical Leave Act of 1993 (FMLA), gives "eligible" employees of the District the right to take unpaid leave for a period of up to twelve (12) workweeks in a twelve-month period as determined by the District. The District will compute the twelve-month period according to the following time frame: a "rolling" twelve-month period will be used that is measured backward from the date an employee uses any FMLA leave.

Employees are "eligible" if they have been employed by the District for at least twelve (12) months and for at least 1,250 hours of service during the previous twelve-month period. Full-time teachers are deemed to meet the 1,250 hour test. The law covers both full-time and part-time employees.

Qualified employees may be granted leave for one (1) or more of the following reasons:

a) The birth of a child and care for the infant;

b) Adoption of a child and care for the infant;

c) The placement with the employee of a child in foster care;

d) To care for a spouse, child or parent who has a serious health condition as defined by the FMLA;

e) A serious health condition of the employee, as defined by the FMLA, that prevents the employee from performing his/her job.

At the Board of Education's or employee's option, certain types of paid leave may be substituted for unpaid leave.

An employee on FMLA leave is also entitled to have health benefits maintained while on leave. If an employee was paying all or part of the premium payments prior to leave, the employee will continue to pay his/her share during the leave period.

In most instances, an employee has a right to return to the same position or an equivalent position with equivalent pay, benefits and working conditions at the conclusion of the leave.

(Continued)
SUBJECT: FAMILY AND MEDICAL LEAVE ACT (Cont'd.)

The Board of Education has a right to thirty (30) days advance notice from the employee where practicable. In addition, the Board may require an employee to submit certification from a health care provider to substantiate that the leave is due to the serious health condition of the employee or the employee's immediate family member. Failure to comply with these requirements may result in the denial of FMLA leave. The Board may also require that an employee present a certification of fitness to return to work when the absence was caused by the employee's serious health condition. The Board of Education has the right to deny restoration to employment if the employee does not furnish the certificate of fitness.

A notice which explains the FMLA's provisions and provides information concerning the procedures for filing complaints of violations of the FMLA shall be posted in each school building.

Administration is directed to develop regulations to implement this policy, informing employees of their rights and responsibilities under the FMLA.

7100 ATTENDANCE

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY

Statement of Overall Objectives

School attendance is both a right and a responsibility. The School District is an active partner with students and parents in the task of ensuring that all students meet or exceed the New York State Learning Standards. Because the School District recognizes that consistent school attendance, academic success and school completion have a positive correlation, the School District has developed, and, if necessary, will revise a Comprehensive Student Attendance Policy to meet the following objectives:

a) To increase school completion for all students;
b) To raise student achievement and close gaps in student performance;
c) To identify attendance patterns in order to design attendance improvement efforts;
d) To know the whereabouts of every student for safety and other reasons;
e) To verify that individual students are complying with education laws relating to compulsory attendance;
f) To determine the District's average daily attendance for State aid purposes.

Description of Strategies to Meet Objectives

The School District will:

a) Create and maintain a positive school building culture by fostering a positive physical and psychological environment where the presence of strong adult role models encourages respectful and nurturing interactions between adults and students. This positive school culture is aimed at encouraging a high level of student bonding to the school, which in turn should lead to increased attendance.

b) Develop a Comprehensive Student Attendance Policy based upon the recommendations of a multifaceted District Policy Development Team that includes representation from the Board of Education, administrators, teachers, students, parents and the community. The District will hold at least one public hearing prior to the adoption of this collaboratively developed Comprehensive Student Attendance Policy.

c) Maintain accurate recordkeeping via a Register of Attendance to record attendance, absence, tardiness, or early departure of each student.

(Continued)
d) Utilize data analysis for tracking individual student attendance and individual and group trends in student attendance problems.

e) Develop early intervention strategies to improve school attendance for all students.

**Determination of Excused and Unexcused absences, Tardiness and Early Departures**

Based upon our District's education and community needs, values and priorities, the School District has determined that absences, tardiness and early departures will be considered excused or unexcused according to the following standards.

a) **Excused:** An absence, tardiness or early departure may be excused if due to personal illness, illness or death in the family, impassible roads due to inclement weather, religious observance, quarantine, required court appearances, attendance at health clinics, approved college visits, approved cooperative work programs, military obligations, road test or other such reasons as may be approved by the Board of Education.

b) **Unexcused:** An absence, tardiness or early departure is considered unexcused if the reason for the lack of attendance does not fall into the above categories (e.g., family vacation, hunting, babysitting, haircut, obtaining learner's permit, oversleeping).

**Student Attendance Recordkeeping/Data Collection**

The record of each student's presence, absence, tardiness and early departure shall be kept in a register of attendance in a manner consistent with Commissioner's Regulations. An absence, tardiness or early departure will be entered as "excused" or "unexcused" along with the District code for the reason.

Commencing July 1, 2003, attendance shall be taken and recorded in accordance with the following:

a) For students in non-departmentalized kindergarten through grade six (i.e., self-contained classrooms and supervised group movement to other scheduled school activities such as physical education in the gym, assembly, etc.), such student's presence or absence shall be recorded after the taking of attendance once per school day, provided that students are not dismissed from school grounds during a lunch period. Where students are dismissed for lunch, their presence or absence shall also be recorded after the taking of attendance a second time upon the student's return from lunch.
SUBJECT:  COMPREHENSIVE STUDENT ATTENDANCE POLICY (Cont'd.)

b)  For students in grades 7 through 12 or in departmentalized schools at any grade level (i.e., students pass individually to different classes throughout the day), each student's presence or absence shall be recorded after the taking of attendance in each period of scheduled instruction except that where students do not change classrooms for each period of scheduled instruction, attendance shall be taken in accordance with paragraph "a" above.

c)  Any absence for a school day or portion thereof shall be recorded as excused or unexcused in accordance with the standards articulated in this policy.

d)  In the event that a student at any instructional level from kindergarten through grade 12 arrives late for or departs early from scheduled instruction, such tardiness or early departure shall be recorded as excused or unexcused in accordance with the standards articulated in this policy.

A record shall be kept of each scheduled day of instruction during which the school is closed for all or part of the day because of extraordinary circumstances including adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of or damage to a school building, or such other cause as may be found satisfactory to the Commissioner of Education.

Attendance records shall also indicate the date when a student withdraws from enrollment or is dropped from enrollment in accordance with Education Law Section 3202(1-a).

All attendance information shall be complied and provided to the designated school personnel who are responsible for attendance. The nature of the absence, tardiness or early departure shall be coded on a student's record in accordance with the established District/building procedures.

Student Attendance/Course Credit

The District believes that classroom participation is related to and affects a student's performance and grasp of the subject matter and, as such, is properly reflected in a student's final grade. For purposes of this policy, classroom participation means that a student is in class and prepared to work.

Consequently, for each marking period a certain percentage of a student's final grade will be based on classroom participation as well as the student's performance on homework, tests, papers, projects, etc. as determined by the building administrator and/or classroom teacher.

Students are expected to attend all scheduled classes. Consistent with the importance of classroom participation, unexcused student absences, tardiness, and early departures will affect a student's grade, including credit for classroom participation, for the marking period.

(Continued)
At the 7-12 level, any student with more than 18 absences in a full year course may not receive credit for the course. For one semester courses a student may not have more than 9 absences. If a student reaches the threshold of losing credit a parent and attendance committee meeting will be held to determine the course of action.

If a student would otherwise reach 19 days but has completed a sufficient number of buy-backs, that student shall be allowed to remain in the course; provided, however, that the student's absences, tardiness, and/or early departures are properly excused; the student has performed any assigned make-up work, assignments, tests, and the student does not reach 19 days absent for any reason.

School sponsored activities, school appointments and in-school suspension shall not be counted as absences.

Transfer students and re-enrolling after having withdrawn are subject to this policy. Attendance at another school will be considered at Germantown Central School.

Students will be considered in attendance if the student is:

a) Physically present in the classroom or working under the direction of the classroom teacher during the class scheduled meeting time; or

b) Working pursuant to an approved independent study program; or

c) Receiving approved alternative instruction.

Students who are absent from class due to their participation in a school sponsored activity are to arrange with their teachers to make up any work missed in a timely manner as determined by the student's teachers. Attendance at school sponsored events where instruction is substantially equivalent to the instruction which was missed shall be counted as the equivalent of regular attendance in class.

Upon returning to school following a properly excused absence, tardiness or early departure, it shall be the responsibility of the student to consult with his/her teacher(s) regarding arrangements to make up missed work, assignments and/or tests in accordance with the time schedule specified by the teacher.

notice of minimum attendance standard/intervention strategies prior to the denial of course credit

In order to ensure that parents/persons in parental relation and students are informed of the District's policy regarding minimum attendance and course credit, and the implementation of specific
intervention strategies to be employed prior to the denial of course credit to the student for insufficient attendance, the following guidelines shall be followed:

a) Copies of a summary of the District's Comprehensive Student Attendance Policy will be distributed to parents/persons in parental relation and provided to students at the beginning of each school year or at the time of enrollment in the District.

b) School newsletters and publications will include periodic reminders of the components of the District's Comprehensive Student Attendance Policy. Copies of the Attendance Policy will also be included in parent/student handbooks.

c) At periodic intervals, a designated staff member(s) will notify the parent/person in parental relation of the student’s absence, tardiness, or early departure and explain the relationship of the student's attendance to his/her ability to receive course credit.

d) A designated staff member will review the District's Attendance Policy with students who have excessive and/or unexcused absences, tardiness or early departures. Further, appropriate student support services/personnel within the District, as well as the possible collaboration/referral to community support services and agencies, may be implemented.

Notice of Students who are Absent, Tardy or Depart Early Without Proper Excuse

If deemed necessary by appropriate school officials, or if requested by the parent/person in parental relation, a school conference shall be scheduled between the parent/person in parental relation and appropriate staff members in order to address the student’s attendance. The student may also be requested to attend this conference in order to address appropriate intervention strategies that best meet the needs of the student.

Attendance Incentives

In order to encourage student attendance, the District will develop and implement grade-appropriate/building-level strategies and programs including, but not limited to:

a) Attendance honor rolls to be posted in prominent places in District buildings and included in District newsletters and, with parent/person in parental relation consent, in community publications;

b) Monthly drawings for prizes at each grade level to reward perfect attendance;

c) Special events (e.g., assemblies, guest speakers, field days) scheduled on days that historically have high absenteeism (e.g., Mondays, Fridays, day before vacation);

(Continued)
d) Grade-level rewards at each building for best attendance;

e) Classroom acknowledgment of the importance of good attendance (e.g., individual certificates, recognition chart, bulletin boards);

f) Annual poster/essay contest on importance of good attendance;

g) Assemblies collaboratively developed and promoted by student council, administration, PTSA and other community groups to promote good attendance.

**Disciplinary Consequences**

Unexcused absences, tardiness and early departures will result in disciplinary sanctions as described in the District's Code of Conduct. Consequences may include, but are not limited to, in-school suspension, detention and denial of participation in interscholastic and extracurricular activities. Parents/persons in parental relation will be notified by designated District personnel at periodic intervals to discuss their child's absences, tardiness or early departures and the importance of class attendance and appropriate interventions. Individual buildings/grade levels will address procedures to implement the notification process to the parent/person in parental relation.

**Intervention Strategy Process**

In order to effectively intervene when an identified pattern of unexcused absences, tardiness or early departures occur, designated District personnel may pursue the following:

a) Identify specific element(s) of the pattern (e.g., grade level, building, time frame, type of unexcused absences, tardiness or early departures);

b) Contact the District staff most closely associated with the element. In specific cases where the pattern involves an individual student, the student and parent/person in parental relation will be contacted;

c) Discuss strategies to directly intervene with specific element;

d) Recommend intervention to Superintendent or his/her designee if it relates to change in District policy or procedure;

e) Implement changes, as approved by appropriate administration;

f) Utilize appropriate District and/or community resources to address and help remediate student unexcused absences, tardiness or early departures;

(Continued)
g) Monitor and report short and long term effects of intervention.

**Appeal Process**

A parent/person in parental relation may request a building level review of their child's attendance record.

The Committee will make a final determination within 5 school days.

The Committee will consist of the following G.C.S. personnel: Student's Principal, CSE Representative (if student is Special Education), Guidance Counselor, Nurse, and Subject Teacher.

**Building Review of Attendance Records**

Beginning with the 2003-04 school year, the Building Principal will work in conjunction with the building attendance clerk and other designated staff in reviewing attendance records at the end of each term. This review is conducted to identify individual and group attendance patterns and to initiate appropriate action to address the problem of unexcused absences, tardiness and early departures.

**Annual Review by the Board of Education**

The Board of Education shall annually review the building level student attendance records and if such records show a decline in student attendance, the Board may make any revisions to the Policy and plan deemed necessary to improve student attendance.

**Community Awareness**

The Board of Education shall promote necessary community awareness of the District's Comprehensive Student Attendance Policy by:

a) Providing a plain language summary of the policy to parents or persons in parental relation to students at the beginning of each school year and promoting the understanding of such a policy to students and their parents/persons in parental relation;

b) Providing each teacher, at the beginning of the school year or upon employment, with a copy of the policy; and

c) Providing copies of the policy to any other member of the community upon request.

SUBJECT:  COMPREHENSIVE STUDENT ATTENDANCE POLICY (Cont'd.)

Procedures

Absences

If a student is absent for any reason it is the student's responsibility to bring a note to school verifying the reason for such absence. The student's absence will be recorded in the G.C.S. Attendance Register, and if the absence is excusable, that fact shall be noted. A student who comes to school without a note shall have his/her absence recorded as unexcused.

An unexcused absence may be converted into an excused absence if the student provides an acceptable note to the District Office within five school days of the next day the student attends school. An unexcused absence that is converted into an excused absence by this process will not relieve a student from his/her responsibilities as discussed below (see Student Responsibilities).

If a student fails to provide a note to the District Office within five school days of returning to school, the absence will be recorded as unexcused, regardless of the reason. For this purpose, the first day a student returns to school after an absence marks the first day of the five-day period for providing a note to the District Office.

Tardiness

It is G.C.S. policy that a student who comes to school late for any excusable reason will be permitted to go directly to his/her class, provided the student has an acceptable note verifying that his/her tardiness is excusable.

A tardy student who provides an acceptable note shall not be marked absent if he/she is in class for more than 50% of the class period.

An unexcused tardy may be converted into an excused tardy if the student provides an acceptable note to the District Office within five school days of the next day the student attends school. An unexcused tardy that is converted into an excused tardy by this process will not relieve the student from his/her responsibilities as discussed below (see Student Responsibilities).

If a student fails to provide a note to the District Office within 5 school days, the tardy will be recorded as unexcused, regardless of the reason.

(Continued)
A student must attend school for his/her entire, official school day in order to attend extracurricular activities (Practice, games, clubs etc.) If a student is tardy to school he/she must have a written, legal excuse in order to attend extracurricular activities that day. He/She must still attend at least 6 periods during the school day to participate. Exceptions are at the discretion of the Principal.

The rules concerning tardiness shall not apply to seniors who have permission to come to school late; provided, however, that a senior must arrive at school on time, as scheduled.

**Early Departures**

If a student leaves school at any time before the end of the official school day, the student must provide a note to the District Office verifying the reason for the early departure. A notation shall be made in the Attendance Register indicating whether the early departure is for an excusable reason or not.

An unexcused early departure may be converted to an excused early departure if the student provides an acceptable note to the District Office within five (5) school days of the next day the student attends school. An unexcused early departure that is converted into an excused early departure by this process will not relieve a student from his/her responsibilities as discussed below (see Student Responsibilities).

A student who departs early must attend school for at least five (5) classes in order to receive credit for the day.

If a student fails to provide a note to the District Office within five school days, the early departure will be recorded as unexcused, regardless of the reason.

The rules concerning early departure shall not apply to seniors who have permission to leave school and who have completed their official school day.

**Acceptable Notes**

Examples of the types of acceptable notes are as follows:

a) A note from a doctor (nurse practitioner or dentist) verifying attendance at an appointment. A note from a parent or guardian is not acceptable in this instance. Notes from medical professionals will be kept strictly confidential.

b) A note from a doctor, parent, or other legal guardian (whose name, address and telephone number are on file at G.C.S.) verifying that an absence or tardiness is due to personal illness, illness or death in the family, or religious observance.

(Continued)
c) A note from a parent or guardian together with appropriate 3rd party documentation verifying that the absence, tardiness or early departure is due to any other excusable reason.

**Student Responsibilities**

a) A student who misses a class for any reason must make arrangements with his/her teachers to obtain class notes and homework assignments the first day he/she returns to school.

b) A student who missed a class for any reason must perform all make-up assignments as directed by the student's teacher.

c) A student who misses a class (other than attendance at a school sponsored activity or appointment or attendance at half day or full day ISS), may reduce the number of absences through either of the following buy-backs, at the teacher's discretion:

1. Do subject work with the subject teacher for 30 minutes after school, OR

2. Do prearranged subject work for 30 minutes during the school day in an area to be determined by the teacher in consultation with administration.

3. Students may do buy backs in an after school buyback program supervised by GCS staff. The proper documentation must be filled out and collected by staff that day.

d) A student may buy back a maximum of 16 absences (9 for a one semester course). Buy backs must be completed in a timely manner and prior to the end of the course.

e) Notwithstanding the foregoing, a student who has an unexcused absence due to cutting a class will be subject to the G.C.S. discipline policy.

**Administration**

The school administration shall contact the parent(s) or guardian(s) of a student who is absent 7+ days (3+ days for a one semester course.) A conference may be requested when a student reaches 15 absences in a full year course or 7 in a half year course to discuss the student's progress and intervention strategies. Part of that process will include the following advice:

A student who has 15 or more absences should begin the buyback process.

Administration may file a PINS petition or contact CPS for any student with more than 18 unexcused absences.

SUBJECT:  COMPREHENSIVE STUDENT ATTENDANCE POLICY (Cont'd.)

A student with excessive absences, tardiness or early departures may lose his/her parking privileges.

A student with excessive absences, tardiness or early departures may lose his/her early departure or late arrival privileges, or his/her eligibility to play sports or participate in other extracurricular activities.

A student with excessive absences, tardiness or early departures may be subject to such other consequences deemed appropriate in order to prevent further absences, tardiness or early departures.

SUBJECT: DIAGNOSTIC SCREENING OF STUDENTS

The School District has developed a plan for the diagnostic screening of all new entrants and students with low test scores.

A new entrant means a student entering the New York State public school system, pre-kindergarten through grade 12, for the first time, or re-entering a New York State public school with no available record of a prior screening.

Students with low test scores are students who score below level two on either the third grade English language arts or mathematics assessment for New York State elementary schools.

Such diagnostic screening will be utilized to determine which students:

a) Have or are suspected of having a disability;

b) Are possibly gifted; or

c) Are possibly limited English proficient.

Such diagnostic screening shall be conducted:

a) By persons appropriately trained or qualified;

b) By persons appropriately trained or qualified in the student's native language if the language of the home is other than English;

c) In the case of new entrants, prior to the school year, if possible, but no later than December 1 of the school year of entry or within fifteen (15) days of transfer of a student into a New York State public school should the entry take place after December 1 of the school year;

d) In the case of students with low test scores, within thirty (30) days of the availability of the test scores.

New Entrants

For new entrants, diagnostic screening shall include, but not be limited to the following:

a) A health examination by a physician/physician's assistant or nurse practitioner or submission of a health certificate in accordance with Education Law Sections 901, 903, and 904;

b) Certificates of immunization or referral for immunization in accordance with Section 2164 of the Public Health Law;

(Continued)
SUBJECT: DIAGNOSTIC SCREENING OF STUDENTS (Cont’d.)

c) Vision, hearing and scoliosis screenings as required by Section 136.3 of Commissioner's Regulations;

d) A determination of development in oral expression, listening comprehension, written expression, basic reading skills and reading fluency and comprehension, mathematical calculation and problem solving, motor development, articulation skills, and cognitive development using recognized and validated screening tools; and

e) A determination whether the student is of foreign birth or ancestry and comes from a home where a language other than English is spoken as determined by the results of a home language questionnaire and an informal interview in English and the native language.

Students with Low Test Scores

For students with low test scores, diagnostic screening shall include, but not be limited to:

a) Vision and hearing screenings to determine whether a vision or hearing impairment is impacting the student's ability to learn; and

b) A review of the instructional programs in reading and mathematics to ensure that explicit and research validated instruction is being provided in reading and mathematics.

No screening examination for vision, hearing or scoliosis condition is required where a student, parent, or person in parental relation objects on the grounds that such examination conflicts with their genuine and sincere religious beliefs.

Results and Reports

The results of the diagnostic screening shall be reviewed and a written report of each student screened shall be prepared by appropriately qualified School District staff. The report shall include a description of diagnostic screening devices used, the student's performance on those devices and, if required, the appropriate referral.

If such screening indicates a possible disability, a referral, with a report of the screening, shall be made to the Committee on Special Education (CSE) or the Committee on Preschool Special Education (CPSE) no later than fifteen (15) calendar days after completion of such diagnostic screening.

If such screening indicates a possibly gifted child, the name and finding shall be reported to the Superintendent of Schools and to the parents/legal guardians no later than fifteen (15) calendar days after completion of such screening. The term gifted child is defined as a child who shows evidence of high performance capability and exceptional potential in areas such as general intellectual ability, special academic aptitude and outstanding ability in visual and performing arts. Such definition shall include those children who require educational programs or services beyond those normally provided.
SUBJECT: DIAGNOSTIC SCREENING OF STUDENTS (Cont’d.)

by the regular school program in order to realize their full potential.

If such screening indicates a child identified as possibly being of limited English proficiency, such child shall be referred for further evaluation in accordance with Part 154 of the Regulations of the Commissioner of Education to determine eligibility for appropriate transitional bilingual or free-standing English as a Second Language (ESL) programs.

Reporting to Parents

Parents/guardians of children to be screened shall receive information in advance regarding the purpose of screening, the areas to be screened and the referral process. The information shall be communicated either orally or in writing in the parents' primary language(s). This information will be provided during the registration interview.

Parents/guardians have the right to request information regarding their child's performance during screening. They shall have access to the screening results and obtain copies upon request.

Confidentiality of Information

The Board of Education's policy and administrative regulations in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA) shall apply to all information collected about a child through the screening program. In accordance with the policy and regulations, parents shall be informed of their right to privacy, their right to access to the records and their right to challenge those records should they be inaccurate, misleading or otherwise inappropriate.

SUBJECT: ENTITLEMENT TO ATTEND -- AGE AND RESIDENCY

Ages of Attendance/Compulsory Attendance Age

According to Education Law, a student who becomes six (6) years of age on or before the first of December in any school year shall be required to attend full-time instruction from the first day that the District schools are in session in September of such school year, and a student who becomes six (6) years of age after the first of December in any school year shall be required to attend full-time instruction from the first day of session in the following September. Except as otherwise provided in Education Law Section 3205(3), a student shall be required to remain in attendance until the last day of session in the school year in which the student becomes sixteen (16) years of age.

However, in accordance with Education Law Section 3205(3), the Board of Education in any school district shall have the power to require minors from sixteen (16) to seventeen (17) years of age who are not employed to attend full-time instruction until the end of the school year in which the student turns seventeen (17) years of age.

All persons dwelling within the District who are between the ages of five (5) years and twenty-one (21) years and who have not received a high school diploma shall be entitled to enroll in the District.

Determination of Student Residency

The residence of children dwelling within the District boundaries shall be established in a manner consistent with State Law and the Regulations of the Commissioner. The Board of Education or its designee shall determine whether a child is entitled to attend a District school. Any adverse residency decision by a school official, other than the Board or its designee, shall include written notice to the parent/person in parental relation of the procedures for obtaining review of the decision within the District.

Regulations will be developed to implement the terms of this policy.

Children Living With Noncustodial Parents

A child's residence is usually determined by the residence of the custodial parent. However, a noncustodial parent who resides in the District may enroll his/her child in a District school if he/she shares the day-to-day responsibilities for the child and the custodial parent designates the child's residence with the noncustodial parent.

(Continued)
Homeless Children

The parent/person in parental relation to a homeless child; or the homeless child, together with the homeless liaison designated by the School District in the case of an unaccompanied youth; or the director of a residential program for runaway and homeless youth established pursuant to Executive Law Article 19-H, in consultation with the homeless child, where such homeless child is living in such program, may designate either the school district of current location, the school district of origin, or a school district participating in a regional placement plan as the district the homeless child shall attend.

Children of Activated Reserve Military Personnel

Students temporarily residing outside the boundaries of the District, due to relocation necessitated by the call to active military duty of the student's parent or person in parental relation, will be allowed to attend the public school that they attended prior to the relocation. However, the District is not required to provide transportation between a temporary residence located outside the District and the school the child attends.

Emancipated Minors

A determination of whether a student is to be designated as an emancipated minor in the Germantown Central School District will be based on evidence that the student is no longer under custody, control and support of his/her parents/persons in parental relation. To establish emancipation, a minor may submit documentation of his/her means of support, proof of residency and an explanation of the circumstances surrounding the student's emancipation, including a description of the student's relationship with his/her parents/persons in parental relation.

These statements are renewable each school year. If at any time the above information is changed without prompt notification or proven to be false, the parent/person in parental relation and/or student may be subject to legal action.

NOTE: Refer also to Policy #7131 -- Education of Homeless Children and Youth

Adopted: 4/8/09
SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH

The parent/person in parental relation to a homeless child; or the homeless child, together with the homeless liaison designated by the School District in the case of an unaccompanied youth; or the director of a residential program for runaway and homeless youth established pursuant to Executive Law Article 19-H, in consultation with the homeless child, where such homeless child is living in such program, may designate either the school district of current location, the school district of origin, or a school district participating in a regional placement plan as the district the homeless child shall attend.

Pursuant to Commissioner's Regulations, a "homeless child" means a child or youth who lacks a fixed, regular, and adequate nighttime residence, including a child who is:

a) Sharing the housing of other persons due to a loss of housing, economic hardship or a similar reason;

b) Living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations;

c) Abandoned in hospitals;

d) Awaiting foster care placement; or

e) A migratory child who qualifies as homeless in accordance with Commissioner's Regulations. As defined in the No Child Left Behind Act of 2001, the term "migratory child" includes a child who is, or whose parent or spouse is, a migratory agricultural worker, including a migratory dairy worker, or a migratory fisher, and who has moved from one school district to another in the preceding 36 months, in order to obtain, or accompanies such parent or spouse in order to obtain, temporary or seasonal employment in agricultural or fishing work;

f) A child or youth who has a primary nighttime location that is:

1. A supervised, publicly or privately operated shelter designed to provide temporary living accommodations including, but not limited to, shelters operated or approved by the state or local department of social services, and residential programs for runaway and homeless youth established pursuant to Executive Law Article 19-H; or

2. A public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings; including a child or youth who is living in a car, park, public space, abandoned building, substandard housing, bus or train station or similar setting.

(Continued)
SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH (Cont'd.)

The term "homeless child" shall not include a child in foster care or receiving educational services pursuant to Education Law Sections 3202(4), (5), (6), (6a) or (7) or pursuant to Articles 81, 85, 87 or 88. For example, a child in a family home at board, a school for the mentally retarded, a hospital or other institution for the care, custody and treatment of children; youths under the direction of the Division for Youth incarcerated in county correctional facilities or youth shelters; or children residing in child care institutions or schools for the deaf or blind would not be considered "homeless."

Enrollment, Retention and Participation in the Educational Program

Enrollment of homeless children shall not be delayed and their ability to continue or participate in the educational program shall not be restricted due to issues such as:

a) Transportation;
b) Immunization requirements;
c) Residency requirements;
d) Birth certificates, medical records, individualized education programs (IEPs), school records and other documentation;
e) Guardianship issues;
f) Comprehensive assessment and advocacy referral processes;
g) Resolution of disputes regarding school selection;
h) Proof of social security numbers;
i) Attendance requirements;
j) Sports participation rules;
k) Inability to pay fees associated with extracurricular activities such as club dues and sports uniforms; or
l) Other enrollment issues.

(Continued)
SUBJECT:  EDUCATION OF HOMELESS CHILDREN AND YOUTH  (Cont'd.)

Educational Programs and Services

The School District shall provide homeless children and youth with access to all of its programs, activities and services to the same extent that they are provided to resident students.

Homeless children and youth shall be educated as part of the school's regular academic program. Services must be provided to homeless children and youth through programs and mechanisms that integrate homeless children and youth with their non-homeless counterparts, including programs for special education, vocational and technical education, gifted and talented students, before and after school, English language learners/limited English proficiency, Head Start, Even Start, and school nutrition. Services provided with McKinney-Vento funds must expand upon or improve services provided as part of the regular school program. Consequently, the School District shall ensure that homeless children and youth are not segregated in a separate school, or in a separate program within the school, based on their status as homeless; and to the extent feasible consistent with the requirements of Commissioner's Regulations, keep a homeless child or youth in the school of origin except when doing so is contrary to the wishes of the child's or youth's parent or guardian. Further, the School District shall review and revise policies and practices, including transportation guidelines, that may act as barriers to the enrollment, attendance, school success, and retention of homeless children and youth in the School District.

All homeless children and youth are automatically eligible for Title I Part A services whether or not they meet the academic standards or live in a Title I school attendance area. Homeless students may receive Title I educational or support services from schoolwide and targeted-assistance school programs.

Transportation

If the local social service district or the Office of Children and Family Services is not required to provide transportation, the designated district is responsible for the provision and the cost of the student's transportation. Where a homeless student designates the school district of current location as the district the student will attend, then that district shall provide transportation to the student on the same basis as a resident student. Where the homeless student designates the school district of origin or a school district participating in a regional placement plan, then that district must provide transportation to and from the homeless child's temporary housing and school.

Transportation responsibilities apply to all school districts regardless of whether or not they receive McKinney-Vento funds. Transportation must be provided during the pendency of enrollment disputes. If the designated district provides transportation for non-homeless preschool children, it must also provide comparable transportation services for homeless preschool children.

(Continued)
SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH (Cont'd.)

School District Liaison for Homeless Children and Youth

The School District shall designate an appropriate staff person, who may also be a coordinator for other federal programs, as the local educational agency liaison for homeless children and youth to carry out the duties as enumerated in law, Commissioner's Regulations and applicable guidance issued by the U.S. and New York State Education Departments. The District will inform school personnel, local service providers and advocates of the office and duties of the local homeless liaison.

Training

The District will train all school enrollment staff, secretaries, school counselors, school social workers, and principals on the legal requirements for enrollment. School nutrition staff, school registered professional nurses, teachers, and bus drivers will receive training on homelessness that is specific to their field.

Outreach

The District will make every effort to inform the parents or guardians of homeless children and youth of the education, transportation and related opportunities available to their children including transportation to the school of origin. The parent(s)/guardian(s) will be assisted in accessing transportation to the school they select, and will be provided with meaningful opportunities to participate in the education of their children. Public notice of educational rights of homeless children and youth will be disseminated by the District in places where families and youth are likely to be present (e.g., schools, shelters, soup kitchens), and in comprehensible formats (e.g., geared for low literacy or other community needs).

Dispute Resolution

The District shall establish guidelines for the prompt resolution of disputes regarding school selection or enrollment of a homeless student and provide a written explanation, including a statement regarding the right to appeal to the parent or guardian if the School District sends the student to a school other than the school of origin or the school requested by the parent or guardian.

If there is a factual dispute over whether a student is homeless, the District will immediately enroll the student and then provide the parent/guardian the opportunity to submit verification of homelessness. The student will remain enrolled until a final determination is made by the District and for a minimum of thirty (30) days after the final determination to allow the parent/guardian opportunity to appeal to the Commissioner of Education. If the student files an appeal that contains a request for a stay within thirty (30) days of such final determination, the District must continue to enroll the student until the Commissioner rules on the stay request.

(Continued)
SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH (Cont'd.)

Record and Reporting Requirements

If the District, as the school district of origin, receives a request to forward student records to a receiving district, the records must be forwarded within five (5) days.

The School District shall maintain documentation regarding all aspects of the District's contact with and services provided to homeless students and youth for possible on-site monitoring by the State Education Department.

The District shall collect and transmit to the Commissioner of Education, at such time and in the manner as the Commissioner may require, a report containing such information as the Commissioner determines is necessary to assess the educational needs of homeless children and youths within the state.

SUBJECT:  NON-RESIDENT STUDENTS

The Board of Education affirms that its primary responsibility is to provide the best possible educational opportunities for the children who are legal district residents and who are of legal age to attend school.

ACCEPTANCE OF NON-RESIDENT STUDENTS

Non-resident families who wish to enroll children in the School System shall submit a request in writing to the Superintendent, who shall determine whether or not the student(s) will be admitted. A non-resident student may be admitted to District schools upon payment to the District of the Board-adopted tuition charge, if in the judgment of the Superintendent of Schools:

a) There is sufficient space to accommodate the non-resident student;

b) No increase in the size of faculty or staff will be necessary to accommodate them;

c) The non-resident student meets the District’s criteria for admission; and

d) The admission of such non-resident student is and continues during the enrollment period to be in the best interests of the District;

In addition to the above:

a) Parents/guardians must work out transfer conditions with the home school district;

b) All rules and regulations in effect for District students will be applicable to non-District students;

c) School and class placement of a non-resident student admitted to attend in the District shall be determined solely by the Superintendent or designated District administrative personnel.

Non-resident students may be admitted to District schools without paying tuition under one of the following conditions:

a) A student whose parents intend to become residents of the Germantown Central School District within sixty (60) days of the beginning of the semester in which the enrollment is sought may enter the school if they can provide bona-fide evidence of their intent (i.e., sales contract, deed, etc.). The parents assume full responsibility for transportation of the student to and from school.

d) Foreign students participating in a recognized Student Exchange Program which is a participant in the Student and Exchange Visitor Information System (SEVIS) may attend District schools for up to one year. The District will neither sponsor nor accept for admission students whose permanent residence is outside of the United States who are not participating in a recognized foreign student exchange program; and

*Non-resident families must provide their own transportation.

APPLICATIONS FOR ADMISSION OF NON-RESIDENT STUDENTS

a) In all cases described above and any unusual circumstances not covered above, a written request must be submitted to the Superintendent for consideration and is subject to the Superintendent’s approval;

b) Applications by or on behalf of admission of a non-resident student for attendance upon instruction in the District shall be made to the Superintendent of Schools;

c) Such application shall be made at least 30 days prior to the start of the semester, if the applicant wishes attendance in that semester;

d) Application for admission other than at the start of the semester shall be made at least 30 days prior to the date on which attendance would commence, if admitted, or as soon before the desired start date as possible.

TUITION

a) Tuition fees for non-resident students shall be established annually by the Board of Education pursuant to the Commissioner’s Regulation. The initial tuition charged shall be the tuition established for the previous school year. The tuition shall be adjusted upon receipt from the State Education Department of the tuition rate for the current school year;

b) The first tuition payment shall be due by August 15th of each year, the second payment due by November 15th, the final payment due by January 15th or fractional part thereof, depending upon the date of admission;

c) The person in parental relation to the student, or if the student is emancipated, the student will be billed in August. The timing of other billing to such person will depend on the date of the students’ first attendance in the district, and the tuition charge will be prorated on a daily basis; and

d) All tuition payments will become due before the service is provided. Failure to timely pay tuition will result in the child being excluded from attendance in the District.

CONTINUATION AS NON-RESIDENT STUDENT

Upon evidence of satisfactory achievement and conduct, a non-resident student admitted to attendance upon instruction in the District shall be permitted to continue in the school’s program as long as:

a) Transportation outside the District remains the responsibility of the parent/guardian;

b) The student’s scholastic achievement is commensurate with the expectations of the program in which the student is enrolled

c) The student meets the District’s standards of conduct and attendance for students;

d) The student’s attendance upon instruction in the District does not create the need to employ additional staff, or cause class size to increase beyond what is desirable, or create stress on the use of facilities in the District.

SUBJECT: NON-RESIDENT STUDENTS (Cont'd.)

RESPONSIBILITIES OF NON-RESIDENT STUDENTS

It shall be the responsibility of any non-resident student accepted as a student in the District to meet all academic, attendance and disciplinary standards of the District. A non-resident student accepted as a student in the District shall be wholly subject to the student discipline and conduct codes, and will be subject to discipline pursuant to such Codes and Education Law as if she/he were a resident student. A violation of any of these conditions may result in suspension from the District and termination of status as a non-resident student.

The Board of Education will comply with state law in reference to married students attending school.

Pregnant Students

New York Education Law provides that resident students over five (5) and under twenty-one (21) who have not received a high school diploma are entitled to attend school in the district in which they reside. The law further requires that a school district provide for this instruction and also to provide for home instruction for those students of legal age who are unable to profit from instruction in school.

In view of the above, administrative regulations will be developed to implement the terms of this policy to provide instruction as required by the New York State Education Law for students who become pregnant. The Superintendent, or his/her designee, is directed to consult with the school physician and the student's personal physician in determining the form of instruction.

The form of instruction may be any of the following or a combination of the following:

a) Remain in school with provisions for special instruction, scheduling, and counseling where needed.

b) Receive home instruction.

c) Attend BOCES programs.

SUBJECT: SCHOOL CENSUS

Although not required by law, the District will take a census of all children between birth and eighteen (18) years of age, and of children with disabilities between birth and twenty-one (21) years of age. In addition to the names of the students, the census will indicate their respective residences by street and number; the day of the month and the year of their birth; the names of the persons in parental relation to them; such information relating to physical or mental disabilities, to illiteracy, to employment and to the enforcement of the law relating to child labor and compulsory education as the State Education Department and the Board of Education shall require; and also such further information as the Board shall require.

On written request and in such form as prescribed by the Commissioner of Education, the Board shall provide to the Commissioner a report containing the names, ages and addresses of those children who are blind or deaf, and those children having serious physical or mental disabilities. Additionally, such report shall further indicate whether such children are being educated within the public schools of the District or, if they are not, where such education is being furnished to them.

Persons in parental relation to those children within the prescribed census age ranges are to make such reports as the Board of Education shall require, including, but not limited to, providing two (2) weeks before the child reaches compulsory school age, the name of the child; the child's residence; the name of the person or persons in parental relation to the child; the name and location of the school to which the child shall have been or shall be sent as a student; and such other information as required by law or as the Board may require.

A parent, guardian or other person having under his/her control or charge a child between birth and eighteen (18) years of age who withholds or refuses to give information in his/her possession relating to such census data as required by law pertaining to the child; or, in the alternative, gives false information in relation to such census data, shall be liable to and punished by a fine or imprisonment as established by law.

Count of Immigrant Children and Youth, 2006

As a provision of the federal Title III Part A – English Language Acquisition, Language Enhancement, and Academic Achievement Act under the No Child Left Behind Act of 2001, the U.S. Secretary of Education requires that all local educational agencies (LEAs) count the number of "immigrant children and youth" enrolled in the public and nonpublic schools in the geographic area under the jurisdiction of, or served by, the LEA. All "immigrant children and youth" who initially enrolled in schools in the United States between February 1, 2003 and January 31, 2006 must be counted and reported.

(Continued)
SUBJECT: SCHOOL CENSUS (Cont’d.)

For purposes of this count, the term "immigrant children and youth" shall include those individuals who:

a) Are ages three (3) through twenty-one (21);

b) Were NOT born in any state or from the Commonwealth of Puerto Rico, the District of Columbia, Guam, American Samoa, the U.S. Virgin Islands, the Northern Mariana Islands, or the Trust Territory of the Pacific Islands; and

c) Have NOT been attending schools in any one or more States for more than three (3) full academic years.

The results of this count have important implications for the receipt of supplemental federal funds to eligible LEAs in New York State for services to recently arrived immigrant children and youth.

Each nonpublic school shall report its data to the public school district in which it is located. It is the responsibility of each public school district to report its immigrant count as well as the counts for all nonpublic schools within its jurisdiction.

In accordance with law, the District shall conduct its survey and submit the information on the appropriate form to the New York State Education Department by the specified deadline date.

SUBJECT: RECOMMENDATIONS ON ELEMENTARY CLASS SIZE

Over recent years the Germantown School District has seen an increase in student population which has exceeded projected growth. Recognizing this increase in class size, the District feels it is important to maintain individualized attention. One advantage of the size of the Germantown Central School District has been the ability to individualize student attention. With the increase in size of some classes, this advantage may be lost. Therefore, based on the recommendations of the Germantown Central School District Shared Decision Making Committee, the Board of Education provides the following guidelines for class size in the elementary school:

a) Grades 4-6
   - 25 or fewer students -- no aide
   - 26+ students -- provide a classroom aide*
   - 30 students -- recommended maximum

b) Grade 3
   - 23 or fewer students -- no aide
   - 24+ students -- provide a classroom aide*
   - 28 students -- recommended maximum

c) Grade 2
   - 23 or fewer students -- no aide
   - 24+ students -- provide a classroom aide*
   - 28 students -- recommended maximum

d) Grades K-l
   - 20 or fewer students -- no aide
   - 21+ students -- provide a classroom aide*
   - 25 students -- recommended maximum

* Aide to be provided is to be in addition to any one-to-one aides that are provided by CSE. The one-to-one aides are not considered regular classroom aides, and, therefore, do not fulfill the guidelines.

SUBJECT: STUDENT EVALUATION

Placement

Children are placed in academic grades on the premise that each teacher will provide educational experiences for the children in her/his class that typically are appropriate at that level for children making steady, satisfactory progress through school. Nevertheless, in the view of the Board of Education it is essential to success in school that each child be challenged in school activities and experience success in those activities. Grade placement should enhance this possibility for each child by taking account of the particular child's physical, emotional, and intellectual development.

Placement within the system, with respect to building, teacher, and grade or special class, shall be at the discretion of the school administration and shall be subject to review and change at any time. In making such decisions, the administrator will be guided by performance in class, past records, parent/guardian and teacher recommendations, standardized test scores, and any other appropriate sources of information, but the final decision shall rest with the school administration.

Promotion and Retention

The curriculum guides for the Germantown Central School establish goals for achievement by the "average" student at each grade level. Academic growth, however, no less than physical growth, does not occur at the same pace or at the same time for all individuals. Some students may achieve subject or skill mastery in a short time; others may need more time to do so. Grade promotion and retention ought to be means for meeting the particular needs of such children.

The Board of Education therefore establishes that the following criteria shall be taken into account when the promotion or retention of a student is being considered:

a) 1. Actual academic achievement as compared to the progress expected in the District's curriculum guides;

   2. The child's social and emotional development;

   3. The child's age; and

   4. The child's physical growth and size.

b) All recommendations by a teacher concerning a student's grade placement are to be made to the supervising Principal, and shall be made only after there has been full consultation with the student's parents or guardians. A child's parents or teachers may request that a psychological assessment of the child be done in order to aid in formulating an appropriate grade placement recommendation.

   (Continued)
c) Final authority for a student's grade placement rests with the Principal.

The procedures to be followed by the staff regarding promotion and retention will be developed by the Superintendent and will be continually evaluated in the light of School District policy. Building Principals may establish written standards for promotion or retention within the school units to which the students are assigned, subject to the guidelines of the Superintendent and the approval of the Board of Education.

Testing Program

The Board of Education endorses and supports the use of ability, achievement, diagnostic, readiness, interest and guidance tests as part of the total educational process to the degree to which tests help the District to serve its students.

Alternative Testing Procedures

The use of alternative testing procedures shall be limited to:

a) Students identified by the Committee on Special Education and/or Section 504 Team as having a disability. Alternative testing procedures shall be specified in a student's Individualized Education Program or Section 504 Accommodation Plan; and

b) Students whose native language is other than English (i.e., English language learners) in accordance with State Education Department Guidelines.

The alternative testing procedures employed shall be based upon a student's individual needs and the type of test administered.

The District shall report the use of alternative testing procedures to the State Education Department on a form and at a time prescribed by the Commissioner.

Reporting to Parents/Guardians

Parents/guardians shall receive an appropriate report of student progress at regular intervals. Report cards shall be used as a standard vehicle for the periodic reporting of student progress and appropriate school related data. Report cards, however, are not intended to exclude other means of reporting progress, such as conferences, phone conversations, etc.
When necessary, attempts will be made to provide interpreters for non-English speaking parents/guardians.

Section 504 of the Rehabilitation Act of 1973, 29 United States Code (USC) Section 794 et seq. 8 New York Code of Rules and Regulations (NYCRR) Sections 100.2(g), 117, and 154

Adopted: 4/8/09
SUBJECT: PROVISION OF INTERPRETER SERVICES TO PARENTS WHO ARE HEARING IMPAIRED

The Board of Education assures parents or persons in parental relationship who are hearing impaired the right to meaningful access to school initiated meetings or activities pertaining to the academic and/or disciplinary aspects of their children's education. School initiated meetings or activities are defined to include, but are not limited to, parent-teacher conferences, child study or building-level team meetings, planning meetings with school counselors regarding educational progress and career planning, suspension hearings or any conferences with school officials relating to disciplinary actions. The term "hearing impaired" shall include any hearing impairment, whether permanent or fluctuating, which prevents meaningful participation in School District meetings or activities.

Parents or persons in parental relationship shall be notified of the availability of interpreter services to be provided at no charge, provided that a written request is made to the School District within fourteen (14) days of the scheduled event. Exceptions to the time frame request may be made for unanticipated circumstances as determined by the Principal/designee. The District shall also notify appropriate school personnel as to the terms and implementation of this policy.

If interpreter services are requested, the District shall appoint an interpreter for the hearing impaired to interpret during the meeting or activity. The District will arrange for interpreters through a District-created list or through an interpreter referral service. The District shall also develop interagency agreements, as appropriate, to ensure that sign language interpreters are provided for eligible parents or persons in parental relationship when District students attend out-of-District schools or programs.

In the event that an interpreter is unavailable, the School District shall make other reasonable accommodations which are satisfactory to the parents or persons in parental relationship. Examples of what constitutes reasonable accommodations in the event an interpreter cannot be located may include, but are not limited to, the use of:

a) Written communications, transcripts, note takers, etc; and

b) Technology, such as: a decoder or telecommunication device for the deaf, assistive listening devices, and closed or open captioning.

SUBJECT: CLASS RANKING

Grade Designation

Grade designation of students is determined by credits earned. The following are the minimum number of credits required to be granted the grade status indicated:

<table>
<thead>
<tr>
<th>Credits Earned</th>
<th>Grade Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>5.5</td>
<td>Sophomore</td>
</tr>
<tr>
<td>11</td>
<td>Junior</td>
</tr>
<tr>
<td>16.5</td>
<td>Senior</td>
</tr>
</tbody>
</table>

Students must have earned a minimum of twenty-two (22) credits in order to graduate.

Determination of Class Ranking

Class ranking shall be determined by High School grades awarded by teachers on the faculty of the Germantown Central School and a student's prior high school(s). Grades awarded for college courses taken under Board policy 7230 shall not be included in the determination of class ranking.

A weighted grade point average will be calculated to reflect the difficulty of courses taken by District students. The rationale for adopting a weighted grade point average is:

a) To encourage students to register for and remain enrolled in a more rigorous course of study; and,

b) To recognize that the more difficult AP courses should be treated with a value greater than other courses for the purpose of computing class rank.

Courses will be weighted in the following manner:

a) All one-credit courses will be given a weight of 1.0.

b) All 1/2-credit courses will be given a weight of 0.5.

c) All AP level courses will be given a weight of 1.06.

Final class ranking will be determined after students have completed all course work for their senior year and all final grades have been posted.

(Continued)
SUBJECT: CLASS RANKING (Cont’d.)

Determination of Valedictorian and Salutatorian

To be considered for Valedictorian or Salutatorian, a student must pass eight (8) Regents or seven (7) Regents with an approved five (5) year sequence by the end of the first semester of their graduation year. High school grades from teachers on the staff of the Germantown Central School and a student's prior high school(s) shall be included in the evaluation. However, the student must attend Germantown Central School for the four (4) consecutive semesters prior to graduation.

The determination of Valedictorian or Salutatorian shall be made at the end of the first semester of the senior year.

Class ranking at the end of the Junior year shall not determine Valedictorian or Salutatorian.

The Valedictorian designation shall be a shared honor when the difference between the class rank of the first and second students in the same graduation class is a difference of .04 or less.

Membership in the Germantown Chapters of the National Honor Society and National Junior Honor Society is an honor bestowed upon a student. Selection for membership is by Faculty Council and is based on outstanding scholarship, character, leadership, and service. Once selected, members have the responsibility to continue to demonstrate these qualities.

Membership shall be governed by the by laws developed according to National Honor Society and National Junior Honor Society requirements.

SUBJECT: VOLUNTARY ACCELERATION

Course Acceleration

The Board of Education establishes as policy that students having completed 7th grade shall have the opportunity under certain circumstances to take high school courses. Student's should have the opportunity to accelerate their academic progress in at least one (1) subject with a 90 average or above, from among the following areas of instruction: English, Social Studies, Foreign Language, Art, Music, Math A, Earth Science, and Introduction to Occupations. All students must satisfy the course requirements in Family and Consumer Science and Technology for grades 7 and 8.

Grade Acceleration

A student will be deemed ready and prepared for accelerated study if the student has a cumulative average of at least a 90 percent (85 percent minimum in any course). The following subjects shall be used to compute the student's academic average:

a) English 7, Social Studies 7, Math 7, Science 7 (weighted at 1);

b) Family and Consumer Science 7, Technology 7, Music 7, and Art 7 (weighted at .5).

Students who participate in accelerated study will be scheduled for:

a) English 9
b) Global Studies 9
c) Earth Science/Lab
d) Math A
e) Spanish I
f) Physical Education

Every student without exception must complete the Family and Consumer Science 8 (.5 units of time), and Technology (.5 units of time) courses prior to high school graduation. This requirement may create conflicts with other required courses and may affect the year in which the student graduates.

The parents or guardians of any student who qualifies for accelerated study shall be notified of the student's eligibility in writing by the Guidance Counselor. Moreover, the student and the student's parent or guardian shall sign a statement acknowledging the possible schedule conflict with certain required courses as a condition for the student taking accelerated coursework.

Adopted: 12/18/14
SUBJECT: GRADUATION REQUIREMENTS/EARLY GRADUATION

In order to graduate from Germantown Central School District, a student must complete or may exceed the requirements set forth in Part 100 of the Commissioner's Regulations. The Board of Education reserves the right to establish requirements for graduation which exceed the minimum standards as defined by the New York State Regents.

Regents Diploma with Honors

The District may award a Regents diploma with honors or a Regents diploma with advanced designation with honors to students who receive an average of ninety percent (90%) in all Regents examinations. This "honors" diploma may also be given to a student who has substituted no more than two (2) alternative assessments for a Regents examination as approved by Commissioner's Regulations Section 100.2(f). However, the student's actual score on the substituted alternative assessment will not be factored into the ninety percent (90%) calculation.

Early Graduation

Upon request from the student's parent/guardian, a student shall be eligible for early graduation in fewer than eight (8) semesters upon completion of all requirements for graduation, excluding physical education, as mandated by Commissioner's Regulations. A student shall not be required to continue enrollment for the sole purpose of completing physical education requirements.

SUBJECT: GRADUATION CEREMONIES

The graduation or commencement ceremony is a time to celebrate the honors and achievements of the graduating class. The Board of Education will establish the date for graduation ceremonies, while the administration will determine the place and program details, including attire. Academic and other awards and scholarships may be presented along with diplomas. Speakers may be selected from among the graduating class.

Participation in the graduation ceremony and related activities will be predicated on satisfactory completion of all graduation requirements, or as otherwise described in this policy. Exceptions may be made under extraordinary circumstances with the permission of the Superintendent of Schools. A student who has earned either a Career Development and Occupational Studies Commencement Credential (CDOS) or Skills and Achievement Commencement Credential (SACC) by the time his/her ninth-grade cohort reaches graduation may, but is not required to, participate in that graduation ceremony and related activities.

If a student who participates in the graduation ceremony by earning a CDOS or SACC only subsequently meets the requirements for either a Regents or local high school diploma, he/she may participate in the graduation ceremony of that graduating class as well.

A student with a disability who participates in graduation ceremonies by earning only a CDOS or SACC is entitled to continue his/her educational program until the end of school year in which the student turns 21 years old, or until he/she earns a Regents or local high school diploma.

The district shall provide annual written notice to all students and their parents/guardians of the requirements of this policy and associated regulations.

SUBJECT: GRADUATION CEREMONIES REGULATION (Cont’d.)

Participation by Earning a CDOS or SACC

A student who has earned either a Career Development and Occupational Studies Commencement Credential (CDOS) or a Skills and Achievement Commencement Credential (SACC), but not a high school diploma, shall be allowed to participate in the graduation ceremony and related activities of the student’s graduating class.

The district shall retain a record of each student’s ninth grade cohort. Each year, the High School Building Principal shall determine whether each student who entered ninth grade with the current year’s graduating class is eligible to participate in that year’s graduation ceremony, pursuant to state law, Board policy and this regulation.

During the school year in which the ninth grade cohort enters twelfth grade, the High School Building Principal shall submit to the Superintendent of Schools or designee the name(s) of all students who are on track and expected to earn either a CDOS or SACC, but not a Regents or local high school diploma, by the time of graduation.

For each student so identified, the Superintendent or designee shall ascertain whether the student wishes to participate in the graduation ceremonies and related activities of that year’s graduating class by discussing the matter with the student and/or parent/guardian either in person, in writing, by telephone, or via email.

For any student who meets such requirements and wishes to participate in the graduation ceremony and related activities, the Superintendent shall ensure, prior to graduation, that the High School Building Principal, the student, and his/her parent(s)/guardian(s) are notified that the student may participate in that year’s graduation ceremony and related activities, and shall ensure his/her participation is facilitated.

The district shall provide annual written notice to all students and their parents/guardians of the requirements of this regulation and associated policy.

SUBJECT: CREDENTIAL OPTIONS FOR STUDENTS WITH DISABILITIES

The Board of Education is committed to ensuring that students with disabilities are provided appropriate opportunities to earn a high school diploma in accordance with the provisions of Commissioner's Regulations Section 100.5. However, when necessary, the District may award high school individualized education program (IEP) diplomas to students with disabilities.

High School Diplomas

Students pursuing either a Regents or a local high school diploma must acquire a certain number of units of credit in specified courses and also meet subject sequence requirements. It is critical that students with disabilities be provided access to the required courses and testing programs needed for graduation with these awards.

High School Individualized Program (IEP) Diplomas

Each individualized education program (IEP) diploma awarded shall be accompanied by a written statement of assurance that the student named as its recipient shall continue to be eligible to attend school until the student has earned a high school diploma or until the end of the school year of such student's twenty-first (21st) birthday, whichever is earlier.

The Superintendent shall report to the State Education Department, within fifteen (15) days after the June graduation, the total number and the names of the students awarded IEP diplomas that school year.

Regents Competency Test (RCT) Safety Net and 55-64 Passing Score Option for Students with Disabilities

In October 2003, the Board of Regents approved an extension of the Regents Competency Test (RCT) "safety net" for students with disabilities who pursue a Regents or local high school diploma.

The following students qualify for the RCT safety net and the 55-64 passing score:

a) Students with disabilities identified through a Committee on Special Education (CSE). Specific language regarding the availability of the safety net does not have to be indicated on the student's IEP.

b) Students with disabilities identified through the Section 504 Multidisciplinary Team (MDT) if recommended and documented by the MDT on the student's Accommodation Plan.

c) Students with disabilities declassified while in grades 8 through 12 if recommended and documented by the CSE on the student's IEP.

(Continued)
SUBJECT: CREDENTIAL OPTIONS FOR STUDENTS WITH DISABILITIES (Cont'd.)

RCT Safety Net

In order to earn a high school Regents diploma, all students need to take and pass five (5) specific Regents examinations with a score of 65 or higher. Vocational and Educational Services for Individuals with Disabilities (VESID) has developed a chart on the "Diploma Requirements Based on June 2005 Board of Regents Action to Phase in the 65 Graduation Standard on Required Regents Exams" which is available at: http://vesid.nysed.gov/specialed/publications/policy/chart-diploma.htm

The safety net allows students with disabilities who fail a required Regents exam to instead meet the requirements for a local diploma by passing the RCT in that subject or the Department approved alternative. The safety net is available to all eligible students with disabilities entering grade 9 through the 2009-10 school year. The school may administer the RCT before or after the Regents examination, but in all cases the student must take the required Regents examination in order to earn the local diploma. The RCT exams will be available until the student graduates or reaches the age of twenty-one (21).

55-64 Passing Score

For students with disabilities who first enter grade 9 in September 2005 and thereafter, a score by the student of 55-64 may also be met by achieving a passing score on any Regents examination (English, Mathematics, Science, Global History and U.S. History) required for graduation; and, in such event, the District may issue a local diploma to such student. The 55-64 passing score must be made available to students with disabilities and is no longer a district option. This provision shall apply only to students with disabilities who are entitled to attend school pursuant to Education Law Sections 3202 or 4402(5).

SUBJECT: DUAL CREDIT FOR COLLEGE COURSES

All students who have successfully fulfilled the requirements to enter into their senior year and have demonstrated intellectual and social maturity may choose to matriculate at any one of the colleges that have a cooperative agreement with our School District. Such opportunities may include early admission to college, collegiate-level work offered in the high school, or other means of providing advanced work. Review and approval by the administration are necessary before any college courses may be taken during the school day.

The Board shall not be required to provide transportation or pay tuition and other related costs for those high school students enrolled in college courses for college credit. Students who wish to enroll in college level coursework shall meet the following requirements and conditions:

a) The dual high school/college program is open to all seniors. Those students who are not seniors will be considered for participation on a case-by-case basis.

b) The college course or courses chosen by a student must have the prior approval of the High School Principal and Guidance Counselor

c) Participating students must have an average of at least 85 in the high school subject or closely related area chosen for college study.

d) Grades awarded for dual high school/college courses taught by Germantown teachers shall be included in the computation of a student's GPA and class rank. If the high school grade in a dual high school/college course differs from the college grade, only the high school grade shall be counted in the student’s GPA.

e) Dual high school/college courses taught by Germantown teachers shall not be weighted and shall receive the same credit weight as other non-AP high school courses.

f) In order to earn Germantown Central School District credit for the college(s) course she/he takes, a dual high school/college program student must earn a minimum grade of 65 in the high school course or a "C" in the college course.

g) The student who chooses to enroll in a dual credit class must have final approval of the High School Principal.

All grades earned in accordance with the requirements and conditions stated above shall be recognized under this policy.

Student records

The School District shall comply with the provisions of the Family Educational Rights and Privacy Act of 1974 (FERPA). Under its provisions, "parents/guardians and noncustodial parent(s), whose rights are not limited by court order or formal agreement, of a student under eighteen (18), or a student who is eighteen (18) years of age or older or who is attending an institution of post-secondary education, have a right to inspect and review any and all official records, files, and data, including all material that is incorporated into each student's cumulative record folder and intended for school use or to be available to parties outside the school or School System and specifically including, but not necessarily limited to, identifying data; academic work completed; level of achievement (grades, standardized achievement test scores); attendance data; scores on standardized intelligence, aptitude, and psychological tests; interest inventory results; health data; family background information; teacher or counselor ratings and observations; and verified reports of serious or recurrent behavior patterns."

Access to student records

The Board directs that administrative regulations and procedures be formulated to comply with the provisions of federal law relating to the availability of student records. The purpose of such regulations and procedures shall be to make available to the parents/guardians of students and noncustodial parent(s) whose rights are not limited by court order or formal agreement, or students who are eighteen (18) years of age or older or who are attending an institution of post-secondary education, student records, and files on students, and to ensure the confidentiality of such records with respect to third parties.

Under FERPA, unless otherwise exempted in accordance with law and regulation, the District may release personally identifiable information contained in student records only if it has received a "signed and dated written consent" from a parent or eligible student. Signed and dated written consent may include a record and signature in electronic form provided that such signature:

a) Identifies and authenticates a particular person as the source of the electronic consent; and

b) Indicates such person's approval of the information contained in the electronic consent.

Challenge to student records

Parents/guardians of a student under the age of eighteen (18), or a student who is eighteen (18) years of age or older or who is attending an institution of post-secondary education, shall have an opportunity for a hearing to challenge the content of the school records, to ensure that the records are not inaccurate, misleading, or otherwise in violation of the privacy or other rights of students, and to provide an opportunity for the correction or deletion of any such inaccurate, misleading, or otherwise inappropriate data contained therein.

Education Records

The term "education records" is defined as all records, files, documents and other materials containing information directly related to a student; and maintained by the education agency or institution, or by a person acting for such agency or institution (34 Code of Federal Regulations (CFR) Section 99.3). This includes all records regardless of medium, including, but not limited to, handwriting, videotape or audiotape, electronic or computer files, film, print, microfilm, and microfiche.

In addition, for students who attend a public school district, all records pertaining to services provided under the Individuals with Disabilities Education Act (IDEA) are considered "education records" under FERPA. As such, they are subject to the confidentiality provisions of both Acts.

Personal notes made by teachers or other staff, on the other hand, are not considered education records if they are:

a) Kept in the sole possession of the maker;

b) Not accessible or revealed to any other person except a temporary substitute; and

c) Use only as a memory aid.

Records created and maintained by a law enforcement unit for law enforcement purposes are also excluded.

Release of Information to the Noncustodial Parent

The District may presume that the noncustodial parent has the authority to request information concerning his/her child and release such information upon request. If the custodial parent wishes to limit the noncustodial parent's access to the records, it would be his/her responsibility to obtain and present to the school a legally binding instrument that prevents the release of said information.

NOTE: Refer also to Policy #7643 -- Transfer Students with Disabilities

Adopted: 4/8/09
SUBJECT: STUDENT DIRECTORY INFORMATION

The District shall publish an annual public notice informing parents or eligible students of their right to refuse the release of student directory information and indicating a time period for their response. Following such public notice and a reasonable response period, the District may release such information to an outside group without individual consent.

In accordance with the Family Educational Rights and Privacy Act (FERPA), the District defines student directory information as the following: name; address; telephone listing; date and place of birth; major course of study; participation in school activities and sports; weight and height (if members of athletic teams); dates of attendance; degrees and awards received; electronic mail address; photograph; and class roster.

The release of student directory information is not to be confused with the release of secondary school students' names, addresses and telephone listings to Military Recruiters (Policy #7243 -- Military Recruiters' Access to Secondary School Students and Information on Students). In compliance with the Elementary and Secondary Education Act of 1965 as amended by the No Child Left Behind Act of 2001 (NCLB), the National Defense Authorization Act and in accordance with FERPA, the School District shall comply with the request by a military recruiter for this information unless a parent has "opted out" of providing such information.

Family Educational Rights and Privacy Act of 1974, 20 United States Code (USC) Section 1232(g)

Adopted: 4/8/09
SUBJECT: MILITARY RECRUITERS’ ACCESS TO SECONDARY SCHOOL STUDENTS AND INFORMATION ON STUDENTS

In compliance with the Elementary and Secondary Education Act of 1965, as amended by the No Child Left Behind Act of 2001 (NCLB); and the National Defense Authorization Act, and in accordance with the Family Educational Rights and Privacy Act (FERPA), the School District shall comply with a request by a military recruiter for secondary students' names, addresses, and telephone listings, unless a parent or eligible student (over age 18) has "opted out" of providing such information.

Further, in compliance with the NCLB, the District shall give Military Recruiters the same access to secondary school students as they provide to postsecondary institutions or to prospective employers.

Under FERPA, the School District must provide notice to parents of the types of student information that it releases publicly. This type of information, commonly referred to as "directory information," which is released by the District includes -- but is not limited to -- such items as students' names, addresses, and telephone listings. The notice must include an explanation of a parent's right to request that the information not be disclosed without prior written parental consent; and further requires that parents be notified that the School District routinely discloses students' names, addresses, and telephone listings to Military Recruiters upon request, subject to a parent's/eligible student's request not to disclose such information without written consent.

A single notice provided through a mailing, student handbook, or other method that is reasonably calculated to inform parents of the above information is sufficient to satisfy the parental notification requirements of both FERPA and the NCLB. The notification shall advise the parent/eligible student of how to opt out of the public, nonconsensual disclosure of directory information and the method and timeline within which to do so.

If a parent/student opts out of providing directory information (or any subset of such information) to third parties, the opt-out relating to the student's name, address, or telephone listing applies to request for Military Recruiters as well. For example, if the opt-out states that telephone numbers will not be disclosed to the public, the District may not disclose telephone numbers to Military Recruiters.

The Superintendent/designee shall ensure that appropriate notification is provided to parents/eligible student's informing them of their right to opt-out of the release of designated directory information without prior written parental consent.

SUBJECT: STUDENT PRIVACY, PARENTAL ACCESS TO INFORMATION, AND ADMINISTRATION OF CERTAIN PHYSICAL EXAMINATIONS TO MINORS

The Protection of Pupil Rights Amendment (PPRA) governs the administration to students of a survey, analysis, or evaluation that concerns one or more of the following eight protected areas:

a) Political affiliations or beliefs of the student or the student's parent/guardian;
b) Mental or psychological problems of the student or the student's family;
c) Sex behavior or attitudes;
d) Illegal, anti-social, self-incriminating, or demeaning behavior;
e) Critical appraisals of other individuals with whom respondents have close family relationships;
f) Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;
g) Religious practices, affiliations, or beliefs of the student or student's parent/guardian; or
h) Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

PPRA also concerns marketing surveys and other areas of student privacy, parental access to information, and the administration of certain physical examinations to minors.

General Provisions

The requirements of PPRA do not apply to a survey administered to a student in accordance with the Individuals with Disabilities Education Act (IDEA). Further, PPRA does not supersede any of the requirements of the Family Educational Rights and Privacy Act (FERPA).

The rights provided to parents/guardians under PPRA transfer from the parent/guardian to the student when the student turns eighteen (18) years old or is an emancipated minor under applicable State law.

The School District may use funds provided under Part A of Title V of the Elementary and Secondary Education Act of 1965 to enhance parental/guardian involvement in areas affecting the in-school privacy of students.

(Continued)

The School District shall provide for reasonable notice of the adoption or continued use of this policy directly to parents/guardians and eligible students enrolled in the District. At a minimum, the District shall provide such notice at least annually, at the beginning of the school year, and within a reasonable period of time after any substantive change in this policy.

Further, in the notification, the District shall offer an opportunity for parents/guardians to provide written consent or opt their child out of participation in the following activities in accordance with law and the surveys conducted:

a) The administration of any survey containing one or more of the eight protected areas.

1. U.S. Department of Education-Funded Surveys: Prior written consent from parents must be obtained before students are required to submit to the survey.

2. Surveys funded by sources other than U.S. Department of Education: Notification may indicate the specific or approximate dates during the school year when surveys will be administered and provide an opportunity for the parent to opt his/her child out of participating upon receipt of the notification.

b) Activities involving the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose).

c) Any non-emergency, invasive physical examination or screening that is required as a condition of attendance; administered by the school and scheduled by the school in advance; and not necessary to protect the immediate health and safety of the student, or of other students. The term "invasive physical examination" means any medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion, or injection into the body, but does not include a hearing, vision or scoliosis screening.

Specific Notification

In the event that the District does not identify the specific or approximate dates of the activities or surveys to be administered in the general annual notification, it shall "directly" notify, such as through U.S. Mail or e-mail, the parents of students who are scheduled to participate in the specific (Continued)

activities or surveys prior to participation and provide an opportunity for the parent to provide written consent or opt his/her child out of participation in accordance with law and the surveys conducted.

U.S. Department of Education-Funded Surveys

In compliance with the Protection of Pupil Rights Amendment (PPRA), the School District is committed to protecting the rights and privacy interests of parents/guardians and students with regard to surveys funded in whole or part by any program administered by the U.S. Department of Education (DOE).

The District shall make instructional materials available for inspection by parents/guardians if those materials will be used in connection with a DOE-funded survey, analysis, or evaluation in which their children participate. In addition, the School District shall obtain prior written parental/guardian consent before minor students are required to participate in any DOE-funded survey, analysis, or evaluation that reveals information concerning any of the eight protected areas.

Surveys Funded by Sources Other than U.S. Department of Education

The School District has developed and adopted this Board policy, in consultation with parents/guardians, regarding the following:

a) The right of the parent/person in parental relation to inspect, upon request, a survey created by a third party (i.e., by a party other than the DOE) before the survey is administered or distributed by the school to a student. Requests by parents/guardians to inspect such surveys are to be submitted, in writing, to the Building Principal at least ten (10) days prior to the administration or distribution of any survey. Further, the District shall grant a request by the parent/guardian for reasonable access to such survey within a reasonable period of time after the request is received by the District.

b) Arrangements shall be provided by the District to protect student privacy in the event of the administration or distribution of a survey to a student containing one or more of the eight protected areas, including the right of the parent/guardian of the student to inspect, upon request, any survey containing one or more of the eight protected areas. Such requests must be submitted by the parent/guardian, in writing, to the Building Principal at least ten (10) days prior to the administration or distribution of any survey.

c) Parents/guardians shall be granted, upon request, reasonable access and the right to inspect instructional materials used as part of the educational curriculum for the student within a

(Continued)
reasonable period of time (defined by the School District, for the purposes of this policy, as thirty [30] days) after such request is received by the District. Requests shall be submitted by parents/guardians, in writing, to the Building Principal. The term "instructional material" means instructional content that is provided to a student, regardless of its format, including printed or representational materials, audiovisual materials, and materials in electronic or digital formats (such as materials accessible through the Internet). The term does not include academic tests or academic assessments.

d) The administration of physical examinations or screenings that the School District may administer to a student.

Further, this law does not apply to any physical examination or screening that is permitted or required by State law, including physical examinations or screenings that are permitted without parental notification.

In the implementation of this provision regarding the administration of physical examinations or screenings that the school may administer to the student, the School District incorporates by reference Board policies that address student health services, as applicable, including but not limited to policies regarding the administration of medication, immunization of students, and student physicals.

e) Unless mandated/authorized in accordance with Federal or State law and/or regulation, it is policy of the Board of Education, to not permit the collection, disclosure, or use of personal information (the term "personal information" is defined as individually identifiable information including a student's or parent/guardian's first and last name; home address; telephone number; or Social Security number) collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose), unless otherwise exempted pursuant to law as noted below. Questions regarding the collection, disclosure, or use of personal information collected from students for such marketing purposes may be referred to the school attorney as deemed necessary by the Superintendent/designee.

This law is not intended to preempt applicable provisions of State law that require parental/guardian notification.

These requirements do not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions, such as the following:

b) Book clubs, magazines, and programs providing access to low-cost literary products;

c) Curriculum and instructional materials used by elementary schools and secondary schools;

d) Tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments;

SUBJECT: DESIGNATION OF PERSON IN PARENTAL RELATION

In accordance with General Obligations Law Title 15-A, a parent of a minor or incapacitated person may designate another person as a person in parental relation to such minor or incapacitated person for certain health care and educational decisions for a period not exceeding six (6) months. However, such parental designation is conditioned upon there being no prior order of any court in any jurisdiction currently in effect that would prohibit the parent from himself/herself exercising the same or similar authority; and provided further that, in the case where a court has ordered that both parents must agree on education or health decisions regarding the child, a designation pursuant to this law shall not be valid unless both parents have given their consent.

The designation of a person in parental relation must be in writing in the form prescribed by General Obligations Law Title 15-A, and shall include specified information as enumerated in law for designations of thirty (30) days or less, as well as additional information required for designations of more than thirty (30) days. The designation of a person in parental relation may be presented to any school that requires such designation by either the parent or designee. The designation may specify a period of time less than six (6) months for which such designation shall be valid unless earlier revoked by the parent in accordance with law. However, a designation specifying a period of more than thirty (30) days shall be notarized.

If no time period is specified in the designation, it shall be valid until the earlier of:

a) A revocation, or

b) The expiration of thirty (30) days from the date of signature if the designation does not meet the requirements for designations of more than thirty (30) days, or

c) Six (6) months from the date of commencement specified in the designation if the designation meets the requirements for designations of more than thirty (30) days.

Scope of Designation

A designation made pursuant to this law may specify:

a) The treatment, diagnosis or activities for which consent is authorized;

b) Any treatment, diagnosis or activity for which consent is not authorized; or

c) Any other limitation on the duties and responsibilities conveyed by the designation.

(Continued)
SUBJECT: DESIGNATION OF PERSON IN PARENTAL RELATION (Cont'd.)

Revocation of Designation

A parent may revoke a designation by notifying, either orally or in writing, the designee or a school to which the designation has been presented, or by any other act evidencing a specific intent to revoke the designation. A designation shall also be revoked upon the execution by the parent of a subsequent designation. Revocation by one parent authorized to execute such a designation shall be deemed effective and complete revocation of a designation pursuant to law.

A designee who receives notification from a parent of any such revocation shall immediately notify any school to which a designation has been presented. A parent may directly notify any such school of the revocation, in which case the failure of the designee to notify the school of such revocation shall not make revocation ineffective.

Effect of Designation

a) A designee shall possess all the powers and duties of a person in parental relation pursuant to Public Health Law Sections 2164 and 2504 and Education Law Sections 2 and 3212, unless otherwise specified in the designation.

b) A designation shall not impose upon a designee a duty to support pursuant to Family Court Act Section 413.

c) A designation shall not cause a change in the school district of residence of the child for purposes of the Education Law, and during the period of validity of the designation, the child shall be presumed to be a resident of the school district in which the parent resided at the time the designation was made.

d) A designation shall terminate and be revoked upon the death or incapacity of the parent who signed the designation.

e) The decision of a designee shall be superseded by a contravening decision of a parent.

A person who acts based upon the consent of a designee reasonably and in the good faith belief that the parent has in fact authorized the designee to provide such consent may not be deemed to have acted negligently, unreasonably or improperly in accepting the designation and acting upon such consent. However, any such person may be deemed to have acted negligently, unreasonably or improperly if he/she has knowledge of facts indicating that the designation was never given, or did not extend to an act or acts in question, or was revoked.

SUBJECT: LOSS OR DESTRUCTION OF DISTRICT PROPERTY OR RESOURCES

The District is authorized to seek restitution, through civil action when necessary, from the parent or guardian of an unemancipated student over the age of ten (10) and under the age of eighteen (18) where such student:

a) Has willfully, maliciously, or unlawfully damaged, defaced or destroyed real or personal property in the care, custody and/or ownership of the District; or

b) Has knowingly entered or remained in a District building, and wrongfully taken, obtained or withheld personal property owned or maintained by the District.

In instances where the District has sought and obtained a judgment from a court of competent jurisdiction, parent/guardian liability for civil damages shall not exceed five thousand dollars ($5,000). Under certain circumstances, prior to the entering of a judgment in the sum total of five hundred dollars ($500) or more, a court may consider the parent's or guardian's financial inability to pay any portion or all of the amount of damages which are in excess of five hundred dollars ($500), and enter a judgment in an amount within the financial capacity of the parent or guardian. However, no such judgment shall be entered for an amount which is less than five hundred dollars ($500).

False Reporting of an Incident and/or Placing a False Bomb

A School District is also authorized to seek restitution, as described in law, from a parent or guardian of an unemancipated student over the age of ten (10) and under the age of eighteen (18) where such student:

a) Has falsely reported an incident; or

b) Has placed a false bomb as defined in the New York State Penal Law.

Damages for falsely reporting an incident or placing a false bomb shall mean the funds reasonably expended by the School District in responding to such false report of an incident or false bomb, less the amount of any funds which have been or will be recovered from any other source as enumerated in law.

In seeking restitution, the School District shall file with the court, district attorney and defense counsel an affidavit stating that the funds reasonably expended for which restitution is being sought have not been and will not be recovered from any other source or in any other civil or criminal proceeding, except as provided for pursuant to General Obligations Law Section 3-112.

SUBJECT: STUDENT DRESS CODE

The responsibility for the dress and appearance of students shall rest with individual students and parents. They have the right to determine how the student shall dress, provided that such attire does not interfere with the operation of the school or infringe upon the general health, safety and welfare of District students or employees. Student dress and appearance must be in accordance with the District Code of Conduct. The administration is authorized to take action in instances where individual dress does not meet these stated requirements.

While the school administration may require students participating in physical education classes to wear certain types of clothing such as sneakers, socks, shorts, and tee shirts, they may not prescribe a specific brand which students must wear.

This policy does not mean that student, faculty, or parent groups may not recommend appropriate dress for school or special occasions. It means that a student shall not be prevented from attending school or a school function, or otherwise be discriminated against, so long as his/her dress and appearance meet the above requirements.

NOTE: Refer also to District Code of Conduct on School Property

Adopted: 4/8/09
SUBJECT: SUSPENSION OF STUDENTS

The Superintendent and/or the Principal may suspend the following students from required attendance upon instruction:

a) A student who is insubordinate or disorderly; or

b) A student who is violent or disruptive; or

c) A student whose conduct otherwise endangers the safety, morals, health or welfare of others.

Suspension

Five (5) School Days or Less

The Superintendent and/or the Principal of the school where the student attends shall have the power to suspend a student for a period not to exceed five (5) school days. In the absence of the Principal, the designated "Acting Principal" may then suspend a student for a period of five (5) school days or less.

When the Superintendent or the Principal (the "suspending authority") proposes to suspend a student for five (5) school days or less, the suspending authority shall provide the student with notice of the charged misconduct. If the student denies the misconduct, the suspending authority shall provide an explanation of the basis for the suspension.

When suspension of a student for a period of five (5) school days or less is proposed, administration shall also immediately notify the parent/person in parental relation in writing that the student may be suspended from school.

Written notice shall be provided by personal delivery, express mail delivery, or equivalent means reasonably calculated to assure receipt of such notice within twenty-four (24) hours of the decision to propose suspension at the last known address or addresses of the parents/persons in parental relation. Where possible, notification shall also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents/persons in parental relation.

The notice shall provide a description of the incident(s) for which suspension is proposed and shall inform the student and the parent/person in parental relation of their right to request an immediate informal conference with the Principal in accordance with the provisions of Education Law Section 3214(3)(b). Both the notice and the informal conference shall be in the dominant language or mode of communication used by the parents/persons in parental relation. At the informal conference, the student and/or parent/person in parental relation shall be authorized to present the student's version of the event and to ask questions of the complaining witnesses.

(Continued)
SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

The notice and opportunity for informal conference shall take place prior to suspension of the student unless the student's presence in the school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, in which case the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practical.

Teachers shall immediately report or refer a violent student to the Principal or Superintendent for a violation of the District's Code of Conduct and a minimum suspension period.

More Than Five (5) School Days

In situations where the Superintendent determines that a suspension in excess of five (5) school days may be warranted, the student and parent/person in parental relation, upon reasonable notice, shall have had an opportunity for a fair hearing. At the hearing, the student shall have the right of representation by counsel, with the right to question witnesses against him/her, and the right to present witnesses and other evidence on his/her behalf.

Where the basis for the suspension is, in whole or in part, the possession on school grounds or school property by the student of any firearm, rifle, shotgun, dagger, dangerous knife, dirk, razor, stiletto or any of the weapons, instruments or appliances specified in Penal Law Section 265.01, the hearing officer or Superintendent shall not be barred from considering the admissibility of such weapon, instrument or appliance as evidence, notwithstanding a determination by a court in a criminal or juvenile delinquency proceeding that the recovery of such weapon, instrument or appliance was the result of an unlawful search or seizure.

Minimum Periods of Suspension

Pursuant to law, Commissioner's Regulations and the District's Code of Conduct, minimum periods of suspension shall be provided for the following prohibited conduct, subject to the requirements of federal and state law and regulations:

a) Consistent with the federal Gun-Free Schools Act, any student who is determined to have brought a firearm to school or possessed a firearm on school premises shall be suspended for a period of not less than one (1) calendar year. However, the Superintendent has the authority to modify this suspension requirement on a case-by-case basis.

b) A minimum suspension period for students who repeatedly are substantially disruptive of the educational process or substantially interfere with the teacher's authority over the classroom, provided that the suspending authority may reduce such period on a case-by-case basis to be consistent with any other state and federal law. The definition of "repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority" shall be determined in accordance with the Regulations of the Commissioner.

(Continued)
SUBJECT: SUSPENSION OF STUDENTS (Cont’d.)

c) A minimum suspension period for acts that would qualify the student to be defined as a violent student pursuant to Education Law Section 3214(2-a)(a), provided that the suspending authority may reduce such period on a case-by-case basis to be consistent with any other state and federal law.

Suspension of Students with Disabilities

Generally, should a student with a disability infringe upon the established rules of the schools, disciplinary action shall be in accordance with procedures set forth in the District’s Code of Conduct and in conjunction with applicable law and the determination of the Committee on Special Education (CSE).

For suspensions or removals up to ten (10) school days in a school year that do not constitute a disciplinary change in placement, students with disabilities must be provided with alternative instruction or services on the same basis as non-disabled students of the same age.

If suspension or removal from the current educational placement constitutes a disciplinary change in placement because it is for more than ten (10) consecutive school days or constitutes a pattern, a manifestation determination must be made. The District determines on a case-by-case basis whether a pattern of removals constitutes a change of placement. This determination is subject to review through due process and judicial proceedings.

Manifestation Determinations

A review of the relationship between the student's disability and the behavior subject to disciplinary action to determine if the conduct is a manifestation of the disability must be made by a manifestation team immediately, if possible, but in no case later than ten (10) school days after a decision is made:

a) By the Superintendent to change the placement to an interim alternative educational setting (IAES);

b) By an Impartial Hearing Officer (IHO) to place the student in an IAES; or

c) By the Board, District Superintendent, Superintendent or Building Principal to impose a suspension that constitutes a disciplinary change of placement.

The manifestation team shall include a representative of the District knowledgeable about the student and the interpretation of information about child behavior, the parent and relevant members of the CSE as determined by the parent and the District. The parent must receive written notice prior to the meeting to ensure that the parent has an opportunity to attend. This notice must include the purpose of the meeting, the names of those expected to attend and notice of the parent's right to have relevant members of the CSE participate at the parent's request.

(Continued)
SUBJECT:  SUSPENSION OF STUDENTS  (Cont'd.)

The manifestation team shall review all relevant information in the student's file including the student's individualized education program (IEP), any teacher observations, and any relevant information provided by the parents to determine if: the conduct in question was caused by or had a direct and substantial relationship to the student's disability; or the conduct in question was the direct result of the District's failure to implement the IEP. If the team determines the conduct in question was the direct result of failure to implement the IEP, the District must take immediate steps to remedy those deficiencies.

Finding of Manifestation

If it is determined, as a result of this review, that the student's behavior is a manifestation of his/her disability the CSE shall conduct a functional behavioral assessment, if one has not yet been conducted, and implement or modify a behavioral intervention plan.

Functional behavioral assessment (FBA) means the process of determining why the student engages in behaviors that impede learning and how the student's behavior relates to the environment. FBA must be developed consistent with the requirements of Commissioner's Regulations Section 200.22(a) and shall include, but not be limited to, the identification of the problem behavior, the definition of the behavior in concrete terms, the identification of the contextual factors that contribute to the behavior (including cognitive and affective factors) and the formulation of a hypothesis regarding the general conditions under which a behavior usually occurs and probable consequences that serve to maintain it.

Behavioral intervention plan (BIP) means a plan that is based on the results of a functional behavioral assessment and, at a minimum, includes a description of the problem behavior, global and specific hypotheses as to why the problem behavior occurs and intervention strategies that include positive behavioral supports and services to address the behavior.

Unless the change in placement was due to behavior involving serious bodily injury, weapons, illegal drugs or controlled substances, the student must be returned to the placement from which the student was removed unless the parent and the District agree to a change of placement as part of the modification of the behavioral intervention plan.

No Finding of Manifestation

If it is determined that the student's behavior is not a manifestation of his/her disability, the relevant disciplinary procedures applicable to students without disabilities may be applied to the student in the same manner and for the same duration for which they would be applied to students without disabilities, subject to the right of the parent/person in parental relation to request a hearing objecting to the manifestation determination and the District's obligation to provide a free, appropriate public education to such student.

(Continued)
Provision of Services Regardless of the Manifestation Determination

Regardless of the manifestation determination, students with a disability shall be provided the services necessary for them to continue to participate in the general education curriculum and progress toward meeting the goals set out in their IEP. They must also receive, as appropriate, a functional behavioral assessment, behavioral intervention services and modifications designed to address the behavior violation so it does not recur:

a) For subsequent suspensions or removals for ten (10) consecutive school days or less that in the aggregate total more than ten (10) school days in a school year but do not constitute a disciplinary change of placement school personnel, in consultation with at least one of the student's teachers, will determine the extent to which services are needed;

b) For suspensions or other disciplinary removals in excess of ten (10) school days in a school year which do constitute a disciplinary change in placement the IAES and services will be determined by the CSE.

Interim Alternative Educational Setting (IAES)

Students with disabilities who have been suspended or removed from their current placement for more than ten (10) school days may be placed in an IAES which is a temporary educational setting other than the student's current placement at the time the behavior precipitating the IAES placement occurred.

Additionally, an Impartial Hearing Officer in an expedited due process hearing may order a change in placement of a student with a disability to an appropriate IAES for up to forty-five (45) school days if the Hearing Officer determines that maintaining the current placement is substantially likely to result in injury to the students or others.

There are three (3) specific instances when a student with a disability may be placed in an IAES for up to forty-five (45) school days without regard to a manifestation determination:

a) Where the student carries or possesses a weapon to or at school, on school premises, or to or at a school function under the jurisdiction of the District; or

b) Where a student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school, on school premises, or at a school function under the jurisdiction of the District; or

c) Where a student has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of the District. Serious bodily harm has been defined in law to refer to one of the following:

(Continued)
SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

1. Substantial risk of death;
2. Extreme physical pain; or
3. Protracted and obvious disfigurement or protracted loss or impairment of the function of a bodily member, organ or mental faculty.

A school function shall mean a school-sponsored or school-authorized extracurricular event or activity regardless of where such event or activity takes place, including any event or activity that may take place in another state.

School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a student with a disability who violates a code of student conduct.

In all cases, the student placed in an IAES shall:

a) Continue to receive educational services so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress towards the goals set out in the student's IEP, and

b) Receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications that are designed to address the behavior violation so that it does not recur.

The period of suspension or removal may not exceed the amount of time a non-disabled student would be suspended for the same behavior.

Suspension From BOCES

The BOCES Principal may suspend School District students from BOCES classes for a period not to exceed five (5) school days when student behavior warrants such action.

In-School Suspension

In-school suspension will be used as a lesser discipline to avoid an out-of-school suspension. The student shall be considered present for attendance purposes. The program is used to keep each student current with his/her class work while attempting to reinforce acceptable behavior, attitudes and personal interaction.

(Continued)
SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

BOCES Activities

BOCES activities, such as field trips and other activities outside the building itself, are considered an extension of the school program. Therefore, an infraction handled at BOCES is to be considered as an act within the School District itself.

A student who is ineligible to attend a District school on a given day may also be ineligible to attend BOCES classes. The decision rests with the Superintendent or his/her designee.

Exhaustion of Administrative Remedies

If a parent/person in parental relation wishes to appeal the decision of the Building Principal and/or Superintendent to suspend a student from school, regardless of the length of the student's suspension, the parent/person in parental relation must appeal to the Board of Education prior to commencing an appeal to the Commissioner of Education.

Procedure After Suspension

When a student has been suspended and is of compulsory attendance age, immediate steps shall be taken to provide alternative instruction which is of an equivalent nature to that provided in the student's regularly scheduled classes.

When a student has been suspended, the suspension may be revoked by the Board of Education whenever it appears to be for the best interest of the school and the student to do so. The Board of Education may also condition a student's early return to school and suspension revocation on the student's voluntary participation in counseling or specialized classes, including anger management or dispute resolution, where applicable.

SUBJECT: STUDENTS PRESUMED TO HAVE A DISABILITY FOR DISCIPLINE PURPOSES

The parent of a student who has violated any rule or code of conduct of the School District and who was not identified as a student with a disability at the time of such behavior may assert several protections provided for under the Individuals with Disabilities Education Act (IDEA) and State regulations if the School District is deemed to have had knowledge (as determined in accordance with law and/or regulations and referenced below) that the student was a student with a disability before the behavior that precipitated the disciplinary action occurred.

Basis of Knowledge

The School District shall be deemed to have knowledge that the student had a disability if prior to the time the behavior occurred:

a) The parent of the student has expressed concern in writing to supervisory or administrative personnel, or to a teacher of the student, that the student is in need of special education and related services. However, expressions of concern may be oral if the parent does not know how to write or has a disability that prevents a written statement;

b) The parent of the student has requested an evaluation of the student in writing; or

c) A teacher of the student, or other District personnel, has expressed specific concerns about a pattern of behavior demonstrated by the student, directly to the Director of Special Education or to other supervisory personnel.

Exception

A student is not a student presumed to have a disability for discipline purposes if, as a result of receiving the information specified above (i.e., subheading "Basis of Knowledge"):

a) The parent of the student has not allowed an evaluation of the student pursuant to law and/or regulations;

b) The parent of the student has refused services under law and/or regulations; or

c) The student has been evaluated and it was determined that the student is not a student with a disability.

(Continued)
SUBJECT: STUDENTS PRESUMED TO HAVE A DISABILITY FOR DISCIPLINE PURPOSES (Cont'd.)

Responsibility for Determining Whether a Student is a Student Presumed to Have a Disability

If it is claimed by the parent of the student or by School District personnel that the District had a basis for knowledge, in accordance with law and/or regulation, that the student was a student with a disability prior to the time the behavior subject to disciplinary action occurred, it shall be the responsibility of the Superintendent of Schools, Building Principal or other school official imposing the suspension or removal to determine whether the student is a student presumed to have a disability.

Conditions That Apply if There is No Basis of Knowledge

If it is determined that there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other nondisabled student who engaged in comparable behaviors.

However, if a request for an individual evaluation is made during the time period in which such nondisabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted in accordance with law and/or regulations. Pending the results of the evaluation, the student shall remain in the educational placement determined by school authorities.

If the student is determined to be a student with a disability, taking into consideration information from the evaluation and information provided by the parents, the District shall provide special education and related services in accordance with law and/or regulations.

SUBJECT: STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES

Germantown Central School's Internet connectivity, wired and wireless network and individual hardware devices are available for use by students and staff. The use of this technology is a privilege not a right; and inappropriate use or failure to use proper procedures as outlined below, may result in restriction of user privileges.

The following rules apply to the use of all technology available at Germantown Central School:

a) Prior to utilizing any technology resources, all students must read, sign and return a completed copy of the Student Acceptable Use of Technology Policy Regulations and User Agreement form.

b) Users will never access the personal accounts belonging to other students or staff, including but not limited to emails, files, folders, or work.

c) Users will not damage assigned devices, computer systems, or any portion of the network infrastructure.

d) Users will not intentionally waste limited resources, including, but not limited to, paper and printing supplies.

Internet access is available to students and staff of the Germantown Central School District. We believe the Internet offers vast, diverse, and unique resources. Our goal in providing this service to staff and students is to promote educational excellence in schools by facilitating resource sharing, innovation, and communication.

The Internet is an electronic highway connecting millions of computers all over the world. Students and teachers may have access to:

a) Many university library catalogs, the Library of Congress, and ERIC, a large collection of relevant information to educators and students.

b) Public domain software and graphics of all types for school use.

c) Electronic mail (email) communication with people all over the world.
SUBJECT: STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES

With access to computers and people all over the world, also comes the availability of material that may not be considered to be of educational value in the context of the school setting. Germantown Central School District has taken precautions to restrict access to controversial materials. However, on a global network, it is impossible to control all materials, and an industrious user may discover controversial information. We (Germantown Central School District) firmly believe that the valuable information and interaction available on the Internet far outweigh the possibility that users may procure material that is not consistent with the educational goals of the District. However, parents and guardians of minors are responsible for setting and conveying family values to their sons and daughters. We encourage parents/guardians to discuss their family values and their relationship to Internet use with their child(ren). Germantown Central School District also supports and respects each parent's or guardian's right to decide whether or not her/his child has access to the Internet.

Internet access is coordinated through a complex association of government agencies and regional and state networks. In addition, the smooth operation of the network relies upon the proper conduct of the end users who must adhere to strict guidelines. These guidelines are provided here so that users are aware of their responsibilities. In general this requires efficient, ethical and legal utilization of the network resources. If a District user violates any of these provisions, his/her account will be disabled and future access may be restricted.

Acceptable Use

The purpose of the Internet is to support research and education in and among academic institutions by providing access to unique resources and the opportunity for collaborative work. The use of a user’s account must be in support of education and research and consistent with the educational objectives of the Germantown Central School District. Use of other organizations' networks or computing resources must comply with the rules appropriate for those networks. Transmission of any material in violation of any national or state regulation is prohibited. This includes, but is not limited to: copyrighted material, threatening or obscene material, or material protected by trade secret.

Privileges

The use of the Internet is a privilege not a right, and inappropriate use will result in a cancellation of those privileges. The System Administrators will deem what is inappropriate use and their decision is final. Also, the System Administrators may disable an account at any time as required. The administration, faculty, and staff of the Germantown Central School District may request the System Administrator to deny, revoke, or suspend specific user accounts.
SUBJECT: STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES

Network Etiquette

Users are expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to, the following:

a) Be polite. Do not get abusive in messages to others.

b) Use appropriate language. Do not swear, use vulgarities or any other inappropriate language. Illegal activities are strictly forbidden.

c) Do not reveal your personal address or phone numbers of students or colleagues.

d) Note that electronic mail (email) is not guaranteed to be private. System Administrators have access to all email and messages relating to or in support of illegal activities may be reported to the authorities.

e) Do not use the network in such a way that would disrupt the use of the network by other users.

f) All communications and information accessible via the network should be assumed to be private property of the District.

g) Do not use the network for commercial purposes or personal monetary gain.

h) Do not send, receive, or display offensive pictures.

i) Do not engage in any activities that interfere with the educational process.

Warranties

Germantown Central School District makes no warranties of any kind, whether expressed or implied, for the service it is providing. The School District will not be responsible for any damages users suffer. This includes loss of data resulting from equipment failure, delays, nondeliveries, misdeliveries or service interruptions caused by its own negligence or your errors or omissions. Use of any information obtained via the Internet is at your own risk. Germantown Central School District specifically denies any responsibility for the accuracy or quality of information obtained through its services.
SUBJECT: STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES

Security

Security on any computer system is a high priority, especially when the system involves many users. If a user feels she/he can identify a security problem on the network, she/he must notify the System Administrator or your District IT Manager. Do not demonstrate the problem to other users. Attempts to logon to servers, infrastructure, or accounts as a System Administrator will result in cancellation of user privileges. Any user identified as a security risk or having a history of problems with other computer systems may have access to the network and Internet restricted.

Vandalism

Vandalism will result in cancellation of privileges. Vandalism is defined as any willful or negligent action resulting in destruction of, damage to, or modification of the District's equipment, files, data of another user, Internet, or any of the above listed agencies or other networks that are connected to the Internet. This includes, but is not limited to, the uploading or creation of computer viruses.

Specific Requirements for Students

Student use of the District's technology resources is conditioned upon written agreement by all students and their parents/guardians that student use of the technology will conform to the requirements of this policy and any regulations adopted to ensure acceptable use of the technology. All such agreements shall be kept on file in students’ permanent record files, maintained by the elementary and high school offices.

Generally, the same standards of acceptable student conduct which apply to any school activity shall apply to use of technology. This policy does not attempt to articulate all required and/or acceptable uses of the technology resources; nor is it the intention of this policy to define all inappropriate usage. Administrative regulations will further define general guidelines of appropriate student conduct and use as well as proscribed behavior.

District students shall also adhere to the laws, policies and rules governing technology use including, but not limited to, copyright laws, rights of software publishers, license agreements, and student rights of privacy created by federal and state law.
SUBJECT: STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES

Students who engage in unacceptable use may lose access to the District’s technology resources in accordance with applicable due process procedures and may be subject to further discipline under the District's school conduct and discipline policy and the Student Discipline Code of Conduct. The District reserves the right to pursue legal action against a student who willfully, maliciously or unlawfully damages or destroys property of the District. Further, the District may bring suit in civil court against the parents/guardians of any student who willfully, maliciously or unlawfully damages or destroys District property pursuant to General Obligations Law Section 3-112.

Student data files and other electronic storage areas will be treated like school lockers. This means that such areas shall be considered to be School District property subject to control and inspection. The District IT Manager, when directed by the Superintendent, may access all such files and communications to ensure system integrity and that users are complying with the requirements of this policy and accompanying regulations. Students should NOT expect that information stored on their accounts or issued devices will be private.

Regulations will be established as necessary to implement the terms of this policy.

Subject: STUDENTS AND PERSONAL ELECTRONIC DEVICES

The Board of Education recognizes that there are personal electronic devices that have educational applications such as tablets, e-readers, calculators, voice recorders, digital cameras and music listening devices. In some instances a “smart phone” may include applications that permit these functions.

The Board acknowledges that cellular phones, pagers, and 2-way communication systems can be a positive means to facilitate communication; however, the display and/or use of such devices can cause disruption to the educational process.

Therefore, to prevent such disruption, the display and/or use by students of cellular phones (including “smart phones”), pagers, smart watches, and 2-way communication systems and/or other electronic devices shall be prohibited from the time students arrive at school until the end of the regular school day, unless specifically permitted to be used by the code of conduct, a teacher or an administrator. Such devices must be turned off and stored out of sight during this time period. The district is not responsible for stolen, lost or damaged personal electronic devices.

In emergency situations, exceptions to the prohibition of the use of cellular phones, pagers, and 2-way communication systems may be granted by teachers or administrators.

Misuse of any of these electronic devices will result in its confiscation as outlined in the code of conduct. Some uses of personal electronic devices may constitute a violation of the school district code of conduct and in some instances, the law. The school district will cooperate with law enforcement officials as appropriate.

Students with individualized education plans (IEPs), 504 Plans, or documentation from a medical practitioner that specifically requires the use of an electronic device may do so as specified.
Subject: STUDENTS AND PERSONAL ELECTRONIC DEVICES

Cellular Telephones and Testing

In order to ensure the integrity of testing, in accordance with state guidelines, students are not allowed to bring cell phones or other electronic devices into classrooms or other exam locations during state assessments.

Test proctors, monitors and school officials shall have the right to collect cell phones and other prohibited electronic devices prior to the start of the test and to hold them for the duration of the test taking time. Admission to the test will be prohibited to any student who has a cell phone or other electronic device in their possession and does not relinquish it.

Students with individualized education plans (IEPs), 504 Plans, or documentation from a medical practitioner that specifically requires the use of an electronic device may do so as specified.

The Board of Education recognizes that the misuse of drugs, alcohol and/or tobacco is a serious problem with legal, physical, emotional and social implications for the entire community. Therefore, the consumption, sharing and/or selling, use and/or possession of alcoholic beverages, tobacco products, illegal drugs, counterfeit and designer drugs, or paraphernalia for the use of such drugs is prohibited at any school-sponsored event or on school property at all times. The inappropriate use of prescription and over-the-counter drugs shall also be disallowed. Persons shall be banned from entering school grounds or school-sponsored events when exhibiting behavioral, personal or physical characteristics indicative of having used or consumed alcohol or other substances.

School property shall mean in or within any building, structure, athletic playing field, playground, parking lot or land contained within the real property boundary line of a public elementary or secondary school; or in or on a school bus as defined in Vehicle and Traffic Law Section 142. A school function shall mean a school-sponsored or school-authorized extracurricular event or activity regardless of where such event or activity takes place, including any event or activity that may take place in another state.

Through the collaborative efforts of staff, students, parents/guardians and the community as a whole, a comprehensive program shall be developed addressing alcohol, tobacco, drugs, and other substances to include the following elements.

**Primary Prevention**

Preventing or delaying alcohol, tobacco, drugs, and other substance use/abuse by students shall be the major focus of a comprehensive K through 12 program in which proactive measures of prevention and early intervention are emphasized. This program shall include:

a) A sequential K through 12 curriculum based on recognized principles of effectiveness that is developed and incorporated into the total educational process. This curriculum shall be concerned with education and prevention in all areas of alcohol, tobacco, drugs, and other substances use/abuse;

b) Training school personnel and parents/guardians to reinforce the components of the policy through in-service and community education programs with up-to-date factual information and materials;

c) An effort to provide positive alternatives to alcohol, tobacco, drugs, and other substances use/abuse through the promotion of drug/tobacco/alcohol-free special events, service projects and extracurricular activities that will develop and support a positive peer influence.

(Cont'd.)

Intervention

School-based intervention services shall be made available to all students, grades K through 12, and provided by prevention professionals who are appropriately trained in this area. The purpose of intervention is to eliminate any existing use/abuse of alcohol, tobacco, drugs, and other substances and to identify students considered to be at risk for use/abuse. Intervention programming shall include:

a) Counseling of students in groups and as individuals on alcohol, tobacco, drugs, and other substance use/abuse. Counselors shall be appropriately trained and skilled school staff assigned for this purpose;

b) Referring students to community or other outside agencies when their use/abuse of alcohol, tobacco, drugs, and other substances requires additional counseling or treatment. Referral is a key link in school and community efforts and the process is basic to the dissemination of information regarding available counseling and health services;

c) Providing a supportive school environment designed to continue the recovery process for students returning from treatment. A re-entry program may include continuing student and/or family counseling and emphasizing positive alternatives to alcohol, tobacco, drugs, and other substance use/abuse;

d) Developing a parent network to serve as a support group and provide a vehicle of communication for parent education;

e) Ensuring confidentiality as required by state and federal law.

Disciplinary Measures

Disciplinary measures for students consuming, sharing and/or selling, using and/or possessing alcoholic beverages, tobacco products, illegal drugs, counterfeit and designer drugs, or paraphernalia for the use of such drugs shall be outlined in the District’s Code of Conduct on School Property.

Staff Development

There shall be ongoing training of District staff about the components of an effective alcohol, tobacco and other substances program. Training shall include, but not be limited to, District policies and regulations and the staff’s role in implementing such policies and regulations. Teachers shall be trained to implement the District's K through 12 alcohol, tobacco, drugs and other substance prevention curricula; intervention staff shall be suitably trained to carry out appropriate services.

Implementation, Dissemination and Monitoring

It shall be the responsibility of the Superintendent to implement the alcohol, tobacco, drugs, and other substances Board policy by collaboration with school personnel, students, parents/guardians and the community at large.

Additionally, copies of Board policy shall be disseminated to District staff, parents/guardians and community members. The Superintendent/designee shall periodically review the tobacco, drugs and alcohol abuse prevention program to determine its effectiveness and support appropriate modifications, as needed.

District Code of Conduct on School Property

Adopted: 4/8/09
Subjects are protected by the Constitution from unreasonable searches and seizures. A student may be searched and contraband seized on school grounds or in a school building by a School District employee only when the School District employee has reasonable suspicion to believe the student is engaging in proscribed activity which is in violation of school rules and/or illegal.

Factors to be considered in determining whether reasonable suspicion exists to search a student include:

a) The age of the student;
b) The student's record and past history;
c) The predominance and seriousness of the problem in the school where the search is directed; and
d) The urgency to conduct the search without delay.

If reasonable suspicion exists to believe that a student possesses a weapon, it is permissible for a School District employee to search that student.

The Board of Education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary consequence on a student may question a student about an alleged violation of law or the district code of conduct. Students are not entitled to any sort of “Miranda”-type warning before being questioned by school officials, nor are school officials required to contact a student's parent before questioning the student. However, school officials will tell all students why they are being questioned.

The Board authorizes the Superintendent of Schools, Building Principals, the school nurse and district security officials to conduct searches of students and their belongings, in most instances, with exceptions set forth below in A. and B., if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the district code of conduct.

An authorized school official may conduct a search of a student's belongings that is minimally intrusive, such as touching the outside of a book bag, without reasonable suspicion, so long as the school official has a legitimate reason for the very limited search.
SUBJECT: SEARCHES AND INTERROGATIONS

An authorized school official may search a student or the student's belongings based upon information received from a reliable informant. Individuals, other than the district employees, will be considered reliable informants if they have previously supplied information that was accurate and verified, or they make an admission against their own interest, or they provide the same information that is received independently from other sources, or they appear to be credible and the information they are communicating relates to an immediate threat to safety. District employees will be considered reliable informants unless they are known to have previously supplied information that they knew was not accurate.

Before searching a student or the student's belongings, the authorized school official should attempt to get the student to admit that he or she possesses physical evidence that they violated the law or the district code, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought.

Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

A. Student Lockers, Desks and other School Storage Places

The rules in this policy regarding searches of students and their belongings do not apply to student lockers, desks and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.

B. Strip searches

The Board of Education prohibits district staff from conducting strip searches of students, but students may be asked to remove any outer garment such as a coat or jacket and their shoes. If district staff receives consent from the student or has reasonable suspicion regarding the presence of a disallowed object in a pocket, the student may be asked to turn out their pockets.
SUBJECT: SEARCHES AND INTERROGATIONS

C. Treatment of Cell Phones

Teachers and administrators are authorized to confiscate student cell phones, smart device such as a smart watch, that are being used in violation of the code of conduct and/or policy 5695, Student Use of Electronic Devices. Teachers and administrators are permitted to look at the screen of the cell phone and can request the student’s cooperation to search the cell phone further. Without a student’s permission, teachers and administrators should not undertake a more extensive search until conferring with the Superintendent or school attorney for guidance.

D. Documentation of Searches

The authorized school official conducting the search shall be responsible for promptly recording the following information about each search:

1. Name, age and grade of student searched.
2. Reasons for the search.
3. Name of any informant(s).
4. Purpose of search (that is, what item(s) were being sought).
5. Type and scope of search.
6. Person conducting search and his or her title and position.
7. Witnesses, if any, to the search.
8. Time and location of search
9. Results of search (that is, what items(s) were found).
10. Disposition of items found.
11. Time, manner and results of parental notification.

The Principal or the Principal’s designee shall be responsible for the custody, control and disposition of any illegal or dangerous item taken from a student. The Principal or his or her designee shall clearly label each item taken from the student and retain control of the item(s), until the item is turned over to the police. The Principal or his or her designee shall be responsible for personally delivering dangerous or illegal items to police authorities.
SUBJECT: SEARCHES AND INTERROGATIONS

E. Police Involvement in Searches and Interrogations of Students

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

1. A search or an arrest warrant; or
2. Probable cause to believe a crime has been committed on school property or at a school function.

Before police officials are permitted to question or search any student, the Principal or his or her designee shall first try to notify the student’s parent to give the parent the opportunity to be present during the police questioning or search. If the student’s parent cannot be contacted prior to the police questioning or search, the questioning or search shall not be conducted, unless the student is 16 years of age or older. The Principal or designee will also be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

1. They must be informed of their legal rights.
2. They may remain silent if they so desire.
3. They may request the presence of an attorney.
SUBJECT: SEARCHES AND INTERROGATIONS

F. Child Protective Services Investigations

Consistent with the district’s commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the district will provide data and assistance to local child protective services workers, or members of a multi-disciplinary team accompanying such workers, who are responding to allegations of suspected child abuse, and/or neglect, or custody investigations. Such data and assistance include access to records relevant to the investigation, as well as interviews with any child named as a victim in a report, or a sibling of that child, or a child residing in the same home as the victim.

All requests by child protective services to interview a student on school property shall be made directly to Principal or his or her designee. Child protective service workers and any associated multi-disciplinary team members must comply with the district’s procedures for visitors, provide identification, and identify the child(ren) to be interviewed.

The Principal or designee shall decide if it is necessary and appropriate for a school staff member, including but not limited to an administrator or school nurse, to observe the interview either from inside or outside the interview room.

A child protective services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if not he or she were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent’s consent.

SUBJECT: BUS RULES AND REGULATIONS

The Germantown Central School District furnishes transportation to those students whose disability or distance from the school make the service essential. Except as otherwise mandated in a student's Individualized Education Program (IEP), riding these buses is a privilege and may be withdrawn if the student does not comply with the rules and regulations set forth in this District.

Bus drivers shall be held responsible for reasonable and acceptable behavior of students while riding the school bus. Students riding school buses are expected to conform to the rules of conduct in order to permit the bus driver to transport his/her passengers safely.

The Board of Education, the Superintendent and/or his/her designee has the authority to suspend the transportation privileges of children who are disorderly and insubordinate on buses. Generally, parent(s)/guardian(s) will be required to make alternative transportation arrangements for their children who have been suspended from riding the bus. However, the effect of a suspension from transportation on the student's ability to attend school will be considered. If a suspension from transportation effectively results in a suspension from attendance because of the distance between the home and the school and the absence of alternative public or private means of transportation, the District shall make appropriate arrangements to provide for the student's education.

If a student with a disability who receives transportation as a related service as part of his/her Individualized Education Program is being considered for suspension from transportation, and that suspension would effectively result in a change in placement, the student shall be referred to the Committee on Special Education.

The Board directs the administration to establish rules and regulations for student conduct on buses, including applicable due process rights to be afforded students suspended from transportation privileges. These rules and regulations shall be promulgated to all concerned, including the non-public schools to which students are transported.

Adopted: 4/8/09
SUBJECT:  CORPORAL PUNISHMENT/EMERGENCY INTERVENTIONS

Corporal Punishment

Corporal punishment as a means of discipline shall not be used against a student by any teacher, administrator, officer, employee or agent of this School District.

Whenever a school employee uses physical force against a student, the school employee shall, within the same school day, make a report to the Superintendent describing in detail the circumstances and the nature of the action taken.

The Superintendent of Schools shall submit a written report semi-annually to the Commissioner of Education, with copies to the Board of Education, by January 15 and July 15 of each year, setting forth the substance of each written complaint about the use of corporal punishment received by the Germantown Central School District authorities during the reporting period, the results of each investigation, and the action, if any, taken by the school authorities in each case.

Emergency Interventions

However, if alternative procedures and methods which would not involve physical force do not work, then the use of reasonable physical force is not prohibited for the following reasons:

a)  Self-protection;

b)  Protection of others;

c)  Protection of property; or

d)  Restraining/removing a disruptive student.

Such emergency interventions shall only be used in situations where alternative procedures and methods not involving the use of reasonable physical force cannot reasonably be employed. Emergency interventions shall not be used as a punishment or as a substitute for systematic behavioral interventions that are designed to change, replace, modify or eliminate a targeted behavior.

Staff who may be called upon to implement emergency interventions will be provided appropriate training in safe and effective restraint procedures. The parent(s) of the student shall be notified whenever an emergency intervention is utilized.

The District will maintain documentation on the use of emergency interventions for each student including:

(Continued)
SUBJECT: CORPORAL PUNISHMENT/EMERGENCY INTERVENTIONS (Cont'd.)

b) Setting and location of the incident;

c) Name of staff or other persons involved;

d) Description of the incident and emergency intervention used, including duration;

e) A statement as to whether the student has a current behavioral intervention plan; and

f) Details of any injuries sustained by the student or others, including staff, as a result of the incident.

This documentation will be reviewed by District supervisory personnel and, if necessary, by the school nurse or other medical personnel.

SUBJECT: WEAPONS IN SCHOOL AND THE GUN-FREE SCHOOLS ACT

Weapons in School

The possession of a weapon on school property, in District vehicles, in school buildings, or at school sponsored activities or settings under the control and supervision of the District regardless of location, is strictly prohibited, except by law enforcement personnel. Any person possessing a weapon for educational purposes in any school building must have written authorization of the Superintendent of Schools or his/her designee.

The Penal Code of the State of New York shall be used to determine what is considered a weapon.

Penal Law Sections 265.01-265.06

Specific Penalties Imposed by the Gun-Free Schools Act

No student shall bring or possess any "firearm" as defined in federal law on school premises (including school buildings and grounds, District vehicles, school settings and/or school sponsored activities under the control and supervision of the District regardless of location). For purposes of this policy, the term "firearm" includes any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; the frame or receiver of such weapon; any firearm muffler or silencer; or any "destructive device" (e.g., any explosive, incendiary, or poison gas, including bombs, grenades, rockets or other similar devices). The term does not include a rifle which the owner intends to use solely for sporting, recreational or cultural purposes; antique firearms; or Class C common fireworks.

In accordance with the Gun-Free Schools Act and Education Law Section 3214(3)(d), any student who brings or possesses a dangerous weapon or firearm, as defined in federal law, on school property, will be referred by the Superintendent to the appropriate agency or authority for a juvenile delinquency proceeding in accordance with Family Court Act Article 3 when the student is under the age of sixteen (16) except for a student fourteen (14) or fifteen (15) years of age who qualifies for juvenile offender status under the Criminal Procedure Law, and will be referred by the Superintendent to the appropriate law enforcement officials when the student is sixteen (16) years of age or older or when the student is fourteen (14) or fifteen (15) years of age and qualifies for juvenile offender status under the Criminal Procedure Law. For purposes of this policy, the term "dangerous weapon" means a weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than two and one-half inches (2 1/2") in length.

In addition, any student attending a District school who has been found guilty of bringing a firearm to or possessing a firearm on school property, after a hearing has been provided pursuant to Education Law Section 3214, shall be suspended for a period of not less than one (1) calendar year (Continued)
Students

SUBJECT: WEAPONS IN SCHOOL AND THE GUN-FREE SCHOOLS ACT (Cont’d.)

and any student attending a non-district school who participates in a program operated by the School District using funds from the Elementary and Secondary Education Act of 1965 who is determined to have brought a firearm to or possessed a firearm at a District school or on other premises used by the School District to provide such programs shall be suspended for a period of not less than one (1) calendar year from participation in such program. The procedures of Education Law Section 3214(3) shall apply to such a suspension of a student attending a non-district school. Further, after the imposition of the one (1) year penalty has been determined, the Superintendent of Schools has the authority to modify this suspension requirement for each student on a case-by-case basis. In reviewing the student's one (1) year suspension penalty, the Superintendent may modify the penalty based on factors as set forth in Regulations of the Commissioner of Education Section 100.2 and in Commissioner's Decisions. The determination of the Superintendent shall be subject to review by the Board of Education in accordance with Education Law Section 3214(3)(c) and by the Commissioner of Education in accordance with Education Law Section 310.

Student with a Disability

Pursuant to Commissioner Regulations, a student with a disability who is determined to have brought a weapon (including a firearm) to school or possessed a weapon (including a firearm) at school may be placed in an interim alternative educational setting, in accordance with federal and state law, for not more than forty-five (45) calendar days. If the parent or guardian requests an impartial hearing, the student must remain in the interim alternative placement until the completion of all proceedings, unless the parent or guardian and District can agree on a different placement. For more information regarding Interim Alternative Educational Settings (IAES), refer to Policy #7313 -- Suspension of Students.

However, a student with a disability may be given a long term suspension pursuant to the Gun-Free Schools Act only if a group of persons knowledgeable about the student, as defined in federal regulations implementing the Individuals with Disabilities Act (IDEA), determines that the bringing of a firearm to school or possessing a firearm at school was not a manifestation of the student's disability, subject to applicable procedural safeguards.

If it is determined that the student's bringing of a firearm to school or possessing a firearm at school was a manifestation of the student's disability, the Superintendent must exercise his/her authority under the Gun-Free Schools Act to modify the long term suspension requirement, and determine that the student may not be given a long term suspension for the behavior. The Committee on Special Education may review the student's current educational placement and initiate change in placement proceedings, if appropriate, subject to applicable procedural safeguards.

The District may offer home instruction as an interim alternative educational setting during the pendency of review proceedings only if the student's placement in a less restrictive alternative educational setting is substantially likely to result in injury either to the student or to others.

(Continued)
The District may also seek a court order to immediately remove a student with a disability from school if the District believes that maintaining the student in the current educational placement is substantially likely to result in injury to the student or to others.

Students with disabilities continue to be entitled to all rights enumerated in the Individuals with Disabilities Act and Education Law Article 89; and this policy shall not be deemed to authorize suspension of students with disabilities in violation of these laws.

This policy does not prohibit the District from utilizing other disciplinary measures including, but not limited to, out-of-school suspensions for a period of five days or less, or in-school suspensions, in responding to other types of student misconduct which infringe upon the established rules of the school. Additionally, this policy does not diminish the authority of the Board of Education to offer courses in instruction in the safe use of firearms pursuant to Education Law Section 809-a.

The District will continue to provide the suspended student who is of compulsory attendance age with appropriate alternative instruction during the period of the student's suspension.

SUBJECT: EXTRACURRICULAR ACTIVITIES

The Board of Education recognizes the educational values inherent in student participation in the extracurricular life of the school, and supports the concept of the formation of student groups for such purposes as building sound social relationships, developing interests in an academic area, and gaining an understanding of the essential elements of good citizenship.

The Superintendent of Schools, with the aid of students, faculty, and administration, shall develop procedures for registering and regulating student groups or clubs. Such procedures shall ensure that the District will register any group organized for a purpose not prohibited by Board policy, if such group submits a list of its members designated as contacts, a copy of its constitution or bylaws, or both, and the constitution and bylaws of any off-campus organization with which it may be affiliated.

Student groups may not restrict membership on the basis of race, color, creed, religion, national origin, political affiliation, sex, sexual orientation, age, marital status, military status or disability.

The Superintendent shall establish rules for the conduct of dances and other activities sponsored by the District.

Limited Open Forum

The Board of Education maintains a limited open forum where secondary students may meet for voluntary student-initiated activities unrelated directly to the instructional program, regardless of religious, political or philosophical content.

To provide "a fair opportunity" to students who wish to conduct a meeting, the Board of Education, in accordance with the provisions of the Equal Access Act, shall ensure that:

a) The meeting is voluntary and student-initiated;

b) There is no sponsorship of the meeting by the school, the government, or its agents or employees;

c) Employees or agents of the school or government are present at religious meetings only in a nonparticipatory capacity;

d) The meeting does not materially and substantially interfere with the orderly conduct of educational activities within the school; and

e) Nonschool persons may not direct, conduct, control, or regularly attend activities of student groups (20 USC Section 4071[c]).

(Continued)
SUBJECT: EXTRACURRICULAR ACTIVITIES (Cont'd.)

The Board prohibits student organizations whose activities may be unlawful or may cause disruption or interference with the orderly conduct of the educational process.

Administration is responsible for establishing regulations governing the use of school facilities by student organizations.

If a student is not fulfilling the responsibilities listed in b) above, the staff member will notify the Principal who will meet with the student on restriction. If the student continues to fail in meeting his/her responsibilities, the student will be removed from the extracurricular activity entirely.

(Continued)
i. Once per semester (fall and spring), a student has the opportunity to use a Ten-Day Option. Once a student determines they would like to use the ten-day option, they will do the following:

   c. At the end of the ten days, the student will revisit all teachers for courses in which they are enrolled, complete the form, and return it to the Principal by noon on Friday. If teachers indicate the student is in good standing in all courses, the student will be taken off the extracurricular restriction list. The student will continue to follow the requirements (I. b. 1-4 above) for the remainder of the academic marking period.

II. If at the end of the subsequent marking period the student is still failing two or more courses, he/she will remain on the eligibility restriction list.

SUBJECT: EXTRACURRICULAR ACTIVITIES (Cont'd.)

Special Notes

A student who is suspended, either in school or out of school, may not participate in any extracurricular activity until the end of the suspension.

The schedule for reporting grades will be determined at the beginning of the school year. Teachers will submit grades to the Jr./Sr. High School Office. The Jr./Sr. High School Office will compile a list of failing students and will provide the staff with this list. The Principal will use this list to determine the eligibility status of each participant.

If an activity begins midway through a marking period, every student will be allowed to participate until the next marking period. If the student is presently on restriction, he/she will be allowed to participate (i.e., tryout for the sport or show), but if at the end of the reporting period the student is still on restriction, he/she will remain on restriction until the next marking period, following the guidelines (I. b., above).

All extracurricular activities will be registered with the Superintendent who will notify the Principal of the activity. The Athletic Director will provide a list of all the team members of the sports teams. The advisor of each activity will provide a list of participants. The Principal will notify the Athletic Director, who will notify the individual coach, and the advisor of the academic status of each participant. It is the responsibility of the advisor/coach to enforce the policy and not allow restricted students to participate.

SUBJECT: CENSORSHIP OF SCHOOL SPONSORED STUDENT PUBLICATIONS AND ACTIVITIES

The District may exercise editorial control over the style and content of student speech in school sponsored publications and activities that are part of the educational curriculum.

Adopted: 4/8/09
The Board of Education recognizes the social and scholastic benefits derived from student participation in various community-sponsored activities. Nevertheless, neither an individual nor the Germantown Central School as a whole shall be permitted to use school time in working on community-sponsored projects unless such an undertaking is deemed to contribute significantly to the educational program of the student or the school.

Participation by Germantown Central School students during school hours in the local fire departments is permitted, so long as such participation (a) does not unduly interfere with participants' academic work, (b) is restricted to seniors who are in good standing, and (c) is with the express written permission of the parent or legal guardian of the participant.

It shall be the responsibility of the Superintendent of Schools to develop procedures for community groups to request student involvement during school hours, as well as to develop guidelines for the due consideration of such requests.

SUBJECT: SPORTS AND THE ATHLETIC PROGRAM

Athletics are an integral part of a well balanced educational program. Therefore, the Board supports within its resources a broad sports program with equal access for both males and females, with emphasis on maximum participation, through interscholastic and intramural activity. The District will comply with recommendations from the U.S. Department of Education's Office for Civil Rights (OCR) regarding Title IX equal opportunity for males and females in the District's total athletic program.

The interscholastic athletic program shall conform to the Regulations of the Commissioner of Education as well as the established rules of the New York State Public High Schools Athletic Association and the State Education Department.

Eligibility for interscholastic athletic competition requires that the students:

a) Provide written parental/guardian consent;

b) Pass satisfactorily the medical examination administered by the school physician/nurse practitioner or the student's personal physician. The school physician/nurse practitioner retains final approval on all physicals performed by the student's personal physician; and

c) Meet the requirements for interscholastic competition as set forth by the Commissioner's Regulations and the New York State Public High School Athletic Association.

Selection/Classification Process

The Board approves the use of the selection/classification process for all secondary school interscholastic team members. The Board directs the Superintendent to implement the procedures and maintain a file of those students deemed eligible as a result of those procedures.

Student Athletic Injuries

No student should be allowed to practice or play in an athletic contest if he/she is suffering from an injury. The diagnosis of and prescription of treatment for injuries is strictly a medical matter and should under no circumstances be considered within the province of the coach. A coach's responsibility is to see that injured players are given prompt and competent medical attention, and that all details of a doctor's instructions concerning the student's functioning as a team member are carried out. No student will be allowed to practice or compete if there is a question whether he/she is in adequate physical condition.

A physician's certificate may be required before an athlete is permitted to return to practice or competition.

Athletic Program - Safety

The District will take reasonable steps to see that physical risks to students participating in the interscholastic athletic program shall be kept at a minimum by:

b) Obtaining appropriately certified and/or licensed officials to coach all varsity, junior varsity, and modified games; and

c) Ensuring that equipment is both safe and operative within approved guidelines.

SUBJECT: FUND RAISING BY STUDENTS

Fund raising projects in which students sell merchandise, provide services, or in other ways solicit money for school activities may be sponsored by school organizations with the express approval of the Building Principal. Any such plan shall have a clearly defined purpose and, in general, shall contribute to the educational experience of students and shall not conflict with instructional programs or state mandates. Fund raising activities away from school property shall be held to a minimum. All participation shall be voluntary.

Door to door sales projects undertaken by any organization using the Germantown Central School District name shall require previous approval of the Board of Education. Profits shall be used to enhance school programs by providing money for expenditures not normally funded by the District.

Employees are cautioned against giving the impression to students that the purpose of selling items (e.g., "scratch off" cards, holiday wrappings, etc.) or paying a fee is to defray a portion of the District's educational program. At no time should a student's participation in an educational activity include such sales or fees. In addition, it is imperative that employees not deposit the proceeds of any legitimate sales activity in their own personal accounts. These activities may jeopardize a student's right to participate in the educational program on a tuition and/or fee-free basis. Further, employees engaged in such activities may be held personally liable.

A. Immunization Against Communicable Diseases

Under state Public Health Law 2164, in order to be enrolled in or attend district schools, children must be fully immunized against certain communicable diseases. Those diseases are: poliomyelitis, mumps, measles, diphtheria, rubella, varicella (chicken pox), Haemophilus influenzae type b (Hib), pertussis, tetanus, pneumococcal disease, meningococcal disease, and hepatitis B.

“Fully immunized” means that the child has either (1) received the required vaccinations for these diseases as set forth in state regulations; (2) for measles, mumps, rubella, hepatitis B, poliomyelitis, or varicella only, shown immunity with a positive blood test for those disease antibodies; or (3) for varicella only, has had the disease, verified by a physician, nurse practitioner, or physician’s assistant.

Children who are not fully immunized may only be admitted to school if they (1) are in the process of receiving immunization or obtaining blood tests; or (2) have been granted a medical or religious exemption.

Medical exemptions may be issued if immunization is detrimental to a child’s health. Medical exemptions must either be (1) the medical exemption form issued by the New York State Department of Health or the New York City Department of Health and Mental Hygiene, or (2) a statement signed by a physician licensed to practice medicine in New York State indicating the specific immunization, the medical contraindication, and the length of time the exemption is for. Medical exemptions must be reissued annually to remain valid. The Building Principal may require supporting documents for medical exemptions.

Religious exemptions may be granted by the district upon either (1) a signed and completed Request for Religious Exemption to Immunization created by the NYSED, or (2) a written and signed statement from a parent/guardian stating an objection to immunization because of genuine and sincere religious beliefs which prohibit immunization. The Building Principal may require supporting documents for religious exemptions.

(Continued)
SUBJECT: IMMUNIZATION OF STUDENTS

All students must present appropriate documentation of their immunization status, as set forth in the Regulations of the Commissioner of Health 10 NYCRR Subpart 66-1.

The Building Principal may permit students without adequate documentation to attend school up to 14 calendar days while the parent/guardian furnishes the necessary documents. This time period may be extended to 30 days for students transferring from another state or country, as long as they show a good faith effort to obtain the necessary documentation.

District schools may access the New York State Immunization Information System (NYSIIS) or the New York City Citywide Immunization Registry (CIR) to verify the immunization history of students entering or registered in that school.

When a child is excluded from school for immunization reasons, the Building Principal shall notify the parent/guardian of their responsibility to have the child immunized, and the public resources available for doing so. The Principal shall also notify the local health authority of the child’s name and address and the immunization(s) the child lacks, and shall cooperate with that authority to provide a time and place for the required immunization(s) to be administered.

The district will maintain a list of all students who have been exempted from immunization for medical or religious reasons, or who are in the process of receiving immunization, and shall exclude such students from school when so ordered by the Commissioner of Health, in the event of an outbreak in school of the vaccine-preventable diseases listed in Public Health Law 2164 and the first paragraph of this section.

When a student transfers out of the district, the parent/guardian will be provided with an immunization transfer record showing the student’s current immunization status which will be signed by the school nursing personnel or the school physician. A transcript or photocopy of the immunization portion of the cumulative health record will be provided to the new educational institution upon request.

SUBJECT: STUDENT PHYSICALS

Health Examination

Each student enrolled in District schools must have a satisfactory health examination conducted by the student's physician, physician assistant or nurse practitioner within twelve (12) months prior to the commencement of the school year of:

a) The student's entrance in a District school at any grade level;
b) Entrance to pre-kindergarten or kindergarten;
c) Entry into the 2nd, 4th, 7th and 10th grades.

The District may also require an examination and health history of a student when it is determined by the District that it would promote the educational interests of the student.

In addition, the District requires a certificate of physical fitness for:

a) All athletes prior to their first sport of the school year, then only those who were injured or ill during their first sport before participating in a second sport during the school year; and
b) All students who need work permits.

Health Certificate

Each student must submit a health certificate attesting to the health examination within thirty (30) days after his/her entrance into school and within thirty (30) days after his/her entry into the 2nd, 4th, 7th and 10th grades. The health certificate shall be filed in the student's cumulative record. The health certificate must:

a) Describe the condition of the student when the examination was given;
b) State the results of any test conducted on the student for sickle cell anemia;
c) State whether the student is in a fit condition of health to permit his/her attendance at public school and, where applicable, whether the student has defective sight or hearing, or any other physical disability which may tend to prevent the student from receiving the full benefit of school work or from receiving the best educational results, or which may require a modification of such work to prevent injury to the student;

(Continued)
SUBJECT:  STUDENT PHYSICALS  (Cont'd.)

d) Include a calculation of the student's body mass index (BMI) and weight status category. BMI is computed as the weight in kilograms divided by the square of height in meters or the weight in pounds divided by the square of height in inches multiplied by a conversion factor of 703. Weight status categories for children and adolescents shall be defined by the Commissioner of Health;

e) Be signed by a duly licensed physician, physician assistant, or nurse practitioner, who is authorized by law to practice in New York State consistent with any applicable written practice agreement; or authorized to practice in the jurisdiction in which the examination was given, provided that the Commissioner of Health has determined that such jurisdiction has standards of licensure and practice comparable to those of New York. A certificate signed by a chiropractor is not acceptable except for a scoliosis evaluation;

f) At the same time a health certificate is required, a student is requested to furnish a dental health certificate signed by a duly licensed dentist authorized by law to practice in New York State describing the dental health condition of the student upon examination and stating whether such student is in fit condition of dental health to permit his/her attendance at the public schools. Such examination shall be made not more than twelve (12) months prior to the commencement of the school year in which the examination is requested.

Examination by Health Appraisal

The Principal or the Principal's designee will send a notice to the parents of, or person in parental relationship to, any student who does not present a health certificate, that if the required health certificate is not furnished within thirty (30) days from the date of such notice, an examination by health appraisal will be made of such student by the Director of School Health Services.

The Director of School Health Services shall cause such students to be separately and carefully examined and tested to ascertain whether any such student has defective sight or hearing, or any other physical disability which may tend to prevent the student from receiving the full benefit of school work or from receiving the best educational results, or which may require a modification of such work to prevent injury to the student.
SUBJECT: STUDENT PHYSICALS (Cont'd.)

Unless otherwise prohibited by law, if it is ascertained that any students have defective sight or hearing, or a physical disability or other condition, which may require professional attention with regard to health, the Principal or Principal's designee shall notify, in writing, the student's parents or persons in parental relation as to the existence of such disability. If the parents or persons in parental relation are unable or unwilling to provide the necessary relief and treatment for such students, such fact shall be reported by the Principal or Principal's designee to the Director of School Health Services, who then has the duty to provide relief for such students.

Health Screenings

The District will provide:

a) Scoliosis screening at least once each school year for all students in grades 5 through 9. The positive results of any such screening examinations for the presence of scoliosis shall be provided in writing to the student's parent or person in parental relation within ninety (90) days after such finding;

b) Vision screening to all students who enroll in school including at a minimum color perception, distance acuity, near vision and hyperopia within six (6) months of admission to the school. In addition, all students shall be screened for distance acuity in grades Kindergarten, 1, 2, 3, 5, 7 and 10 and at any other time deemed necessary. The results of all such vision screening examinations shall be provided in writing to the student's parent or person in parental relation and to any teacher of the student. The vision report will be kept in a permanent file of the school for at least as long as the minimum retention period for such records;

c) Hearing screening to all students within six months of admission to the school and in grades Kindergarten, 1, 3, 5, 7 and 10, as well as at any other time deemed necessary. Screening shall include, but not be limited to, pure tone and threshold air conduction screening. The results of any such hearing tests shall be provided in writing to the student's parent or person in parental relation and to any teacher of the student.

The results of all health screenings (dental, hearing, vision and scoliosis) shall be recorded on appropriate forms signed by the health professional making the examination, include appropriate recommendations, and be kept on file in the school. The health records of individual students will be kept confidential in accordance with the federal Family Educational Rights and Privacy Act (FERPA) and any other applicable federal and State laws.
SUBJECT: STUDENT PHYSICALS (Cont'd.)

Accommodation for Religious Beliefs

No health examinations, health history, examinations for health appraisal, screening examinations for sickle cell anemia and/or other health screenings shall be required where a student or the parent or person in parental relation to such student objects thereto on the grounds that such examinations, health history and/or screenings conflict with their genuine and sincere religious beliefs. A written and signed statement from the student or the student's parent or person in parental relation that such person holds such beliefs shall be submitted to the Principal or Principal's designee, in which case the Principal or Principal's designee may require supporting documents.

SUBJECT: ADMINISTRATION OF MEDICATION

Neither the Board of Education nor District staff members shall be responsible for diagnosing or treating student illness. The administration of prescribed medication to a student during school hours shall be permitted only when a student's failure to take such medication would jeopardize a student's health, when the student would not be able to attend school were the medicine unavailable to him/her during school hours, or when it is done pursuant to law requiring accommodation to a student's special medical needs (e.g., Section 504 of the Rehabilitation Act of 1973). The term medication shall be understood to include all medicines prescribed by a physician and over the counter drugs.

Appropriate procedures have been established for the administration of medication (including over the counter, non-prescription drugs), to be given during regular school hours, at school sponsored activities, such as field trips, and at after school hour activities. All students needing to take medication during the regular school day or while participating in school sponsored activities must comply with all procedures.

A licensed prescriber must prescribe all medications given in school. Medication orders must be renewed annually or whenever there is a change in the original order. The pharmacy label does NOT constitute a written order and cannot be used in lieu of a written order from a licensed prescriber. Written orders for prescription and nonprescription medications should minimally include:

a) Student's name and date of birth;

b) Diagnosis;

c) Name of medication;

d) Dosage and route of administration;

e) Self administration orders - if indicated;

f) Frequency and time of administration;

g) Date written;

h) Prescriber's name, title and signature;

i) Prescriber's phone number;

j) For PRN medications - conditions under which medication is to be given.

(Continued)
SUBJECT: ADMINISTRATION OF MEDICATION (Cont'd.)

Written parental permission is required for the administration of any medication. Parents must request additional containers from the pharmacy so that one may remain in school. The parent or guardian must assume responsibility to have the medication delivered directly to the health office in the properly labeled original container.

The pharmacy label for prescription medications must display:

a) Student name;
b) Name and phone number of pharmacy;
c) Licensed prescriber's name;
d) Date and number of refills;
e) Name of medication and dosage;
f) Frequency of administration;
g) Route of administration and or other pertinent directions.

Nonprescription over the counter drugs must also be in the original manufacturer's container with the student's name affixed to the container.

If a written order is NOT received from the licensed prescriber the medication will NOT be administered in school.

Medication may be administered in school in one of three ways. A parent may request that the medication be kept in the health office and administered by the nurse, the medication may be kept in the health office and the student can be self-directed.
Students who may carry and use certain medications

Students are permitted to self-administer medication under certain circumstances, in accordance with state law and regulation. A student is authorized to carry and use the following medications: rescue inhaler, epinephrine auto-injector, insulin, glucagon (and associated diabetes testing supplies), if the following conditions are met:

1. An authorized medical provider must provide written permission that includes an attestation that the student’s diagnosis requires the medication; the student has demonstrated that he/she can self-administer the prescribed medication effectively; the name of the medication, the dose, the times when it is to be taken, the circumstances which may warrant use and the length of time during which the student may use it.
2. Written parental permission.

If a student is authorized to carry and use medication as described above, the parent/guardian is permitted to give extra medication and supplies that the district will maintain in accordance with the written directions submitted by the authorized medical provider. Such extra medication and supplies shall be readily accessible to the student.

All documents pertaining to student medication will be kept on file in the nurse’s office.

Students are encouraged to become self-directed in taking their medication. A student will be considered self-directed based on cognitive and or emotional development rather than age and grade. Usually a student is considered to be self-directed if consistently able to do all of the following:

a) Identify the correct medication (e.g., color, shape),
b) Identify the purpose of the medication (e.g., to improve attention, help me breathe),
c) Know the correct dose (e.g., one pill, two puffs),
d) Identify the time the medication is to be taken (e.g., lunchtime, before/after lunch),
e) Describe what will happen if the medication is not taken (e.g., unable to concentrate, be short of breath), and
f) Refuse to take the medication if the student has any concerns about the appropriateness.

Students are expected to be active participants in the medication process. This includes coming to the health office on time and receiving or taking medications appropriately.
SUBJECT: ADMINISTRATION OF MEDICATION (Cont'd.)

Administering medication on field trips and at after-school activities.

Taking medication on field trips and at after-school activities is permitted if a student is self-directed in administering their own medication. On field trips or at other after-school activities, teachers or other school staff may carry the medication so that the self-directed student can take it at the proper time.

If a student is going on a field trip but is not self-directed (i.e., fully aware and capable of understanding the need and assuming responsibility for taking medicine), then the district may:

- permit the parent or guardian to attend the activity and administer the medication.
- permit the parent to personally request another adult who is not employed by the school to voluntarily administer the medication on the field trip or activity and inform the school district in writing of such request.
- allow the student’s health care provider to be consulted and, if he/she permits, order the medication time to be adjusted or the dose eliminated.

If no other alternative can be found, a school nurse or licensed person must administer the medication.

Emergency Medication

Administering epi-pen in emergency situations. The administration of epinephrine by epi-pen has become an accepted and extremely beneficial practice in protecting individuals subject to serious allergic reactions (e.g., individual has an anaphylactic reaction to a wasp sting or the ingestion of peanut butter).

[Pursuant to Commissioner’s regulations, registered professional nurses may carry and administer agents used in non-patient specific emergency treatment of anaphylaxis.]

In addition, pursuant to SED guidelines, school nurses may provide training to unlicensed school staff in administering epi-pens, epinephrine auto-injectors and glucagon prescribed by a licensed medical provider, to a child who has been diagnosed with the associated disease in accordance with the process described in this policy and regulation.
SUBJECT: ADMINISTRATION OF MEDICATION (Cont'd.)

Use of Inhalers in Schools

In accordance with law, the School District must permit students who have been diagnosed by a physician or other duly authorized health care provider as having a severe asthmatic condition to carry and use a prescribed inhaler during the school day. Prior to permitting such use, the school health office must receive the written permission of the prescribing physician or other duly authorized health care provider, and parental consent, based on such physician's or provider's determination that the student is subject to sudden asthmatic attacks severe enough to debilitate that student. In addition, upon the written request of a parent or person in parental relation, the Board shall allow such pupils to maintain an extra inhaler in the care and custody of the school's registered professional nurse.

In accordance with standard nursing practice, school nursing personnel may refuse to administer any medication which based on professional judgment has the potential for harm. This includes medication that exceeds the recommended dosage and/or inappropriate medication.

Medication will only be administered by an RN or an LPN. In the absence of both the RN or LPN the parents will be notified and may choose to administer the medication themselves, authorize a non-District individual to do so in writing, or choose to eliminate that dose.

The District shall attempt to have an RN or LPN available for administration of medication on field trips, if that is not possible, parents will have the same options available to them as in the absence of both.

All medications shall be picked up from the health office on or before the last day of school or it will be disposed of.

Public Health Law Section 3000-a

Adopted: 12/14/16
SUBJECT: HEALTH RECORDS

The school shall keep a convenient, accurate, and up-to-date health record of every student. Insofar as the health records include confidential disclosures or findings, they shall be kept confidential.

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy interests of students. For Pre-K through grade 12 students, health records maintained by the School District, including immunization records and school nurse records, generally are considered "education records" and subject to FERPA because they are:

a) Directly related to the student;

b) Maintained by an education agency or institution, or a party acting for the agency or institution; and

c) Not excluded from the definition of education records as treatment or sole-possession records, or on some other basis.

Health records and immunization records that are considered "education records" under FERPA are not subject to the Health Insurance Portability and Accountability Act of 1996 (HIPAA) privacy requirements. In addition, school nurse or other health records maintained on students receiving services under the Individuals with Disabilities Act (IDEA) are considered "education records" and also subject to that Act's confidentiality provisions. Consequently, these records are subject to FERPA and not the HIPAA Privacy Rule.

Individual records may be interpreted by the school's registered professional nurse to administrators, teachers, and counselors, consistent with law.

In accordance with law, the Germantown Central School District houses a "licensed school-based health, dental or mental health clinic" operated by an entity other than the District which provides health, dental or mental health services during school hours and/or non-school hours to school-age and preschool children residing in the District.

Health professionals who provide services in this licensed clinic shall be duly licensed and shall provide such services to the extent permitted by their respective practice acts.

Except where otherwise authorized by law, the cost of providing health, dental or mental health services shall not be a charge upon the District and shall be paid from federal, state or other local funds available for such purpose. Building space used for this clinic shall be excluded from the rated capacity of the school building for the purpose of computing building aid.

No cause of action shall be justified for damages against the District for acts of negligence or misconduct by the clinic or its officers or employees.

**Illness or Injury in School**

If a student becomes ill or injured in school:

1. The nurse will determine if the student should receive further medical attention, remain in the dispensary or return to class.
2. The nurse will call the parent, guardian or designated emergency contact if he/she feels the student should go home. In general, a parent or guardian will pick up the student from school.
3. If no parent, guardian or designated emergency contact picks up the student at school, or if no parent/guardian or designated emergency contact will be home, the student will remain in the nurse's office until such time as a parent, guardian or designated emergency contact becomes available to assume responsibility for the child.
4. If the nurse determines that the child can return to class, but needed some type of medical attention (i.e., a bandage for a minor scratch, a brief rest, etc.), the nurse may notify the parent if needed.
5. The nurse will maintain a log of all student visits, until the last day of school and will then destroy them. Injury forms and concussion assessments will be placed in students’ health records.

**Medical Emergency Record**

All students shall have on file a medical emergency record which shall state the name and telephone numbers of the following:

1. the student's parent(s) or guardian(s) at home and work;
2. the student's next of kin;
3. a neighbor;
4. preferred hospital;
5. any allergies or serious health conditions.

Students diagnosed with diabetes shall have a written diabetes management plan maintained as part of the student’s cumulative health record. The management plan shall be developed in accordance with state regulation and district procedures. Students diagnosed with asthma or other respiratory disease requiring a rescue inhaler, students diagnosed with life-threatening allergy or diabetes may have an emergency action plan maintained as part of the student’s cumulative medical record. The emergency action plan will be developed in accordance with state regulation and district procedures.
SUBJECT: ACCIDENTS AND MEDICAL EMERGENCIES

Student Return to School after Illness/Injury

In general, students should be symptom-free before returning to school and resuming normal activities. In some instances, students may be asked to provide a note from their licensed health care provider before they return to school or participate in the full range of school activities. The final decision to permit participation rests with the school physician. The Superintendent, in consultation with the school physician, nurse and other appropriate staff, will develop protocols to address a student’s return to activities when there has been a serious illness or injury.

Education Law Sections 1604(7-a, b) and 1709(8-a, b)

Adopted: 12/14/16
Students, parents, school personnel and health care providers must all work together to provide the necessary information and training to allow children with chronic health problems to participate as fully and safely as possible in the school experience.

Particularly for those students with chronic conditions such as asthma and allergies (food, insect sting, etc.) which may result in severe, life-threatening reactions to various environmental triggers, it is necessary that the District work cooperatively with the parent(s) and the healthcare provider to:

a) Develop an individual health care plan that includes all necessary treatments, medications, training and educational requirements for the student. If the student is eligible for accommodations based upon the Individuals with Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973 or the Americans with Disabilities Act, the appropriate procedures will be followed regarding evaluation and identification;

b) Obtain appropriate health care provider authorization in writing that includes the frequency and conditions for any testing and/or treatment; symptoms and treatment of any conditions associated with the health problem; and directions for emergencies; and

c) Secure written parent permission and discuss parental responsibility that includes providing the health care provider's orders, providing any necessary equipment, and participation in the education and co-management of the child as he/she works toward self-management.

The District will work toward assisting students in the self-management of their chronic health condition based upon the student's knowledge level and skill by:

a) Adequately training all staff involved in the care of the child;

b) Assuring the availability of the necessary equipment and/or medications;

c) Providing appropriately trained licensed persons as required by law;

d) Providing additional appropriately trained adults to complete delegated tasks as allowed by law;

e) Developing an emergency plan for the student; and

f) Providing ongoing staff and student education.

Use of Epinephrine Auto-Injector Devices (Epi-Pens) in the School Setting

The administration of epinephrine by epi-pen to a student with a known severe allergy needing an anaphylactic treatment agent may be performed by a school staff member responding to an emergency situation when such use has been prescribed by a licensed prescriber. However, a registered professional nurse/nurse practitioner must have trained the staff member to administer the epi-pen and given him/her approval to assist the student in the event of an anaphylactic reaction.

Documentation of training must be maintained in the Anaphylaxis Protocol for Non-Licensed School Staff Members for each affected student. The emergency response by non-licensed school staff members is permitted under the Medical Practice Act (Education Law Section 6527(4)(a)) and the Nurse Practice Act (Education Law Section 6908 (1)(a)(iv)) and is covered by the "Good Samaritan Law" (Public Health Law Section 3000-a).

Adopted: 4/8/09
SUBJECT: CHILD ABUSE, MALTREATMENT OR NEGLECT IN A DOMESTIC SETTING

The Board of Education recognizes that because of their sustained contact with school-aged children, employees are in an excellent position to identify abused, maltreated or neglected children and refer them for treatment and protection. The Board further recognizes the specific dictates of law which require school officials to report suspected instances of child abuse, maltreatment (which includes neglect) in a domestic setting.

The purpose of mandatory reporting is to identify suspected abused and maltreated children as soon as possible, so that such children determined to be abused or maltreated can be protected from further harm and, where appropriate, can be offered services to assist him or her and his or her family.

School officials, who have reasonable cause to know or suspect that a child has been subjected to abuse or maltreatment, must immediately report this to the New York State Central Register for Child Abuse and Maltreatment (Central Register), as required by law. No conditions may be imposed which limit their responsibility to report. A school official is defined as:

- Teacher
- Guidance counselor
- Psychologist
- Nurse
- Social Worker
- Full or part-time paid athletic coach
- Administrator
- Any school personnel required to hold a teaching or administrative license or certificate.

The school official will also report the matter to the Building Principal.

The report shall be made by telephone or by telephone facsimile machine on a form supplied by the Commissioner of Social Services. A written report shall be made within forty-eight hours to the appropriate local child protective service, and to the statewide Central Register.
SUBJECT: CHILD ABUSE, MALTREATMENT OR NEGLECT IN A DOMESTIC SETTING

School employees who are not school officials, as defined above, but who have reasonable cause to know or suspect that a child has been subjected to abuse or maltreatment are encouraged to report to the Central Register. However, the school employee must report the matter to the Building Principal. If the matter has not yet been reported to the Central Register, the Building Principal shall make the report, in accordance with state law. In being required to file such report, the Building Principal does not have discretion.

School employees or officials may not contact the child's family or any other person to determine the cause of the suspected abuse or maltreatment. It is not the responsibility of the school official or employee to prove that the child has been abused or maltreated.

Any school official or employee who has cause to suspect that the death of any child is a result of child abuse or maltreatment must report that fact to the appropriate medical examiner or coroner.

In accordance with the law, any school official who fails to report an instance of suspected child abuse or maltreatment may be guilty of a Class A misdemeanor and may be held liable for the damages caused by the failure to report. The law grants immunity to persons who, in good faith, report instances of child abuse from any liability.

School employees will not be subject to retaliatory action, as defined in state law, as a result of making a report when they reasonably suspect that a child has been abused or maltreated.

The Board recognizes that knowingly reporting a false claim of child abuse is a violation of state law and this policy acknowledges that it is a crime to do so. The district will make every reasonable effort to ensure the integrity of the district’s child abuse reporting process and procedure.

School District Relationship with Local Social Service District

The school district will cooperate to the extent possible with authorized child protective services workers in investigations of alleged child abuse. The Superintendent, or his or her designee, will represent the district when collaborating with local social service agencies to address instances of abuse or maltreatment, and in the development of policy and procedures regarding abuse or maltreatment (including educational neglect). In addition, the Superintendent will share a copy of the district’s attendance policy, 5100, with the local social service district.
SUBJECT: CHILD ABUSE, MALTREATMENT OR NEGLECT IN A DOMESTIC SETTING

Training Program and Dissemination of Information

The school district shall maintain an ongoing training program which will address the identification and reporting of child abuse and maltreatment, including the legal implications of reporting and not reporting. Attendance at sessions of this training program shall be required of all school officials. Attendance records shall be kept, and notations will be made in personnel files as to the dates of attendance.

The Superintendent shall develop, with input from appropriate personnel, a plan for implementation of such a training program, to be approved by the Board. In addition, the policy and regulations will be included in all employee handbooks and distributed annually to all school officials who are not covered under existing handbooks. The Superintendent will prepare and implement all regulations as are necessary to accomplish the intent of this policy.

As required by state law and regulation, the district shall publicize the toll-free number for reporting child abuse and neglect to the Central Register (800-342-3720), and directions for accessing the NYS Office of Children and Family Services website in both English and Spanish (http://ocfs.ny.gov/main/cps/).

REGULATION: CHILD ABUSE, MALTREATMENT OR NEGLECT IN A DOMESTIC SETTING

New York State Law (Child Protective Service Act of 1973, as amended) provides for reporting of suspected cases of child abuse by school officials. These regulations are designed to implement this law within the district and to help protect students from the harmful effects of child abuse.

Definitions

The definition of child abuse and maltreatment is established by law.

Abused Child, according to Social Services Law and the Family Court Act, is a child less than 18 years of age whose parent or other person legally responsible for his or her care:

a. inflicts or allows to be inflicted upon such child physical injury by other than accidental means which causes or creates a substantial risk of death, or serious or protracted disfigurement, or protracted impairment of physical or emotional health or protracted loss or impairment of the function of any bodily organ; or

b. creates or allows to be created a substantial risk of physical injury to such a child by other than accidental means which would be likely to cause death or serious or protracted disfigurement, or protracted impairment of physical or emotional health, or protracted loss or impairment of the function of any bodily organ; or

c. commits, or allows to be committed, a sex offense against such child, as defined in the penal law, provided, however, that the corroboration requirements contained therein shall not apply to proceedings under this article.

Neglected or maltreated child, according to the Family Court Act, is a child less than 18 years of age:

a. whose physical, mental, or emotional condition has been impaired or is in danger of becoming impaired as a result of the failure of his or her parents or other person legally responsible for his care to exercise a minimum degree of care:

   (1) in supplying the child with adequate food, clothing, shelter, or education in accordance with provisions of Part One, Article 65 of the Education Law, or medical, dental, optometrical or surgical care though financially able to do so or offered financial or other reasonable means to do so; or
REGULATION: CHILD ABUSE, MALTREATMENT OR NEGLECT IN A DOMESTIC SETTING

In order for a report of educational neglect to be accepted, three elements need to be established:

a. Excessive absence from school by the child
b. Reasonable cause to suspect that the parent is aware or should have been aware of the excessive absenteeism and the parent has contributed to the problem or is failing to take steps to effectively address the problem, and;
c. Reasonable cause to suspect educational impairment or harm to the child or imminent danger of such impairment or harm.

(2) in providing the child with proper supervision or guardianship, by unreasonably inflicting or allowing to be inflicted harm, or a substantial risk thereof, including the infliction of excessive corporal punishment; or by using a drug or drugs; or by using alcoholic beverages to the extent that he/she loses self-control of his/her actions; or by any other acts of a similarly serious nature requiring the aid of the court; or

b. who has been abandoned by his/her parent(s) or other person legally responsible for his/her care.

Person legally responsible includes the child's custodian, guardian, or any other person responsible for the child's care at the relevant time. Custodian may include any person continually or at regular intervals found in the same household as the child when the conduct of such person causes or contributes to the abuse or neglect of the child.

Impairment of emotional health and impairment of mental or emotional condition includes a state of substantially diminished psychological or intellectual functioning in relation to, but not limited to, such factors as failure to thrive, control of aggressive or self-destructive impulses, ability to think and reason, or acting out of misbehavior, including incorrigibility, ungovernability, or habitual truancy; provided, however, that such impairment must be clearly attributable to the unwillingness or inability of the parent, guardian, or custodian to exercise a minimum degree of care toward the child.

Reporting procedures and related information:

1. All school officials must, when they have reasonable cause to suspect that a child is abused or maltreated, report it to the New York State Central Register for Child Abuse and Maltreatment (800-342-3720). A school official, under state law, is defined as:
REGULATION: CHILD ABUSE, MALTREATMENT OR NEGLECT IN A DOMESTIC SETTING

- Teacher
- Guidance counselor
- Psychologist
- Nurse
- Social Worker
- Full or Part-time athletic coach
- Administrator
- Any school personnel required to hold a teaching or administrative license or certificate.

Personnel have the right to request that information which would identify the individual making the report be withheld if furnishing such data might prove detrimental to the safety or interest of that individual.

2. The school official must also report the matter to the Building Principal who will determine if any additional steps need to be taken by the school district (for instance, contacting the school physician, social worker or other support services).

3. In the event that a school employee, who is not required to report under the law (such as a bus driver, custodian, cafeteria monitor, etc.), has reasonable cause to suspect that a child is abused or neglected, he/she is encouraged to make a report to the Central Register. The employee must, by district policy, report the matter to the Building Principal.

4. If the Building Principal is informed of a case of suspected child abuse or maltreatment that has not yet been reported to the Central Register, the Building Principal is required to:
   (a) phone the New York State Central Register for Child Abuse and Maltreatment (800-342-3720) and inform them verbally of the problem; or
   (b) contact the above agency by telephone facsimile machine on a form supplied by the Commissioner of Social Services; and
   (c) file a written report with the local child protective services agency and the Central Register within forty-eight hours after the above report; and,
   (d) determine if additional steps need to be taken by the school district, as outlined in step 2 above.
REGULATION: CHILD ABUSE, MALTREATMENT OR NEGLECT IN A DOMESTIC SETTING

5. The Building Principal may take color photographs or cause photographs to be taken of the areas of visible trauma on the child, and/or, if medically indicated, cause an examination to be performed. Such actions may be performed at public expense if they will provide appropriate documentation when filing the report. Photographic equipment shall be kept at the school and be available for this purpose.

6. The written report that must be filed shall include all information which the Commissioner of Social Services may require.

7. If it should be necessary for Child Protective Services to interview a child at school to ascertain whether he/she has been abused or maltreated, or to obtain documentation of such acts, the interview should be conducted in the presence of a school official, unless circumstances require otherwise. The school official shall examine and verify the credentials of Child Protective Services worker(s) before allowing such worker(s) to either interview the child or to examine the child's records. If sexual abuse is indicated, the presence of a same-sex staff member during the interview is appropriate.

8. The Building Principal shall request a summary report of the investigation of a case referred to Child Protective Services so the district can take appropriate next steps.

9. The district shall maintain an ongoing training program which will address identification and reporting of child abuse and maltreatment. Attendance at sessions of this training program shall be required of all school officials.

10. Employee handbooks shall include a copy of these regulations and the related Board policy concerning child abuse and reporting requirements.

11. Only one report of any suspected abuse is required.

12. School personnel who, in good faith, make a report or take photographs of injuries and bruises have immunity from any liability, civil or criminal. The good faith of any person required to report cases of child abuse or maltreatment is presumed.

13. School personnel who have reasonable cause to suspect that a child has died as a result of child abuse or maltreatment shall report that fact to the appropriate medical examiner or coroner.
REGULATION: CHILD ABUSE, MALTREATMENT OR NEGLECT IN A DOMESTIC SETTING

14 Any person required to report suspected cases of child abuse or maltreatment and who fails to do so may be found guilty of a class A misdemeanor and may be held civilly liable for the damages caused by this failure.

15 Any school employee who fails to comply with this policy is subject to discipline in accordance with collective bargaining agreements and/or policy.

16 The district shall post the toll-free number for the Central Register (800-342-3720) and directions for accessing the NYS Office of Children and Family Services in both English and Spanish (http://ocfs.ny.gov/main/cps/), on the district website and in highly visible areas of school buildings so it is readily accessible to students and staff. The district shall also make such information available in district and school administrative offices, provide it to parents/persons in parental relation at least once per school year (including electronically and/or sent home with students), and provide it to all teachers and administrators and all other mandated reporters.

Adoption: 8/30/17
SUBJECT: SUICIDE

The suicide of a student has an extremely disturbing effect on the school and the local community. Unfortunately, there has been a significant increase in the number of adolescents who choose suicide as a way to resolve their problems. It is the intent of this District to alert school personnel to the implications of suicide by a student, to help the school and the community cope with the aftermath of such a tragic event should it occur, to recommend ways of identifying children and adolescents at risk of attempting suicide and to suggest ways to prevent such occurrences.

Suicide prevention will be incorporated into the curriculum to make students aware of this growing problem. This will be done in a manner so as not to glamorize the situation but to educate students in regard to this policy.

The administration is responsible for informing staff of regulations and procedures of suicide prevention, intervention, and post-intervention that have been developed by the administration.

Adopted: 4/8/09
SUBJECT: STUDENT HARASSMENT AND BULLYING PREVENTION AND INTERVENTION

The Board of Education is committed to providing an educational environment that promotes respect, dignity and equality. The Board recognizes that discrimination, such as harassment, hazing and bullying, are detrimental to student learning and achievement. These behaviors interfere with the mission of the district to educate its students and disrupt the operation of the schools. Such behavior affects not only the students who are its targets but also those individuals who participate in and/or witness such acts.

To this end, the Board condemns and strictly prohibits all forms of discrimination, such as harassment, hazing and bullying on school grounds, school buses and at all school-sponsored activities, programs and events as described in this policy. The Board also prohibits discrimination, harassment, hazing or bullying that takes place at locations outside of school grounds, including cyberbullying, which creates or would foreseeably create a risk of substantial disruption within the school environment where it is foreseeable that the conduct, threats, intimidation or abuse might reach school property.

Definitions

Bullying

Bullying, under the amended Dignity for All Students Act, has the same meaning as harassment (see below).

Cyberbullying

Cyberbullying is defined as harassment or bullying through any form of electronic communication. In order to be actionable under this Policy, cyberbullying that occurs off campus must create or would foreseeably create a risk of substantial disruption within the school environment, where it is foreseeable that the conduct, threats, intimidation or abuse might reach school property.

Discrimination

Discrimination is the act of denying rights, benefits, justice, equitable treatment or access to facilities available to all others, to an individual or group of people because of the group, class or category to which that person belongs.

Hazing

Hazing is an induction, initiation or membership process involving harassment which produces public humiliation, physical or emotional discomfort, bodily injury or public ridicule or creates a situation where public humiliation, physical or emotional discomfort, bodily injury or public ridicule is likely to occur.
Harassment

The creation of a hostile environment by conduct or by threats, intimidation or abuse, whether verbal or non-verbal, including cyberbullying, that (a) has or would have the effect of unreasonably and substantially interfering with a student’s educational performance, opportunities or benefits, or mental, emotional or physical well-being; (b) reasonably causes or would reasonably be expected to cause a student to fear for his or her physical safety; (c) reasonably causes or would reasonably be expected to cause physical injury or emotional harm to a student; or (d) occurs off school property and creates or would foreseeably create a risk of substantial disruption within the school environment, where it is foreseeable that the conduct, threats, intimidation or abuse might reach school property.

Discrimination or harassment within the meaning of this policy shall include a single severe incident or multiple incidents that are pervasive in nature that creates a hostile environment or reasonably causes or would reasonably be expected to cause a student to fear for his or her physical safety.

The discriminating behavior or harassing behavior may be based on any characteristic, including but not limited to a person’s actual or perceived:

- race,
- color,
- weight,
- national origin,
- ethnic group,
- religion,
- religious practice,
- disability,
- sex,
- sexual orientation, or
- gender (including gender identity and expression).

In order to streamline the wording of this policy and regulation the term bullying will be used throughout to encompass harassment, intimidation, cyberbullying and hazing behaviors.

Prevention

In order to implement this program the Board will designate at its annual organizational meeting a Dignity for All Students Act (DASA) Coordinator for each school in the district. In addition, the Board shall appoint a district-wide DASA coordinator. The role of each DASA coordinator is to oversee and enforce this policy.
The school setting provides an opportunity to teach children, and emphasize among staff, that cooperation with and respect for others is a key district value. A program geared to prevention is designed to not only decrease incidents of bullying, but to help students build more supportive relationships with one another by integrating the bullying prevention program into classroom instruction. Staff members and students will be sensitized, through district-wide professional development and instruction, to the warning signs of bullying, as well as to their responsibility to become actively involved in the prevention of bullying before overt acts occur. The components of such an effort involve the following:

- Learning about and identifying the early warning signs and precursor behaviors that may lead to bullying.
- Gathering information about bullying at school directly from students.
- Establishing clear school-wide and classroom rules about bullying.
- Training adults in the school to respond sensitively and consistently to bullying.
- Providing adequate adult supervision, particularly in less structured areas such as in the hallways, cafeteria, and playground.
- Raising parental awareness and involvement in addressing problems.
- Providing instruction in civility, citizenship, and character education that emphasizes tolerance and respect for others.

**Intervention**

Intervention by adults and bystanders is an important step in preventing escalation and resolving issues at the earliest stages. Intervention will emphasize education and skill-building. In addition, intervention will focus upon the safety of the target. Staff is expected, when made aware of bullying, to either refer the student to designated resources for assistance, or to intervene in accordance with this policy.

**Training**

The Board recognizes that in order to implement an effective bullying prevention and intervention program, professional development is needed. The Superintendent, the District-wide DASA Coordinator and the District Professional Development Committee will incorporate training to support this program in new teacher orientation and the annual professional development plan, as needed. Training opportunities will be provided for all staff, including but not limited to bus drivers, cafeteria, and monitors and all staff who have contact with students. Vendor employees (e.g., cafeteria, bus, etc.) shall be trained by the District or by the vendor in accordance with this policy. The DASA Coordinators will be thoroughly trained in human relations in the areas of race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, sex and gender (including gender identity and expression).
Incident Reporting and Investigation

Students who have been bullied, parents whose children have been bullied or other students who observe bullying behavior are encouraged and expected to make a verbal and/or written complaint to any school personnel in accordance with the training and guidelines provided. Staff who observe or learn of incident(s) of bullying are required, in accordance with State law, to make an oral report to the building principal within one school day and to fill out the district reporting form within two school days. If a staff person is unsure of the reporting procedure, he/she is expected to inquire about how to proceed by speaking with his/her supervisor. A district employee may be deemed to have permitted unlawful discrimination or harassment if he/she fails to report an observed incident, whether or not the target complains.

At all times, complaints will be documented, tracked and handled in accordance with the regulations and procedures accompanying this policy. Where the nature of the bullying or harassment also warrants investigation under another District Policy that addresses wrongful discriminatory practices (e.g., Title VI CRA, Title IX ESEA, Section 504 RA/Title II ADA, Disability Discrimination), there shall be a coordinated investigation. The building principal will prepare a quarterly report for the Superintendent based on complaints filed.

An equitable and thorough investigation will be carried out by the building principal or the Building DASA Coordinator. If either of the parties disagrees with the results of the investigation, they can appeal the findings to the Superintendent of Schools. In the event that the complaint involves the Superintendent of Schools, the appeal of the complaint shall be filed with the Board of Education for its review and decision. Verified bullying incidents that meet the criteria established by the state will be included in the statewide reporting system when applicable, in accordance with law and regulation.

If the Building Principal or the Building DASA Coordinator who conducted the investigation believes that any harassment, bullying or discrimination constitutes a crime, he or she will immediately report the incident to the appropriate law enforcement agency and immediately notify the Superintendent of Schools and submit a written report to him or her within one day.

The Board will receive the annual VADIR report, as well as any other state-required report relevant to bullying and/or school climate, for each building and for the district as whole. Based on the review of the data, the Board may consider further action, including but not limited to modification of this policy and additional training.
Confidentiality

It is district policy to respect the privacy of all parties and witnesses to complaints of bullying. To the extent possible, the district will not release the details of a complaint or the identity of the complainant or the individual(s) against whom the complaint is filed to any third parties who do not need to know such information. However, because an individual's need for confidentiality must be balanced with the district's legal obligation to provide due process to the accused, to conduct a thorough investigation, or to take necessary action to resolve the complaint, the district retains the right to disclose the identity of parties and witnesses to complaints in appropriate circumstances to individuals with a need to know. The staff member responsible for investigating complaints will discuss confidentiality standards and concerns with all complainants.

If a complainant requests that his/her name not be revealed to the individual(s) against whom a complaint is filed, the staff member responsible for conducting the investigation shall inform the complainant that:

1. the request may limit the district's ability to respond to his/her complaint;
2. district policy and federal law prohibit retaliation against complainants and witnesses;
3. the district will attempt to prevent any retaliation; and
4. the district will take strong responsive action if retaliation occurs.

If the complainant still requests confidentiality after being given the notice above, the investigator will take all reasonable steps to investigate and respond to the complaint consistent with the request as long as doing so does not preclude the district from responding effectively to the bullying and preventing the bullying of other students.

Disciplinary Consequences/Remediation

While the focus of this policy is on prevention, acts of bullying may still occur. In these cases, offenders will be given the clear message that their actions are wrong and the behavior must improve. Student offenders will receive in-school guidance in making positive choices in their relationships with others. If appropriate, disciplinary action that is measured, balanced and age-appropriate will be taken by the administration in accordance with the district’s Code of Conduct, as applicable. If the behavior rises to the level of criminal activity, law enforcement will be contacted.

Consequences for a student who commits an act of bullying shall be unique to the individual incident and will vary in method and severity according to the nature of the behavior, the developmental age of the student, and the student’s history of problem behaviors, and must be consistent with the district’s Code of Conduct. The District shall ensure the safety of the student or students against whom such harassment, bullying (including cyberbullying) was directed and take reasonable measures to prevent recurrence of the offending behavior.

Non-Retaliation

All complainants and those who participate in the investigation of a complaint in conformity with state law and district policies, who have acted reasonably and in good faith, have the right to be free from retaliation of any kind.

Dissemination, Monitoring and Review,

This policy, or a plain language summary, shall be published in student registration materials, student, parent and employee handbooks, and posted on the district’s website. The district will ensure that the process of reporting bullying is clearly explained to students, staff and parents on an annual basis.

Each year, as part of the annual review of the Code of Conduct, this policy will be reviewed to assess its effectiveness and compliance with state and federal law. If changes are needed, revisions will be recommended to the Board for its consideration.

The district will ensure that reporting of information to the public in conjunction with this policy will be in a manner that complies with student privacy rights under the Family Educational Rights and Privacy Act (FERPA).

While students have the responsibility to abide by the policies and regulations of the District, they shall also be afforded opportunity to present complaints and grievances free from interference, coercion, restraint, discrimination or reprisal. Administration shall be responsible for:

a) Establishing rules and regulations for the redress of complaints or grievances through proper administration channels;

b) Developing an appeals process;

c) Ensuring that students have full understanding and access to these regulations and procedure; and

d) Providing prompt consideration and determination of student complaints and grievances.

Prohibition of Retaliatory Behavior

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of discrimination. Follow-up inquiries shall be made to ensure that discrimination has not resumed and that all those involved in the investigation of the discrimination complaint have not suffered retaliation.

Complaints and Grievances Coordinator

Additionally, the Board shall ensure compliance with Title IX of the Educational Amendments of 1972, Section 504 of the Rehabilitation Act of 1973 and the Americans With Disabilities Act (ADA). The Superintendent shall designate a District employee as the Title IX/Section 504/ADA Coordinator; and regulations and procedures shall be implemented to resolve complaints of discrimination based on sex or disability.

Prior to the beginning of each school year, the District shall issue an appropriate public announcement which advises students, parents/guardians, employees and the general public of the District's established grievance procedures for resolving complaints of discrimination based on sex or disability. Included in such announcement will be the name, address and telephone number of the Title IX/Section 504/ADA Coordinator.

The Title IX/Section 504/ADA Coordinator shall also be responsible for handling complaints and grievances regarding discrimination based on race, color, creed, religion, national origin, political affiliation, sexual orientation, age, military status, marital status, or use of a recognized guide dog, hearing dog or service dog.

Adopted: 4/8/09
SUBJECT: SEXUAL HARASSMENT OF STUDENTS

The Board of Education recognizes that harassment of students (regardless of immigration status) on the basis of sex, gender and/or sexual orientation is abusive and illegal behavior that harms targets and negatively impacts the school culture by creating an environment of fear, distrust, intimidation and intolerance. The Board further recognizes that preventing and remedying such harassment in schools is essential to ensure a healthy, nondiscriminatory environment in which students can learn effectively.

Sexual harassment is a form of sex discrimination and is unlawful under federal, state, and (where applicable) local law. Sexual harassment includes harassment on the basis of actual or perceived or self-identified sex, sexual orientation, gender identity, gender expression, and transgender status. Sexual harassment of a student can deny or limit the student’s ability to participate in or to receive benefits, services, or opportunities from the school’s program.

Sexual harassment includes unwelcome conduct which is either of a sexual nature, or which is directed at an individual because of that individual's sex, when:

a. submission to that conduct is made either explicitly or implicitly a term or condition of an individual's employment or a student's education;

b. submission to or rejection of such conduct is used as the basis for decisions affecting an individual’s employment or a student's education; or

c. the conduct has the purpose or effect of unreasonably interfering with a student's school performance or creating an intimidating, hostile or offensive educational environment, even if the complaining individual is not the intended target of the sexual harassment;

Sexual harassment can include unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature, or verbal, nonverbal or physical aggression, intimidation or hostility that is based on actual or perceived gender and sexual stereotypes.

The Board is committed to providing an educational environment that promotes respect, dignity and equality and that is free from all forms of sexual harassment. To this end, the Board condemns and strictly prohibits all forms of sexual harassment on school grounds, school buses and at all school-sponsored activities, programs and events, including those that take place at locations outside the district, or outside the school setting if the harassment impacts the individual’s education or when harassment is done by electronic means (including on social media). Sanctions will be enforced against all those who engage in sexual harassment, and against supervisory and managerial personnel who knowingly allow such behavior to continue or engage in retaliation.

(continued)
SUBJECT: SEXUAL HARASSMENT OF STUDENTS (continued)

Sexual harassment may subject the district to liability for harm done to targets. Harassers may also be individually subject to civil liability if sued in a court of law or criminal liability if prosecuted.

Under various state and federal laws, students have legal protections against sexual harassment in the school environment as described above. Those laws are listed in the references section. Additionally, local laws (e.g., county, city, town, village) may apply to the district. The district’s Code of Conduct also addresses appropriate behavior in the school environment. Sexual harassment can occur between persons of all ages and genders.

In order for the Board to effectively enforce this policy and to take prompt corrective measures, it is essential that all targets of sexual harassment and persons with knowledge of sexual harassment report the harassment immediately. The district will promptly investigate all complaints of sexual harassment, either formal or informal, verbal or written. To the extent possible, all complaints will be treated in a confidential manner. Limited disclosure may be necessary to complete a thorough investigation. If the complainant reports that they feel unsafe at school due to the nature of the complaint, the district will determine if accommodations need to be made until the issue is resolved.

If, after appropriate investigation, the district finds that a student, an employee, “non-employee” or a third party has violated this policy, prompt corrective action will be taken in accordance with the applicable collective bargaining agreement, contract, district policy and state law. Individual nondisclosure agreements may only be used as permitted by law, described in the accompanying regulation. Mandatory arbitration clauses are prohibited in all district contracts and agreements.

All complainants and those who participate in sexual harassment complaints or the investigation of a complaint of sexual harassment have the right to be free from retaliation of any kind, when they do so with a good faith belief that sexual harassment has occurred. Such prohibited retaliation can include, but is not limited to, discipline, discrimination, demotion, denial of privileges, or any action that would keep a person from coming forward to make or support a sexual harassment claim. Such actions need not be job- or education-related, or occur in the workplace or educational environment, to constitute unlawful retaliation.

The Superintendent of Schools is directed to develop and implement regulations for reporting, investigating and remedying allegations of sexual harassment. These regulations are to be attached to this policy. In addition, training programs shall be established for students to raise awareness of the issues surrounding sexual harassment and to implement preventative measures to help reduce incidents of sexual harassment. Age-appropriate instructional materials will be incorporated into the curriculum to educate students so that they can recognize and reduce the incidence of sexual harassment.

(continued)
SUBJECT: SEXUAL HARASSMENT OF STUDENTS (continued)

This policy shall be posted in a prominent place in each district facility, on the district’s website, and shall also be published in student registration materials, student, parent and employee handbooks, and other appropriate school publications.

A committee of administrators, teachers, parents, students and the school attorney shall be convened periodically to review this policy's effectiveness and compliance with applicable state and federal law, and to recommend revisions to Board.

Adopted: 10/10/2018
SUBJECT: BULLYING: PEER ABUSE IN THE SCHOOLS

The Board of Education is committed to providing a safe and productive learning environment within its schools. Bullying of a student by another student is strictly prohibited on school property, in school buildings, on school buses, and at school sponsored events and/or activities whether occurring on or off campus. The Board of Education shall require the prohibition of bullying - along with the range of possible intervention activities and/or sanctions for such misconduct - to be included in the District Code of Conduct for all grade levels.

For purposes of this policy, the term "bullying" among children is defined, in general, as: "a variety of negative acts carried out repeatedly over time. It involves a real or perceived imbalance of power, with a more powerful child or group attacking those who are less powerful." Bullying can take three forms:

a) Physical (including, but not limited to, hitting, kicking, spitting, pushing, taking personal belongings);

b) Verbal (including, but not limited to, taunting, malicious teasing, name calling, making threats); and

c) Psychological (including, but not limited to, spreading rumors; manipulating social relationships; or engaging in social exclusion, extortion, or intimidation).

The District also prohibits "Internet bullying" (also referred to as "cyber-bullying") including the use of instant messaging, e-mail, web sites, chat rooms, and text messaging when such use interferes with the operation of the school; or infringes upon the general health, safety and welfare of District students or employees.

However, it is important to note that a single negative act as enumerated above may also constitute "bullying" (if not more serious misconduct) based upon the particular circumstances such as the seriousness of the act and/or the intent of the actor.

Any student who believes that he/she is being subjected to bullying behavior, as well as any other person who has knowledge of or witnesses any possible occurrence of bullying, shall report the bullying to any staff member or the Building Principal. The staff member/Building Principal to whom the report is made (or the staff member/Building Principal who witnesses bullying behavior) shall investigate the complaint and take appropriate action to include, as necessary, referral to the next level of supervisory authority and/or other official designated by the District to investigate allegations of bullying. Investigation of allegations of bullying shall follow the procedures utilized for complaints of harassment within the School District. Allegations of bullying shall be promptly investigated and will be treated as confidential and private to the extent possible within legal constraints.

(Continued)
SUBJECT:  BULLYING: PEER ABUSE IN THE SCHOOLS  (Cont'd.)

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of allegations of bullying. Follow-up inquiries and/or appropriate monitoring of the alleged bully and victim shall be made to ensure that bullying behavior has not resumed and that all those involved in the investigation of allegations of bullying have not suffered retaliation.

Personnel at all levels are responsible for taking corrective action to prevent bullying behavior of which they have been made aware at School District sites or activities and/or reporting such behavior to their immediate supervisor. Further, staff training shall be provided to raise awareness of the problem of bullying within the schools and to facilitate staff identification of and response to such bullying behavior among students.

Prevention and intervention techniques within the District to prevent against bullying behavior and to support and protect victims shall include building-level and classroom-level strategies and activities as determined by administration. Individual intervention will be provided by appropriate staff members to bullies, victims and their parents to help ensure that the bullying stops.

Rules against bullying shall be publicized District-wide and shall be disseminated as appropriate to staff, students and parents. Disciplinary sanctions for violation of this policy shall be outlined in the District Code of Conduct as enumerated above and may also be incorporated in staff and student handbooks.

District Code of Conduct

Adopted: 4/8/09
SUBJECT: HAZING OF STUDENTS

The Board of Education is committed to providing a safe, productive and positive learning environment within its schools. Hazing activities are demeaning, abusive and/or illegal behaviors that harm victims, and are inconsistent with the educational goals of the District by negatively impacting the school environment. Hazing of a student by another student or group of students is strictly prohibited on school property; in school buildings; on school buses; by school sponsored groups, clubs or teams; and at school sponsored events and/or activities whether occurring on or off-campus. Hazing of a student refers to soliciting, encouraging, aiding, or engaging in "hazing" behavior as defined pursuant to District policy, regulation and/or law. The Board of Education shall require the prohibition of hazing - along with the range of possible intervention activities and/or sanctions for such misconduct - to be included in the District Code of Conduct for all grade levels.

For purposes of this policy, the term "hazing" among students is defined as any humiliating or dangerous activity expected of a student to join a group, regardless of their willingness to participate. Hazing behaviors include, but are not limited to, the following general categories:

a) Humiliation: socially offensive, isolating or uncooperative behaviors.

b) Substance abuse: abuse of tobacco, alcohol or illegal drugs.

c) Dangerous hazing: hurtful, aggressive, destructive, and disruptive behaviors.

Incorporated within this definition are various forms of physical, emotional and/or sexual abuse which may range in severity from teasing/embarrassing activities to life threatening actions.

Even if the hazing victim participated "willingly" in the activity, or there was no "intent" by the hazer to harm or injure another individual, hazing is still hazing and against District policy, the District Code of Conduct and may be in violation of New York State Law. However, hazing of students does not need to rise to the level of criminal activity for such conduct to be in violation of District rules and subject to appropriate disciplinary sanctions. Any hazing activity, whether by an individual or a group, shall be presumed a forced activity and in violation of Board policy, regardless of the "willingness" of the student to participate.

Any student who believes that he/she is being subjected to hazing behavior, as well as students, school employees or third parties who have knowledge of or witness any possible occurrence of hazing, shall report the incident to any staff member or the Building Principal. Anonymous student complaints of hazing behavior will also be investigated by the District. The staff member/Building Principal to whom the report is made (or the staff member/Building Principal who witnesses hazing behavior) shall investigate the complaint/incident and take appropriate action to include, as necessary, referral to the next level of supervisory authority and/or other official designated by the District to investigate allegations of hazing. Investigations of allegations of hazing shall follow the procedures

(Continued)
utilized for complaints of harassment within the School District. Allegations of hazing shall be promptly investigated and will be treated as confidential and private to the extent possible within legal constraints.

**Prohibition of Retaliation**

The Board of Education prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of allegations of hazing. Follow-up inquiries and/or appropriate monitoring of the alleged hazer(s) and victim(s) shall be made to ensure that hazing behavior has not resumed and that all those involved in the investigation of allegations of hazing have not suffered retaliation. Any act of retaliation is subject to appropriate disciplinary action by the District.

**Knowingly Makes False Accusations**

Students who *knowingly* make false accusations against another individual as to allegations of hazing may also face appropriate disciplinary action.

**District Responsibility/Training**

Personnel at all levels are responsible for taking corrective action to prevent hazing behavior of which they have been made aware at School District sites; by school sponsored groups, clubs or teams; and at school sponsored events and/or activities whether occurring on or off-campus. Further, as may be applicable, personnel are to report such hazing behavior to their immediate supervisor. Staff training shall be provided to raise awareness of the problem of hazing within the schools and to facilitate staff identification of, and response to, such hazing behavior among students.

Prevention and intervention techniques within the District to help prevent hazing behavior and to support and protect victims shall include building-level and classroom-level strategies and activities as determined by administration. Individual intervention will be provided by appropriate staff members to hazers, victims and their parents to help ensure that the hazing stops.

Rules against hazing shall be publicized District-wide and shall be disseminated as appropriate to staff, students and parents. Disciplinary sanctions for violation of this policy shall be outlined in the District Code of Conduct and may also be incorporated in staff and student handbooks. In addition, allegations of hazing behavior may result in referral to law enforcement officials as necessary.

SUBJECT: NOTIFICATION OF SEX OFFENDERS

In accordance with the Sex Offender Registration Act ("Megan's Law"), the Board of Education supports the New York State Department of Criminal Justice Services (DCJS) in its effort to inform the community in certain circumstances of the presence of individuals with a history of sex offenses, particularly against children, in the school locality. This policy is enacted in order to minimize the possibility that the sex offender will come in contact with school-age children, and to assist law enforcement agencies in preventing further criminal activity from occurring. Furthermore, the District shall cooperate with local police authorities and the local community in promoting and protecting the safety and well being of its students.

It is the policy of the Board of Education to disseminate all information which the District receives from local police authorities in conjunction with Megan's Law to designated staff members who might have possible contact with the offender during the course of their school duties including, but not limited to, Building Principals, supervisors, teachers, office personnel, coaches, custodians, bus drivers, and security personnel. The Superintendent reserves the right to automatically disseminate such information to additional members of the staff, designated supervisors of non-school groups that regularly use District facilities and have children in attendance, parents/guardians of District students, and other community residents who, in the opinion of the Superintendent, have an immediate need to be notified of such data in order to protect the safety of our students.

All staff members shall be informed of the availability of the information received by the District pursuant to Megan's Law upon written request to the applicable Building Principal/designee or supervisor.

Staff members shall inform their immediate supervisor if they observe within the school building, on school grounds, at school activities, or at or near bus routes any individual whose description matches the information which was provided to the District by local law enforcement authorities. Such law enforcement officials will be notified of this information by the District as appropriate.

Information that is disseminated to the School District pursuant to Megan's Law may be disclosed or not disclosed by the District in its discretion. Any information which the School District receives regarding a sex offender from a source other than the Sex Offender Registry, and which is maintained independent of the requirements of Megan's Law, will be available from the District, upon written request, in accordance with the requirements of the Freedom of Information Law (FOIL).

Special Circumstances Whereby Sex Offenders May Enter Upon School Grounds

As a mandatory condition of the sentence for sex offenders placed on probation or conditional discharge whose victim was under the age of eighteen (18) or who has been designated a Level 3 sex offender, the court requires that such sentenced offender refrain from knowingly entering into or upon

school grounds or any other facility or institution primarily used for the care or treatment of persons under the age of eighteen (18) while one or more of such persons are present.

However, by exception, entrance upon the premises shall be provided to the sentenced sex offender under the following conditions subject to the written authorization of his/her parole officer and the Superintendent or chief administrator of the facility for the limited purposes authorized by that person:

a) The offender is a registered student, participant or employee of the facility; or

b) The offender is an employee of an entity contracted by the facility.

SUBJECT: SUPERVISION OF STUDENTS

All students shall exit the building at dismissal time unless they are under the direct supervision of a teacher.

Students working on any activity must be supervised by the teacher or staff member in charge of the activity. This applies to all in school and extracurricular activities as well as sports activities and events. Permission to hold practices or meetings must not be granted unless a teacher or staff member is definitely in charge.

a) District personnel will be fully responsible for the supervision of all students in either their class or their after school activities.

b) Coaches will maintain supervision over the dressing rooms by either personally being present or assigning an assistant coach or volunteer to be present during the dressing periods. Coaches are responsible for the supervision of their athletes at the end of practice. This may entail bus duty, or making sure students have transportation home.

c) Teachers and/or assigned school personnel in the elementary grades will be responsible for the playground supervision of all the children under their jurisdiction during the recess periods and before the regular afternoon sessions. The Principal will distribute the responsibility so that the playground situation will be properly controlled.

d) Students are not to be sent on any type of errand away from the building without the consent of the Principal.

SUBJECT: STUDENT DISMISSAL PRECAUTIONS

The Board of Education establishes that no student may be released from school to anyone except the student's parent or guardian, or to child protective services personnel or law enforcement officers pursuant to law, unless the name of the individual seeking release of the student appears on a list of those to whom the student may be released provided by the parent or guardian.

A student may be released to either parent unless a custodial parent supplies the Superintendent of Schools or the school Principal with a certified copy of a valid and enforceable court order or court decree to the contrary.

The Superintendent shall develop procedures to enable parents and guardians to amend the list of persons who are authorized to obtain the release of their children from school.

Adopted: 4/8/09
SUBJECT: SAFE PUBLIC SCHOOL CHOICE OPTION TO STUDENTS WHO ARE VICTIMS OF A VIOLENT CRIMINAL OFFENSE

Any District student who is a victim of a violent criminal offense, as defined pursuant to Education Law and Commissioner's Regulations, that occurred on the grounds of the District elementary or secondary school that the student attends, shall be allowed to attend a safe public school within the School District to the extent required by the federal No Child Left Behind Act (NCLB) and state law and regulations.

In accordance with Commissioner's Regulations, a "safe public school shall mean a public school that has not been designated by the Commissioner [of Education] as a persistently dangerous public elementary or secondary school."

Violent Criminal Offense

The Superintendent shall determine if the student has been the victim of a "violent criminal offense." "Violent criminal offense" means a crime that:

a) Involves infliction of a serious physical injury upon another as defined in New York State Penal Law Section 10.00(10); or

b) A sex offense that involves forcible compulsion; or

c) Any other offense defined in State Penal Law Section 10.00(12) that involves the use or threatened use of a deadly weapon.

Determination Whether Student is a Victim

Procedures shall be established for determination by the Superintendent of whether a student is a victim of a violent criminal offense that occurred on school grounds of the school the student attends. The Superintendent shall, prior to making any such determination, consult with any law enforcement agency investigating the alleged violent criminal incident and consider any reports or records provided by such agency. However, a criminal conviction is not required prior to the Superintendent's determination that a student has been a victim of a violent criminal offense. The Superintendent may also consult with the School District's attorney prior to making such determination.

The Superintendent's determination may be appealed to the Board of Education. However, this determination will not preclude any student disciplinary proceeding brought against the alleged victim or perpetrator of such violent criminal offense.

Notice to Parents/Persons in Parental Relation

A school district that is required to provide school choice in accordance with applicable provisions of the federal No Child Left Behind Act of 2001, Education Law and Commissioner's Regulations, shall establish procedures for notification of parents of, or persons in parental relation to, students who are victims of violent criminal offenses of their right to transfer to a safe public school within the district and procedures for such transfer. Such notice shall be, to the extent practicable, provided in the dominant language or mode of communication used by the parents or persons in parental relation to such student. The School District shall so notify the parents of, or persons in parental relation to, such student within twenty-four (24) hours of the determination that the student has been the victim of a violent criminal offense on school grounds at the school he/she attends.

Written notice shall be provided by personal delivery, express mail delivery, or equivalent means reasonably calculated to assure receipt of such notice within twenty-four (24) hours of such determination at the last known address or addresses of the parents/persons in parental relation to the student. Where possible, notification shall also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents/persons in parental relation.

However, such notification shall not be required where there are no other public schools within the District at the same grade level or a transfer to a safe public school within the School District is otherwise impossible. Similarly, procedures for such notification of parents/persons in parental relation to students who are victims of violent criminal offenses shall not be required where the School District has only one public school within the District or only one public school at each grade level.

Designation of Safe Public School

It shall be the responsibility of the School District, based on objective criteria, to designate a safe public school or schools within the District to which students may transfer. However, the District is not required to designate a safe public school where there are no other public schools within the District at the same grade level or transfer to a safe public school within the District is otherwise impossible. Similarly, if the District has only one public school within the School System or only one public school at each grade level, the School District shall not be required to designate a safe public school.
Any student who transfers to a safe public school, in accordance with the provisions of this policy and applicable law and regulation, shall be enrolled in the classes and other activities of the public school to which such student transfers in the same manner as all other students at the public school. The receiving school shall be identified by the District and must be at the same grade level as the school from which the student is transferring. To the extent possible the School District shall allow transferring students to transfer to a school that is making adequate yearly progress and has not been identified as requiring school improvement, corrective action, or restructuring. The District shall provide transportation for any student permitted to transfer to the safe public school within the District designated by the School System within the transportation limits established pursuant to Education Law Sections 3635 and 4401(4). Any student who transfers to a safe public school shall be permitted to remain in such safe public school until the student has completed the highest grade level in the school transferred to, or for such other period prescribed by the U.S. Department of Education, whichever is less.

While the parents/persons in parental relation to the student must be offered the opportunity to transfer their child, they may elect to have the child remain at the school he/she currently attends.

SUBJECT: CHILDREN WITH DISABILITIES

A child with a disability means a student under the age of twenty-one who is entitled to attend public schools and who, because of mental, physical or emotional reasons can only receive appropriate educational opportunities from a program of special education. A child is not considered as having a disability if his/her educational needs are due primarily to unfamiliarity with the English language; environmental, cultural or economic factors; or lack of appropriate instruction in reading or mathematics.

If the State Education Department finds that the District has inappropriate policies, procedures or practices resulting in a significant disproportionality by race/ethnicity in the suspension, identification, classification and/or placement of students with disabilities, the District will ensure that it publicly reports on the subsequent revisions to those policies, procedures or practices.

The Board of Education recognizes the existence of individual differences in the intellectual, social, emotional and physical development of children attending school in the District. In recognizing these differences the Board supports a system of services offered in the least restrictive environment for children with disabilities which includes:

a) Not requiring any student to obtain a prescription for a drug or other substance identified as a controlled substance by the federal Controlled Substances Act as a condition of receiving services.

b) Education in regular classes with or without support services, education in a resource room, education for part of the day in a special class, full time education in a special class, home instruction and education in a residential setting.

c) Providing for the education of students with disabilities with non-disabled peers to the extent appropriate.

d) Taking the following measurable steps to recruit, hire, train and retain highly qualified personnel to provide special education programs and services:

1. Utilize established procedures for publication of all potential job openings;

2. Check credentials and requirements listed on applications;

3. Provide training sessions for interview committee;

4. Special Education teachers are required to have subject matter knowledge appropriate to the level of instruction being provided; when teaching two (2) or more core academic subjects exclusively to children with disabilities, the teacher will meet the requirements of "highly qualified" per the No Child Left Behind Act (NCLB) and the Individuals with Disabilities Education Improvement Act of 2004 (IDEA) or demonstrate competence in all the core academic subjects taught per state regulations.

(Continued)
e) Establishing the following guidelines for the provision of appropriate accommodations necessary to measure the academic achievement and functional performance of the student in the administration of District-wide assessments:

1. Ensure that necessary accommodations are specified on individualized education program (IEP), and implemented in accordance with the IEP;
2. Review the need for accommodations at Committee on Special Education (CSE) evaluations/re-evaluations.

f) To the extent feasible, using universal design principles (defined as a concept or philosophy for designing and delivering products and services that are usable by people with the widest range of functional capabilities, which include products and services that are directly usable without requiring assistive technologies and products and services that are made usable with assistive technologies) in developing and administering District-wide assessment programs by:

1. Addressing appropriate universal design principles in IEP;
2. Having the Library Media Specialist and/or Curriculum Coordinator keep Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE) apprised of available products and services utilizing universal design principles;
3. Ensuring that instructional materials and activities allow learning goals to be achievable by individuals with wide differences in abilities;
4. Ensuring that flexible curricular materials and activities are built into the instructional design and operating systems;
5. Ensuring that instruction is diversified to deliver the general education curriculum to every student and diversify ways students may respond to that curriculum.

g) Consideration of the location of a school program(s) to a student's residence, before placement into an educational program.

h) Adoption of written policies and procedures ensuring that students with disabilities are provided appropriate opportunities to earn a high school diploma in accordance with Commissioner's Regulations.

i) Allocation of appropriate space within the District for special education programs that meet the needs of students with disabilities.

(Continued)
SUBJECT: CHILDREN WITH DISABILITIES (Cont'd.)

j) Assurance that appropriate space will be available to meet the needs of resident students with disabilities who attend special education programs provided by BOCES.

Provision of Special Education Services to Nonpublic School Students with Disabilities who are Parentally Placed

The district of location is responsible for child find, including individual evaluations, Committee on Special Education (CSE) meetings, provision of special education services, and due process to parentally placed nonpublic school students attending nonpublic schools located in the geographic region of the public school district.

These requirements only pertain to students with disabilities parentally placed in elementary and secondary nonpublic schools, not to parental placements of preschool children with disabilities in private day care or preschool programs; or to CSE placements of students with disabilities in approved private schools, Special Act School Districts, State-supported or State-operated schools or to Charter schools.

Parental consent must be obtained by the school district of location before any personally identifiable information about the student is shared between officials in the public school district of residence and officials in the public school district of location.

The school district of location must consult with nonpublic school representatives and representatives of parents of parentally placed nonpublic school students with disabilities enrolled in nonpublic elementary and secondary schools located within the boundaries of the school district. The school district must engage in consultation regarding the child find process and services generally; consultation is not specific to individual students. Individual services are determined by the CSE.

The consultation process must be timely and meaningful and include discussion of:

a) Child Find;

b) Provision of Special Education Services;

c) Use of Federal Funds.

The school district of location must provide, as appropriate, special education services to an eligible student who legally resides in another state and who is parentally placed in a nonpublic school located in New York State. The services to be provided to out-of state students must be documented on a services plan that is developed by the CSE of the district of location. The services plan is the written plan that describes the specific special education and related service that the district of location will provide to the student consistent with the services that the school district of location has determined through the consultation process and in relation to the proportionate shares of federal IDEA Part B dollars, to be provided to the student.

SUBJECT: GROUPING BY SIMILARITY OF NEEDS

The Board of Education will provide appropriate special education and related services to students with disabilities. For those students for whom an appropriate education requires that they be placed together for purposes of special education, the following guidelines shall apply:

a) That each student with a disability shall be identified, evaluated and placed as determined by the Committee on Special Education (CSE).

b) The CSE shall determine written goals, including academic and functional goals, for each student with a disability by considering the special and individual needs of each student with a disability. Short-term instructional objectives and/or benchmarks will be created for each preschool student with a disability and for students who take New York State alternate assessments.

c) The CSE shall recommend to the Board of Education appropriate educational programs and services for each student with a disability based upon the CSE evaluation.

d) The CSE shall provide information to those teachers and professionals who arrange instructional groups for students with disabilities. Information shall include physical, psychological and social information as well as achievement test results.

e) The curriculum and instruction provided to students with disabilities who are grouped by similarity of needs shall be consistent with the individual needs of each student in the group.

f) Students with disabilities may be grouped according to:

1. Academic achievement, functional performance and learning characteristics;
2. Social development;
3. Physical development; and
4. Management needs.

g) When grouping students by similarity of needs, the social needs or physical development of a student shall not be the sole determinant for placement of a student in a special education program.

h) The management needs of such students may vary, provided that environmental modifications, adaptations, or human or material resources required to meet the needs of any one student in the group are provided and do not consistently detract from the opportunities of other students in the group to benefit from instruction.

SUBJECT: THE ROLE OF THE BOARD IN IMPLEMENTING A STUDENT'S INDIVIDUALIZED EDUCATION PROGRAM

The Board of Education shall establish at least one Committee on Special Education (CSE) and one Committee on Preschool Special Education (CPSE). The Board shall also establish, as necessary, Subcommittees on Special Education to ensure timely evaluation and placement of students with disabilities.

Committee on Special Education

The Board of Education shall, upon completion of its review of the recommendations of the CSE, arrange for the appropriate special education programs and services to be provided to a student with a disability. The Board shall notify the parent/guardian of its action in accordance with federal and state law and regulations.

For a student not previously identified as having a disability, the CSE shall provide a recommendation to the Board which shall arrange for the appropriate special education programs and services to be provided within sixty (60) school days of the date of receipt of consent to evaluate. For a student with a disability referred for review, a recommendation shall be provided to the Board which shall arrange for the appropriate special education programs and services to be provided within sixty (60) school days of the referral for review. However, if such recommendation of the CSE is for placement in an approved in-state or out-of-state private school, the Board shall arrange for such special education programs and services for students with disabilities within thirty (30) school days of the Board's receipt of the recommendation of the CSE.

If on review of the recommendation of the CSE, the Board of Education disagrees with such recommendation, the Board shall follow one of the following procedures:

a) The Board may remand the recommendation to the CSE with a statement of the Board's objections or concerns and a request that a timely meeting be held to review and consider such objections or concerns. The CSE shall consider the Board's objections or concerns, revise the individualized education program (IEP) where appropriate, and resubmit a recommendation to the Board. If the Board continues to disagree with the recommendation of the CSE, the Board may continue to remand the recommendation to the original committee for additional reviews of its objections or concerns, or establish a second CSE to develop a new recommendation in accordance with the following paragraph, provided that the Board arranges for the programs and services in accordance with the student's IEP within the timelines as outlined above; or, in the alternative,

b) The Board may establish a second CSE to develop a new recommendation for the student. If the Board disagrees with such new recommendation, the Board may remand the recommendation to the second CSE with a statement of the Board's objections or concerns and a request that a timely meeting be held to review and consider such objections or

(Continued)
concerns. The second CSE shall consider the Board's objections or concerns, revise the IEP where appropriate, and resubmit a recommendation to the Board. If the Board continues to disagree with the recommendation of the second CSE, the Board may continue to remand the recommendation for additional reviews of its objections or concerns by the second CSE, provided that the Board arranges for the programs and services in accordance with the student's IEP, as developed by the second CSE, within the timelines as outlined above.

Pursuant to Commissioner's Regulations, the Board may not select the recommendation of the original CSE once it has established a second CSE.

The Board shall provide the student's parents/guardians with written notice and a copy of the statement of its objections or concerns and notice of due process rights in accordance with Section 200.5 of the Regulations of the Commissioner.

**Committee on Preschool Special Education**

Upon receipt of the recommendation of the Committee on Preschool Special Education (CPSE), the Board of Education shall arrange for the preschool student with a disability to receive such appropriate programs and services in accordance with the student's IEP, commencing with the July, September or January starting date for the approved program, unless such services are recommended by the CPSE less than thirty (30) school days prior to, or after, the appropriate starting date selected for the preschool student with a disability; in that case, such services shall be provided no later than thirty (30) days from the recommendation of the CPSE.

If the Board disagrees with the recommendation of the CPSE, the Board shall send the recommendation back to the CPSE with notice of the need to schedule a timely meeting to review the Board's concerns and to revise the IEP as deemed appropriate. The Board of Education shall provide such notice as required by federal and state law and regulations.

**Subcommittee on Special Education**

The number of Subcommittees on Special Education will be determined by the CSE and the CSE will be responsible for the oversight and monitoring of the activities of each subcommittee to assure compliance with the requirements of applicable state and federal laws and regulations.

Each Subcommittee may perform the functions for which the CSE is responsible, except:

a) When a student is considered for initial placement in a special class; or

(Continued)
b) When a student is considered for initial placement in a special class outside of the student's school of attendance; or

c) When a student is considered for placements in a school primarily serving students with disabilities or a school outside the District.

Subcommittees shall report annually to the CSE regarding the status of each student with a disability within its jurisdiction. Upon receipt of a written request from the parent or person in parental relation to a student, the Subcommittee shall refer to the CSE any matter in which the parent disagrees with the Subcommittee's recommendation concerning a modification or change in the identification, evaluation, educational placement or provision of a free appropriate education to the student.

SUBJECT: PRESCHOOL SPECIAL EDUCATION PROGRAM

The Board recognizes the need for educational programs for three (3) and four (4) year old children with disabilities and directs that administrative practices and procedures be developed to:

a) Ensure the timely evaluation and placement of each preschool child with a disability residing in the District so the child has the opportunity to participate in preschool programs.

b) Establish a Committee on Preschool Special Education (CPSE) which shall be comprised in accordance with applicable federal and state law and regulation.

c) Ensure that parents have received and understand the request for consent for evaluation and re-evaluation of a preschool aged child.

Evaluations for Preschool Children with Disabilities

The District is required to collect entry assessment data in the three (3) outcome areas on all preschool children who receive an initial evaluation. As currently required by Commissioner's Regulation Section 200.5, a parent must be fully informed about the proposed initial evaluation and must provide consent for an initial evaluation. This would include a description of the proposed evaluation.

The CPSE will receive entry-level assessment results in the three (3) outcome areas from approved preschool evaluators conducting initial evaluations on all preschool children suspected of having disabilities. The CPSE will then meet to determine the child's eligibility for preschool education programs and/or services and complete the Child Outcomes Summary Form to determine the child's entry level of functioning in the three (3) outcome areas for all preschool children evaluated and found to be eligible. The form is be kept in the student's record until the exit assessment information is due as a way to summarize complex assessment information in a format so that the data can be aggregated and reported to the State Education Department (SED).

SUBJECT: LEAST RESTRICTIVE ENVIRONMENT

Least restrictive environment means that placement of students with disabilities in special classes, separate schools or other removal from the regular educational environment occurs only when the nature or severity of the disability is such that even with use of supplementary aids and services, education in regular classes cannot be satisfactorily achieved. The placement of an individual student with a disability in the least restrictive environment shall:

a) Provide the special education and related services, as well as supplementary aids and services, needed by the student. The term "related services" does not include a medical device that is surgically implanted, the optimization of the device's functioning (e.g., mapping), maintenance of, or the replacement of such device;

b) Provide for education of the student to the maximum extent appropriate to the needs of the student with other students who do not have disabilities; and

c) Be as close as possible to the student's home.

The District has an obligation, pursuant to law and regulation, to educate students with disabilities in the least restrictive environment. The School District shall ensure that:

a) Placement is based on the student's individualized education program and determined at least annually;

b) Placement is as close as possible to the student's home, and unless the student's individualized education program requires some other arrangement, the student shall be educated in the school he/she would have attended if not disabled;

c) In selecting the least restrictive environment, consideration will be given to any potential harmful effect on the student or on the quality of services that he/she needs; and

d) A student with a disability will not be removed from education in age-appropriate regular classrooms solely because of needed modifications in the general education curriculum.

The District shall ensure that a continuum of alternative placements, in accordance with law and/or regulation, will be available to meet the needs of students with disabilities. To enable students with disabilities to be educated with nondisabled students to the maximum extent appropriate, specially designed instruction and supplementary services may be provided in the regular class, including, as appropriate, related services, resource room programs and special class programs within the general education classroom.

SUBJECT:  PREREFERRAL INTERVENTION STRATEGIES IN GENERAL EDUCATION
(PRIOR TO A REFERRAL FOR SPECIAL EDUCATION)

The School District shall establish a plan for implementing schoolwide approaches and
prereferral interventions in order to remediate a student's performance prior to referral
for special education. This may include a Response to Intervention (RTI) process.

The provision of programs and/or services for students starts with consideration/implementation
of instruction in the general education curriculum, with appropriate supports and/or modifications as
may be necessary. In implementing prereferral intervention strategies, the District may utilize
resources/strategies already in place for qualified students including, but not limited to, services
available through Section 504 of the Rehabilitation Act of 1973, and Educationally Related Support
Services and Academic Intervention Services as defined in Education Law and/or Commissioner's
Regulations. All of these programs may be considered as possible components of
Prereferral/Intervention Instructional Support Plans. The District will ensure that they have a system in
place, with appropriate personnel, for developing, implementing and evaluating prereferral
intervention strategies.

The District will provide general education support services, instructional modifications,
alternative instructional approaches, or alternative program options to address a student's performance
prior to a referral to a Committee on Special Education (CSE). Formal Instructional Support Services
Teams (IST) will be formed in accordance with law and/or regulations as may be applicable as well as
District guidelines. The IST will include representatives from general and special education as well as
other disciplines and include individuals with classroom experience. Parents/persons in parental
relation to students will be involved in developing prereferral strategies to address the educational
needs of their child. Additionally, the District will seek collaboration between outside agencies and the
school prior to a referral of the student to the CSE in order to address necessary student support
services.

Administration shall ensure that appropriate opportunities exist for collaboration between
general educators and special educators, and that consultation and support are available to teachers and
other school personnel to assist parents/persons in parental relation to students and teachers in
exploring alternative approaches for meeting the individual needs of any student prior to formal
referral for special education.

The determination of prevention and prereferral intervention strategies/services shall consider
the student's strengths, environment, social history, language and cultural diversity in addition to the
teacher's concerns. The building administrator will further ensure that all staff are familiar with
intervention procedures and procedures for operating an IST.

(Continued)
Prereferral/Intervention Instructional Support Plans shall be proactive in their strategies to meet the broad range of student needs and to improve student performance. Prereferral/Intervention strategies and/or Instructional Support Plans are to be reviewed and evaluated to determine their effectiveness, and modified as may be appropriate. Appropriate documentation of the prevention and/or intervention strategies implemented shall be maintained.

However, should a referral be made to the CSE during the course of implementing prereferral/intervention instructional support services, the CSE is obligated in accordance with law to continue its duties and functions, and must meet mandatory time lines in evaluating the student for special education services and implementation of an individualized education program, if applicable.

Educational Related Support Services

Educational related support services (ERSS) means curriculum and instructional modification services; direct student support team services; assessment and non-career counseling services; special instruction to eligible students with disabilities as defined in Education Law Section 4401, which does not generate excess cost aid including related services but excluding transportation and transition services; and to eligible, qualified students pursuant to Section 504 of the Rehabilitation Act of 1973. These services are provided to eligible students, individually or in groups, and may include those related consultation services provided to their families and related school personnel in order to enhance the academic achievement and attendance of such students. Educational related support services shall also mean speech and language improvement services as defined in Commissioner's Regulations.

ERSS Services may be utilized as a component of any Prereferral/Intervention Instructional Support Plan.

Section 504 of the Rehabilitation Act of 1973

For students who are qualified for services pursuant to Section 504 of the Rehabilitation Act, but are not classified as students with disabilities as defined in Education Law Section 4401, Section 504 Accommodation Plans may address instructional support services that can be utilized as components of any prereferral/intervention strategies as deemed necessary and/or appropriate.
SUBJECT: PREREFERRAL INTERVENTION STRATEGIES IN GENERAL EDUCATION
(PRIOR TO A REFERRAL FOR SPECIAL EDUCATION) (Cont'd.)

Academic Intervention Services

Academic intervention services means additional instruction which supplements the instruction provided in the general education curriculum and assists students in meeting the State learning standards as defined in Commissioner's Regulations and/or student support services which may include guidance, counseling, attendance, and study skills which are needed to support improved academic performance. However, such services shall not include services provided to students with limited English proficiency pursuant to Commissioner's Regulations or special education services and programs as defined in Education Law Section 4401. Academic intervention services are intended to assist students who are at risk of not achieving the State learning standards in English language arts, mathematics, social studies and/or science, or who are at risk of not gaining the knowledge and skills needed to meet or exceed designated performance levels on State assessments.

The District has developed a description of the academic intervention services offered to grades K-12 students in need of such services. The District will review and revise this description every two years based on student performance results.

Parental notification of students who have been determined to need academic intervention services will be provided as per Commissioner's Regulations.

In implementing prevention and/or prereferral intervention support strategies in order to remediate a student's performance prior to referral for special education, the utilization of academic intervention services, as enumerated in Commissioner's Regulations, may be included as a component of any such Prereferral/Intervention Instructional Support Plan.

SUBJECT: DECLASSIFICATION OF STUDENTS WITH DISABILITIES

The School District shall establish and implement a plan for the appropriate declassification of students with disabilities which must include:

a) The regular consideration for declassifying students when appropriate;

b) A reevaluation of the student prior to declassification; and

c) The provision of educational and support services to the student upon declassification.

Eligibility Determinations

The School District must evaluate a student with a disability prior to determining that a student is no longer a student with a disability as defined in accordance with Commissioner's Regulations, and the District shall provide a copy of the evaluation report and the documentation of eligibility to the student's parent at no cost to the parent. The results of any reevaluations must be addressed by the Committee on Special Education (CSE) in a meeting to review and, as appropriate, revise the student's individualized education program (IEP).

Prior to the reevaluation, the School District shall obtain informed written parental consent unless otherwise authorized pursuant to law and/or regulation. Parental consent need not be obtained if the District can demonstrate that it has taken reasonable measures to obtain that consent, and the student's parents fail to respond. The District must have a record of its attempts to obtain parental consent. Should the student's parents refuse consent for the reevaluation, the District may continue to pursue the reevaluation by using mediation and/or due process procedures.

The District shall take whatever action is necessary to ensure that the parent understands the proceedings at the meeting of the CSE, including arranging for an interpreter for parents with deafness or whose native language is other than English.

Graduation/Aging Out

The District is not required to conduct a re evaluation of a student before the termination of a student's eligibility due to graduation with a local high school or Regents diploma or exceeding the age eligibility for a free appropriate public education. However, the District must provide the student with a summary (Student Exit Summary) of the student's academic achievement and functional performance, including recommendations on how to assist the student in meeting his/her post secondary goals. Although not required to do so, the District will also provide this Student Exit Summary (www.vesid.nysed.gov/specialed/idea/studentexit.htm) to students exiting with a High School Equivalency Diploma.

(Continued)
SUBJECT:  DECLASSIFICATION OF STUDENTS WITH DISABILITIES (Cont'd.)

In addition, the parent must receive prior written notice, in accordance with Commissioner's Regulations, before the student's graduation from high school with a local or Regents diploma or before he/she receives an Individualized Education Program (IEP) diploma. If the student will be graduating with an IEP diploma, this prior written notice must indicate that the student continues to be eligible for a free appropriate public education until the end of the school year in which the student turns twenty-one (21) or until receipt of a regular high school diploma.

Recommendation for Declassification

If the student has been receiving special education services, but it is determined by CSE that the student no longer needs special education services and can be placed in a regular educational program on a full-time basis, the recommendation shall:

a) Identify the declassification support services, if any, to be provided to the student; and/or the student's teachers; and

b) Indicate the projected date of initiation of such services, the frequency of provision of such services, and the duration of these services, provided that such services shall not continue for more than one (1) year after the student enters the full-time regular education program.

Declassification Support Services

When appropriate, the District shall provide declassification support services to students who have moved from special education to a full-time regular educational program in accordance with the recommendation of the CSE.

Declassification support services means those services provided by persons appropriately certified pursuant to Part 80 of Commissioner's Regulations, or holding a valid teaching license in the appropriate area of service, to a student or the student's teacher to aid in the student's move from special education to full-time regular education, including:

a) For the student, psychological services, social work services, speech and language improvement services, noncareer counseling, and other appropriate support services; and

b) For the student's teacher, the assistance of a teacher aide or a teaching assistant, and consultation with appropriate personnel.
SUBJECT:  DECLASSIFICATION OF STUDENTS WITH DISABILITIES  (Cont'd.)

Procedural Safeguards Notice

The District shall use the procedural safeguards notice prescribed by the Commissioner of Education. The District will further ensure that the procedural safeguards notice is provided in the native language of the parent or other mode of communication used by the parent, unless it is clearly not feasible to do so. If the native language or other mode of communication of the parent is not a written language, the District shall take steps to ensure that the notice is translated orally or by other means to the parent in his/her native language or other mode of communication; that the parent understands the content of the notice; and that there is written evidence that all due process procedures, pursuant to law and/or regulation, have been met.

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS

In accordance with Commissioner's Regulations, the School District has established administrative practices and procedures for implementing District-wide initiatives that address a Response to Intervention (RTI) process applicable to all students. For students suspected of having a potential learning disability, the District will provide appropriate RTI services pursuant to Commissioner's Regulations prior to a referral to the Committee on Special Education (CSE) for evaluation.

Minimum Requirements of District's RTI Program

The District's RTI process shall include the following minimum requirements:

a) Scientific, research-based instruction in reading and mathematics provided to all students in the general education class by qualified personnel. Instruction in reading, per Commissioner's Regulations, shall mean scientific, research-based reading programs that include explicit and systematic instruction in phonemic awareness, phonics, vocabulary development, reading fluency (including oral reading skills) and reading comprehension strategies;

b) Screenings shall be provided to all students in the class to identify those students who are not making academic progress at expected rates;

c) Scientific, research-based instruction matched to student need with increasingly intensive levels of targeted interventions for those students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards;

d) Repeated assessments of student achievement which should include curriculum based measures to determine if interventions are resulting in student progress toward age or grade level standards;

e) The application of information about the student's response to intervention to make educational decisions about changes in goals [i.e., goals for all students, not just Individualized Education Program (IEP) goals], instruction and/or services and the decision to make a referral for special education programs and/or services; and

f) Written notification to the parents when the student requires an intervention beyond that provided to all students in the general education classroom that provides information about:

1. The amount and nature of student performance data that will be collected and the general education services that will be provided as enumerated in Commissioner's Regulations;

(Continued)
SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)

2. Strategies for increasing the student's rate of learning; and

3. The parents' right to request an evaluation for special education programs and/or services.

Structure of Response to Intervention Program

The District's RTI program will consist of multiple tiers of instruction/assessments to address increasingly intensive levels of targeted intervention to promote early identification of student performance needs and/or rate of learning, and to help raise achievement levels for all students.

Student Support Teams, whose members may include, but are not limited to, regular education teachers, special education personnel, the school psychologist, reading and math coordinators, designated administrators, and other individuals deemed appropriate by the District, will be available for each building/grade level classification to address the implementation of the District's RTI process.

The Student Support Team's responsibilities shall include, but are not limited to, the following:

a) Determining the level of interventions/student performance criteria appropriate for each tier of the RTI model;

b) Analyzing information/assessments concerning a student's response to intervention and making educational decisions about changes in goals, instruction and/or services;

c) Determining whether to make a referral for special education programs and/or services.

Types of Interventions

The District will provide multiple tiers of increasingly intensive levels of targeted intervention and instruction for those students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards.

It is expected that use of the Tier Level of instruction will be specific to each student's needs and will be an ongoing process, with students entering and exiting tiers of intervention according to the analysis of student performance data and progress monitoring.

Tier One Instruction

Tier One instruction is provided to all students in the general education setting. The use of scientific, research based instruction in the areas of reading and math will be provided by the general education teacher and/or other qualified personnel as appropriate, and will emphasize proactive,
preventative core instructional strategies in the classroom setting. Group and/or individualized instruction, assessment and reinforcement activities will be provided as deemed appropriate by the classroom teacher.

The analysis of Tier One student performance data will be used to identify those students who need additional intervention at the Tier Two Level of instruction.

**Tier Two Instruction**

In general, Tier Two instruction will consist of small group, targeted interventions for those students identified as being "at risk" who fail to make adequate progress in the general education classroom. Tier Two instruction will include programs and intervention strategies designed to supplement Tier One interventions provided to all students in the general education setting.

Tier Two instruction may be provided by specialized staff such as reading and math teachers, tutors, speech therapists, school psychologists and/or school counselors as determined by the Student Support Team.

At the conclusion of Tier Two instruction, the Student Support Team will review the student's progress and make a determination as to whether Tier Two interventions should be maintained; the student returned to the general education classroom if satisfactory progress is shown; or referred for Tier Three instruction.

**Tier Three Instruction**

Tier Three instruction is the provision of more intensive instructional interventions, tailored to the needs of the individual student; and is provided to those students who do not achieve adequate progress after receiving interventions at the Tier Two level. Tier Three instruction may include longer periods of intervention program and services than those provided in the first two Tiers based upon the significant needs of the student.

Tier Three instruction will be provided by those specialists, as determined by the Student Support Team, best qualified to address the individual student's targeted area(s) of need. If deemed appropriate by the Team, and in accordance with applicable law and regulation, a referral of the student may be made to the Committee on Special Education.

Progress monitoring on a continuous basis is an integral part of Tier Three; and the student's response to the intervention process will determine the need/level of further intervention services and/or educational placement.

(Continued)
SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)

Amount and Nature of Student Performance Data to be Collected

The Student Support Team will determine the amount and nature of student performance data that will be collected to assess, on an ongoing basis, student performance results and address ongoing academic needs as warranted. Such data collection will reflect the Tier Level of intervention provided to the student. Student performance data will also be used to review the District's RTI program and make modifications to the program as deemed necessary.

Manner and Frequency for Progress Monitoring

The Student Support Team shall monitor the progress of those students receiving intervention services beyond that provided to all students in the general education classroom. The Team shall meet with the student's teacher(s) and will determine if further adjustments need to be made to the student's current instructional program and/or a change made to the Tier Level of intervention provided. Monitoring of student progress shall be an ongoing part of the RTI program from the initial screening to completion of the RTI process as applicable. Parents may also request that the progress of their child be reviewed by the Student Support Team.

Fidelity measures (e.g., an observational checklist of designated teaching behaviors in accordance with the RTI process being implemented) will also be completed by Team members to assess whether the intervention was implemented as intended and uniformly applied. Clear benchmarks will be established for student performance and performance charts will be plotted at the completion of the instructional period/intervention process.

Staff Development

All staff members involved in the development, provision and/or assessment of the District's RTI program, including both general education and special education instructional personnel, shall receive appropriate training necessary to implement the District's RTI program. Staff development will include the criteria for determining the levels of intervention provided to students, the types of interventions, collection of student performance data, and the manner and frequency for monitoring progress.

Parent Notification

Written notification shall be provided to parents when their child requires an intervention beyond that provided to all students in the general education classroom. Such written notice shall include the following information:

a) The amount and nature of student performance data that will be collected and the general education services that will be provided as part of the RTI process;

(Continued)
b) Strategies for increasing the child's rate of learning; and

c) The parents' right to request an evaluation for special education programs and/or services.

SUBJECT: STUDENTS WITH DISABILITIES PARTICIPATING IN SCHOOL DISTRICT PROGRAMS

All students with disabilities residing in the District, including those of preschool age, shall be provided with full access and opportunity to participate in School District programs, including nonacademic and extracurricular programs and activities, that are available to all other students enrolled in the public schools of the District. Nonacademic and extracurricular programs and activities may include counseling services, athletics, transportation, health services, recreational activities, special interest groups or clubs sponsored by the School District, referrals to agencies that provide assistance to individuals with disabilities and employment of students (both by the School District and assistance in making outside employment available).

Parents/guardians of students with disabilities, including those students placed in out-of-District programs, shall receive timely notice of such District programs and activities.

SUBJECT: SECTION 504 OF THE REHABILITATION ACT OF 1973

The Board of Education affirms its compliance with those sections of the Rehabilitation Act of 1973 dealing with program accessibility.

Section 504 of the Rehabilitation Act prohibits discrimination against qualified individuals with disabilities in federally assisted programs or activities solely on the basis of disability. The District shall make its program and facilities accessible to all its students with disabilities.

The District shall also identify, evaluate and extend to every qualified student with a disability under Section 504 a free, appropriate public education, including modifications, accommodations, specialized instruction or related aids and services, as deemed necessary to meet their educational needs as adequately as the needs of non-disabled students are met.

The District official responsible for coordination of activities relating to compliance with Section 504 is the Superintendent of Schools. This official shall provide information, including complaint procedures, to any person who feels his/her rights under Section 504 have been violated by the District or its officials.

SUBJECT: APPOINTMENT AND TRAINING OF COMMITTEE ON PRESCHOOL SPECIAL EDUCATION (CPSE) MEMBERS

Committee on Preschool Special Education (CPSE) Membership

The Board of Education shall appoint a Committee on Preschool Special Education (CPSE) whose membership shall include, but not be limited to, the following members:

a) The parent(s) of the preschool child. To ensure that one or both parents are present at each CPSE meeting, the District and the parent(s) may agree to use alternative means of participation such as video conferences or conference phone calls;

b) Not less than one (1) regular education teacher of such child (if the child is, or may be, participating in the regular education environment);

c) Not less than one (1) special education teacher of the child or, where appropriate, not less than one (1) special education provider (i.e., related service provider) of such child;

d) A representative of the School District who is qualified to provide, or supervise the provision of, special education and who is knowledgeable about the general education curriculum and about the availability of preschool special education programs and services and other resources of the District and the municipality (who shall serve as Chairperson of the CPSE);

e) An individual who can interpret the instructional implications of evaluation results, who may be a member of the team selected from the regular education teacher, the special education teacher or provider, the school psychologist, the School District representative described above, or a person having knowledge or special expertise regarding the student as determined by the District;

f) At the discretion of the parent or the District, other individuals who have knowledge or special expertise regarding the child, including related services personnel as appropriate. The determination of knowledge or special expertise shall be made by the party (parents or School District) who invited the individual to be a member of the committee;

g) An additional parent of a child with a disability who resides in the School District or a neighboring school district, and whose child is enrolled in a preschool or elementary level education program provided that such parent shall not be employed by or under contract with the School District or municipality; and provided further that such parent shall not be a required member if the parents of the child request, in writing, that the additional parent member not participate in the meeting;

(Continued)
SUBJECT: APPOINTMENT AND TRAINING OF COMMITTEE ON PRESCHOOL SPECIAL EDUCATION (CPSE) MEMBERS (Cont’d.)

h) For a child's transition from early intervention programs and services (Infant and Toddler Programs), at the request of the parent/person in parental relation, the appropriate professional designated by the agency that has been charged with the responsibility for the preschool child. This professional must attend all meetings of the CPSE conducted prior to the child's initial receipt of services; and

i) A representative from the municipality of the preschool child's residence. Attendance of the appointee of the municipality is not required for a quorum.

However, except for the parents/persons in parental relation and the appointee from the municipality (a) and i) above a member of the CPSE is not required to attend a meeting of the team in whole or in part if the parent/person in parental relation and the District agree in writing that the attendance is not necessary because the member's area of the curriculum or related services is not being modified or discussed at that meeting.

Additionally, a member as described in letters b) through h) of this subheading may be excused from attending the CPSE meeting, in whole or in part, if the parent/person in parental relation to the student with a disability and the School District agree, in writing to the excusal not less than five (5) calendar days prior to the meeting date, that the attendance of the member is not necessary because:

a) The member's area of the curriculum or related services is being modified or discussed in the meeting but, not less than five (5) calendar days prior to the meeting, the excused member has submitted to the parents/persons in parental relation and the CSE written input into the development of the IEP, particularly with respect to their area of curriculum or related services; or

b) The committee member is unable to attend due to an emergency or unavoidable scheduling conflict and the District submits the written input listed in a) above to the parents/persons in parental relation within a reasonable time prior to the meeting and prior to obtaining written consent to the excusal by the parents/persons in parental relation.

Training

The training of qualified personnel is essential to the effective implementation of the Regulations of the Commissioner of Education regarding the education of all students with disabilities.

The Director of Special Education shall be responsible to the Superintendent for establishing administrative practices and procedures for training all District personnel responsible for carrying out the provisions of Part 200 of the Commissioner's Regulations as well as members of the Committee on Preschool Special Education.
Alternative Means of Meeting

When conducting a meeting of the Committee on Preschool Special Education (CPSE), the parent and the representative of the District appointed to the CPSE may agree to use alternative means of meeting participation, such as videoconferences and conference calls.

Adopted: 4/8/09
SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (IEP): DEVELOPMENT AND PROVISION

Development of Individualized Education Program

The Board of Education directs that the Committee on Special Education (CSE) or Committee on Preschool Special Education (CPSE) shall have prepared a written statement (program) for each child with a disability.

Such an Individualized Education Program (IEP) will be developed by the CSE or CPSE upon referral, and reviewed or revised, whichever is appropriate, for every child with a disability at least annually or in the event that the program no longer appears to be appropriate to meet the student's needs and ability level.

The District shall ensure that each student with a disability has an IEP in effect at the beginning of each school year.

IEPs developed on or after January 1, 2009 will be on the form prescribed by the Commissioner.

Functional Behavioral Assessments/Behavioral Intervention Plans

A functional behavioral assessment (FBA) is an integral part of the evaluation and reevaluation of a student with a disability which should be used throughout the process of developing, reviewing and revising a student's IEP when the student's behavior impedes learning of the child or others. The FBA is the process of determining why a student engages in challenging behavior and how the student's behavior relates to the environment.

The FBA provides a baseline of the student's problem behaviors with regard to frequency, duration, intensity and/or latency across activities, settings, people and times of the day and includes:

a) The identification of the problem behavior,
b) The definition of the behavior in concrete terms,
c) The identification of the contextual factors that contribute to the behavior (including cognitive and affective factors), and
d) The formulation of a hypothesis regarding the general conditions under which a behavior usually occurs and probable consequences that serve to maintain it.

The CSE/CPSE will ensure that functional behavioral assessments, when appropriate, are conducted and reviewed to:

(Continued)
a) Identify supplementary aids and services, modifications and/or related services appropriate to address the identified behaviors to promote the student's involvement and progress in the general curriculum;

b) Determine a student's eligibility for special education services;

c) Develop the IEP which includes behavioral goals and objectives and positive behavioral supports and strategies.

In the case of a student whose behavior impedes his/her learning or that of others, the CSE/CPSE shall consider strategies, including positive behavioral interventions and supports and other strategies to address that behavior. The need for a behavioral intervention plan (BIP) shall be documented on the IEP and such plan shall be reviewed at least annually by the CSE/CPSE. In addition, regular progress monitoring of the frequency, duration and intensity of the behavioral interventions shall be conducted at scheduled intervals, documented and reported to the parents and CSE/CPSE.

A behavioral intervention plan may not include the use of aversive interventions or time out rooms except in accordance with specific Board policy regulating these techniques.

Individual Evaluations

Parental consent must be provided for an initial evaluation. If such consent is not received within thirty (30) calendar days of receipt of the referral, the CSE/CPSE Chairperson will document all attempts made to obtain the consent and, if appropriate, advise the Board of its right to utilize the due process procedures to conduct an evaluation without parental consent.

 Unless a referral is withdrawn, an individual evaluation at no cost to the parent will be completed by the CSE/CPSE within sixty (60) calendar days after written parental consent has been obtained or a parental refusal to consent is overridden, unless:

a) An extension is mutually agreed to by the parent and the CSE/CPSE for the following situations:

1. Transfer students: A student enrolls in the District after sixty (60) days and prior to a determination by the student's previous school district as to whether the student has a disability, but only if the new school district is making sufficient progress to ensure a prompt completion of the evaluation and the parent and the new district agree to a specific timeframe for completion; or

2. Students suspected of having learning disabilities; or

(Continued)
b) The parent or student repeatedly fails or refuses to produce the student for evaluation.

No student shall be required to obtain a prescription for a drug or other substance identified as a controlled substance by the federal Controlled Substances Act as a condition of receiving an evaluation.

The individual evaluation will include a variety of assessment tools and strategies, including information provided by the parent. The purpose of the evaluation is to gather relevant functional, developmental and academic information that may assist in determining whether the student is a student with a disability and the content of the student's IEP. This shall include information relating to enabling the student to participate and progress in the general education curriculum (or for a preschool child, to participate in appropriate activities.)

As part of any evaluation, a group that includes the CSE/CPSE and other qualified professionals, as appropriate, shall review existing evaluation data on the student including evaluations and information provided by the parents of the student, current classroom-based assessments, local or state assessments, classroom-based observations, and observations by teachers and related services providers. In addition, the group will consider information about the student's physical condition, social or cultural background, and adaptive behavior.

On the basis of that review, and input from the student's parents, the group shall identify what additional data, if any, are needed to determine:

a) Whether the student has or continues to have a disability;

b) The present levels of academic achievement and related developmental needs of the student, including:
   1. Academic achievement, functional performance, and learning characteristics;
   2. Social development;
   3. Physical development; and
   4. Management needs.

c) In the case of a reevaluation of a student, whether the student continues to need special education; and

(Continued)
d) Whether any additions or modifications to the special education services are needed to enable the student to meet the measurable annual goals set out in the IEP of the student and to participate, as appropriate, in the general education curriculum.

If additional data are not needed, the District must notify the parents of that determination and the reasons for it and of the right of the parents to request an assessment to determine whether, for purposes of services provided in accordance with law and Commissioner's Regulations, the student continues to be a student with a disability and to determine the student's educational needs. The District is not required to conduct the assessment unless requested to do so by the student's parents.

The determination that a student has a learning disability will be made in accordance with the procedures outlined in Section 200.4(j) of Commissioner's Regulations.

**Individual Re-evaluations**

A CSE/CPSE shall arrange for an appropriate re-evaluation of each student with a disability:

a) If the District determines that the educational or related services needs, including improved academic achievement and functional performance of the student warrant re-evaluation;

b) If the student's parent or teacher request a re-evaluation;

c) At least once every three (3) years, unless the District and the parent/person in parental relation agree in writing that such re-evaluation is unnecessary.

A re-evaluation shall not be conducted more frequently than once a year unless the parent and the District representative appointed to the CSE/CPSE agree otherwise.

The re-evaluation will be conducted by a multi-disciplinary team or group of persons, including at least one teacher or other specialist with knowledge in the area of the student's disability. The re-evaluation shall be sufficient to determine the student's individual needs, educational progress and achievement, the student's ability to participate in instructional programs in regular education and the student's continuing eligibility for special education. The results of any re-evaluations must be addressed by the CSE/CPSE in reviewing, and as appropriate, revising the student's IEP.

To the extent possible, the District shall encourage the consolidation of re-evaluation meetings for the student and other CSE/CPSE meetings for the student.

(Continued)
Amendments to the IEP

Amendments to the IEP made after the annual review by the CSE/CPSE may be made by reconvening the CSE/CPSE and rewriting the IEP or by developing a written document to amend or modify the student's current IEP, provided that:

a) The parents/persons in parental relation request an amendment to the IEP and the District and parents/persons in parental relation agree to the amendment in writing; or

b) The District provides the parents/persons in parental relation a written proposal to amend a provision or provisions of the IEP conveyed in language understandable to the parents/persons in parental relation in their native language or other dominate mode of communication, informs and allows the parents/persons in parental relation the opportunity to consult with the appropriate personnel or related service providers concerning the proposed changes, and the parents/persons in parental relation agree in writing to the amendments.

If the parents/persons in parental relation agree to amend the IEP without a meeting, they shall be provided prior written notice (notice of recommendation) of the changes to the IEP and the Committee notified of the changes. If the changes are made by rewriting the entire IEP, the District shall provide the parents/persons in parental relation a copy of the rewritten IEP. If the amendment is made without rewriting the entire document, the District shall provide a copy of the document that amends the IEP or, upon request, a revised copy of the entire IEP with the amendments incorporated.

Use of Recording Equipment at IEP Meetings

The Board of Education shall allow recording equipment to be used at meetings regarding individualized education programs for students with disabilities.

Provision of Individualized Education Program

The Board of Education directs that the Superintendent/designee(s) establish administrative practices and procedures to ensure that each regular education teacher, special education teacher, related service provider and/or other service provider who is responsible for the implementation of a student's IEP is provided a paper or electronic copy of such student's IEP (including amendments to the IEP) prior to the implementation of such program. For purposes of this policy, "other service provider" means a representative of another public school district, charter school, Board of Cooperative Educational Services (BOCES) or school enumerated in Education Law Articles 81, 85 or 89 where the student receives or will receive IEP services. Further, the District will designate at least one school official who shall be responsible for maintaining a record of the personnel who have received IEP copies for each student.

(Continued)
SUBJECT:  STUDENT INDIVIDUALIZED EDUCATION PROGRAM (IEP): DEVELOPMENT AND PROVISION (Cont’d.)

Any copy of a student's IEP shall remain confidential in compliance with the Individuals with Disabilities Education Act, the Family Educational Rights and Privacy Act, and District policy regarding confidentiality of student records; and shall not be disclosed to any other person other than the parent of such student, except in accordance with federal and state laws and/or regulations. Appropriate training and information will be provided to designated school personnel, as applicable, to ensure the confidentiality of such information. Procedures will be established to ensure that copies of students' IEPs are stored in secure locations and retrieved or destroyed when such professionals are no longer responsible for implementing a student's IEP.

The Chairperson of the CSE, CSE subcommittee, or CPSE shall designate for each student one or, as appropriate, more than one professional employee of the School District with knowledge of the student's disability and education program who will be responsible to, prior to the implementation of the IEP, inform each regular education teacher, special education teacher, related service provider, other service provider, supplementary school personnel (i.e., a teaching assistant or a teacher aide as defined in Commissioner's Regulations), and other provider and support staff person of his/her responsibility to implement the recommendations on a student's IEP, including the responsibility to provide specific accommodations, program modifications, supports and/or services for the student in accordance with the IEP. In selecting the professional staff person(s), the Chairperson could select him/herself for this responsibility, another administrator, or a teacher, related service provider or other professional based on the particular circumstances of the student's disability and education program.

The School District shall also ensure that each teaching assistant, teacher aide and each other provider responsible for assisting in the implementation of a student's IEP has the opportunity to review a copy of the student's IEP (including amendments) prior to the implementation of such program. Further, each teaching assistant, teacher aide and such other provider responsible for assisting in the implementation of a student's IEP shall have ongoing access to a copy of the IEP, which may be the copy provided to the student's special education teacher or the teacher or related service provider under whose direction the supplementary school personnel or other provider works. However, the District may, at its discretion, provide a copy of the IEP to teaching assistants and/or teacher aides.

A copy of a student's IEP shall be provided to the student's parents at no cost to the student's parents.

SUBJECT: TRANSITION SERVICES

Beginning not later than the first IEP to be in effect when the student is age 15 (and at a younger age, if determined appropriate), and updated annually, the student's IEP must include:

a) A statement of the student's needs taking into account the student's strengths, preferences and interests as they relate to transition from school to post-school activities;

b) Appropriate measurable postsecondary goals based upon age appropriate transition assessments relating to training, education, employment and, where appropriate, independent living skills;

c) A statement of transition service needs that focuses on the student's courses of study, such as participation in advanced-placement courses or a vocational educational program;

d) Needed activities to facilitate the student's movement from school to post-school activities, including instruction, related services, community experiences, the development of employment and other post-school adult living objectives and, when appropriate, acquisition of daily living skills and functional vocational evaluation; and

e) A statement of the responsibilities of the District and participating agencies, when applicable, for the provision of such services and activities, before the student leaves the school setting, that promote movement from school to post-school opportunities.

In accordance with the Code of Federal Regulations, the district must invite a child with a disability to attend the child's CSE meeting if a purpose of the meeting will be the consideration of the postsecondary goals for the child and the transition services needed to assist the child in reaching those goals. If the child does not attend the CSE meeting, the district must take other steps to ensure that the child's preference and interests are considered. To the extent appropriate, with the consent of the parent or a child who has reached the age of majority, the district must also invite a representative of any participating agency that is likely to be responsible for providing or paying for transition services.

As defined by the Commissioner's Regulations, transition services means a coordinated set of activities for a student with a disability, designed within a results-oriented process that is focused on improving the academic and functional achievement of the student with a disability to facilitate movement from school to post-school activities. Post-school activities include, but are not limited to, post-secondary education, vocational education, integrated employment (including supported employment), continuing and adult education, adult services, independent living, or community participation. The coordinated set of activities must be based on the student's strengths, preferences and interests and shall include needed activities in the following areas:

a) Instruction;

(Continued)
b) Related services (the term "related services" does not include a medical device that is surgically implanted, the optimization of the device's functioning (e.g., mapping), maintenance of, or the replacement of such device);

c) Community experiences;

d) The development of employment and other post-school adult living objectives; and

e) When appropriate, acquisition of daily living skills and provision of a functional vocational evaluation.

Adopted: 4/8/09
SUBJECT: EXTENDED SCHOOL YEAR (JULY/AUGUST) SERVICES AND/OR PROGRAMS

The School District shall provide, directly or by contract, special services and/or programs during July and August (i.e., extended school year) to those students whose disabilities are severe enough to exhibit the need for a structured learning environment of twelve (12) months duration in order to prevent substantial regression as determined by the Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE). Written consent of the parent is required prior to initial provision of special education services in a twelve (12) month special service and/or program.

The CSE/CPSE must determine whether a student requires extended school year special education services and/or programs in order to prevent substantial regression. Substantial regression would be indicated by a student's inability to maintain developmental levels due to a loss of skill, set of skill competencies or knowledge during the months of July and August. In accordance with Commissioner's Regulations, students must be considered for twelve (12) month special services and/or programs to prevent substantial regression if they are:

a) Students whose management needs are determined to be highly intensive and require a high degree of individualized attention and intervention and who are placed in special classes; or,

Preschool students whose management needs are determined to be highly intensive and require a high degree of individualized attention and intervention;

b) Students with severe multiple disabilities, whose programs consist primarily of habilitation and treatment and are placed in special classes; or

Preschool students with severe multiple disabilities, whose programs consist primarily of habilitation and treatment;

c) Students who are recommended for home and/or hospital instruction whose special education needs are determined to be highly intensive and require a high degree of individualized attention and intervention or who have severe multiple disabilities and require primarily habilitation and treatment; or

Preschool students whose special education needs are determined to be highly intensive and require a high degree of individualized attention and intervention or who have severe multiple disabilities and require primarily habilitation and treatment in the home; or

d) Students, including preschool students, whose needs are so severe that they can be met only in a seven (7) day residential program; or

(Continued)
SUBJECT: EXTENDED SCHOOL YEAR (JULY/AUGUST) SERVICES AND/OR PROGRAMS (Cont’d.)

e) Students who are not in programs as described in subparagraphs (a) through (d) above during the period from September through June and who, because of their disabilities, exhibit the need for a twelve (12) month special service and/or program provided in a structured learning environment of up to twelve (12) months duration in order to prevent substantial regression as determined by the CSE; or

Preschool students who are not described in subparagraphs (a) through (d) above whose disabilities are severe enough to exhibit the need for a structured learning environment of twelve (12) months duration to prevent substantial regression as determined by the Preschool Committee on Special Education (CPSE).

For students eligible for twelve (12) month service and/or program, per Commissioner's Regulations Section 200.4(d)(2)(x), the student's Individualized Education Program (IEP) shall indicate the identity of the provider of services during the months of July and August, and, for preschool students determined by the CPSE to require a structured learning environment of twelve (12) months duration to prevent substantial regression, a statement of the reasons for such recommendation.

The IEP shall indicate the projected date of the review of the student's need for such services and shall indicate the recommended placement.

The State Education Department (SED) is authorized to approve programs and to establish State Aid reimbursement rates for all special services and programs provided during July and August, both public and private. Therefore, if the School District plans to operate a July/August program, the District must first apply to SED for approval in accordance with SED guidelines/procedures.

SUBJECT: TRANSFER STUDENTS WITH DISABILITIES

To facilitate the transition of students with disabilities transferring into or out of the District the District shall:

a) As the district of origin take reasonable steps to promptly respond to all requests from the new school district.

b) As the new school district take reasonable steps to promptly obtain the student's records from the previous school, including the Individualized Education Program (IEP), supporting documents and any other records relating to the provision of special education services.

c) Provide to a student with a disability (as defined in Section 200.1(zz) of Commissioner's Regulations) who transfers school districts within the same school year a free appropriate education including services comparable to those described in the student's previous IEP.

1. For transfers within New York State, the previously held IEP will be followed in consultation with the parents until the District adopts the previously held IEP or develops, adopts and implements a new IEP consistent with federal and State law and regulation.

2. For transfers from outside New York State, in consultation with the parents the previously held IEP will be followed until the District conducts an evaluation and, if appropriate, develops a new IEP consistent with federal and State law and regulation.

SUBJECT: IDENTIFICATION AND REGISTER OF CHILDREN WITH DISABILITIES (CHILD FIND)

The School District of residence is required to locate and identify all students with disabilities who reside in the District, including students who do not attend public school (with the exception of students with disabilities who are parentally placed in nonpublic schools outside the district of residence). Therefore, it is the policy of the Board of Education to conduct a census in order to have all children with disabilities within its jurisdiction under the age of twenty-one (21) identified, located and evaluated, including children of preschool age, homeless children, children who are wards of the State as defined in Commissioner's Regulations and children in all public and private agencies and institutions.

Any student suspected of having a disability is to be referred to the applicable Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE) for evaluation and possible identification as a student with disability.

Census data shall be reported by October 1 to the CSE/CPSE as appropriate. The CSE/CPSE will maintain and revise annually a register and related summary reports containing the data requirements indicated in Commissioner's Regulations.

**Nonpublic School Students with Disabilities who are Parentally Placed**

If the School District boundaries encompass a nonpublic school, the District, as the district of location, must develop and implement methods to identify, locate and ensure the identification and evaluation of students with disabilities who have been, or are going to be, parentally placed in such nonpublic school.

The child find activities must be similar to activities for students with disabilities in the public schools and must be completed in a time period comparable to that for other students attending public schools in the School District.

As the public school district of location, the District must consult with the nonpublic schools where students are parentally placed to determine an accurate count of students with disabilities attending such schools and receiving special education services.

These requirements only pertain to students with disabilities parentally placed in elementary and secondary nonpublic schools, not to parental placements of preschool children with disabilities in private day care or preschool programs; or to CSE placements of students with disabilities in approved private schools, Special Act School Districts, State-supported or State-operated schools; or to Charter schools.

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES

The Board of Education recognizes the rights of the parent/guardian to be fully informed of all information relevant to the identification, or change in identification, evaluation and educational placement of a child with a disability.

All due process procedures for parents/guardians and children in the Commissioner's Regulations shall be observed by the School District.

Definition of Parent

Parent means a birth or adoptive parent, a legally appointed guardian generally authorized to act as the child's parent or authorized to make educational decisions for the child, a person in parental relationship to the child as defined in Education Law Section 3212, an individual designated as a person in parental relation pursuant to General Obligations Law Title 15-A including an individual so designated who is acting in the place of a birth or adoptive parent (including a grandparent, stepparent or other relative with whom the child resides), or a surrogate parent who has been appointed in accordance with Section 200.5(n) of Commissioner's Regulations. The term does not include the State if the student is a ward of the State.

A foster parent may act as a parent unless State law, regulations or contractual obligations with a State or local entity prohibit the foster parent from acting as a parent.

Unless a judicial decree identifies a specific person(s) to act as the parent or make educational decisions for the student, if one or more parties is qualified to act as a parent, the birth or adoptive parent is presumed to be the parent unless they do not have the legal authority to do so.

Surrogate Parents

It is the duty of the School District to determine whether a child needs a surrogate parent and to assign a surrogate parent in the manner permitted under New York State law. This determination shall be completed within a reasonable time following the receipt of a referral for an initial evaluation or re-evaluation.

In the event that no parent or guardian for a child with a disability can be identified; or after reasonable efforts the whereabouts of the parent or guardian cannot be determined; or the student is an unaccompanied homeless youth; or the child with a disability is a ward of the State and does not have a "parent" as defined above; or the rights of the parent to make educational decisions have been subrogated by a judge in accordance with State law; the Board shall assign an individual to act as a surrogate for the parents or guardians.

Alternatively, the surrogate parent may be appointed by a judge overseeing the child's case.

(Continued)
SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES (Cont’d.)

The person selected as a surrogate shall have no interest that conflicts with the interest of the child he/she represents, and shall have knowledge and skills that ensure adequate representation of the child.

Prior Written Notice (Notice of Recommendation)

Prior written notice (notice of recommendation) must be given to parents of a student with a disability a reasonable time before the District proposes to, or refuses to, initiate or change the identification, evaluation, educational placement of the student or the provision of a free appropriate public education to the student. Prior written notice must also be provided informing the parents when no additional data is required to determine the student's educational needs, the reasons for this determination and their right to request an assessment.

If the prior written notice relates to a proposed action that also requires parental consent, the District must give notice at the same time it requests parental consent. The prior written notice will contain all elements required by Commissioner's Regulations.

A parent may elect to receive prior written notice and other required notifications by electronic mail (e-mail) communication if the District makes this option available.

Effective January 1, 2009 the prior written notice will be on the form prescribed by the Commissioner.

Parent Participation in Meetings

The School District must take steps to ensure that one or both of the parents of a child with a disability are present at each Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE) meeting or are afforded the opportunity to participate in a mutually agreed upon time and place. The School District must document its attempts to involve parents, such as:

a) Detailed records of telephone calls made or attempted and the results of these calls;

b) Copies of correspondence sent to the parents and any responses received; and

c) Detailed records of visits made to the parent's home or place of employment and the results of those visits.

A meeting may be conducted without a parent in attendance if the School District is unable to convince the parents that they should attend.

(Continued)
Additionally, the School District must take whatever action is necessary to ensure the parent understands the proceedings of this meeting including arranging for an interpreter for parents with deafness or whose native language is other than English.

Parental Consent

In accordance with due process, a parent (as defined in Commissioner's Regulations Section 200.1(l)) of a special education student or a student suspected of having a disability must provide informed consent before the School District can take certain actions. The District will make reasonable efforts to obtain written informed consent and will maintain a detailed record of its attempts and the results of the attempts.

Consent for Evaluations

The parent or guardian must provide informed consent to the initial evaluation, or reevaluations in accordance with law and/or regulations. If a parent does not provide consent for an initial evaluation, the School District may pursue the evaluation by commencing a due process hearing to override the refusal to provide consent.

Parental consent for a reevaluation is not needed if the District can demonstrate that it has taken reasonable measures to obtain consent, but the parents or guardians have failed to respond.

Consent for the Initial Provision of Services

Parental consent is also required for the initial provision of special education services. Consent for an initial evaluation does not constitute consent for the initial provision of services. If a parent does not provide consent for the initial provision of services, the School District shall not provide the special education program and services to the student and shall not use the due process procedures to challenge the parent’s refusal to consent. The School District shall not be considered to be in violation of the requirements to provide a free appropriate public education (FAPE), shall not be required to convene a meeting of the committee on special education or develop an individualized education program (IEP).

Consent for Other Actions

Prior written consent must also be provided:

a) Prior to releasing any personally identifiable information; and

b) Prior to each time the District proposes to access a parent's private or public insurance.

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES (Cont’d.)

Consent for an Unaccompanied Homeless Youth

Consent may be provided by a surrogate parent. However, until a surrogate parent is appointed, consent may be provided on a temporary basis by an employee of a temporary housing facility operated or approved by a local social services district or a residential facility for runaway and homeless youth.

Consent for a Ward of the State

A ward of the State means a child or youth under the age of twenty-one (21):

a) Who has been placed or remanded pursuant to Social Services Law or the Family Court Act or freed for adoption pursuant to Social Services Law; or
b) Who is in the custody of the Commissioner of Social Services or the Office of Children and Family Services; or

c) Who is a destitute child under Social Services Law.

In the event that a child is a ward of the State, the School District shall make reasonable efforts to obtain the informed consent from the parent of the child for an initial evaluation to determine whether the child is a child with a disability.

The School District is not required to obtain informed consent if:

a) Despite reasonable efforts to do so, the School District cannot discover the whereabouts of the parent of the student, including consulting with the agency responsible for the care of the student; or

b) The rights of the parents of the student have been terminated in accordance with State law; or

c) The rights of the parent to make educational decisions have been subrogated by a judge in accordance with State law and consent for an initial evaluation has been given by an individual appointed by the judge to represent the student.

Consent for a Student who is Home Instructed or Parentally Placed in a Private School at the Parent's Expense

If a parent of a student who is home instructed or placed in a private school by their parents at their own expense does not provide consent for an initial evaluation or reevaluation, or the parent fails to respond to a request to provide consent, the District may not continue to pursue those evaluations by

using the due process procedures and the District is not required to consider the student as eligible for special education services.

Procedural Safeguards Notice

The School District will provide the procedural safeguards notice prescribed by the Commissioner of Education to the parents of a student with a disability at least one time per year and also:

a) Upon initial referral or parental request for evaluation;
b) Upon the first filing of a due process complaint notice to request mediation or an impartial due process hearing;
c) Upon request by a parent;
d) Upon a decision to impose a suspension or removal that constitutes a disciplinary change in placement; and
e) Upon first receipt of a State complaint.

NOTE: Refer also to Policy #7260 -- Designation of Person in Parental Relation

Adopted: 4/8/09
SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS

The parent/person in parental relation of a student with a disability may file a written request with the Board for an impartial due process hearing with respect to any matter relating to the identification, evaluation, educational placement, provision of a free appropriate public education, manifestation determination or other matter relating to discipline. The Board may also initiate such hearing.

The School District is committed to making every effort to amicably resolve differences involving the educational programs for students with disabilities. Mediation will be available to resolve disputes involving any matter, including matters arising prior to the filing of a request for an impartial due process hearing. In addition, the District may establish procedures providing the opportunity to meet with a disinterested party from a community dispute resolution center for an explanation of the benefits of the mediation process.

For those exceptional circumstances where a more formal method is required, the impartial hearing process will be utilized. The Impartial Hearing Officer (IHO) renders a written decision after the parties present and refute evidence before him/her. The decision of the IHO is final and binding on both parties unless appealed to the State Review Officer (SRO).

Impartial Due Process Hearing Process

The request for an impartial due process hearing must be submitted within two (2) years of the date the parent or the District knew or should have known about the alleged action forming the basis of the complaint. However, the two (2) year timeline does not apply if the parent was prevented from requesting the hearing due to specific misrepresentations by the District that it had resolved the problem or the District’s withholding of information from the parent that is required by Commissioner's Regulations.

The following is an overview of the impartial due process hearing process/prehearing conference:

Assignment of IHO/Scheduling of Hearing or Prehearing Conference

When the selected IHO indicates availability, the Board of Education must immediately appoint the IHO. To expedite this process the Board has designated the Board President or Vice-President to appoint the IHO on behalf of the Board.

Due Process Complaint Notification

a) The parent or the School District may request an impartial due process hearing by first submitting a due process complaint notice.
A hearing may not be held until a due process complaint notice is filed. Either the parent, the District, or the attorney representing either party may present a complaint with respect to any matter relating to the identification, evaluation or educational placement of a student with a disability or a student suspected of having a disability, or the provision of a free appropriate public education to such student.

This written due process complaint notice must include:

1. The name of the student;
2. The address of the student's residence or, in the case of a homeless student, available contact information;
3. The name of the school the child is attending;
4. A description of the nature of the problem of the student relating to the proposed or refused initiation or change, including facts relating to the problem; and
5. A proposed resolution of the problem to the extent known and available to the party at the time.

b) The due process complaint notice will be deemed sufficient unless the party receiving the notice notifies the other party and the IHO in writing within fifteen (15) days of receiving the notice that they believe the notice requirements have not been met.

c) Within five (5) days of the receipt of the notice of insufficiency, the IHO shall make a determination on the face of the notice of whether the notification meets the notice requirements and shall immediately notify the parties in writing of the determination.

d) If the District has not sent a prior written notice (notice of recommendation) to the parent regarding the subject matter of the complaint notice, the District will send a response to the parent within ten (10) days of receiving the complaint which includes:

1. An explanation of why the District proposed or refused to take the action raised in the complaint;
2. A description of other options the Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE) considered and why those options were rejected;
3. A description of each evaluation procedure, assessment, record, or report the District used as a basis for the proposed or refused action; and

(Continued)
SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)

4. A description of the factors relevant to the District's proposal or refusal.

e) Upon receipt or filing of the due process complaint notice, the District will provide the procedural safeguards notice to the parents. The District will also inform parents in writing of the availability of mediation and of any free or low-cost legal and other relevant services available in the area.

f) Within ten (10) days of receiving the complaint notice, the non-complaining party must send a response specifically addressing the issues raised in the notice.

g) A party may amend its due process complaint notice only if:
   1. The other party consents in writing and is given the opportunity to resolve the complaint through a resolution process;
   2. The IHO grants permission, but not later than five (5) days before the impartial due process hearing commences.

   Applicable timelines for the impartial due process hearing will recommence at the time of the filing of the amended notice.

h) No issues may be raised at the impartial due process hearing that were not raised in the due process complaint notice.

Resolution Process

a) Within fifteen (15) days of receiving the due process complaint notice from the parent and prior to the due process hearing itself, the District shall convene a meeting with the parents and relevant members of the CSE/CPSE, as determined by the District and the parent, who have specific knowledge of the facts identified in the complaint. A representative of the District who has decision-making authority must attend. The attorney for the District may not attend unless the parent is accompanied by an attorney. At this resolution meeting, the District has the opportunity to resolve the complaint after the parents discuss their complaint and the facts forming its basis.

The District will take steps to ensure that one or both of the parents of the student with a disability are present at the resolution meeting, including notifying parents of the meeting early enough to ensure that they will have the opportunity to attend and scheduling the resolution meeting at a mutually agreed on time and place and in a location that is physically accessible to the parents.

(Continued)
SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)

b) When conducting meetings and carrying out administrative matters (such as scheduling), the parent and District may agree to use alternative means of meeting participation such as video conferences or conference calls.

c) The parent and District may agree in writing to waive the resolution process or agree to use the mediation process to resolve the dispute.

d) If a settlement is reached, the parties shall execute a legally binding agreement signed by the parent and the representative of the District who has authority to bind the District. This agreement is enforceable in court. However, either party may void the agreement within three (3) business days of the agreement's execution.

e) If the District has not resolved the due process complaint to the satisfaction of the parents within thirty (30) days of receipt of the complaint notice, the impartial hearing process may begin.

f) Except where the parties have jointly agreed to waive the resolution process or use mediation, the failure of a parent filing a due process complaint to participate in the resolution meeting will delay the timeline for the resolution process and due process hearing until the meeting is held:

1. If the District is unable to obtain the participation of the parent in the resolution meeting after reasonable efforts have been made (and documented), the District may, at the conclusion of the thirty-day period, request that an IHO dismiss the parents’ due process complaint.

2. If the District fails to hold the resolution meeting within fifteen (15) days of receipt of the parent's due process complaint or fails to participate in the resolution meeting, the parent may seek the intervention of the IHO to begin the due process hearing timeline.

Pre-Hearing Conference

A pre-hearing conference (which may take place via telephone) may be scheduled by the IHO to simplify or clarify issues; establish dates for the completion of the hearing; identify evidence to be entered into the record; identify witnesses expected to provide testimony; and/or address other administrative issues. A transcript or written summary shall be entered into record by the IHO.

Impartial Due Process Hearing

In the event the complaint is not resolved in a resolution process, the Board will arrange for an impartial due process hearing to be conducted. When carrying out administrative matters relating to an impartial due process hearing, such as scheduling, exchange of witness lists and status conferences, the parent and District may agree to use alternative means of meeting participation such as video conferences or conference calls.

(Continued)
SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)

a) The District must immediately (but not later than two (2) business days after receipt of the due process complaint notice or mailing of the due process complaint notice to the parent) initiate the process to select an IHO. The District selects the IHO through a rotational selection process in accordance with regulatory timelines. The Superintendent's Secretary/District Clerk will be responsible for contacting IHOs and maintaining appropriate records.

b) The IHO must be certified by the Commissioner of Education, be independent and have access to the support and equipment necessary to perform the duties of an IHO. When the selected IHO indicates availability, the Board of Education must immediately appoint him/her. To expedite this process, the Board may designate one (1) or more of its members to appoint the IHO on behalf of the Board.

c) The IHO may not accept appointment unless he/she is available to make a determination of sufficiency of a due process complaint notice within five (5) days of receiving such a request and (unless an extension is granted) to initiate the hearing in a timely fashion.

1. When the District files the due process complaint notice, the hearing or pre-hearing conference must commence within the first fourteen (14) days after the date the IHO is appointed;

2. When a parent files the due process complaint notice, the hearing or pre-hearing conference must commence within the first fourteen (14) days after whichever of the following occurs first:

   (a) The date the IHO receives the parties' written waiver of the resolution meeting; or

   (b) The IHO receives the parties' written confirmation that a mediation or resolution meeting was held but no agreement could be reached; or

   (c) The expiration of the thirty-day resolution period unless the parties agree in writing to continue mediation at the end of the thirty-day resolution period. In such case, the hearing or pre-hearing conference will commence within the first fourteen (14) days after the IHO is notified in writing that either party withdrew from mediation.

d) The hearing, or a prehearing conference, shall commence within the timeframe specified in c) above, unless an extension is granted pursuant to Commissioner's Regulations.

(Continued)
SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)

e) Each party must disclose to all parties all evaluations completed by that date and recommendations based on the offering party's evaluation that they intend to use at the hearing not less than five (5) days prior to the hearing. The IHO may bar any party that fails to comply with this requirement from introducing the relevant evaluation or recommendation at the hearing without the consent of the other party.

f) The hearing will be conducted at a time and location that is reasonable and convenient to the parent and the student involved. The hearing shall be closed to the public unless the parent requests an open hearing.

g) The role and responsibilities of the IHO will be as enumerated in Commissioner's Regulations.

h) The student shall remain in his/her current placement during the pendency of the impartial due process hearing unless both parties agree or except as otherwise provided for expedited impartial due process hearings for certain disciplinary suspensions or removals of a student. For a preschool child not currently receiving special education services and programs, he/she may, during any impartial due process hearings or appeals, receive special education services and programs if the parent/person in parental relation and the District agree. However, during the pendency of an appeal for a preschool child who is transitioning from an Early Intervention (EI) program and is no longer eligible for the EI program due to age, the District is not required to provide the services the child had been receiving under EI. If found eligible for special education as a preschool student with a disability, and if the parent consents to the initial provision of services, the District will provide those programs and services that are not in dispute.

i) The IHO renders and forwards the finding of fact and decision to the parties and to the State Education Department in accordance with regulatory timelines but not later than forty-five (45) days from the date required for commencement of the impartial due process hearing specified in c) above. For expedited hearings the deadline is within ten (10) school days after the hearing; for preschool hearings the timeframe is thirty (30) days after the receipt by the Board of a request for a hearing or after the initiation of such hearing by the Board.

j) The decision of the IHO is final and binding on both parties unless appealed to the State Review Officer (SRO).

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)

Burden of Proof

In accordance with New York State law, the burden of proof and persuasion in an impartial due process hearing dispute relative to a student's special education placement rests upon the school district. However, a parent/person in parental relation seeking tuition reimbursement for a unilateral parental placement shall have the burden of persuasion as to the appropriateness of the placement.

Recordkeeping and Reporting

The District will utilize the New York State Education Department's Impartial Hearing Reporting System (IHRS) to access the alphabetical list of the names of each IHO who is certified in New York State and available to serve in the District. The District will record and report to the State Education Department required information relating to the selection of IHOs and the conduct of impartial due process hearings according to the manner and schedule specified by the Department. The Superintendent shall designate a staff member(s) who will be responsible for reporting such information as required relating to the impartial hearing process into the State Education Department's web-based reporting system.

Compensation of Impartial Hearing Officers

The District will be responsible for compensating the IHO for prehearing, hearing and post-hearing activities at the rate agreed upon at the time of the IHO's appointment. The rate of compensation may not exceed the maximum rate approved by the Director of the Division of the Budget. The District will also reimburse the IHO for travel and other hearing-related expenses (e.g., duplication and telephone costs) pursuant to an annually determined schedule. On an annual basis, the District will forward a copy of its compensation rates to each IHO on the District's rotational list.

At the completion of the impartial due process hearing, the IHO shall submit an itemized bill of hourly charges and expenses, which will be promptly paid by the District.

Mediation

The District will inform the parent in writing of the availability of mediation and any free or low-cost legal and other relevant services available in the area at the request of the parent or when an impartial due process hearing is requested.

Mediation is voluntary and does not deny or delay a parent's right to an impartial due process hearing. If mediation is initiated after a request for an impartial due process hearing has been received, the impartial due process hearing must continue unless the request for the impartial due process hearing is withdrawn. However, a party may request an extension to an impartial due process hearing in order to pursue mediation.

Guardians ad Litem at Impartial Due Process Hearings

Unless a surrogate parent has been previously appointed, the IHO must appoint a guardian ad litem when he/she determines that the interests of the parent(s) are opposed to or are inconsistent with those of the student or whenever the interests of the student would be best protected by such appointment.

Confidentiality

All issues relating to a request for and conduct of an impartial due process hearing must be kept confidential by all District staff.

Administrative Procedures

Administrative procedures will be developed for the selection and appointment of an IHO consistent with regulatory requirements.

SUBJECT: INDEPENDENT EDUCATIONAL EVALUATIONS

Parents of children with disabilities have the right under Federal and State regulations to obtain an independent educational evaluation (IEE) at public expense under certain conditions. Regulatory standards are outlined in New York State Regulations of the Commissioner of Education Part 200.5(g). Additionally, the Federal Regulations (34 Code of Federal Regulations [CFR] 300.502) specify requirements for an independent evaluation.

A parent is entitled to only one IEE at public expense each time the District conducts an evaluation with which the parent disagrees.

Administrative regulations on independent evaluations will be developed in order to explain the rights of parents and the responsibilities of school districts with regard to independent evaluations, and also to avoid any misunderstandings.

SUBJECT: SPECIAL EDUCATION MEDIATION

The District will offer mediation to resolve any disputes involving any matter for which an impartial due process hearing may be brought, including matters arising prior to the filing of a due process complaint notice.

Such mediation shall be conducted by mediators furnished by a Community Dispute Resolution Center who are not employees of any school district or State agency that is involved in the education or care of the student who is the subject of the mediation process. Mediators may not have a personal or professional interest which would conflict with their objectivity in the mediation process and should be knowledgeable in laws and regulations relating to the provision of special education services.

Parents or persons in parental relation to students suspected of or having disabilities will receive written notice of the availability of the mediation program each time they receive notice of their entitlement to the impartial due process hearing procedures in accordance with Federal and State law and regulations. If the parent and District agree, alternative means of meeting participation may be utilized, such as video conferences and conference calls.

Discussions during the mediation process must be confidential and may not be used as evidence in any subsequent due process hearing or civil proceedings.

If resolution to the complaint is reached through mediation, the parent and the representative of the District who has the authority to bind the District will execute a legally binding written agreement specifying the resolution and stating that all discussions occurring during the mediation process are confidential and may not be used as evidence in any subsequent due process hearing or civil proceeding of any Federal or State court. If the written agreement is inconsistent with the student's current individualized education programs (IEP), the IEP must be immediately amended to reflect the mediation agreement.

The mediation process is voluntary and will not operate to diminish or limit any rights provided for in law, including the right of the parent or person in parental relation to request an impartial due process hearing subsequent to mediation. Parents or persons in parental relation to students suspected of or having disabilities continue to have full access to all rights, including due process procedures, provided for in federal and state laws and regulations. Similarly, mediation shall not be construed to limit a parent or person in parental relation from requesting an impartial due process hearing without having first utilized mediation procedures set forth in Education Law.

SUBJECT: CURRICULUM DEVELOPMENT, RESOURCES AND EVALUATION

The Board of Education supports and encourages development of a District-wide, articulated curriculum that conforms to state mandates and is responsive to the needs of children in a rapidly changing society. The Principals of the elementary and secondary schools shall be responsible to the Superintendent for developing District-wide efforts toward the short and long-range improvement of curriculum and instruction.

Curriculum Resources

There are many resources for curriculum development that exist in our School District, and the instructional staff, under the guidance of the administration, is expected to delve into those resources for possible improvement of the instructional program. Each teacher has the privilege of being an initiator of improvement, as well as a reactor to changing conditions, and the Principals shall be involved in curriculum development.

From the staff, the Superintendent may appoint curriculum study committees; and their findings, as well as the collective judgments of the staff about the pertinence of various possible changes, shall be submitted by the Superintendent to the Board of Education for consideration in the forming of curriculum policy.

Curriculum Evaluation

The Board of Education shall direct a continuing evaluation of the curriculum as part of a program of instructional improvement.

All aspects of the curriculum shall be subjected to a searching and critical analysis in an attempt to improve the learning and growth of students.

The administrative staff shall evaluate the curriculum in a systematic manner, involving school personnel and others as appropriate.

The administrative staff shall make periodic recommendations for action by the Board. The Board of Education from time to time may invite teachers or others to discuss the curriculum.

Evaluation of the Instructional Program

The Board of Education expects staff members to maintain a continual program of evaluation at every level to determine the extent of progress toward the schools’ objectives. The Board of Education will periodically request the Superintendent to present factual information that it considers necessary to evaluate the effectiveness of the School System.

Prohibition of Retaliatory Behavior

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of discrimination. SUBJECT: SAFETY CONDITIONS AND PROGRAMS

The practice of safety will be considered an integral part of the instructional program through fire prevention, emergency procedures and drills, driver education, and traffic and pedestrian safety.

Each Principal will be responsible for the supervision of a safety program for his/her school.

The safety program may include, but not be limited to, in-service training, plant inspection, fire prevention, accident recordkeeping, driver and vehicle safety programs, emergency procedures and drills, and traffic safety programs relevant to students, employees and the community.

It shall be the duty of the Board of Education to provide inspections and supervision of the health and safety aspects of the school facilities.

Eye Safety/Student Use of Hand-Held Laser Pointers

Eye safety devices are to be provided by the School District for the protection of employees, students and visitors, and worn in the technology education classes and labs when activities present a potential eye hazard. The Superintendent or his/her designee will ensure that these devices are properly repaired, cleaned and stored to prevent the spread of germs or diseases after individuals use them.

Each classroom teacher is responsible for the safe and proper use of all instructional materials and equipment by students in his/her classroom. Laser pointers are to be used by students only when such use is approved and supervised by the classroom instructor.

Students will be advised not to stare directly into the beam from a laser pointer or direct the beam at the eyes of another individual. Students are not to aim the pointer into the audience. Students are to be made aware of the hazards associated with the particular type of laser pointer used.

SUBJECT: ONLINE AND BLENDED COURSES

The Board of Education recognizes that new technologies are changing the way instructional material can be delivered to students. These technologies may permit the district to more effectively reach all students and provide expanded and enriched curriculum opportunities. Therefore, the Board encourages teachers and administrators to utilize online instructional opportunities for students. The use of distance learning opportunities (e.g., through BOCES), where students attend class in the district with instruction provided remotely by a teacher at another location, may be utilized but is not covered by this policy.

In accordance with Commissioner’s regulations, the Board authorizes the use of district-approved online courses which enable students to earn course credit and grades to be included in the calculation of a student’s GPA in the same manner as other similar courses, in accordance with this policy. Such online course instruction may be used to supplement a class offered by the district (“blended course”) or it may be the sole mechanism for delivering the subject matter (“online course”). Online courses may be provided either with district instructional staff, through a BOCES contract, or through a shared services contract with another school district.

The Superintendent is directed to develop the following:

1. a mechanism for reviewing and approving online educational programming that can be used to enable students to earn course credit as either part of a blended or online course in accordance with Commissioner’s Regulations and policy 4200, Curriculum Management;
2. criteria and procedures for admitting students to online courses; and
3. procedures for monitoring the academic quality and the effectiveness of online courses as a mode of instruction and learning

In developing the procedures above, the Superintendent, with the assistance of appropriate staff, shall consider:

• the equitable access of students to blended and/or online courses;
• the adequacy of instructional support for students taking blended and/or online courses;
• the budgetary impact of use of blended and/or online courses; and
• the fit of online education resources to New York State learning standards.

b) Administrative practices and procedures to:
   1. Diagnostically screen students for limited English proficiency;
   2. Identify students with limited English proficiency;
   3. Annually evaluate each ELL/LEP student including his/her performance in content areas to measure the student's academic progress.

d) A description of the criteria used by the District to place ELL/LEP students in appropriate bilingual or free-standing English as a second language programs;

e) A description by building of the curricular and extracurricular services provided to ELL/LEP students;

f) A description of the District and school level procedures for the management of the program, including staffing, site selection, parental notification, coordination of funds, training and program planning.

The instructional programs and services available to limited English proficient pupils to help them acquire English proficiency may include, pursuant to Commissioner's Regulations, bilingual education programs, free-standing English as a second language programs, appropriate support services, transitional services, in-service training and parental notification.

A student who, as a result of a disability, scores below the State designated level on the Language Assessment Battery-Revised (LAB-R) or the NYS English as a Second Language Achievement Test (NYSESLAT) shall be provided special education programs and services in accordance with the individualized education program (IEP) developed for such student and shall also be eligible for services available to an ELL/LEP student when those services are recommended in the IEP. Such a student will be counted as an ELL/LEP student as well as a student with a disability for purposes of calculating State aid.

The parent/guardian of a student identified as an English language learner or as limited English proficient shall be informed in his/her native language, if necessary, of the student's identification for and/or participation in an English language learner instructional program as well as other school related information.

SUBJECT: CONTROVERSIAL ISSUES

Controversial issues may be studied as part of the curriculum and teachers shall present these issues in their classrooms in an impartial and objective manner.

Teachers wishing to call upon outside speakers in the presentation of controversial issues are required to obtain the approval of the Principal who shall keep in mind the obligation for presenting opposing views as well, and who shall inform the Superintendent prior to the presentation.

It is recognized that parents and citizens of the community have a right to object to the school administration when convinced that unfair and biased presentations are being made by the teacher. In considering such objections, the Superintendent of Schools shall provide for a hearing so that both parties may fairly express their views. If requested from either party the Superintendent's decision may be appealed to the Board of Education.

SUBJECT: TEXTBOOKS/WORKBOOKS/CALCULATORS/INSTRUCTIONAL COMPUTER HARDWARE

Textbooks

The term "textbook" shall refer to a book supplied to a student for a fixed period of time for his/her personal use and basic to the study of a subject. The Board of Education shall make provision for funds to be budgeted for the purchase of textbooks and related instructional materials.

Upon the recommendation of the Superintendent of Schools, the Board of Education shall designate the textbooks to be used. Textbooks, once designated, cannot be superseded within a period of five (5) years except by a three-fourths (3/4) vote of the Board.

As required by federal law and New York State Regulations, the District has adopted the National Instructional Materials Accessibility Standard (NIMAS) to ensure that curriculum materials are available in a usable alternative format for students with disabilities. To facilitate this process, the District will participate in the National Instructional Materials Access Center (NIMAC) and will require that all contracts with publishers for textbooks and other printed core materials executed after December 2006 include a provision requiring the publisher to produce NIMAS files and send them to NIMAC.

Textbooks for Resident Students Attending Private Schools

Resident students attending private schools will be supplied non-sectarian textbooks in accordance with the requirements of Education Law.

Workbooks

The term "workbook" shall refer to the type of book that provides spaces to write in and is consumed each year. It is usually paper-covered and designed to be used in connection with a textbook. The Board of Education shall approve the expenditure of funds for the purchase of workbooks and manuals.

Calculators

The District can require students to provide their own "supplies" (defined as something which is consumed in use, loses its appearance and shape in use, expendable, and inexpensive). Examples include pencils, pens, paper, etc. Calculators do not fall into this category and must be considered like classroom teaching materials for which the District is authorized to levy a tax. In addition, the District may purchase, and must still provide, calculators even if operating under a contingent budget if the calculators are required for participation in an educational program.

(Continued)
SUBJECT: TEXTBOOKS/WORKBOOKS/CALCULATORS/INSTRUCTIONAL COMPUTER HARDWARE (Cont’d.)

The New York State Education Department requires the use of calculators for intermediate and high school level mathematics and science assessments. To the extent that calculators are a necessary part of the educational program, the District must provide them. Under no circumstances should students be charged for a calculator or otherwise required to purchase one in order to participate in an educational program of the District. (see website: http://www.emsc.nysed.gov/mgtserv/charging_for_calculators.shtml)

Instructional Computer Hardware

Loan to Students Attending Non-Public Schools in the District

The School District shall loan, upon request of an individual or a group of individual students, to all students legally attending nonpublic elementary or secondary schools located in the School District, instructional computer hardware which is designated for use in any public elementary or secondary schools of the State or is approved by any school authorities as such term is defined in Education Law Section 2(12).

Such instructional computer hardware is to be loaned free to such children, subject to such rules and regulations as are or may be prescribed by the Board of Regents and school authorities and shall be required for use as a learning aid in a particular class or program. Instructional computer hardware containing computer software programs which are religious in nature or content shall not be purchased or loaned by the School District.

The School District shall not be required to loan instructional computer hardware to nonpublic school students in excess of that acquired pursuant to Education Law Section 753 and shall be loaned on an equitable basis to children attending nonpublic schools in the District and to students with disabilities residing in the District who attend programs under the provisions of Education Law Sections 4401(2)(c),(2)(e),(2)(g),(2)(i), and (2)(l). However, the School District shall not be required to loan instructional computer hardware purchased with local or federal funds or with State funds, other than Instructional Computer Hardware Aid funds.

School authorities shall specify a date by which written requests for the purchase and loan of instructional computer hardware must be received by the District. Such date shall not be earlier than the first day of June of the school year prior to that for which such instructional computer hardware is being requested. For a child not attending a nonpublic school prior to June first, the parent/guardian may submit a written request for instructional computer hardware within thirty (30) days after such child is enrolled in the nonpublic school. In no event, however, shall a request made later than the times otherwise provided pursuant to Education Law Section 754 be denied where a reasonable explanation is given for the delay in making the request. All nonpublic schools in the School District shall be notified of the specified date.

Adopted: 4/8/09
SUBJECT: INSTRUCTIONAL MATERIALS RECOVERY POLICY

It is the policy of the Board of Education to loan instructional materials and equipment required for the educational program and school library books to students who attend schools in this District. These instructional materials and library books are intended for use in school, as well as at home for student work outside of the classroom (e.g., homework).

All instructional materials must be returned to the District, in good condition, at the end of the course, whether it is a semester or full year course. The books and materials will be collected and stored by the classroom teacher at the end of each course.

If a student loses, destroys or renders such instructional materials and books unusable for school purposes, the parent/guardian, or student 18 years of age or older, must reimburse the District for each such item, in an amount to be determined by the District to allow the District to purchase replacement instructional materials. If the student or his/her parent/guardian refuses to do so, the student will not be allowed to participate in any extracurricular activities, such as athletics, clubs and after-school activities, which are privileges, until the book or other instructional material is returned in good condition or the fine is paid. In addition, during future school terms, the student will have access to textbooks and instructional equipment in school and in the school library, but may not be permitted to bring textbooks or equipment home or to any other off-campus location.

The District may bring legal proceedings against the parent/guardian or a student over 18 years of age for the cost of replacing such instructional materials.

SUBJECT: USE OF COPYRIGHTED MATERIALS

It is the intent of the Board of Education to abide by the provisions of the United States Copyright Law (Title 17 United States Code Section 101 et seq.).

All employees and students are prohibited from copying materials not specifically allowed by the copyright law, fair use guidelines, licenses or contractual agreements, or the permission of the copyright proprietor.

Any person who willfully disregards the copyright policy shall be in violation of Federal Copyright Laws and District policy and shall assume all liability.

The Superintendent will respond to any notices of claimed copyright infringement and initiate corrective action as appropriate.

Appropriate copyright notices will be placed on or near all equipment used for duplication.

Adopted: 4/8/09
SUBJECT: RELIGIOUS EXPRESSION IN THE INSTRUCTIONAL PROGRAM

The Board of Education acknowledges the importance of religion to the understanding of society and the richness of the human experience. In approaching the teaching about religion in the school, the District will be guided by three concepts when making decisions about the appropriateness of activities for inclusion in the school program: the activity should have a secular purpose; the activity should neither advance nor inhibit religion; and the activity must not foster an excessive entanglement of "government" with religion.

Nurturing the development of knowledge and respect for the rights of all cultural and religious groups is a continuing goal of the School District. Students, faculty and administration are reminded of the pluralism of religious beliefs and are urged to be conscious of and respect the sensitivity of others.

Opportunities to learn about cultural and religious traditions should be provided within the framework of the curriculum. Information about religious and cultural holidays and traditions focusing on how and when they are celebrated, their origins and histories should be part of this instruction. This educational opportunity should be handled with great care, sensitivity and respect for the feelings and beliefs of individuals.

An environment should be created and encouraged where students of various ethnic backgrounds feel comfortable in sharing comments about their religious and cultural traditions. No student should be singled out to share or participate in such discussions solely on the basis of that student's identification with the cultural/religious heritage being addressed. A student's preference not to share or participate in such discussions should be honored and respected without penalty.

School Activities Related to Religious Holidays or Themes

School activities related to the teaching about religious holidays or themes must be consistent with, representative of, and congruent with the District's curriculum.

In planning school activities related to the teaching about religious holidays or themes, special effort must be made to ensure that the activity is not devotional and that students of all faiths can join without feeling they are betraying their own beliefs.

In planning school activities related to the teaching about religious holidays or themes, age appropriate activities are encouraged within the framework of the curriculum. Teaching about religious and cultural holidays may include such special activities as parties and special foods, if they reinforce educational goals.
SUBJECT: RELIGIOUS EXPRESSION IN THE INSTRUCTIONAL PROGRAM (Cont'd.)

Symbols in the Schools

The purpose of using religious symbols should be to teach about religious concepts and traditions, and to convey historical or cultural content, not to promote or celebrate religious concepts, events or holidays.

Music in the Schools

The purpose of using religious music should be to teach musical concepts, to convey historical and cultural content, or to create aesthetic experiences in a setting which emphasizes artistic expression and educational value, not to promote or to celebrate a religious faith.

Curriculum Areas In Conflict With Religious Beliefs

Students shall be given the option to be excused from participating in those parts of an activity, program, or area of instruction involving a religious theme which conflicts with their own religious beliefs or that of their parents/guardians in accordance with applicable law and regulations. Alternatives may be provided that are of comparable instructional value.

Implementation

Administrative regulations will be developed to implement the terms of this policy. Further, the District shall vigorously publicize and disseminate this policy and accompanying regulations in order to ensure community, faculty, student, and parental/guardian awareness.

Independent study, for credit, may be available to meet the individual needs of students in grades 9 through 12. The decision should be based on whether the student's record indicates that the work is consistent with New York State commencement level learning standards and is of comparable scope and quality to that which would have been done in the Germantown Central School District. SUBJECT: DISTRICT PROVIDED HOME TUTORING (HOMEBOUND INSTRUCTION)

Resident children attending public or non-public schools who are unable to attend school because of physical, mental, or emotional illness or injury as substantiated by a licensed physician are eligible to be instructed at home or in a hospital by a tutor provided by the school district in which they reside. SUBJECT: FIELD TRIPS

The Board of Education recognizes that field trips are an educationally sound and important ingredient in the instructional program of the schools.

For purposes of this policy, a field trip shall be defined as any journey by a group of students away from the school premises, under the supervision of a teacher, which is an integral part of an approved course of study and conducted for the purpose of affording a first-hand educational experience not available in the classroom.

Field trips are a part of the curriculum of the schools, and student conduct and attendance on field trips are governed by the same rules that govern regular classroom activities. The School System shall obtain written parental/guardian permission for students going on school-sponsored field trips.

The Superintendent shall prepare procedures for the operation of a field trip activity. Field trip support shall be determined annually by the Board during its budget deliberations. Regardless of the fiscal support for field trips, the rules of the School District for approval and conduct of such trips shall apply.

The Superintendent/designee may cancel previously approved field trips due to extenuating circumstances.

SUBJECT: HOME INSTRUCTION (HOME SCHOOLING)

New York State law does not recognize home schools as private elementary or secondary schools except for special education services. However, sometimes parents will choose to instruct their children at home. The School District will attempt to cooperate with parents who wish to provide home schooling for their children realizing that the child who is educated at home should receive an education in a manner consistent with an educational plan and at least substantially equivalent to that given to students of like age and attainments in the local public schools. The required subjects should be taught in a competent, systematic, and sequential manner, specifically in relation to the required courses as enumerated in Commissioner's Regulation Section 100.10.

Primary responsibility for determining compliance with Commissioner's Regulations addressing home instruction rests with the Superintendent of Schools of the school district in which a home-instructed student resides.

Provision of Services to Home-Instructed Students

They are not awarded a high school diploma. A high school diploma may only be awarded to a student enrolled in a registered secondary school who has completed all program requirements set by the Board of Regents, the school or the District.

a) Extracurricular Participation

They are not eligible to participate in interscholastic sports. Commissioner's Regulations mandate that only students enrolled in the public school are allowed to participate in interscholastic sports. Further, the District does not permit home-instructed students to participate in any extracurricular activities.

b) Textbooks and Materials

The District shall not provide textbooks and other materials to home-instructed students.

c) Health Services

The School District is not required to furnish health services.

d) Remedial Programs

The District is not responsible for providing remedial programs.

(Continued)
SUBJECT: HOME INSTRUCTION (HOME SCHOOLING) (Cont'd.)

e) Career and Technical/Gifted Education

The District is not permitted to provide Career and Technical Education programs (career and technical education) nor programs for the Gifted to home-instructed students.

f) Special Education Services

Solely for the purpose of Education Law Section 3602-c, home-instructed students with disabilities are deemed to be students enrolled in and attending a non-public school, which enables them to receive special education services, as well as to be included for computation of state aid for such education by the District.

The Committee on Special Education (CSE) will develop an Individualized Education Services Program (IESP) for the student. The IESP shall be developed in the same manner and with the same content as an IEP. The Board of Education will determine a location where special education services are to be provided to a home-instructed student. This location may, but is not required to be, in the student's home.

g) Use of School Facilities

Students instructed at home shall not be allowed to use school facilities, except as provided for community organizations in Policy #3280 -- Community Use of School Facilities.
